Re: Address: 6002 Malcolm. Name: Robert Kinggo - Trott & Trott. Date ordered removed: November 28, 2007 (J.C.C. pg. ).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on March 28, 2008 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of March 11, 2008.

The proposed use of the property is rehabilitation and sale.

This is the first deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of three months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral

By All Council Members:

Whereas, The Corridor Improvement Authority Act (CIAA) (MCL 125.2871 et seq) was enacted in 2005 to provide a mechanism for funding improvements and business districts other than downtown areas, and

Whereas, The Act allows a municipality to form a Corridor Improvement Authority to "capture" the incremental growth in tax revenue from property located in a development area, similar to the method by

which municipalities may fund improvements in downtown areas by creating a downtown development authority, and

Whereas, The current composition of the nine member Board has only male representatives and it is the desire of the City Council to have female representatives on this Board.

Now therefore be it

Resolved, That the appointment by His Honor the Mayor, of the following individuals to serve on the Eight Mile/Woodward Corridor Improvement Authority for the corresponding term of office indicated be and the same is hereby approved.

Honorable City Council:

Re: Budget Amendment for Fiscal Year 2006-07 CAFR.

On March 14th we submitted to this

May 6

978

2008

Honorable Body a budget amendment to cover the additional cost of the fiscal year 2005-06 audits. In that letter we utilized \$2,393,888 of an anticipated \$4.5 million from reimbursement of IRS penalty. Attached is a Budget Amendment to cover the cost of the fiscal year 2006-07 audits. KPMG's estimated costs to complete the audits for fiscal years 2006-2007 and 2007-2008 are \$1,268,163 and \$1,287,193 respectively.

In the Mayor's Proposed Budget for fiscal year 2008-2009, \$1,287,193 is budgeted for auditing costs for the fiscal year 2007-08.

In conversations with the State of Michigan we have stated that in fiscal year 2008-2009 we will complete two audits — the audit for fiscal year 2006-2007 will be completed by November 30, 2008; and the audit for fiscal year 2007-2008 will be completed by April 30, 2009.

We are respectfully asking to amend the fiscal year 2007-2008 budget by \$1,268,163 to cover the cost of the audit for the fiscal year 2006-07. Additional appropriations are necessary to cover this amendment and we will use the balance of the funding from the IRS reimbursement.

**RESOLUTION  
FOR DETROIT TO JOIN THE USGBC  
(U. S. Green Building Council)**

By Council President K. Cockrel, Jr., Joined By All Council Members:

Whereas, The planning, design, construction, and operation of Detroit's buildings, facilities and leaseholds should have a significant positive effect on the City's sustainability, Detroit shall promote resource-efficient design of new City facilities in order to increase their efficiency, save financial resources, and reduce the negative environmental impact of demolition, construction, and operation of buildings; and

Whereas, Detroit's design and building decisions impact the prudent use of the City's energy and water supplies, the cost of remediating hazardous materials conditions, the health and productivity of its employees, transportation choices of City employees and visitors of City facilities, as well as the rate at which the City's landfill capacity is depleted; and

Whereas, Many federal, state, and municipal governmental bodies have recognized the positive role they can plan in helping to establish a market for environmentally-preferable design and construction materials by promulgating green building ordinances and guidelines; and

Whereas, Thoughtful planning and design decisions made by the City in the construction and remodeling of its facilities and leaseholds can result in significant cost savings to the City over the life of such facilities and leaseholds; and

Whereas, Buildings with good overall environmental quality, including effective ventilation, good indoor air quality, proper lighting, and appropriate acoustics, can increase worker productivity by six to 16 percent; and

Whereas, The United States Green Building Council (USGBC), a non-profit, nationally recognized association with membership representing all segments of the building industry, including architects, manufacturers, government agencies, and environmentalists, has created LEED, a green building rating system that provides specific principles and practices, some mandatory but the majority discretionary, that may be applied during the design, construction, and operation phases, which enable the building to be awarded points from reaching preset standards of environmental efficiency so that it may achieve LEED certification from the USGBC as a "green" building; and

Whereas, LEED is recognized nationwide by public and private sectors alike as a credible and viable guide for realizing the goal of a sustainable, energy efficient building that achieves significant cost savings over its lifespan; and

Whereas, The Detroit City Council's Green Task Force is committed to making Detroit a green city that is a clean, safe, environmental steward; and

Whereas, The Detroit City Council recognizes that the substantial long-term economic, health, and environmental benefits to the citizens of Detroit realized by implementing green policy;

Now, Therefore Be It

Resolved, That the City of Detroit join both the local chapter of the USGBC (U.S. Green Building Council) and the National chapters of the USGBC and be the contact for the USGBC on behalf of the City of Detroit.

Be It Further Resolved, That the Detroit City Council direct the City Clerk to request the Administration to complete the applications and pay the dues for the local and national chapters of the USGBC and be the contact for this USGBC on behalf of the City of Detroit.

**MEMBER REPORTS**

**MONICA CONYERS:** I just would like to say to all the residents in the City of Detroit that the only way we can know about all of the abandoned buildings, and vacant homes where the water is not turned off, you have to call in to tell us. I try to do a drive-by at least once a week and go down different sections to see where the houses are and take notes because you can't be everywhere at all times. I ask all the residents to be active participants in the quality of life in your neighborhood. I would hate to see what happened to the senior citizen where there was an abandoned house next door to her house and it caught on fire which caused her house to catch on fire also. To all the residents in Detroit, if you have a vacant house next to yours that needs to be torn down, please call our offices or send a letter with the correct address so that we can let Buildings and Safety Engineering Department know so they can be put on their demolition list. My office number is (313) 224-4530.

**JOANN WATSON:** I want to make sure that all citizens are aware that the Detroit City Council has done an historic vote, with respect to the incinerator, calling for a new way of handling waste. However, it's not over because now during this budget period, which we have until the end of May, we have an opportunity to change the DPW and GDRRA budget to the line items that relate to curbside recycling. If we don't do that, it's just conversation. We will not have another opportunity and this is a short window. We only have a couple of weeks to address changing the line items, which will not lay off anyone and will not require new trucks; same staff and same trucks to do curbside recycling. We can finally address issues like toxicity and poison that is adding to the asthma level in Detroit, which is the highest in the nation. I'm urging all citizens to contact the Executive Branch; the Deputy Mayor is the chair of the Board of the incinerator. They need to hear from citizens.

**ALBERTA TINSLEY-TALABI:** I just want to report that the Charles H. Wright Museum of African American History is sponsoring their World Asthma Day on Thursday, May 8, 2008 between 4:00 p.m. until 7:30 p.m., in addition, I will be hosting a forum on Asthma & Kids at the Roberto Clemente Community Center, 2631 Bagley on Monday, May 12, 2008 from 6:00 p.m. to 7:30 p.m.

**MARTHA REEVES:** I would just like to advise our citizens of the City of Detroit who have possession of any property to get insured. I've been criticized for not having insurance on my possessions, but I was in the process of doing it.

**TESTIMONIAL RESOLUTION  
FOR  
NELSON MANDELA**

By COUNCIL MEMBER WATSON:

WHEREAS, Nelson Mandela personifies struggle. He is still leading the fight against apartheid with extraordinary vigor and resilience after spending nearly three decades of his life behind bars. He has sacrificed his private life and his youth for his people, and remains South Africa's best known and loved hero, and

WHEREAS, Mandela has held numerous positions in the ANC: ANCYL secretary (1984); ANCYL President (1950); ANC Transvaal president (1952); deputy national president (1952); and ANC president (1991), and

WHEREAS, Mandela was born at Qunu, near Umtata on 18 July 1918. His father, Henry Mgadla Mandela was chief councillor to Thembuland's acting paramount chief David Dalindyebo. When his father died, Mandela became the chief's ward and was groomed for the chieftainship. Mandela matriculated at Healdtown Methodist Boarding School and then started a BA degree at Fort Hare. As an SRC member he participated in a student strike and was expelled, along with the late Oliver Tambo, in 1940. He completed his degree by correspondence from Johannesburg, did articles of clerkship and enrolled for an LLB at the University of the Witwatersrand. In 1944 he helped found the ANC Youth League, whose program of Action was adopted by the ANC in 1949, and

WHEREAS, Mandela was elected national volunteer-in-chief of the 1952 Defiance Campaign. He traveled the country organizing resistance to discriminatory legislation. He was given a suspended sentence for his part of the campaign. Shortly afterwards a banning order confined him to Johannesburg for six months. During this period he formulated the "M Plan", in terms of which ANC branches were broken down into underground cells. By 1952 Mandela and Tambo had opened the first black legal firm in the country, and Mandela was both Transvaal president of the ANC and deputy national president. A petition by the Transvaal Law Society to strike Mandela off the roll of attorneys was refused by the Supreme Court, and

WHEREAS, In the 'fifties, after being forced through constant bannings to resign officially from the ANC, Mandela analyzed the Bantustan policy as a political swindle. He predicted mass removals, political persecutions and police terror. For the second half of the 'fifties, he was one of the accused in the Treason Trial. With Duma Nokwe, he conducted the defense. When the ANC was banned after the Sharpeville massacre in 1960, he was detained until 1961 when he went under-

ground to lead a campaign for a new national convention, and

WHEREAS, In 1962 Mandela left the country for military training in Algeria and to arrange training for other MK members. On his return he was arrested for leaving the country illegally and for incitement to strike. He conducted his own defense. He was convicted and jailed for five years in November 1962. While serving his sentence, he was charged, in the Rivonia trial, with sabotage and sentenced to life imprisonment. A decade before being imprisoned, Mandela had spoken out against the introduction of Bantu Education, recommending that community activists "make every home, every shack or rickety structure a centre of learning", and

WHEREAS, Robben Island, where he was imprisoned, became a centre for learning, and Mandela was a central figure in the organized political education classes. In prison Mandela never compromised his political principles and was always a source of strength for the other prisoners. During the seventies he refused the offer of a remission of sentence if he recognized Transkei and settled there. In the eighties he again rejected PW Botha's offer of freedom if he renounced violence. It is significant that shortly after his release on Sunday 11 February 1990; Mandela and his delegation agreed to the suspension of armed struggle, and

WHEREAS, Mandela has honorary degrees from more than 50 international universities and is chancellor of the University of the North. **PUBLIC COMMENTS  
BERNICE MORRISON:**

I was born in this City over 76 years ago. I have worked and paid taxes on several pieces of property for over 50 years. I felt much slighted when I did not have my Mayor that I voted for present my budget to me that I knew was going to go on in this city. The \$8 million was wrong; however, the money that has been brought into this city by this Mayor, I feel it didn't have to go through this extent. I do feel that \$30 billion dollars a month are going to IRAQ. Why doesn't your legislative body get together with the rest of the legislative body in this country and recall him. Our kids are coming back here dead, crazy or blind. Why are you spending this time and effort to go after this one young man? He has brought more to this city in six (6) years, then I have seen come to this City in the last thirty (30) years. *Council President Kenneth V. Cockrel, Jr. indicated that this Council did pass a resolution calling for the impeachment of George Bush over the lost of lives in Iraq.*

**LARRY MCDONALD:**

I am grateful to this Honorable Body for giving me an opportunity to exercise my constitutional rights to be here to speak. I wish the citizens of Detroit, City Council and everyone involved, including the newspaper, wasn't so judgmental towards Mr. Kilpatrick. Nobody can look in the mirror and see perfection, but everybody wants to judge this poor guy. All the press that Mayor has and all the time the City Council spends talking about the Mayor, we've got a cop killer name Eugene Brown and nobody is saying nothing about him. I think people have personal agendas and I think people also want to take the black power away from black people in the City of Detroit.

**RELANA HARRIS:**

I am a supporter of Mayor Kwame M. Kilpatrick. The Mayor has done a remarkable job in the City of Detroit. There was a time when Detroit was looked at in a negative way and I think he has come in here in six (6) years and have turn around in what would have took 50 years. No man has done what Mayor Kilpatrick had done. He set a standard for all people and he's the heart beep of Detroit. The safety is much better. I think the Mayor is doing an excellent job and I think that people should appreciate that and respect him. I commend him for not resigning. People do make mistakes and I think he has learned from his. I think we should really step back and look at this situation as a whole. I hope that everything work out in his favor.

**WYOMAN MITCHELL:**

I want to say that it was a great day yesterday. I participated in the Detroit Public Schools in National Exercise Day. The entire school was out on the playground doing exercise. We don't want to just leave

May 8

1018

2008

it for just one day of the year for our children to be healthy. We are encouraging our children to exercise regularly. I also want to say that we are having problems with gambling here in the city. Not only is gambling going on in the casinos, but gambling is being taught in the Detroit Public Schools bathrooms. These casinos are encouraging our students to be gamblers at an early age. We must stop the negative impact of gambling on our children.

**MINISTER MALIK SHALIAZZ:**

Over the years, we fight on many fronts. We're most well known for two fronts — drug houses, closing drug houses and dealing with merchants. Before the Kilpatrick's Administration came and when we would march at drug houses, the Police would not come. When we march on liquor stores and gas stations, party stores where people have been cheated out of their money, sold rotten meat, etc., forty (40), fifty (50) or twenty (20) cops would come and harass us. This was under the previous Administration. Since the Kilpatrick's Administration has been in office, when we march at crack houses, we get Police support and we get backup. We are able to find out who is the owner of the drug house. We get backup in relations to the rotten meat and the alcohol being sold to children. The Mayor has his day in court. Many of you I have known for a number of years. I Love you all and I respect you all. I humbly urge you; let the court take its process. Do not go any further. This man has its day in court. The court is dealing with him. Lastly, tomorrow night at 11:30 p.m., there's going to be a midnight march rally prayer against crime, drugs, violence in our community. It's located at 2717 Clements between Linwood and Lawton.

**REGINA KAHILL:**

I think we all need to come together as one again. Everybody should bury their hatchet and throw away all that hate. Love sees no colors. We know that the Mayor has done a great job. All the things that he has done, nobody mentioned them. We have been setting bad examples for our children. Let him have his day in court.

**MICHAEL HARRIS:**

I don't think there is much of an example that could exist or will in the future better than what Mr. Kilpatrick has done. Folks that I know from other cities are telling me about better things that are happening in Detroit because of its presence. My fear is that the momentum of these things would not continue in the same strengths. I feel the same as everybody else, let the courts do their job.

And the Council then adjourned.

Honorable City Council:

Re: Petition Number 0941 — Request for City Council Approval for the Transfer of Existing Entertainment and Topless Activity Permits by the Michigan Liquor Control Commission to Phyllis M. Miller, for a Group "D" Adult Cabaret at 7468 E. Davison.

Section 916(10)(b) of the Michigan Liquor Control Code of 1998, being MCL 436.1916(10)(b), requires that prior to the issuance of a Michigan Liquor Control Commission ("MLCC") dance, entertainment, or topless activity permit, a location licensed by the MLCC for the sale of alcoholic beverages on the premises shall obtain the approval of the local legislative body of the municipality within which the premises are located.

Pursuant to this requirement, the MLCC has forwarded Local Approval Notice (Request ID: 373264) to the Detroit City Council, which has been designated by the City Clerk as Petition Number 0941. This petition requests City Council consideration and approval of the issuance of entertainment and topless activity permits in conjunction with the transfer of ownership of a Class "C" licensed establishment from Beverly J. Raymon, doing business as Bev's Backstreet Lounge, to Phyllis M. Miller at 7468 E. Davison.

City of Detroit Zoning District Map No. 21 indicates that 7468 E. Davison is located in an M-4 (Intensive Industrial) zoning district. Section 61-10-82 of the Detroit Zoning Ordinance, Chapter 61 of the 1984 Detroit City Code, provides that adult cabarets, cabarets, and establishments for the sale of beer or intoxicating liquor for consumption on the premises are conditional uses within this zoning district.

The Buildings and Safety Engineering Department ("B & SE") reports that a special land use zoning grant was issued for this address in B & SE Case No. 16-95, dated August 16, 1995, to construct a one story addition and add an adult cabaret use to an existing Class "C" bar.

Pursuant to Section 5-2-1 of the 1984 Detroit City Code, a Group "D" Adult Cabaret means an establishment open to the public which sells or serves alcoholic beverages with or without food, and provides entertainment that is distinguished or characterized by an emphasis upon, or a relation to, specified anatomical areas of specified sexual activities. The B & SE Business License Center reports that Phyllis M. Miller has applied for a Group "D" Adult Cabaret business license for the location and that the applicant and loca-

tion will be required to be in compliance with all of the applicable provisions of the 1984 Detroit City Code prior to the issuance of the required business license.

After investigation and review, the Detroit Police Department Liquor License Unit, on behalf of the Chief of Police, has recommended the approval of the transfer of the Class "C" liquor license and the issuance of entertainment and topless activity permits to Phyllis M. Miller for the subject location. Review of available records did not reveal any MLCC violations at 7468 E. Davison within the preceding twelve (12) months. MLCC records indicate that Phyllis M. Miller has a Class "C" liquor license for a bar at 5444 E. Davison and that no MLCC violations concerning this establishment have been issued within the preceding twelve (12) months.

Upon this Body's approval of the request for the issuance of a topless activity permit, the MLCC's approval for the issuance of the permit, and the issuance of a Group "D" Adult Cabaret business license by the B & SE Business License Center, topless adult entertainment will be approved to continue at the location.

Due to the fact that this request for approval of the issuance of an entertainment and a topless activity permit does not concern an MLCC permit for a non-conforming use under the Detroit Zoning Ordinance, Chapter 61 of the 1984 Detroit City Code, the consideration of this petition is unaffected by the Temporary Moratorium approved by resolution of City Council on February 4, 2008. Therefore, the Law Department recommends that this matter be referred to the appropriate Standing Committee for review and consideration of the request for the transfer of the entertainment and topless activity permits to Phyllis M. Miller at 7468 E. Davison. Attached is a proposed resolution approving the issuance of the entertainment and topless activity permits to Phyllis M. Miller in conjunction with the transfer of the Class "C" liquor license at 7468 E. Davison.

If there are any questions or concerns, please do not hesitate to contact our office.

Honorable City Council:

Re: Petition Number 2188 — Request for City Council Approval for the Issuance of a Michigan Liquor Control Commission Dance Permit to Top Tier, LLC, for a Group "A" Cabaret at 4933 E. Seven Mile Road.

Section 916(10)(b) of the Michigan Liquor Control Code of 1998, being MCL 436.1916(10)(b), requires that prior to the issuance of a Michigan Liquor Control Commission ("MLCC") dance, entertainment, or topless activity permit, a location licensed by the MLCC for the sale of alcoholic beverages on the premises shall obtain the approval of the local legislative body of the municipality within which the premises are located.

Pursuant to this requirement, the MLCC has forwarded to this Body a Local Approval Notice (Request ID Number 427570), which has been designated by the City Clerk as Petition Number 2188. This Local Approval Notice requested City Council's approval of the transfer of a dance permit and the issuance of a new entertainment permit in conjunction with the transfer of a Class "C" liquor license, in escrow at 4933 E. Seven Mile Road, from Thomas P. Marsh and David M. Findling, Receiver, to Top Tier, LLC. Subsequently, an amended Local Approval Notice was forwarded to the City Clerk requesting approval of a dance permit, only, for the location.

City of Detroit zoning district maps indicate that 4933 E. Seven Mile Road is in a B4 (General Business) zoning district. Pursuant to Section 61-9-82 of the Detroit Zoning Ordinance, Chapter 61 of the 1984 Detroit City Code, the use of this location for the sale of beer or intoxicating liquor for consumption on the premises, or for a cabaret, is a conditional use since the location is outside the Central Business District.

Buildings and Safety Engineering Department ("B & SED") has reported that the location has been a Class "C" bar since 1950. Further investigation reveals that the location has been approved for patron dancing and licensed by the City as a Group "A" Cabaret and that the MLCC has issued a dance permit to the previous liquor license owner at the subject location. Therefore, in this instance, the continued use of this location for a

Group "A" Cabaret is permitted subject to compliance with all relevant state codes and rules and City ordinances. B & SED's report, dated April 2, 2008, to City Council states that the building at the location has a current Certificate of Compliance. A Group "A" Cabaret license is required for an establishment open to the public which sells or serves alcoholic beverages with or without food, and either allows dancing with or without live entertainment, or provides three (3) or more live entertainers at one time with or without dancing. The B & SED Business License Center reports that the owner and premises have met the requirements of Chapter 30 of the 1984 Detroit City Code for the issuance of the required City business licenses for the location.

After investigation and review, the Detroit Police Department Liquor License Unit, on behalf of the Chief of Police, has recommended approval of the transfer of the Class "C" liquor license, with a dance permit, to Top Tier, LLC, for 4933 E. Seven Mile Road. Review of available records did not reveal any MLCC violations at this location within the preceding twelve (12) months. Further, MLCC records do not indicate any MLCC violations within the preceding twelve (12) months at the licensed establishment at 12449 Conant, which is owned and operated by Top Tier, LLC.

Upon this Body's approval of the request for approval of a dance permit for 4933 E. Seven Mile Road, the MLCC's approval of the license transfer, with dance permit, and the City's issuance of a Group "A" Cabaret license to Top Tier, LLC, the location will be approved for patron dancing on the premises. Pursuant to Section 916(2) of the Liquor Control Code, being MCL 436.1916(6)(2), the issuance of a dance permit does not allow adult entertainment, such as topless activity, in a licensed establishment.

Due to the fact that this request for approval of the issuance of a dance permit does not concern an activity permit for a nonconforming use under the Detroit Zoning Ordinance, Chapter 61 of the 1984 Detroit City Code, the consideration of this petition is unaffected by the Temporary Moratorium approved by resolution of City Council on February 4, 2008. Therefore, the Law Department recommends that this matter be referred to the appropriate Standing Committee for review and consideration. Attached is a proposed resolution approving the issuance of the dance permit in conjunction with the transfer of the Class "C" liquor license to Top Tier, LLC, at 4933 E. Seven Mile Road.

By a resolution dated May 11, 2007 the Detroit City Council charged the Historic

Designation Advisory Board, a study committee, with the official study of the proposed Jefferson-Chalmers Historic Business District in accordance with Chapter 25 of the 1984 Detroit City Code and the Michigan Local Historic Districts Act.

The proposed Jefferson-Chalmers Historic Business District is located on the lower eastern edge of the City of Detroit, near the Detroit River, and bordered on the east by the suburban City of Grosse Pointe Park. East Jefferson Avenue is one of the City of Detroit's widest streets including four lanes for traffic, two parking lanes, and a middle turn lane. It runs from downtown Detroit through the suburbs of Grosse Pointe and St. Clair Shores, and is used as a commuter highway for those working or traveling to downtown Detroit and is thus one of the high-volume traffic surface streets. The proposed district is one of only a small number of early twentieth-century neighborhood commercial districts in Detroit that have survived mostly intact. Developed largely in the 1910s and 1920s as the Detroit east side neighborhood around it grew up to house factory workers and others brought to the area by the proliferation of auto and other industrial plants nearby, the district became the center of the area's commercial, religious, social, and cultural life by the 1920s. The proposed district contains a notable concentration of architecturally distinguished commercial, apartment and church buildings dating from the later 1910s to the 1930s. There are fifty-seven buildings located in the proposed district, of which forty are considered contributing structures.

#### **Boundaries:**

The boundaries of the proposed Jefferson-Chalmers Historic Business District are outlined in heavy black lines on the attached map, and are as follows:

Beginning at the intersection of the center lines of East Jefferson Avenue and Eastlawn Avenue, thence proceeding north along the centerline of Eastlawn to the north property line of 1044 Eastlawn; thence east along the said property line to the east property line of 1044 Eastlawn; thence south along said property line to the centerline of the east-west alley to the rear of the properties on the north side of East Jefferson; thence east along the centerline of said alley to the centerline of the north-south alley to the rear properties on the west side of Marlborough Avenue; thence north along the centerline of said alley to the north property line of 1031 Marlborough; thence east along said property line to the centerline of Marlborough; thence south along the centerline of Marlborough to the intersection of the centerlines of Marlborough and the east-west alley to the rear of the properties on the north side of East Jefferson;

*largely from the Jefferson-Chalmers Historic Business District National Register form prepared by BVH Architecture, Inc., May 19, 2004.*

East Jefferson Avenue had its origins as an early Indian trail that ran along the Detroit River and Lake St. Clair. During the early days of Detroit in the 1700s as the French outpost, Fort Pontchartrain du Detroit, the main street of the fort was Ste. Anne Street, which ran down what is now the center of Jefferson Avenue. During this time, the King of France began granting long tracts of land along the river for use as farms to the new French settlers. These tracts continued to be granted during the 1700s and became known as the "French ribbon farms." A farm consisted of a narrow strip of land with river frontage of three hundred to nine hundred feet that provided the owner with water rights and then stretched back from the river one to three miles. An extension of Ste. Anne Street, which later became known as the River Road, connected with the former Indian trail that ran through the ribbon farms, following the course of the river.

The land surrounding the Jefferson-Chalmers Historic Business District was originally a great marsh called *Le Grand Marais* by the French. The marsh extended over a vast tract of land lying between Conner Creek and the area around Cadieux Road in what is now Grosse Pointe. The marsh included a large point or *grosse pointe* of land which extended into Lake St. Clair, which later became known as Windmill Point. The Grand Marais was low, flat, marshy country covered with a "a luxurious growth of wild grass." Fox Creek flowed through the Grande Marais, but its point of origin was the Black Marsh, a vast area of land stretching from what is now St. Clair Shores and covering almost all of Grosse Pointe Woods and Harper Woods. The Native-Americans and the French took their canoes up the Milk River, or *Riviere au Lait*, located in what is now the southern part of St. Clair Shores, through the Black Marsh and down the Fox Creek. It is assumed that the River Road followed the old Indian trail where it skirted around the Grand Marais. *Presque Isle*, "almost an island," was the name the French gave to a sandy beach area that lay at the edge of the Grand Marais, adjacent to Fox Creek near the spot where the Detroit River opens onto Lake St. Clair. Fox Creek allegedly received its name after the vanquished Fox tribe who were massacred by the French in 1712.

The Grand Marais was very sparsely settled during the 1750's, when Jean Baptiste LeDuc established his homestead on Presque Isle and erected a stone windmill on the point. The scattered French farmers and Indians living in the vicinity brought their grains to be ground

here. Years later the ruins of the windmill became a local landmark and the site became known as Windmill Point. Another French homestead was established in the 1750s by the brothers Thomas and Joseph Louis Tremble (Trombley, Tromblay) at the opposite end of the marsh, one mile inland at the *Riviere du Grand Marais* (later Tremble Creek, then Conner Creek). There they built a water-power saw and gristmill.

In January of 1805, the Territory of Michigan was created and Detroit was chosen as the new territory's capitol. Two months later, President Jefferson appointed General William Hull of Massachusetts as the new governor of Michigan. Accompanying him to Detroit was Augustus Woodward of Virginia, one of the three territorial judges. However, Detroit was destroyed completely by fire in June of the same year. In 1806, Woodward recommended that Detroit be rebuilt according to a new plan that provided for wider streets. In 1807, Ste. Anne Street was widened and renamed Jefferson Avenue in honor of the third president of the United States. The street connected with the old River Road, which ran eastward close to the shore of the river near Conner Creek.

In 1808, the U.S. government fixed the boundaries of the original land claims or "ribbon farms" awarded years earlier by the King of France. These claims came to be known as the "private claims." The portions of the marsh that were divided into private claims that now include the Jefferson-Chalmers Historic Business District were: P.C. 120 granted to Jean Baptiste Aloire dit Lapierre (an Indian trader); P.C. 219 granted to Pierre Griffard; and P.C. 321 granted to Louis Griffard, Jr.

It was during these early settlement years that the shoreline along the river and the Grand Marais began to draw visitors to the area for recreational purposes. One of their destinations was the *Cabaret du Grand Marais* or Big Swamp Tavern, located in the vicinity of Conner Creek. During the winter the French would ride their *carioles* across the ice for food, libations and dance.

In 1818, Governor Cass established the Township of Hamtramck with boundaries that included the area now surrounding the Jefferson-Chalmers Historic Business District. In 1848, the Township of Grosse Pointe was formed, reducing the size of Hamtramck Township. It was named for the point of land projecting into the water at the foot of Lake St. Clair. The township was bounded on the north by Macomb County; on the east and south by Lake St. Clair and the Detroit River; and on the west by various section lines and a portion of Connor Creek. As farms spread throughout the township, farmers gradually drained most of the Black Marsh

with ditches, clearing the land for farming. The map of Grosse Pointe Township in the 1876 Wayne County Atlas indicated that the River Road (or Grosse Pointe Road) was then called Jefferson Avenue. The land to the north of the proposed historic district was farmland with a large section belonging to the Campau family. The area to the south of East Jefferson Avenue was still the marshland of the Grande Marais, but was divided into lots with the Campau family owning the western section and C. and W. Moran owning the eastern lot that contained Fox Creek. Farmland on both sides of East Jefferson Avenue at what is now Alter Road was owned by J. J. Alter. Travel on the River Road in the vicinity of the Grand Marais was particularly difficult with many horses floundering in the mud. In 1851, a nine-mile plank road was built between Detroit and Grosse Pointe Township with bridges over Conner Creek and Fox Creek. The bridge over Fox Creek was known as the "*Pont des Renards*" or Bridge of the Foxes. This toll road was privately owned through charters issued by the state and became the center of a major controversy in later years. Many of the toll road owners were quick to charge tolls but made minimum repairs. As years went by, the planks deteriorated. Many of the owners had the planks replaced with gravel, but the roads were often still in poor condition as a result of poor maintenance by the owners. Some of the early Grosse Pointe summer residents took yachts to their offices in Detroit rather than travel on the road through the Grande Marais. Improvements were needed due to the increase of traffic along the Grosse Pointe Road. In 1872, George Hendrie, the plank road charterholder, rebuilt the Conner Creek bridge and tollgate.

East Jefferson Avenue became known for the many roadhouses that were established for travelers along the route from Detroit to Grosse Pointe. These wayside taverns were originally formed as a stopping point for farmers traveling between their farm and market. Roadhouses were generally found every five miles along main highways for the convenience of farmers seeking food, drink and occasionally lodging for the night. As the city expanded with improved roads and the addition of streetcar lines, the patronage of the roadhouses changed from a rural clientele to city residents, many of whom were traveling to resorts or to their summer residences. The character of many roadhouses changed from tavern to inn, with dining and lodging accommodations suitable for wives and children. East Jefferson Avenue was particularly known for a number of resort-oriented roadhouses and inns. The Old Homestead, Scanlon's, Snug Harbor, and the Rusch house were among the many popular

roadhouses found along East Jefferson Avenue. The earliest known roadhouses in the Jefferson-Chalmers Historic Business District, as indicated in the 1876 Wayne County atlas, was a saloon located on the south side of East Jefferson Avenue near Fox Creek. According to the 1893 Wayne County Atlas, the Six Mile House was located on East Jefferson at Lakeview. The Burrell Hotel was listed on the same site during the 1910s and the Honeybuckle Inn during the 1920s. One of the most popular roadhouses was the Fox Creek House, established by John Garska sometime around 1890 and located on the north side of East Jefferson Avenue at Alter Road. The Fox Creek House was in business until 1918 when prohibition forced the roadhouse to close. (The Garska Family then donated the land behind their establishment to St. Ambrose Parish.)

The tracts of land located in the Grand Marais developed at a slower pace than other areas in Detroit due to poor transportation routes and the marshy nature of the land. In 1874, William B. Moran, prominent Detroit attorney who owned a tract of land in the area, began surveying the Grand Marais. He concluded that the marsh could be reclaimed and began building earthen dikes. Thus began the draining of the Grand Marais. Neighboring property owners such as the Campau family soon followed draining the land. It is believed that primary drainage ditches were dug by oxen-driven plows, then windmills and pumps moved the marsh-water through pipes set in lateral ditches and eventually into the Detroit River. In 1880, the Wayne County Drain Commission authorized and provided the funding for the drainage of the area surrounding Fox Creek and the conversion of the creek to a canal. Silas Farmer, in his recollection in Grosse Pointe on Lake Sainte Claire, 1886, described driving down East Jefferson Avenue to Grosse Pointe (page 18):

On the left, as we cross the bridge (over Conner Creek), is the stock farm of George Hendrie, chief owner of the Detroit City Street Railway Co. Beyond, on both sides of the road, the Campau estate owns a large tract. These lands are now being drained by ditches from which the water is pumped by wind-mills; but only a few years ago the road we are now passing over was "navigable for small craft" during several months in the spring.

Friend Palmer wrote in Early Days in Detroit (page 656), "The Grand Marais, what a garden it has become! A few years yet, and it will be hard to realize that the present broad fields of corn and waving grain were in the early days, one vast swamp or quagmire, the home of the muskrat and all kinds of horrid snakes." Silas Farmer also describes crossing Fox

Creek and seeing an avenue lined with shade trees, planted by W.B. Moran. This avenue, now Alter Road, was known as Edgewood Road and stretched across his property to Edgewood Park, a summer resort for picnic parties at Windmill Point.

In 1887, the East Detroit and Grosse Pointe Railway was formed and provided streetcar service to Grosse Pointe Township. This line ran up East Jefferson Avenue, then turned north at Cadillac Avenue near Water Works Park, then east on Mack Avenue to loop around the marsh, jogged back to East Jefferson Avenue and St. Clare Avenue in the present day Grosse Pointe, then ran up the shoreline to Fisher Road. In 1881, railway magnate George Hendrie, who later owned extensive property along East Jefferson Avenue in the area of the Jefferson-Chalmers Historic Business District and further north in the present day Grosse Pointe, purchased the old Hamtramck Railway Company which ran lines through nearby Hamtramck Township. This company developed into the Jefferson Avenue Line 1891 and became the Detroit Suburban Railway in 1892 that took over the operation of the East Detroit and Grosse Pointe Railway later that same year. The streetcar line on East Jefferson Avenue then extended from downtown Detroit to Fisher Road in Grosse Pointe. Hendrie now had a monopoly on transportation along East Jefferson Avenue, owning both the railway line and the toll road. At various times Hendrie had tollgates at Conner Creek and near the present-day Vanity Ballroom.

In 1892, Mayor Hazen Pingree started a campaign to eliminate the tollgates that stood on many of the city's major thoroughfares. Many of the toll road owners had ignored charter provisions requiring repair and maintenance of the roads but still continued to charge excessive tolls. Even after the city had repaired and paved the streets within the city limits, toll road owners would set up gates for income traffic. Pingree made several attempts to purchase the charters, but the toll road owners demanded exorbitant payments. The mayor then incited the citizens of Detroit to boycott the toll gates. Mayor Pingree aimed the bulk of his attack at Hendrie, the toughest and most obstinate of the toll road owners, who had obtained a court injunction that temporarily stopped the city from paving East Jefferson Avenue. After numerous court battles and with the overwhelming support of Detroit citizens, Pingree won against the toll companies. By 1896, the majority of toll companies had been eliminated from the city.

The draining of the Grand Marais and the improvement of transportation to the area finally led to the development of subdivisions. The first subdivisions to be plat-

ted were located between Jefferson and Kercheval, and between Lenox and Alter. Rusch's Subdivision was the first to be developed in the Jefferson-Chalmers Historic Business District. It was developed in 1891 by Otto Rusch, manager of Germania Life Insurance and the owner of the popular Rusch's Roadhouse, located at Connor Creek. Others platted were the Lakeview Subdivision, Averle's Subdivision, Skinner & Moore's Subdivision and the Pointeview Subdivision. As a result, the following north/south streets appeared in the 1893 Wayne County Atlas in the following order from west to east: Lenox, Drexel, Coplin, Lakeview, Rusch (now Eastlawn), Newport, Oneida (now Lakewood), Utica (now Chalmers), Hitchings (now Marlborough), and Philip Avenues. A small park on East Jefferson Avenue, called Presque Isle Park, lay between Newport and Oneida. Marshland Road (now Lakewood) was the only new road that appeared running south to the river from East Jefferson Avenue.

The area of land south of the Jefferson-Chalmers Historic Business District, between East Jefferson Avenue and the Detroit River, developed into a popular destination for the sports-minded enthusiast. In addition to being an ideal locality for fishing and boating, the area became the site of several well-known sporting venues including the Peoria Gun Club. The gun club, located along the Marshland Road, arranged for members to be transported from downtown by boat.

In 1893, construction began on another sporting venue, the Grosse Pointe Race Track, located off East Jefferson Avenue just a few blocks to the west of Jefferson-Chalmers Historic Business District. Built as a horse-racing track, it was operated by the Detroit Driving Club, whose secretary was Daniel Campau, Jr., a grandson and heir of Joseph Campau. Daniel Campau, Jr. was a successful businessman, especially in real estate, and a powerful figure in the Michigan Democratic Party. Campau soon became president of the Detroit Driving Club and spearheaded a campaign to move the track from its location off East Jefferson Avenue near Water Works Park to land he owned at Conner and Alter Roads. It was here that the new oval mile-long race track with a major grandstand and stables was built on a ninety-acre tract of land. The track was considered one of the finest in the country, located in a beautiful location with accessibility to the river. The Detroit Driving Club became a landmark site in automotive history in the early 1900s when the track was used for automobile racing. It was here that a relatively unknown Henry Ford raced an auto of his own design against the nationally famous racer from Cleveland, Alexander Winton. Ford beat Winton in an upset victory, and

the following year, Barney Oldfield beat Winton in the Ford designed "999," averaging almost sixty miles an hour. These two events were successful in attracting the investors that Ford needed to finance the Ford Motor Company, which was organized one year later. Motor racing ended at the track in 1905 and it was razed soon after for a residential subdivision.

The Detroit Jockey Club operated another race course that was located just south of the Jefferson-Chalmers Historic Business District. The 1894 Wayne County atlas indicates that the club was situated between Marshland Road (now Lakewood) and Alter Road on land belonging to George Hendrie and W.B. Moran. There is little information regarding this second course located in such close proximity to the Detroit Driving Club.

In 1903, the Village of Fairview was incorporated from a portion of Grosse Pointe Township. The boundaries of the new village extended from the Detroit city limits near Waterworks Park to Cadieux Road, and from the river to a line 500 feet south of Mack Avenue. Vast improvements were expected in public services, road paving and residential and industrial development. Daniel Campau, Jr. and the Detroit Driving Club were instrumental in supporting the incorporation of the village, intent upon securing control of the village's entire operations. Immediately, opposing factions were arguing at town meetings regarding the paving of East Jefferson Avenue. In 1906, the road was finally repaved with brick and new bridges were built at Conner Creek and Fox Creek.

The Village of Fairview was short-lived, however, due to fear of an epidemic of typhoid fever that arose in 1904 as a result of the dumping of sewage into Conner Creek. The City of Detroit Health Department expressed concerns that this sewage would flow into Detroit's drinking water supply intake, which lay about three-quarters of a mile below the mouth of the creek. The department recommended to Detroit's Common Council that the best solution was the annexation of Fairview to the City of Detroit and the construction of an intercepting sewer. Although many of the residents of Fairview were opposed to the annexation, an act was passed by the state legislature in 1907 making Fairview a part of the City of Detroit. This annexation caused another village, Grosse Pointe Park, to be formed from that part of Fairview that lay between Fox Creek and Cadieux Road.

Although subdivisions had been platted during the early 1890s in the blocks north of the Jefferson-Chalmers Historic Business District, residential development grew very slowly. By the early 1900s, only a handful of houses had been construct-

ed. The annexation of Fairview to the City of Detroit resulted in the blocks south of the district, which had formerly been the site of the Detroit Jockey Club and the Peoria Gun Club, being eyed for future development. In 1907, the Van Husen Company Subdivision and the Fox Creek Subdivision were platted and by 1910 the Lakewood Park, Jefferson Park, and the Marshland Boulevard subdivisions had been laid out. Realtors enticed prospective residents by advertising the close proximity of the neighborhood to the Detroit River for recreational purposes like fishing and boating. Just after the turn of the century, canals for the access of boats were dug at the foot of Alter Road near the Windmill Point lighthouse. William C. Klenk, a prominent land owner in the area, constructed the Lighthouse Inn, a Colonial Revival building with a two-story portico and an extensive veranda that overlooked the river. The inn was located just to the west of the lighthouse and was noted for its famous shore dinners, elegant private party rooms, a private launch from Belle Isle, and its large picnic pavilion.

Half a mile to the west of the district lay Conner Creek, a natural stream ranging from ten to fifty feet wide ending at the Detroit River. Around 1900, at the foot of Connor Creek, Joseph H. Berry, a Grosse Pointe native and one of the founders of Berry Brothers, Ltd., a leading varnish manufacturing company in the United States, built a huge facility for the production of marine varnishes. In 1906, Berry bore the preliminary expenses, including the right of way, for the eighteen mile outer-belt railway line known as the Detroit Terminal Railway which ran in a semicircle from Conner Creek on the east to the City of Ecorse on the west. Although Berry died in 1907, the railway sparked the beginning of an industrial area around Connor Creek. Before his death, Berry subdivided the Fox Creek Subdivision, where the Jefferson-Chalmers Historic District is located, with his son-in-law, Edwin S. Lodge, and his granddaughter, Evangeline L. Lodge Lindbergh (mother of the aviator, Charles Lindbergh).

The Connor Creek location's amenities attracted other industries to the area, including a number of auto companies established in the early years of Detroit's boom as the "Motor City". The first of these was the E.R. Thomas-Detroit Company that had taken twenty-two acres of land of the Campau Farm for its buildings. The E.R. Thomas-Detroit Co. produced the car called the "Thomas-Detroit" and was located on East Jefferson Avenue west of Connor Creek at what was then the Grosse Pointe border in 1905. It existed for only two years and then was reorganized as the

Chalmers Detroit Company in 1908. It became so successful that in 1910, as the Chalmers Motor Car Company, it grew into a complex of sixteen manufacturing buildings with a total floor space of one million feet on a site of thirty acres. By 1912, Chalmers employed over 4,000 workers.

The district around Connor Creek and East Jefferson Avenue became known as the Connor Creek Industrial Area. The six-story, 250,000 sq. ft. Wadsworth Wooden Body Plant was established on East Jefferson at Connor Creek in 1914. This early automotive supplier produced wooden car chasses for the Ford Model T and operated until it burned in 1919 in the largest building fire in Detroit to that date.

One of the most prominent auto manufacturers was the Hudson Motor Car Company. The company's industrial complex began with a 172,000 sq. ft. plant designed by Detroit architect Albert Kahn in 1910. Hudson grew to be the fifth largest automobile manufacturer in the world in 1949. Another major plant was the Continental Engine Company, a major supplier to Hudson, which built its two-story 225,000 sq. ft. plant near Connor Creek north of the Hudson Plant in 1912. Continental produced 25,000 engines annually for the Hudson Motor Car Company until 1949.

Other types of industrial plants came to the area, as 1910 marked a year of explosive industrial growth. The Armstrong Woolen Company, the Hupp-James-Halloran Foundry Company, the Anderson Forge and Steel Company, and the Fairview Foundry Company all located south of East Jefferson Avenue near the Detroit River. A reinforced concrete factory for the Metal Products Company was constructed in 1910 north of East Jefferson Avenue near Conner Road.

The Jefferson-Chalmers Historic Business District now began to grow rapidly as a result of the industrial development around Connor Creek to the west and the residential development of the former marshland to the south. In 1907, when the area was annexed to Detroit, the district had a roadhouse on either end; a saloon previously known as the Six Mile House stood on the north side of East Jefferson Avenue at Lakeview, just one block west of the boundary line of the proposed district. The Fox Creek House was located at the other end at the intersection of Alter Road and East Jefferson Avenue. Between these two roadhouses were a few houses and the real estate offices of the Van Husen Co., Potts and Potts (Hiram and his son, Seward), and a branch office of William Hillger. All of these early buildings were demolished as the district later developed. By 1913, a number of commercial buildings had been constructed in the Jefferson-Chalmers

Historic Business District that included a tailor, hardware store, drug store, physicians, grocers, and dry goods. The Burrell Hotel (Six Mile House) and the Fox Creek House were still in operation as were the real estate offices of Potts and Potts and William Hillger. New real estate offices included R.C. Larrabee and the Lakeview Real Estate Exchange (all demolished). The W.J. Hiller Building (14350-56 E. Jefferson), one of the oldest buildings in the proposed district, was constructed at this time and designed by Spier, Rohns, and Gehrke. Built in 1912, the building had one storefront with two apartments above. As development increased in the area, an additional storefront was added in 1914. The building was occupied by a pharmacy, grocery and notions store.

The subdivisions on both sides of the Jefferson-Chalmers Historic Business District slowly began to fill with new housing after 1910. The area north of Jefferson saw construction of many two-family clapboard sided homes and small, simple single-family clapboard homes, cheaply built for worker housing. Houses began to appear south of the district, between Jefferson and Essex. The canal area along Fox Creek attracted residents who wanted boat access to the river. The majority of these residents were of German, Belgian, English and French descent and lived along Alter Road and Ashland Avenue. By 1913, the Lighthouse Inn had become the Detroit Motor Boat Club, a private club for yachtsmen such as William Scripps, Lewis Newberry and Horace Dodge. The Woods Inn, a popular riverfront saloon owned by Dod Woods, was built at the foot of Lakeview (now the Alfred Brush Ford Park) in the mid-1900s.

In 1913, Ford Motor Company chief engineer Edward Gray created the exclusive Grayhaven Island subdivision, just west of the Jefferson-Chalmers Historic Business District, platted for mansions with access to the Detroit River from a canal. The plan was for 175 of the canal-front lots to be built on over one million cubic yards of landfill. Only a handful of the homes were built, including the mansion for boat racing legend Gar Wood, and the mansion of Edward Fisher, one of the automotive industrialist Fisher Brothers.

During the same year, Dr. William D. Maxon, rector of Christ Church in Detroit, anticipating the future growth of the neighborhoods in the area, arranged for the purchase of land at East Jefferson and Manistique. A small frame church was built on Manistique, just north of East Jefferson. The church was named after St. Columba, a Celtic missionary who had founded a monastery in 563 A.D. on the island of Iona off the coast of Scotland. During a previous trip to Scotland, Dr. Maxon was so inspired with the life of the

saint that he was determined to establish a mission or parish in his name. Dr. Maxon acted as rector until 1917. In that year the church was admitted to the diocese as a parish and the Rev. Charles Ramsey was named rector. Jefferson Avenue Methodist Church was also established in 1913 in a storefront on East Jefferson and Philip Avenues. In 1914, a brick church was built on the present location, designed by Stokes and Wittingham. The church was expanded during the 1920s with the addition of a large brick Gothic Revival auditorium to the rear of the original building. (The 1914 church was demolished in 1957 and replaced with a contemporary educational building which was connected to the 1924 auditorium.)

By 1915, commercial growth in the Jefferson-Chalmers Historic Business District had exploded in its first prime era of development. Real estate offices included Potts and Potts, William Hillger, I.C. Freud, LeJeune and Rivard and the Ford Heights Land Company. A number of the commercial buildings constructed during this time have survived, including the building at 14410 E. Jefferson, built in 1916 and designed by local architect Ernest C. Thulin who lived nearby on Lakewood Avenue. The building was first occupied by the Great Atlantic & Pacific Tea Company. Thulin also designed the building at 14815 E. Jefferson in 1916 (later altered). A wide diversity of businesses then opened in the district, including shoe stores, barbers, grocers, drug stores, a photographer's studio and restaurant. The two story brick building at 14538 E. Jefferson was built in 1915 and occupied by Knaepple's hardware store. The building at 14127-14149 E. Jefferson was built in two phases between 1915 and 1920. It was designed by Pollmar and Ropes. The first phase of construction for a two story commercial building with two storefronts was built in 1915. An additional four stores were added to the building, matching the design of the original building so well that it is difficult to tell where the two parts meet.

The area surrounding the Jefferson-Chalmers Historic Business District had always attracted visitors for recreational purposes. The many roadhouses along Jefferson Avenue and the location of boating, fishing and dining sites on the Detroit River gave the area a unique character. In 1915, the proposed district began its development as an entertainment destination with the construction of the Lakewood Theater at 14243-14249 E. Jefferson (demolished in 1958). The Lakewood was a large neighborhood theater that seated 1,270 patrons and was located on the northwest corner of East Jefferson and Lakewood.

The district saw the introduction of

automobile-related businesses with the establishment of a Central Oil and Gas Station (demolished) and the Hergenroeder and Sons garage (demolished). In 1916, Peter J. Platte constructed a one-story public garage at 14815 E. Jefferson. In 1917, in partnership with Fred Chalmers, Platte started a full-service Ford dealership, the Platte-Chalmers Company. In 1918, Platte began construction of an additional two stories to his building, renamed Peter J. Platte Motor Sales. Platte was president of the Jefferson Improvement Association and was instrumental in promoting the development of the district. Another automotive business in the district was the Simons Sales Company, a dealership for Overland Motors, which located in 1920 in the building at 14200 E. Jefferson.

In 1917, the pastor and several members of the First English Lutheran Church submitted a request to start a mission in the East Jefferson district. Property was purchased that same year at the corner of East Jefferson and Philip for the purpose of building a portable chapel to hold services. The chapel was not built due to building restrictions on East Jefferson and the congregation then rented Jefferson Avenue Methodist Church for Sunday afternoon services. Construction on a new church began in 1921, now called Faith Evangelical Lutheran Church. A new auditorium addition and a new parsonage at 389 Chalmers were built in 1926. Upon completion, Faith Evangelical Lutheran had a seating capacity of about 1,200 and was one of the largest Lutheran churches in the city.

In 1918, the Presbytery of Detroit organized Eastminster Presbyterian Church for the residents living in the neighborhoods along East Jefferson. Services were temporarily conducted out of Jefferson Avenue Presbyterian until 1920 when the congregation moved to Manistique near Jefferson. A new stone Tudor church, a gift of auto magnate Horace C. Dodge, was built at a cost of about \$55,000.

Transportation continued to evolve along East Jefferson Avenue. Motor bus lines were running through the Jefferson-Chalmers Historic Business District by 1920. In addition to the electric trolley street cars, motor busses provided transit to downtown Detroit and to the factories along East Jefferson. Automotive companies on East Jefferson underwrote the operation of independent bus lines when revenue failed to provide enough funds to make private operations profitable. Funding the transportation of workers was a business expense necessary in the 1910s and 20s. In addition to the bus and trolley lines, electric interurban railway lines ran along East Jefferson to the outer farmlands, encouraging suburban devel-

opment. The East Jefferson interurban railway line developed as a series of individual independent companies. In 1892 the Detroit Street Railway Company electrified its Jefferson Avenue trackage which ran into Grosse Pointe. Various other interurban railway lines developed and pushed the lines out to the cities of St. Clair Shores and Mt. Clemens. In 1923 the interurbans began their routes to the suburbs from just outside of the Detroit city limit at East Jefferson on the east side of Alter Road. The interurban on East Jefferson was replaced by busses in 1928 and the route became part of the Southeast Michigan Transportation Authority bus line which continues today.

During Detroit's boom years in the 1920s, many Arts and Crafts bungalows, brick four squares, and Prairie style homes were built south of East Jefferson Avenue. Some of the homes in the subdivisions were designed to the specifications of the purchaser. They were homes for automobile company managers, professionals and small business owners. The established middle class in Detroit desired to move out from the congested inner city, and also to get away from the large groups of new immigrants who were coming to Detroit. Windmill Point, at the foot of Alter Road, changed during this period to a place where a houseboat colony and boathouses dotted the waterfront.

The Chrysler Motor Company came to the area in 1924 by taking over the Maxwell and Chalmers Motor Company and later constructing another huge factory building and showroom on the south side of East Jefferson Avenue. The increase in industrial and commercial development in the area led to the construction of a number of apartment buildings to accommodate the growing number of workers. The majority of these apartment buildings were constructed along East Jefferson Avenue near the transportation lines. On East Jefferson, adjacent to the Connor Creek Industrial Area, the 524 room Savarine Hotel (now the Winston Apartments) was built in 1926, just a few blocks west of the Jefferson-Chalmers Historic Business District, to house the men working in the nearby factories who came in from farms or other areas. The Jefferson-Chalmers Historic Business District saw the construction of the forty-four unit Lakewood Apartments (913 Lakewood) in 1924 and the thirty-three unit Chalmers Apartments (14436 E. Jefferson) in 1925. Many apartment buildings in the district were constructed on side-street lots adjacent to the commercial buildings, such as the Marlboro (1031 Marlborough), the Sheldor (1025 Newport), the IDAO (910 Marlborough) and the Windmill Point Manor (943 Alter).

Just west of the Jefferson-Chalmers

Historic Business District, and east of the Connor Creek Industrial Area, closer to the dirt and noise of the automotive plants, a subdivision arose that initially was settled by recent immigrants from Serbia, Croatia, Romania and Greece. With the lure of maintenance jobs at the Connor Creek factories, African Americans began settling amid the Serbian ethnic enclave in the early 1920s. By 1925 Clairpointe, Tennessee and Conner avenues housed some three thousand African-Americans. As the racial demographics of Detroit changed through the second half of the twentieth century, the majority of the residents in the neighborhoods surrounding the proposed district reflected that change.

As the residential population grew in the area, the Jefferson-Chalmers Historic Business District became a thriving entertainment and commercial strip with storefronts serving the residents' needs. These included Winkleman's, Nash Pharmacy, E.M. Ramsay Mens' and Boys' Clothing, and Cassell's Conservatories, a florist shop. Area residents also had medical and dental offices, banks, hardware stores, grocery stores, automotive repair shops, as well as restaurants and bars accessible along Jefferson. The district had builders who were involved in the construction of a number of structures. Frank L. St. Amour was a commercial builder, descended from a family of early French settlers. He was responsible for the construction of thousands of homes on the east side of Detroit, including the early development of East Grand Boulevard and the Berry Subdivision. He is known to have constructed three buildings in the Jefferson-Chalmers Historic Business District, the two story, brick St. Amour Buildings at 14111 E. Jefferson constructed in 1920 (designed by architect E.C. Thulin), and the two story brick commercial buildings at 14418-20 E. Jefferson and 14510 E. Jefferson, both constructed in 1924.

There were a number of builders and realtors who had offices in the Jefferson-Chalmers Historic Business District during this time. One of the prominent builders was Jerry Oldenkamp, who had offices in his own building at 14320 E. Jefferson (demolished) opposite the Lakewood Theatre. His advertisements offered "Complete Building Service - Plans Furnished - Buildings Financed." He was responsible for the construction of the two story commercial, brick building at 14316 E. Jefferson in 1924, the three story commercial, brick Sutton Drugs building at 14401 E. Jefferson in 1927, and the two story, brick building that housed White Sun Chop Suey in 1926 at 14521 E. Jefferson. William S. Blakeslee was another builder/realtor who lived nearby on Marlborough Avenue. In 1919,

he was a partner with Jerry Oldenkamp in the real estate firm of Oldenkamp and Blakeslee. They appear to have formed separate companies in the early 1920s. Blakeslee constructed the four buildings of the Pointe Manor Apartments on Alter Road between 1925 and 1926.

The business owners on East Jefferson Avenue were intent on promoting the district as a retail destination. In October, 1924, the Jefferson Avenue Improvement Association produced its first newsletter, *The Jeffersonian*, which stated the chief purpose of the organization was "the welding together of the various interests on Jefferson Avenue, in order to make that Avenue the most perfect thoroughfare in the United States..." The newsletter went on to say that "it is our ambition to have Jefferson Avenue surpass Fifth Avenue (in New York City) in style, beauty and utility." The Jefferson Avenue Improvement Association even produced its own theme song titled "Jefferson, My Jefferson."

The initial business owners and retailers clearly had high ambitions for success. One East Jefferson Avenue retailer advertised that his store was "A Downtown Store In Your Neighborhood," thus emphasizing contemporary, high quality merchandise. Residents of the area agreed — they did not need to take the streetcar downtown to purchase anything — it was all available on East Jefferson. An article from *The Detroitier*, the magazine produced by the city's Chamber of Commerce, promoted the large number of branch banks and branches of downtown businesses along the street, as well as the street cars, interurban cars, busses, jitneys and regular commercial and private vehicles used for transportation.

In 1920, the congregation of St. Columbia Episcopal Church appointed a building committee to draw up plans for the erection of a Parish House on East Jefferson Avenue. The decision was made to include shops as a source of revenue for the maintenance of the buildings. The Parish House was designed by Lancelot Sukert and completed in 1923. The auditorium on the second floor was named "Hartsuff Hall" in memory of Mrs. Alice E. Hartsuff, who had left the church a legacy of \$25,000. During this time the "little frame church" on Manistique began to overflow with communicants during services. In 1927, the cornerstone was laid for a new English Gothic Revival church also designed by Sukert. The church was built adjacent to the frame church on Manistique, just north of the Parish House, and was completed in 1928. Future plans called for the addition of a school house and cloister which would have connected the church to the parish house, but the financial depression of the

1930s prevented the plans from being fulfilled.

It is said that in Detroit there were two major industries during the 1920's — the manufacture of automobiles and the distribution of Canadian liquor. An estimated 75% of all illegal liquor brought into the United States was smuggled through Michigan. In Michigan, prohibition began in 1917, and continued through May, 1933 when the Volstead Act was repealed. Easy access to the nearby waterfront made the area around the Jefferson-Chalmers Historic Business District a prime place for those involved in the illegal liquor trade. Fishing and pleasure boating had always been popular in the area, but the number of licensed boats increased dramatically after the Volstead Act was passed by Congress. The sheer profits from rum running, as well as the challenge of outwitting federal and local enforcement agents, proved to be an overpowering incentive for residents living along the Detroit River.

Rum running activity in the area took place on Fox and Connor Creeks, and even on the exclusive Grayhaven canal. Rum runners drove to the nearest port, whether it was privately owned or not. The majority of rum running was conducted by independent boat-owners, but there was some organized gang activity. Most of the restaurants along East Jefferson Avenue provided alcoholic beverages for their trusted patrons. Among the more popular such watering holes on East Jefferson from downtown Grosse Pointe were Little Harry's, Pinkey's, Club Royale, Doc Brady's, Lefty Clark's, D'Emilio's French Club, Lidos and the Aniwa Club. In the Jefferson-Chalmers Historic Business District, Marshall's Bar (then known as Britz's Bar) whose back door was located off the banks of Fox Creek, had an ideal location for the delivery of illegal alcohol.

In 1931, the U. S. Coast Guard discovered and confiscated a steel cable that ran from Peche Island, Ontario, to a cottage near the foot of Alter Road. A metal drum filled on each trip with 30 gallons of Canadian whiskey was attached and pulled across by a motor-driven windlass. This was photographed and written about in newspaper accounts of the day. East Jefferson Avenue was the scene of numerous high speed automobile chases between the rumrunners and the authorities. These high speed chases often resulted in serious injuries and deaths. Incidents such as these helped the cause for repeal of Prohibition as public outrage increased.

During the 1920s, the Jefferson-Chalmers Historic Business District was also growing as an entertainment destination for east-siders. The Cinderella Theater was constructed just a few blocks west of the district in 1923. It was even

larger than the Lakewood Theater with the capacity to seat 1,897. The Cinderella Theater was designed by Detroit architect Christian W. Brandt and opened on January 14, 1924, showing second-run movies until it closed and was demolished in 1969.

The Vanity Ballroom was one of the leading big-band venues in Detroit, and was known throughout the metropolitan area. The ballroom was designed by Detroit architect Charles N. Agree and built in 1929 at East Jefferson and Newport, on the same block as the Lakewood Theater. On a weekend night, over 600 couples would pack the Vanity to hear and dance to the top music acts of the big-band era. Duke Ellington, Benny Goodman, Tommy and Jimmy Dorsey all performed there, as well as local acts such as Red Nichols and his Five Pennies, Russ Weaver, Eddie Marshal and Clyde McCoy. The Vanity survives today but the building is vacant and deteriorating.

The Monticello Ballroom was constructed just two blocks east of the Vanity at East Jefferson and Marlborough. It opened in 1928 and was in business for a decade featuring Detroit's early black dance bands. The Billy Miner Melodians was an eleven piece African-American big band chosen as the "band in residence" at the Monticello Ballroom in late 1928. The Monticello Building is still occupied today, but the ballroom is no longer used.

The Jefferson-Chalmers Historic Business District crosses over Fox Creek, which runs between Ashland and Alter Road. Connecting to Fox Creek were three canals built by William C. Klenk in 1918 for what he called the "Motor Boat Subdivision." Homeowners purchased lots with yard access to the creek or canals, and built boathouses, spring boards and docks for their recreational use. In 1922, a storm tossed up to much sand and debris at the mouth of the creek that it became stopped up. The citizens in the neighborhood appealed to the city council for money to open the creek but an injunction was obtained by the estate of William Klenk. Klenk's heirs planned to take advantage of squatters' rights to claim the land at the end of the creek at the Detroit River. In 1924, the injunction was ordered dissolved by the State Supreme Court. Later that year, residents organized the "Grosse Pointe Flow Association" to fight for their property values and open the creek. They knew that as long as Fox Creek was a navigable stream it was under federal government control and was not subject to state, county or city regulation. Their intent was to take the issue to the War Department for settlement. But on August 10, 1924, the residents took matters in their own hands. Over 200 Windmill Pointers along with

one horse and a single grading scoop, dug out the Fox Creek channel to restore the flow of water from the river. After a day's work, the creek's channel was 15 feet wide and two feet deep for more than 300 feet. By the next year, the City had run Fox Creek north of East Jefferson Avenue into underground drain pipes, and routed the creek to a canal south of East Jefferson Avenue.

Fox Creek continued to be a source of problems for the area. On May 2, 1929, a major storm caused flooding with water three feet deep on Ashland Avenue, and basements of the homes, churches and schools in the area flooded. The department of public works employees began to pile sandbags along the 300-foot line of Fox Creek south of East Jefferson Avenue, but the flooding continued. The flooding problem was to be resolved by the construction of the Fox Creek Backwater Gates. The gates were constructed in 1930 at a cost of \$25,000 by the Detroit Department of Public Works on the north side of East Jefferson Avenue between Ashland and Alter Road at the Creek.

The Fox Creek Backwater Gates serve three main purposes; first as the place where two large sewer lines from the north and west converge into one major sewer line that runs to the Conner Creek Pumping Station, and ultimately to the City of Detroit Waste Water Treatment Plant in southwest Detroit. Secondly, the gates allow storm water to drain from points north of the area to be funneled into the system when heavy rains have caused Grosse Pointe's sewers to overflow. The third purpose the gates serve is to allow the downstream remnant of Fox Creek, today an inlet from the Detroit River, to flow in reverse from the river and flush out the larger sewer line which runs underneath East Jefferson Avenue.

Although the Depression put an end to the construction boom of the 1920s, business activity began to revive in the Jefferson Avenue Business District during the 1930s. Another car dealership, Eastern Chevrolet, was established at 14800-10 E. Jefferson (demolished) and the Hergenroeder and Sons Garage became Lakeshore Motor Sales. In 1936, the S.S. Kresge Company constructed a one story, brick building at 14300 E. Jefferson. The building was designed in the signature Kresge style of streamlined Art Moderne with a red glass sign band that contained the Kresge name in bold letters.

Although the building is no longer a five and ten cent store, its former use is still identifiable by its appearance. During this time, Sander's, another locally owned company, built a confectionery store next door to Kresge's at 14312 E. Jefferson (demolished). Both stores quickly became

popular destinations for local residents and East Jefferson commuters. During the early 1930s, the Abrams Brothers grocery store at 14538 E. Jefferson was converted to the Peter Pan Flower Shop. In 1939, Walter J. Hiller purchased the buildings at 14356 E. Jefferson. He completely remodeled the now renamed Hiller Building, and opened Hiller's Men's Wear on the first floor. Both the Peter Pan Flower Shop and Hiller's Men Wear were businesses that remained in the district for many years with customers from throughout the City of Detroit.

The Jefferson-Chalmers Historic Business District continued to be a thriving commercial thoroughfare during the 1940s and 1950s, but the 1954 closing of the Hudson Motors plant marked the end of an era of prosperity, and is considered by many to be the beginning of the area's decline. Just as initial development of the subdivisions paralleled industrial development in the region, the loss of residential and commercial fabric paralleled the loss of industry. As the "Big Three" automakers (Ford, Chrysler and General Motors) grew, smaller firms like the Hudson Motor Car Company began to suffer. "Big Three" auto sales bit into their small niche in the automotive market. In the 1950s, independent car companies began to invest in automation. At its peak in 1950, Hudson Motor Car Company employed 25,330 workers. All of those jobs disappeared when the plant closed in 1954. The new conglomerate American Motors, which absorbed Hudson, moved all production from Detroit. In addition, the Briggs Auto Body plant was absorbed by Chrysler in 1953 and the Motor Products plant on Mack Avenue closed in 1956.

Detroit's east side was hit the hardest by industrial changes in the 1950s, losing more than 70,000 jobs between 1954 and 1960. The Michigan Employment Security Commission (MESCC) reported that its Conner Avenue office was the busiest in the state, serving an area of twenty-three plants and 2,967 workers in March of 1953. Between 1953 and 1960 the area lost ten plants and 71,137 jobs. By the 1960s, many homes and commercial buildings were falling into disrepair. Several businesses on East Jefferson Avenue closed, never to reopen again.

Issues of racial tension escalated as a dominant social concern in Detroit in the 1940s, 1950s and 1960s. Beginning in the mid 1920s "restrictive covenant" clauses prevented the sale or rental to nonwhites on Algonquin Avenue, located west of the Jefferson-Chalmers Historic Business District, and this blocked further eastward migration by African Americans into the Jefferson East Community. A notable exception was the arrival of Dr. Albert H. Johnson to Chalmers Avenue, near the Jefferson-Chalmers Historic Business

District in 1921. Dr. Johnson was a respected physician and pioneer in the Detroit Urban League, and he was accepted into the riverfront community without racial incident. The inequality in housing law was corrected when the City of Detroit's fair housing ordinance was adopted in 1967. The federal government passed the Fair Housing Act in 1968 which finally allowed for true integration in Detroit's neighborhoods.

The move to suburbia was a condition that affected the entire country during the 1940s, 1950s and 1960s. The Federal Limited Way Highway Act of 1944 funded the construction of I-94, just north of the Jefferson-Chalmers Historic Business District, as well as several other interstate expressways running out of Detroit into suburbs and farmlands. Federal Housing Administration programs of the 1940s subsidized suburban housing expansion leaving a declining population in the area. During this period of decline, many long-time businesses continued to operate and struggled to survive. The White Sun Chop Suey, Sutton's Drugs, Hiller's Men's Wear, the Peter Pan Flower Shop, Sanders, Kresge's Winkelman's, Marshall's Bar and the Deck Bar continued to remain open into the 1970s and 1980s. Although many of the churches in the area saw a decline in membership during this time, they also continued in service with the support of loyal congregations. In 1957, Jefferson Avenue United Methodist Church demolished the original church built in 1914 and constructed a new two and one-half-story contemporary entrance. In 1981, the Original Primitive Baptist Church moved into the former Eastminster Presbyterian Church on Manistique.

The Department of Housing and Urban Development (HUD) was involved in a scandal that would negatively affect the Jefferson-Chalmers Historic Business District community in the 1970s. The scandal arose from a combination of factors surrounding HUD's disposal of FHA-insured home mortgages within inner cities. Since HUD guaranteed these mortgages without thorough home inspections, many corrupt speculators, consisting of brokers, contractors, realtors and government officials, took advantage of the situation. After purchasing inner city buildings, speculators gained high home appraisals from HUD officials without making proper repairs and then sold their buildings to unsuspecting buyers. Unfortunately, most of these homeowners couldn't afford major building repairs on top of high mortgage payments. Eventually HUD foreclosed on thousands of FHA-insured home mortgages in Detroit.

Although the HUD scandal occurred in other major American cities, the City of Detroit was hit the hardest. By 1980, the

number of HUD foreclosures within Detroit was the highest in the nation. Detroit's eastside especially felt the hit as abandoned HUD houses constituted much of the property on neighborhood streets. From 1970 to 1977, the Jefferson East Community lost 37% of their local dwellings as a result of the HUD scandal. In 1970 there were 7,300 housing units in the Jefferson East Community — by the end of the 1970s there were fewer than 4,500.

Since the scandal, Detroit has received funding from HUD for the demolition of abandoned homes, redevelopment of industrial areas, and the construction of apartments, condominiums, and single-family homes. In 1990, Grayhaven, one of Detroit's first upscale residential districts, was completed in the Jefferson East Community with HUD funds. Grayhaven's success immediately sparked the construction of other residential developments in the area; during the early 1990s Riverbend Plaza, a large retail shopping center, and 157 residential homes in the Victor Park subdivision were completed. Since then, the area has seen construction of Grayhaven Marina townhouses and Shorepoint homes, as well as Habitat for Humanity projects. Clairpointe, a neighborhood just outside of Victoria Park, recently finished building twenty-nine new market-rate homes. More market-rate housing and retail called "Riverbend III" is under construction. Even the automotive industry returned to the area with the construction of the \$1 billion Chrysler Jefferson North assembly plant in 1992. The new plant employs 2,500-3,000 workers making the Jeep Cherokee.

Despite the many issues that have redefined the community, Jefferson East area has remained a cohesive neighborhood. The Jefferson-Chalmers Citizens District Council was created and funded by the City in 1971 to empower and assist the community affected by urban renewal. Members planted trees, organized block clubs, formed clean-up crews, established a food co-op, as well as implemented the streetscape on Jefferson between Alter and Coplin Streets that exists today. The streetscape consist of brick paving, pedestrian scale lighting, concrete planters, street trees and guard rails. The Jefferson-Chalmers CDC also put on a musical series in the summer for the public in two venues: "Jazz by the River" at Alfred Brush Ford Park and benefit jazz concerts were held at the Vanity Ballroom in the early 80s. Another organization, the Jefferson-Chalmers Non-profit Housing Corporation, constructed the Jefferson Square Apartments on Freud Street in the late 1970s and purchased 150 HUD homes that they rehabilitated and rented. Another local group, the Creekside

Community Development Corporation, was founded by citizens in 1993 to help preserve the integrity of the area. The Creekside CDC also worked to promote the area through tours and lectures to promote reinvestment, and hosted ongoing Blues concerts and a Riverfront Concert series.

Today, the Jefferson East Business Association (JEBA), a non-profit organization founded in 1992, is dedicated to improving the quality of life by addressing the needs of the business community in a four-square-mile area bounded by St. Jean, Alter Road, Charlevoix and the Detroit River. The organization is a neighborhood satellite center for the Michigan Small Business Development Center that helps entrepreneurs by offering counseling and business planning. The organization's other two initiatives include planning and development, and clean and safe initiatives. The commercial corridor from Dickerson to Alter was designated as part of the Mayor's Office of Neighborhood Commercial Revitalization (ONCR) Re\$Store Detroit! Program focusing on creating an environment for investment in the historic structures along East Jefferson. In the last several years JEBA has sponsored a "Jazz on Jefferson Festival," a weekend festival held in June.

#### **Physical Description**

The Jefferson-Chalmers Historic Business District has fifty-seven buildings including four churches, two ballrooms, retail stores, banks and apartment buildings. Most of the buildings front onto East Jefferson and fill the lot line with no setback from the street, resulting in a nearly continuous streetscape. The buildings are generally two-stories high, with the exception of the churches and apartment buildings. Fox Creek, one of the few creeks remaining from Detroit's native landscape, is a feature of the district. Today the creek originates from the "Fox Creek Backwater Gates," a structure housing large underground water gates which control the flow of water now emanating from the sewer creek. The gates lie on the north side of East Jefferson Avenue between Alter Road and Ashland Avenue. The creek runs under the roadway and appears at ground level on the south side of East Jefferson Avenue. The creek then flows into a canal that runs alongside Alter Road to the Detroit River.

One approach to the Jefferson-Chalmers Historic Business District is from downtown Detroit, five miles to the west. Where there was once a succession of factories, residential and commercial structures on East Jefferson Avenue from downtown to the Grosse Pointe border, today many structures have become separated by new development and demolition. Immediately adjacent to the historic district on the eastern approach is

"Riverbend III," a residential and commercial project, and an existing contemporary one-story medical office building and parking lot on the north side of East Jefferson. Further outside the district to the west are the Riverbend Plaza Shopping Center and Chrysler Corporation's Jefferson Avenue Assembly Plant. At the other end of the district's border is the City of Grosse Pointe Park, one of the metropolitan Detroit area's most wealthy "old money" communities featuring large historic homes and mansions on Lake St. Clair. East Jefferson Avenue continues as Lakeshore Drive through the Grosse Pointes, although at the border it contains commercial buildings of the same height and scale of those in the Jefferson-Chalmer Historic Business District.

The district developed as a commercial area to serve the residential populations adjoining East Jefferson Avenue. The residential streets adjoining the district on the north side of East Jefferson Avenue retained scattered two-family and single-family wood frame homes. The neighborhood to the south of the Jefferson-Chalmers Historic Business District is much more intact with single family homes of brick, fieldstone and some wood frame construction. These homes are of higher quality utilizing popular styles of the 1910s and 1920s such as Tudor, Arts and Crafts bungalows, brick four square, and Prairie style homes. This area is a potential historic district within the criteria of the National Register. A unique feature of the district is Marlborough Avenue, which is paved with brick cobbles running from Jefferson to Korte Avenue. There are four canals running through the area south of the Jefferson-Chalmers Historic Business District, thus creating a "workingman's Venice" area of Detroit. Homes adjacent to the canals have boat launches, boat houses and shelters for recreational purposes.

The Jefferson-Chalmers Historic Business District is one of the few remaining commercial districts that reflect commercial architecture and suburban development on the east side of Detroit during the 1920s. The majority of the structures on East Jefferson Avenue are multiple-storefront blocks, generally two stories in height, containing offices or apartments on the second story. Because real estate was in high demand during Detroit's explosive early twentieth-century growth, most structures were built to their lot lines and shared party walls with the buildings next to them. This creates an unbroken wall of storefronts on East Jefferson Avenue. The commercial buildings are of brick construction with cast stone trim, in the commercial style used in the first half of the twentieth Century. Most structures on East Jefferson Avenue have decorative brickwork and regularly spaced window

openings along with decorative features at their cornices or parapets.

The district is exceptional in Detroit for retaining two of the city's big-band era ballrooms, the Vanity and the Monticello. Each is housed in a multiple-storefront with retail on the first level and the ballrooms above. The ballrooms' exterior detailing reflect the jazz age by including the use of zigzag brickwork, cast stone ornament and Pewabic tiles. Because Detroit's Pewabic Pottery, a National Historic Landmark, is located just a few miles to the west of the historic district, Pewabic tiles were undoubtedly utilized in several of the commercial structures on East Jefferson Avenue.

The district retains several large multi-story apartment buildings, the largest of which, the Century Lakewood, is three stories tall and has forty-four units. This building's apartment entrance is on Lakewood Avenue, while on East Jefferson Avenue it fills have the block westward with commercial storefronts. The other apartments buildings that are adjacent to the East Jefferson Avenue commercial properties are no more than three and one half stories high and feature different classically inspired applied ornament. One exception to this is the distinctive Windmill Point Manor Apartment Building, designed in an eclectic mix of Spanish Colonial Revival, Moorish and art deco-influenced styles. Colonnades, tiled porch roofs, copper downspouts and decorative brickwork highlight the exterior of this beautifully maintained apartment building.

The four Protestant churches in the historic district are of stone and brick construction, and are still used as houses of worship — although some by new religious congregations. For example, the Tudor Revival-style Eastminster Presbyterian Church is now called the Original Primitive Baptist Church. Another house of worship, originally Faith English Evangelical Lutheran Church, is a 1921 church constructed of brick and cast stone work, a slate roof and stained glass windows. This church is built in the asymmetrical Neo-Gothic style with a bell tower on the eastern side of the structure, and the center-aisle nave to the west. One of the most outstanding structures in the Jefferson-Chalmers Historic Business District is the St. Columba Activity Hall. The three-story Elizabethan style building houses storefronts under five stone segmental arches at street level. The slate roof, east stone window surrounds, and striking design make the structure stand out among its brick multiple-storefront block neighbors.

#### **LIST OF BUILDINGS**

##### **East Jefferson Avenue**

**14111 East Jefferson-St. Amour Building** — Simply detailed, two-story,

five bay, "Commercial Brick" building, 1920, E.C. Thulin, architect. This multiple-storefront building has five large window openings on the second floor, and two smaller windows centered over the two apartment entrances. There were originally five storefronts on the first floor and thirteen apartments above. The parapet wall is raised over the center bay and features a stone panel which reads "St. Amour 1920." The building was constructed by Frank St. Amour, a builder in the East Jefferson neighborhood.

**14131 East Jefferson** — Two-story, nine bay, "Commercial-Brick" building, 1916, 1920, Pollmar & Ropes, architects. Six storefronts on the first floor, and six apartments above. This building was originally a two-story, two storefront structure. Four years later, an addition was constructed, closely matching the original building. The addition had four storefronts and four apartments. Cast stone window surrounds, and green Pewabic tiles are in a strip above each window opening. A string course separate the first and second stories. The parapet has two raised portions and a strip of green tiles and decorative brick.

**14201 East Jefferson — Vanity Ballroom** — Two-story, six bay, brick corner commercial building, 1929, Charles N. Agree, architect, listed on the National Register of Historic Places, 1982. The Vanity Ballroom was constructed to house five storefronts on the first floor and the ballroom above. The ballroom entrance is on the Newport Avenue façade underneath an overhanging canopy. The building was designed in the Art Deco style in a voluntary of Mayan/Aztec. A three-sided storefront entrance pavilion was placed at the corner, flanked by nearly identical façade on both axes terminating with identical entrance pavilions at each end. The pavilions rise above the rest of the building and are each accented with a patterned course of cast stone below the coping. The frieze at the top of the building features brick "jaguars" running across, while brick chevrons decorate the towers. Pilasters flank each pier and corner of the building, featuring capitols with Aztec figureheads. Square green tiles, attributed to the Pewabic Pottery, fill the stepped arch above each second-story window. First floor storefronts have been altered, and a large vertical sign for the Vanity has been removed. The Vanity's exterior was in the film "8 Mile" in 2002.

**14230-40 East Jefferson (also 913 Lakewood) — Century Lakewood Apartments** — Three and one-half-story brick H-shaped commercial/apartment building, 1924, Joseph Bornstein, builder. This Classical Revival forty-four unit building, constructed at the corner of Lakewood Avenue and East Jefferson Avenue, contains seven storefronts along

the East Jefferson Avenue façade. A central courtyard apartment entrance on Lakewood Avenue allowed air circulation and daylight to the apartments above. Cream-colored cast stone replicates rusticated stone work on the half-basement story of the Lakewood Avenue façade. Alternating use of cream-colored cast stone and red brick delineate the two end window bays and the three center window bays of the apartments. Classical details include quoins and decorative cast stone work centered over window bays at the parapet. This building appeared in the film "8 Mile" in 2002.

**14300 East Jefferson — Sam's Beauty Supply/S.S. Kresge** — One-story, rounded-corner, brick commercial building, 1936. Built by the S.S. Kresge Company as one of their "red front" five and dime stores in the Modern style. Plate glass storefront windows span the pedestrian level of the storefront. At the top of the East Jefferson storefront façade, wrapping the corner at Lakewood Avenue, red pigmented structural glass blocks were originally a horizontal background for the S.S. Kresge store name. Darker red colored brick bands are used to emphasize the horizontally of the structure.

**14316-24 East Jefferson** — Two-story, three bay, brick commercial building, 1924. Built by developer Jerry Oldenkamp, it was constructed to house three storefronts and three apartments above. It is considered to be a two-part commercial block, horizontally divided into residential and commercial zones. Designed in a Neo-Georgian style, the building features an off-center pedimented entrance, Federal inspiration, with fluted pilasters and a fanlight above the doorway. The second story is pierced with three, three-part window openings enframed in cast stone. Three groups of blind balustrades alternate with sections of brick above the stone cornice.

**14350-56 East Jefferson — W. J. Hiller Building** — Two-story, "Commercial Brick" commercial building built in two parts, 1912, 1914, Spier, Rohns & Gehrke architects. Stepped pilasters run between the second-story windows and terminate above the roofline. Each pilasters bears a two-dimensional face of "tragedy" carved in cast stone. This building richly expresses the Art Deco style with the use of chevrons and checkerboard patterned brick in two colors. The original tenant was a Walgreen's Drug Store. The building was designed with five storefronts on the East Jefferson Avenue elevation, and offices for dentists and physicians above them. The office entrance is located on the west elevation on Chalmers Avenue.

**14401 East Jefferson — Platte Apartments/Sutton's Drugs** — Three-story, seven bay wide, "Commercial Brick" corner commercial building, 1928, built by Jerry Oldenkamp, a real estate developer. The building originally contained five stores and eighteen apartments. It is reserved in its use of architectural ornament. Cast stone frames the third-story windows, and second-story windows are accented with corner blocks of cast stone. Single and double hung window openings alternate across the upper stories; some 3/1 windows are extant. First-floor storefronts have been altered. The apartment entrance is on Chalmers Avenue, the west elevation. A large outdoor billboard rises above the roof.

**14421-29 East Jefferson — Monticello Ballroom** — Three-story, eleven bay, brick commercial building, 1928, Pollmar & Ropes, architects. The Monticello Ballroom is one of the most visually prominent structures on East Jefferson Avenue. This building utilized Spanish Colonial Revival and Art Deco

detailing in its exterior design. The last two bays on each end are capped by a rounded raised parapet, infilled with green tiles, probably by Pewabic Pottery. The ends of each raised round parapet are capped by a rounded raised parapet, infilled with green tiles, probably by Pewabic Pottery. The ends of each raised round parapet are capped with decorative cast stone work. A pent roof covered in asphalt shingles fills the roofline between the two tower bays. The first floor storefronts have all been altered. The ballroom occupied the entire second story of the building during the big-band ballroom era. The "shadow" of the now-demolished building to the east remains on the eastern wall, along with a painted sign for "Allen Studio Photography," a tenant who took over the second floor of the building after the ballroom closed.

Raised sections of parapet rise along the roofline above the "piers" separating the window bays. The building was originally designed to contain thirty-three apartments and four storefronts. The original storefront layout appears intact.

**14456 East Jefferson — Jefferson Avenue United Methodist Church and addition** — Church building — stone and brick construction, c. 1923. Two and one-half-story, steel and glass addition on East Jefferson Avenue, 1957. The original church building, constructed in 1914, was enlarged in the early 1920s with the construction of a large brick Gothic Revival auditorium onto the rear of the church. The original church was demolished in the mid-1950s and the addition became the primary church building. This Gothic Revival brick church has a slate gabled roof and utilizes stone for window and door surrounds. A contemporary, flat-roofed addition was connected to the East Jefferson façade of the auditorium as an educational building in 1957. The addition's first story is a below-grade one-half basement floor, and the building entrance is marked by a cantilevered canopy on the East Jefferson Avenue façade. The addition is constructed of glass and steel with steel panel spandrels above the windows. A large steel cross is on the brick portion of the East Jefferson Avenue façade.

**14500 East Jefferson** — Two-story, three bay, brick commercial building,

1917, Frederick J. Winter, architect. The two side bays of the building each contain a triple window at the second floor level. The center bay is narrow and contains the entrance and a single double-hung window above it. Raised sections of parapet rise along the roofline above the "piers" separating the window bays. The first floor originally was built to house two storefronts, while the second story was built for two apartment units. A metal cornice runs across the building just below the parapet wall.

**14510 East Jefferson** — Two-story, four bay, brick commercial building, 1924. This four-bay building contains two stores and two apartments above. The building was constructed by Frank St. Armour, who built several structures in the Jefferson-Chalmers Historic Business District. This building is a twin to 14418 East Jefferson Avenue.

**14521 East Jefferson — White Sun Chop Suey** — Two-story, two bay brick commercial building, 1926, Jerry Oldenkamp, builder. The symmetrically arranged façade displays two large window openings on each story. The openings are now covered but it is likely that each opening contained a grouping of windows. A string course of cast stone separates the first and second stories. Dark red brick work was set in square patterns on the lower level above the bulkhead. The first floor has been ornamented with a more recent addition of multi-colored ceramic tiles — most likely Pewabic — inset into brick piers, as well as into the patterns below the windows on the first floors. A projecting neon sign of the 1950s era is centered between the second story windows. This building's exterior was in the film "8 Mile" in 2002.

**14538 East Jefferson** — Two-story, four bay, "Commercial Brick" building, 1915. This two-story building housed two separate storefronts on the first floor, a hardware shop and a florist. Built on concrete footings, the brick church was constructed to the edge of the lot line at East Jefferson Avenue. A second entrance is located to the western side of the nave. Above the front gable is a cross made of stone.

**14555 East Jefferson — People's State Bank/National Bank of Detroit** — One-story, limestone and brick commercial building, 1925, Hans Gehrke, architect. Addition, one story, three bay, 1953. This corner bank building's Classical Revival style is derived from the Greek Temple. The building is sheathed in limestone. Ionic columns flank the recessed entrance, which is capped by a pediment. Two windows flank the entrance on Jefferson and there are four windows with arched heads on the Philip Avenue façade. There are two rectangular windows flanking the rounded arched windows on Philip Avenue. The windows on both the East Jefferson Avenue façade and Philip Avenue façade have been boarded. A denticulated cornice wraps each façade. In 1953 an addition was constructed to the west of the building along East Jefferson Avenue. The addition utilized the same color materials as the original structure.

**14635 East Jefferson — St. Columba Parish Building** — Three-story, five bay, brick and stone building, 1923, Lancelot Suckert, architect. One of the most outstanding structures in the Jefferson-Chalmers Historic Business District is the St. Columba Activity Hall. The three-story Elizabethan building houses storefronts under five stone segmental arches at street level. Groupings of multi-paned windows are in the second story bays. On the third-story, the windows are grouped in multi-paned window sets on the two gable end bays, and three smaller double sets of windows run between the gables. The slate roof, cast stone window surrounds, and striking design make the structure stand out among the other multi-storefront blocks. The two end bays each contain a small attic-story window in the peak of the gabled roofline.

The pent roof is tiled, and has eyebrow dormers for vents. According to permit records, the cornice of the building was removed in 1958.

**14701 East Jefferson — Ned's Auto**

**Supply/Palace Cleaners** — Broad and low one-story, brick Art Deco commercial building, 1933. The East Jefferson Avenue façade of this structure is dominated by its long roofline that extends to create a large garage bay. This would have been utilized by the original owner, Ned's Auto Supply, as they serviced automobiles under the shelter. The structure's pedestrian entrance was placed at a corner facing the garage space. Four stepped plaques, all containing the letter "N," decorate the roofline of the garage area on East Jefferson Avenue façade, and five plaques are attached to the roofline along Manistique Avenue. Three elongated stepped plaques are attached to the corners of the pedestrian entrance. A later tenant, the Palace Cleaners, placed lettering for their name, and a date of 1946 with a clothes hangar painted above the pedestrian entrance. The building's exterior was coated with some type of skim coat and then painted a pale pink.

**14727-29 East Jefferson** — Two story, four bay brick commercial building, 1937. This building's pale yellow colored ceramic tile exterior makes it stand out from the many brick buildings on East Jefferson Avenue. The second story windows were bricked with masonry in 1959. The roofline is decorated with a dark green decorative tile. The first floor storefront has been painted white.

**14737 East Jefferson — Fox Creek Backwater Gates** — One-story, brick public works building, 1930. This one-story brick building houses the underground "gates" and operating mechanism which control the level of Fox Creek. The building is designed in a "stripped" Classical/Art Deco style. Representations of pilasters are on the Jefferson Avenue elevation, and they project slightly at the roofline. Yellow multi-tone brick was used and cast stone surrounds define the door opening on East Jefferson and Ashland Avenues. The entablature above the door on East Jefferson Avenue states, "Fox Creek Backwater Gates." A flagpole is on the site.

**14801 East Jefferson — Peter Platte Motor Sales/B.F. Goodrich** — Three-story, brick and reinforced concrete commercial building, 1919. Constructed as a automotive sales showroom. In 1936 an addition was constructed for a two-story service center. In 1956, a permit was taken out to alter the front of the building with light blue metal sheathing that wraps around the Ashland Avenue and East Jefferson Avenue elevations. The rear portion of the building is set back from Ashland Avenue, and did not get covered

in the renovation. The Ashland Avenue façade of the metal sheathing was painted with the image of a large tire, and signage for "Tires Galore" and "B. F. Goodrich" still remain on the front of the building. In the rear of the building, at the top of the elevator shaft, a painted sign for Ford and Lincoln remains.

**14901 East Jefferson — The Deck Bar** — Two-story, brick commercial building, 1918. Located at the corner of East Jefferson Avenue and Alter Road. Three storefronts were placed on the East Jefferson elevation, and two apartments above. Elaborate cast stone enframes the windows on one bay of the first floor of the East Jefferson Avenue façade, the windows of the Alter Road façade and a corner entrance. The metal cornice is still intact. There are two oriel windows, faced with wood siding, on the East Jefferson Avenue façade's second story. There is also one oriel window on the Alter Road elevation. It appears that the oriel windows are probably alterations. A cast stone bulkhead runs down the Alter Road elevation and a portion of the East Jefferson Avenue elevation.

Decorative details include herringbone and corbelled brick patterns, griffins, tiled pent roofs and balconies. On Alter Road, the entrance is placed asymmetrically to the north side of the building, and is emphasized by limestone trim that surrounds the entrance and a set of three windows to its right. The northern façade has a small projecting, tile roofed entrance, and a three-sided bay of windows projects forward from the façade. The Ashland Avenue façade features brick balconies for four floors of apartments, on each side of the entrance. A false front gable at the roofline rises above a three-sided bay of windows. and exhibits more architectural details than the other buildings in the group. A round brick arch fills the front gable, and it has been inset with what are most likely Pewabic tiles. The front entrance projects from the façade and is also gabled and roofed with barrel tiles. A Moorish arch and quoins of cast stone surround the entrance door. There are two insets of what appears to be Pewabic tiles on the façade, one on the false chimney, and the other centered above the stairway window over the entrance.

St. Columba Church is cruciform in plan and has its main entrance on Manistique Avenue at the south end of the nave. This asymmetric design reflects the English Gothic Revival style favored by Protestant churches. The building is sheathed in multi-toned limestone, and the slate roof and copper gutters and bell tower louvers are intact. Stone surrounds on the windows, doors, buttresses and end piers emphasize the building's structure. Stained glass windows line the nave, and there is a large stained glass window at the apse.

(D) The defined elements of design, as provided for in Section 25-2-2 of this code, shall be as follows:

(1) *Height.* Buildings in the district range from one (1) to four and one-half (4-1/2) stories; the buildings at the higher range are usually apartment buildings that sit on high basements, or religious buildings.

(2) *Proportion of Building's Front Façade.* Most individual buildings are wider than tall, with the notable exceptions being church buildings, which tend to be taller than wide or as wide as tall. Where contributing buildings are situated on corner lots, their visible side elevations are generally wider than tall.

(3) *Proportion of Openings Within the Façade.* Storefront windows on the ground floor are generally composed of large panes of glass above a low brick or concrete apron wall and beneath a horizontal sign panel and/or transom. Entrance openings occupy a variety of positions among the storefronts; some of the smaller buildings feature a single doorway recessed between the angled faces of the flanking display windows while wider facades with more storefronts have separate entrances to each store. On commercial buildings with residential units on the upper stories, the residential units are accessed through a central entrance. Where buildings are situated on

corner lots, an entrance opening is frequently angled at the corner. Where those buildings have residential and/or office components, the entrance to the dwelling units or offices is on the side elevation. Individual window units above the ground floor are often horizontally arranged by floor in a regular fashion, frequently in groups. Double-hung sash windows are twice as tall as wide and are sometimes arranged in groups, as are the Chicago-style windows composed of a large central sash flanked by two narrower windows. Storefront and window openings are frequent targets of alterations and boarding, but their original configuration may be apparent underneath. Religious structures feature more variety in fenestration, typical of ecclesiastical architecture, such as large openings in the gables, segmental arched openings, and narrow groupings of openings. The percentage of openings ranges from thirty-five (35) percent to sixty (60) percent of the front façade areas of contributing buildings.

(4) *Rhythm of Solids to Voids in The Front Façade.* Openings within the facades are generally regularly arranged, horizontally by floor and vertically by bay, due to the classical stylistic derivation of most of the buildings and/or their steel frame and curtain wall construction. Where buildings with similar arrangements abut, the horizontal flow extends to the next building. A rhythm of storefronts at ground level adds to the flow of the buildings on the street level.

(5) *Rhythm of Spacing of Buildings on Streets.* Where buildings abut each other along East Jefferson Avenue, the continuous flow of the streetscape is broken rhythmically only by the intersection of side streets. Where gaps exist because of building demolition, that rhythm is broken.

(6) *Rhythm of Entrance and/or Porch Projections.* Where entrances are recessed between two display windows, or are spaced evenly between multiple storefronts, a strong rhythm is created. The placement of original entrances is not consistent, but is depending on the number of retail spaces entered from the street. The buildings originally housing ballrooms once had marquees projecting over their entrances; many buildings have modern awnings. Some ground floor display windows have rolling metal security covers. While vestiges of some older signs hang over the sidewalk, the more common area for retail signage is in a panel above the storefront openings.

(7) *Relationship of Materials.* The major materials in the district are brick and cast stone. Other major materials include limestone, ashlar, ceramic tile and structural glass. Face brick on and fronts of buildings often extends into the side elevations but changes to common brick

for the majority of the sides and rear. Window frames, sash and mullions are of wood or metal. Slate is used as a roofing material on some churches, which also display stained glass. Some downspouts in the district are copper.

(8) *Relationship of Textures.* A variety of textural relationships exist in the district, the most common being textured or pressed brick with mortar joints juxtaposed to cast stone trim. The art deco styling of several of the buildings is manifested by zigzag, diamond, chevron, and other patterns of brick. Some surface panels and parapet roofs are clad in tile, creating textural effects. Structural glass surfaces, where they exist, result in smooth surfaces. Religious structures in medieval styles exhibit stone facades, ornament, lintels, sills, door and window surrounds, and decorative details, resulting in rich textural qualities. Subdivided windows and repetitious window arrangements also contribute to textural effects. In general, the district is rich in textural interest.

(9) *Relationship of Colors.* Natural brick colors — red, beige, yellow, orange, brown and buff, and beige limestone are major facade colors in the district. Light cast stone trim provides contrast to the darker materials. The use of contrasting, colorful brick also results in colorful patterns. Color applied to window frames, sash, and mullions range from green, brown, gray, putty and black. Ceramic tile, usually green, gray slate roofs on religious buildings, and red Spanish tile on the slopes of parapet walls, where they exist, add significantly to the color relationships in the district.

(10) *Relationship of Architectural Details.* The district features commercial buildings dating from the second three decades of the twentieth century. Characteristics of this period of American architecture are references to classical or medieval styles, but also art deco and moderne. Three-to-four-story apartment buildings that face the side streets feature classically inspired applied ornament, the exception being the Windmill Point Manor, a Spanish art deco building with colonnades, tiled porch roofs, and decorative brickwork highlighting its exterior. The five ecclesiastical buildings are of medieval styles, featuring asymmetrical arched openings, cast stonework, towers, gables, buttresses and stained glass. Parapet walls of commercial buildings lining East Jefferson Avenue, with their various designs that include upward projections at their corners, raised pediments, and decorative cresting, create variety at the roofline and an interesting silhouette along the streetscape. Many buildings throughout the district bear a nameplate with either the name or initial of the building integrated in with its architectural design.

(11) *Relationship of Roof Shapes.* Most roofs in the district are flat and therefore generally not visible from the street, with the exception of those over religious structures and parapets walls with slopes often clad in green tiles.

(12) *Walls of Continuity.* Walls of continuity are created by the continuous flow of abutting buildings along the front lot lines. This continuity is broken where buildings have been demolished. Lesser walls of continuity are created by modern street furniture, including lighting.

(13) *Relationship of Significant Landscape Features and Surface Treatments.* The major surface directly in front of buildings facing East Jefferson Avenue is the recently improved wide concrete sidewalk with rows of brick pavers extended from the concrete curb to the building line. Street features include more recent lighting standards with five large globes, large concrete aggregate planters, and in-ground planters in the sidewalk that have young trees planted in the soil. Tall, fluted light standards with modern cranes and light fixtures tower over the streets. Fox Creek Park is separated from the public right-of-way by a low concrete wall with a chain link fence over the creek and chain link around the park, landscaped with plantings and a gravel path. The Backwater Gates, on the north side of East Jefferson Avenue across from Fox Creek Park, is also fenced and has a shallow front and side yard. Marlborough Avenue is paved in brick to East Jefferson Avenue. Alleys are either concrete or blacktop and in poor surface condition.

(14) *Relationship of Open Space to Structures.* Open space generally exists in the form of public right-of-way in the fronts of buildings on East Jefferson Avenue and the side when the building is on a corner lot, such as the sidewalk and street. Wherein an adjacent building is no longer extant, the vacant lot is used as parking or is unimproved. Lots along the rear property lines and alleys are frequently fenced with chain link varying heights. Where the upper part of the brick side elevation of a building is visible, an old painted advertising sign may still be extant.

(15) *Scale of Façade and Façade Elements.* The scale of facade elements is appropriate to the style and size of the building and ranges greatly from building to building. Large elements, such as pilasters, embellished cornices, and window units, are often balanced with ornamental, repetitive small-scaled detail. Modern lighting replicating old-fashioned fixtures over the display windows of storefronts is small in scale.

(16) *Directional Expression of Front Elevation.* Most front elevations express horizontally, an impression reinforced by the repetition of similar storefronts along

the street and the low height of the buildings. The buildings, when taken in sections, form short but unbroken horizontal streetscapes. The churches, because of the vertical expression of buttresses, gables, and towers, have a vertical or balanced directional expression.

(17) *Rhythm of Building Setbacks.* A consistency of building setback is created, except where demolition has occurred, due to the siting of the buildings on the front lot lines along East Jefferson Avenue.

(18) *Relationship of Lot Coverages.* Buildings on corner lots often occupy most of their entire parcels, with smaller buildings in the middle of the blocks occupying far less of their parcels. The percentage of lot coverage is approximately thirty-five (35) to one hundred (100) percent.

(19) *Degree of Complexity Within the Façade.* The degree of complexity ranges from the simple to moderately complex. Arrangements of windows, elements and details within are regular and repetitive in nature.

(20) *Orientation, Vistas, Overviews.* The primary orientation is towards East Jefferson Avenue, except when buildings are located on side streets, which they are then oriented towards. The six lanes of roadway with a middle turn lane create an expansive vista and large divide from one side of the thoroughfare to the other. The wide, uninterrupted sweep of East Jefferson Avenue lined with buildings of fairly uniform heights results in a consistent but varied silhouette.

(21) *Symmetric or Asymmetric Appearance.* While most building facades above the first story are symmetrical, the district as a whole is asymmetrical in appearance due to the difference in architectural treatments and varied number of storefronts.

(22) *General Environmental Character.* The Jefferson-Chalmers Business Historic District is a low scale, mixed use neighborhood commercial district that maintains a high degree of integrity but faces increasing pressures from redevelopment and lack of physical maintenance. With viable residential areas towards the Detroit River and the waterway and riverfront parks as major assets, the proposed district has potential to grow into a gateway that complements that of the Grosse Pointes.

Amendment to the Intergovernmental Agreement.

This letter is submitted to your honorable body to transmit the two attached documents for your review. The first, a resolution for a Detroit Land Bank Authority and the second is the proposed Intergovernmental Agreement between the City of Detroit and the Michigan Land Bank Fast Track Authority.

We urge your honorable body to adopt this resolution.

#### RESOLUTION

By Council Member Collins:

Whereas, It is estimated that the City of Detroit has more than 27,000 parcels of tax reverted and vacant surplus properties in its inventory that are not being utilized in a productive manner to provide housing, commercial operations and jobs and that are a potential source of property tax revenue for the City of Detroit; and

Whereas, Residents of Detroit and others wishing to reside in Detroit could take advantage of all the benefits of home ownership including a greater sense of control over their destiny, an opportunity to increase their personal wealth through the ownership of a home over time and a

greater stake in an commitment to their neighborhood; and

Whereas, Residents of Detroit and others wishing to invest in commercial property in Detroit can take advantage of all the benefits of owning and operating a small business which will provide residents a greater variety of goods and services and increase the general fund through the payment of property and income taxes; and

Whereas, The disposition of city-owned property reduces the cost of upkeep to the General Fund, reduces the risk of liability losses that impact the General Fund, and brings in needed tax revenue; and

Whereas, The disposition of city-owned vacant lots and shuttered structures eliminates the blighting influence of these properties on neighboring parcels which in turn reduces their property values and Detroit tax revenue; and

Whereas, The Detroit Land Bank Authority would primarily focus on the reduction of neighborhood blight by encouraging the revitalization and rebuilding of neighborhoods through rehabilitation, repair and development of affordable and market rate housing; and would also encourage the development of commercial, industrial, and recreational areas in the City of Detroit; and

Whereas, The redevelopment of these neighborhoods would create jobs for Detroiters; and

Whereas, Public Act 258 of 2003 (the Land Bank Fast Track Act) allows for the discretionary creation of local land bank fast track authorities to assist municipalities such as the City of Detroit in assembling and clearing properties; and

Whereas, The Detroit Land Bank Authority would have any powers granted to it by the State of Michigan Land Bank Fast Track Authority and would be encouraged to work with the State of Michigan Land Bank Authority and Wayne County when given the opportunity to do so; and

Whereas, The creation of a Detroit Land Bank Authority would have available to it many advantages and the necessary tools to accelerate redevelopment activity by decreasing the time it takes to clear title, acquire brownfield tax status, and process the disposition of property in a more timely manner; and

Whereas, The creation of a Detroit Land Bank Authority would in no way preclude the creation of a land trust, nor would a land trust preclude the creation of a land bank authority where each could be created as complementary tools to increase the supply of affordable housing, and the Detroit Land Bank Authority would be encouraged to explore a partnership with a nonprofit organization interested in creating a land trust; and

Whereas, The properties and income of the Detroit Land Bank Authority must be dedicated to essential public purposes

and would be exempt from state or local taxation; and therefore the Detroit Land Bank Authority must give priority consideration to development proposals that contribute to the public good and sustainability of Detroit's neighborhoods; and

Whereas, The Detroit Land Bank Authority's development projects and proposals would be subject to the City of Detroit's master plan, consolidated plan, zoning, buildings and safety, other regulation of development activity; and must also be in agreement with other community-based plans; and

Whereas, The Detroit Land Bank Authority would be required to comport with the Open Meetings Act (P.A. 267 of 1976) thereby incorporating transparency, public involvement, and forums for public comment on all decisions and disposition action; and

Whereas, The Detroit Land Bank Authority shall provide a comprehensive annual report to the Detroit City Council, including, but not limited to statistics regarding land dispositions and impacts on Detroit neighborhoods; and

Whereas, The Detroit Land Bank Authority Board of Directors shall consist of seven members, including two (2) *ex officio* members serving by virtue of their positions as heads of their respective agencies and five (5) appointed members as follows:

(a) The Director of the City Planning and Development Department, or his or her designee.

(b) The Director of the City Planning Commission, or his or her designee.

(c) Two (2) individuals appointed by the Mayor.

(d) Two (2) individuals appointed by the City Council.

(e) One (1) individual appointed by the Mayor, with the advice and consent of the City Council.

At least five (5) of the seven (7) members of the Detroit Land Bank Authority Board of Directors shall be residents and registered electors of the City of Detroit.

Whereas, The Detroit Land Bank Authority will forward to the Council a copy of its Bylaws and its Policies and Procedures and the Detroit City Council can choose not to transfer any property to the Detroit Land Bank Authority unless the questions and concerns of the Detroit City Council have been addressed; and

Whereas, It is the intent of the Detroit City Council that the initial transfer of City-owned properties from the City to the Detroit Land Bank Authority in a pilot project shall total between 5,000 and 10,000 parcels and shall represent two or three different geographic areas and varying types of development potential in order to ensure an adequate inventory from which to evaluate the initial operations of the Detroit Land Bank Authority; and

May 13

1120

2008

Whereas, It is the expectation of the Detroit City Council that the Detroit Land Bank Authority will fund its operations from property sales and the limited tax revenue set aside as allowed by law while still providing opportunities for nonprofit organizations and others to acquire land at a reasonable cost so as to provide for affordable housing and economic development; and

Whereas, It is the intent of the Detroit City Council to revisit and review the operations of the Detroit Land Bank Authority after two years of operation to determine if the Detroit Land Bank Authority is operating in a manner that best serves the citizens of Detroit and the development interests of City; and

Whereas, By their cooperative efforts, the Detroit City Council and the Mayor have the ability to improve the viability and efficiency of the City's development projects and opportunities and believe that the creation of a Detroit Land Bank Authority is a vital first step in encouraging productive use of surplus City-owned property; and,

Whereas, This proposal for the creation of a Detroit Land Bank authority has received an outpouring of community support from groups including MOSES, Community Development Advocates of Detroit, Detroit LISC, Detroit Renaissance, Community Legal Resources;

Now, Therefore, Be It Resolved, That the Detroit City Council supports the creation of a Detroit Land Bank Authority and approves the Intergovernmental Agreement between the Michigan Land Bank Fast Track Authority, a Michigan public body corporate and politic, and the City of Detroit, a Michigan municipal corporation, creating the Detroit Land Bank Authority, a Michigan municipal corporation, creating the Detroit Land Bank Authority, a Michigan public body corporate, in substantially the form attached to this resolution; and be it further

Resolved, That the Mayor of the City of Detroit is authorized to execute the Intergovernmental Agreement on behalf of the City of Detroit; and be it further

Resolved, That the Mayor of the City of Detroit or his designee(s) are authorized to take such further action as may be necessary or convenient to effectuate this resolution.

**RESOLUTION**

By Council Member Collins:

Whereas, It is estimated that the City of Detroit has more than 27,000 parcels of

tax reverted and vacant surplus properties in its inventory that are not being utilized in a productive manner to provide housing, commercial operations and jobs and that are a potential source of property tax revenue for the City of Detroit; and

Whereas, Residents of Detroit and others wishing to reside in Detroit could take advantage of all the benefits of home ownership including a greater sense of control over their destiny, an opportunity to increase their personal wealth through the ownership of a home over time and a greater stake in an commitment to their neighborhood; and

Whereas, Residents of Detroit and others wishing to invest in commercial property in Detroit can take advantage of all the benefits of owning and operating a small business which will provide residents a greater variety of goods and services and increase the general fund through the payment of property and income taxes; and

Whereas, The disposition of city-owned property reduces the cost of upkeep to the General Fund, reduces the risk of liability losses that impact the General Fund, and brings in needed tax revenue; and

Whereas, The disposition of city-owned vacant lots and shuttered structures eliminates the blighting influence of these properties on neighboring parcels which in turn reduces their property values and Detroit tax revenue; and

Whereas, The Detroit Land Bank Authority would primarily focus on the reduction of neighborhood blight by encouraging the revitalization and rebuilding of neighborhoods through rehabilitation, repair and development of affordable and market rate housing; and would also encourage the development of commercial, industrial, and recreational areas in the City of Detroit; and

Whereas, The redevelopment of these neighborhoods would create jobs for Detroiters; and

Whereas, Public Act 258 of 2003 (the Land Bank Fast Track Act) allows for the discretionary creation of local land bank fast track authorities to assist municipalities such as the City of Detroit in assembling and clearing properties; and

Whereas, The Detroit Land Bank Authority would have any powers granted to it by the State of Michigan Land Bank Fast Track Authority and would be encouraged to work with the State of Michigan Land Bank Authority and Wayne County when given the opportunity to do so; and

Whereas, The creation of a Detroit Land Bank Authority would have available to it many advantages and the necessary tools to accelerate redevelopment activity by decreasing the time it takes to clear title, acquire brownfield tax status, and process the disposition of property in a more timely manner; and

Whereas, The creation of a Detroit

Land Bank Authority would in no way preclude the creation of a land trust, nor would a land trust preclude the creation of a land bank authority where each could be created as complementary tools to increase the supply of affordable housing, and the Detroit Land Bank Authority would be encouraged to explore a partnership with a nonprofit organization interested in creating a land trust; and

Whereas, The properties and income of the Detroit Land Bank Authority must be dedicated to essential public purposes and would be exempt from state or local taxation; and therefore the Detroit Land Bank Authority must give priority consideration to development proposals that contribute to the public good and sustainability of Detroit's neighborhoods; and

Whereas, The Detroit Land Bank Authority's development projects and proposals would be subject to the City of Detroit's master plan, consolidated plan, zoning, buildings and safety, other regulation of development activity; and must also be in agreement with other community-based plans; and

Whereas, The Detroit Land Bank Authority would be required to comport with the Open Meetings Act (P.A. 267 of 1976) thereby incorporating transparency, public involvement, and forums for public comment on all decisions and disposition action; and

Whereas, The Detroit Land Bank Authority shall provide a comprehensive annual report to the Detroit City Council, including, but not limited to statistics regarding land dispositions and impacts on Detroit neighborhoods; and

Whereas, The Detroit Land Bank Authority Board of Directors shall consist of seven members, including two (2) *ex officio* members serving by virtue of their positions as heads of their respective agencies and five (5) appointed members as follows:

(a) The Director of the City Planning and Development Department, or his or her designee.

(b) The Director of the City Planning Commission, or his or her designee.

(c) Two (2) individuals appointed by the Mayor.

(d) Two (2) individuals appointed by the City Council.

(e) One (1) individual appointed by the Mayor, with the advice and consent of the City Council.

At least five (5) of the seven (7) members of the Detroit Land Bank Authority Board of Directors shall be residents and registered electors of the City of Detroit.

Whereas, The Detroit Land Bank Authority will forward to the Council a copy of its Bylaws and its Policies and Procedures and the Detroit City Council can choose not to transfer any property to the Detroit Land Bank Authority unless

the questions and concerns of the Detroit City Council have been addressed; and

Whereas, It is the intent of the Detroit City Council that the initial transfer of City-owned properties from the City to the Detroit Land Bank Authority in a pilot project shall total between 5,000 and 10,000 parcels and shall represent two or three different geographic areas and varying types of development potential in order to ensure an adequate inventory from which to evaluate the initial operations of the Detroit Land Bank Authority; and

Whereas, It is the expectation of the Detroit City Council that the Detroit Land Bank Authority will fund its operations from property sales and the limited tax revenue set aside as allowed by law while still providing opportunities for nonprofit organizations and others to acquire land at a reasonable cost so as to provide for affordable housing and economic development; and

Whereas, It is the intent of the Detroit City Council to revisit and review the operations of the Detroit Land Bank Authority after two years of operation to determine if the Detroit Land Bank Authority is operating in a manner that best serves the citizens of Detroit and the development interests of City; and

Whereas, By their cooperative efforts, the Detroit City Council and the Mayor have the ability to improve the viability and efficiency of the City's development projects and opportunities and believe that the creation of a Detroit Land Bank Authority is a vital first step in encouraging productive use of surplus City-owned property; and,

Whereas, This proposal for the creation of a Detroit Land Bank authority has received an outpouring of community support from groups including MOSES, Community Development Advocates of Detroit, Detroit LISC, Detroit Renaissance, Community Legal Resources;

Now, Therefore, Be It Resolved, That the Detroit City Council supports the creation of a Detroit Land Bank Authority and approves the Intergovernmental Agreement between the Michigan Land Bank Fast Track Authority, a Michigan public body corporate and politic, and the City of Detroit, a Michigan municipal corporation, creating the Detroit Land Bank Authority, a Michigan municipal corporation, creating the Detroit Land Bank Authority, a Michigan public body corporate, in substantially the form attached to this resolution; and be it further

Resolved, That the Mayor of the City of Detroit is authorized to execute the Intergovernmental Agreement on behalf of the City of Detroit; and be it further

Resolved, That the Mayor of the City of Detroit or his designee(s) are authorized to take such further action as may be necessary or convenient to effectuate this resolution.

Re: Petition No. 2381 — Detroit Beer Co., request for Outdoor Café Permit at 1529 Broadway.

The above named Petitioner has requested permission for an Outdoor

Café Service. This service will convene April 1, 2008 through November 30, 2008.

The Department of Public Works/City Engineering Division (DPW/CED) who has jurisdiction over temporary encroachment on City right-of-ways has approved this petition provided that the café meets the regulation set by the "Outdoor Café Guidelines" as supported by the City Council and guided by Chapter 58, Section 50-2-8.1 of the City Code.

The Department of Health and Wellness Promotion has approved this petition, subject to petitioners strict adherence to the 1999 Food Code, Food Law of 2000 and the City Ordinance, Chapter 21. Any outdoor grilling will require approval of the Health Department Food Sanitation Section.

The Planning and Development Department (P&DD) is not aware of any objections from any other city agencies involved. It is the recommendation of the P&DD that the petitioner's request be granted subject to terms and conditions provided in the attached Resolution.

Re: Address: 13661 Cedargrove. Name:  
Trott & Trott-Charles Hahn. Date  
ordered removed: October 29, 2007  
(J.C.C. p. ).

In response to the request for a deferral of  
the demolition order on the property noted  
above, we submit the following information:

A special inspection on March 28, 2008  
revealed the building is secured and  
appears to be sound and repairable.

The owner has paid the current taxes  
due as of March 25, 2008.

The proposed use of the property is  
rehabilitation and sale. This is the first  
deferral request for this property.

Therefore, it is recommended that the  
demolition order be deferred for a period  
of three (3) months subject to the follow-  
ing conditions:

1. The building shall be maintained  
securely barricaded until rehabilitation is  
complete. All relevant permits for rehabili-  
tation work shall be obtained. Rehabilita-  
tion is to be complete within six (6)  
months, at which time the owner will  
obtain one of the following from this  
department:

- Certificate of Acceptance related to  
building permits
- Certificate of Approval as a result of a  
Housing Inspection
- Certificate of Inspection, required for  
all residential rental properties

2. The owner shall not occupy or allow  
occupancy of the structure without a cer-  
tificate (as outlined above).

3. The yards shall be maintained clear  
of weeds, junk and debris at all times.

We recommend that utility disconnect  
actions cease to allow the progress of the  
rehabilitation.

At the end of the deferral period, the  
owner must contact this department to  
arrange an inspection to evidence that  
conditions of the deferral have been main-  
tained and that there has been substantial  
progress toward rehabilitation. If the build-  
ing becomes open to trespass or if condi-  
tions of the deferral are not maintained,  
we may proceed with demolition without  
further hearings. And, pursuant to the  
Property Maintenance Code we will issue  
a Blight Violation Notice.

A request for deferral exceeding four  
must be made by petition to City Council  
through the office of the City Clerk.

Honorable City Council:

Re: Request to adopt the Resolution authorizing an Installment Purchase Master Lease Agreement between the City of Detroit and Minority Alliance Capital, LLC.

This financing will allow the City to raise approximately \$4.5 million for costs related to the acquisition and installation of the Oracle-based Treasury/Cash Management Module to interface with the City's General Ledger. While various financing alternatives were considered (including the issuance of bonds), we have determined that the most cost effective option

for financing the equipment is through Minority Alliance Capital, LLC.

The attached Resolution will authorize the City to execute Equipment Schedule No. 01 under a Master Lease Agreement between the City and Minority Alliance Capital, LLC.

Adoption is respectfully requested with Waiver of Reconsideration at your next scheduled formal session.

Respectfully submitted,  
NORMAN L. WHITE  
Chief Financial Officer

By Council Member S. Cockrel:

Whereas, The City of Detroit (the "City") has entered into agreements with Compuware Corporation, DGC, Pierce Monroe and MRS (the "Agreement"), providing for the acquisition and installation of computer software and hardware to be located at various locations throughout the city (the "Property"); and

Whereas, It is anticipated that the City will advance a portion of the costs of the Treasury/Cash Management projects prior to the issuance of an installment purchase contract, such advances to be repaid from the proceeds of upon the issuance thereof; and

Whereas, Section 1.150-2 of the Treasury Regulations on Income Tax (the "Reimbursement Regulations") specifies conditions under which a reimbursement allocation may be treated as an expenditure of the proceeds of tax-exempt obligations, and the City intends by this resolution to qualify amounts advanced by the City to the Treasury/Cash Management component for reimbursement from proceeds of the Obligation in accordance with the requirements of the Reimbursement Regulations;

Whereas, It is determined to be necessary and desirable and in the best interest of the City that the acquisition and installation of the Property be financed by an installment contract authorized under the provisions of Act No. 99, Public Acts of Michigan, 1933 as amended, and more specifically by the acquisition and installation of the Property pursuant to an installment contract identified as a Master Lease Agreement (the "Lease"), between the City and Minority Alliance Capital, LLC. (the "Lessor"), and Equipment Schedule No. 01 on file in the City Clerk's Office relating to the Property, in the aggregate principal amount not to exceed \$4,600,000 (the "Schedule" and together with the Lease, collectively the "Contract"); and

Whereas, The Equipment is essential for the Lessee to perform its governmental functions; and

Whereas, The funds made available under the Lease will be deposited with Suntrust Bank (the "Escrow Agent") pursuant to an Escrow Agreement between Lessee and the Escrow Agent (the

"Escrow Agreement") and will be applied to the acquisition of the Equipment in accordance with said Escrow Agreement; and

Whereas, The Lessee proposes to enter into the Lease with Minority Alliance Capital, LLC and the Escrow Agreement with the Escrow Agent substantially in the forms presented.

Whereas, The aggregate outstanding balance, exclusive of interest, of all purchases made by the City pursuant to Act 99, including the Lease, does not exceed 1-1/4% of the taxable value of the real and personal property of the City.

Now, Therefore, Be It Resolved That:

1. It is hereby found to be necessary and desirable for the City to finance the cost of the acquisition and installation of the Property in the aggregate principal amount not to exceed \$4,600,000 pursuant to the terms and conditions of the Lease.

2. (a) The Lease is hereby ratified and confirmed. The Schedule shall be dated the date of delivery thereof. The Lease shall be payable in rental payments, consisting of both a principal portion and an interest portion, on such dates and in such years and amounts as shall be determined by the Finance Director and set forth in the Schedule at the time of the execution and delivery thereof; shall be in the aggregate principal amount not to exceed \$4,600,000 as shall be determined by the Finance Director and set forth in the Schedule at the time of the execution and delivery thereof; and may be prepaid on such dates and in such years and upon the payment of a prepayment fee, if any, as shall be determined by the Finance Director and set forth in the Schedule at the time of the execution and delivery thereof. Notice of any such prepayment shall be given as provided in the Contract.

(b) In making the determinations set forth in (a) above, the Finance Director shall be limited as follows:

(1) The first rental payment under the Schedule that contains a principal portion shall be due not later than July 1, 2008, and the final rental payment under the Schedule shall be due not later than May 1, 2013.

(2) The amount of the principal portion of the rental payments due under the Schedule in any one year shall not exceed \$1,000,000.

2. The Mayor and the Finance Director are hereby authorized to enter into the Schedule in substantially the form presented to the City Council (upon which form the City Clerk shall indicate the date

of adoption of this resolution), with such changes thereto as are approved by the Finance Director, consistent with the terms of this resolution and not materially adverse to the City. The Schedule shall be executed with the facsimile signature of the Mayor and the manual signature of the Finance Director and shall have the seal of the City impressed or imprinted thereon. The approval of such changes by the Finance Director shall be conclusively evidenced by his signature on the Schedule. The Schedule may be executed in counterparts, each of which shall be an original and all of which shall constitute but one and the same instrument.

3. Except as provided in Section 4.3 of the Lease, the obligation of the City to make rental payments to the Lessor as provided in the Contract shall be absolute and unconditional in all events; provided, however, nothing contained herein or in the Contract shall limit the rights or remedies of the City under the Agreement.

4. The City covenants to comply with all provisions of the Internal Revenue Code of 1986, as amended (the "Code"), necessary to maintain the exclusion of the interest portion of the rental payments due on the Contract from gross income for federal income tax purposes.

5. The Mayor, the City Clerk, the Finance Director and other officers of the City as may be necessary are each hereby authorized to execute and deliver such documents, instruments and certificates as are necessary or desirable to consummate the described transaction and to maintain the exclusion of the interest portion of the rental payments due on the Contract from gross income for federal income tax purposes.

6. The useful life of the property is determined to be five (5) years and upwards.

7. All resolutions and parts of resolutions insofar as they conflict with the provisions of this resolution are rescinded.

WHEREAS, On May 5, 2008, the Detroit City Council's Special Counsel submitted to this Honorable Body a Report of findings regarding the Legislative Hearings, which outlines numerous acts of official misconduct by the Mayor, including his deliberate violation of at least three provisions of the Charter of the City of Detroit, to wit:

Section 2-106. Standards of Conduct

The use of public office for private gain is prohibited.

Section 6-403. Civil Litigation

No civil litigation of the city may be settled without the consent of the city council.

Section 8-303. Penalties for violation

Any incurring of obligation or authorization of payment in violation of the provisions of this Charter shall be void and any payment so made illegal; the action shall be cause for removal of any officer who knowingly incurred the obligation or authorized to make the payment, and he or she shall also be liable to the city for any amount so paid and to any criminal sanctions imposed by law or ordinance.

And

WHEREAS, On May 13, 2008, this Honorable Body passed a resolution adopting the findings of fact in the Special Counsel's Report dated May 5, 2008; and Sec. 2-107. Dismissal proceedings

2. *Forfeiture.* The position of an elective city officer or an appointee shall be forfeited if he or she:

B. Violates any provision of this Charter punishable by forfeiture; or

And

WHEREAS, The City Charter declares that this Honorable Body shall be the judge of the grounds that merit forfeiture under the City Charter; to wit:

Sec. 2-107. Dismissal proceedings

The city council shall be the judge of

the grounds of forfeiture of an elective officer or an appointee.

And

WHEREAS, Mayor Kwame M. Kilpatrick has failed in his obligations, has violated the trust of the citizens of Detroit, violated provisions of the Detroit City Charter, and dishonored the office which the citizens entrusted to him through the following actions:

1.) Immediately after the \$6.5 million *Brown/Nelthrope* verdict, the Mayor defiantly proclaimed that there would definitely be an appeal and no settlement;

2.) When plaintiff's attorney Michael Stefani disclosed that he had possession of the text messages at the court-ordered, post-trial facilitation, implicating the Mayor in potentially criminal behavior, the Mayor immediately settled the case (and the related *Harris* case) for well over the amount of the full verdict, and for between 80% and 85% of the full value of the case, an unprecedented, and hasty, payment after a verdict;

3.) The Mayor never would have settled the case without Attorney Stefani's threat to disclose the text messages, as the text messages strongly implied that the Mayor and his former Chief of Staff had engaged in criminal behavior and other egregious conduct;

4.) The Mayor required that, as a major part of the settlement, that both the existence and contents of the text messages were to be turned over to the Mayor and to be kept, as was memorialized in a "confidentiality agreement;"

5.) The Mayor entered into the confidentiality agreement to protect himself, personally, and his former Chief of Staff and Christine Beatty, personally, and that the confidentiality agreement had nothing to do with protecting the interests of the City of Detroit;

6.) The Mayor required that the terms of the confidentiality agreement, as well as its existence, were to be kept secret from the Detroit City Council, while at the same time the Mayor sought formal consent to the monetary terms of the settlement agreement, from City Council;

7.) The Mayor, acting through his lawyers and the City's lawyers manipulated the City Council to consent to the settlement by deliberately withholding from Council critical information, i.e. the confidentiality agreement and the reasons why it came into existence, through an elaborate scheme of documents;

8.) The Mayor settled multi-million dollar litigation against the City, without the informed consent — and therefore, without the authentic consent — of the Detroit City Council, thereby violating Section 6-403 of the City Charter;

9.) The Mayor used his public office for private gain, in violation of Section 2-106 of the Charter;

10.) The Mayor incurred an authorization of payment, specifically of the *Brown/Nelthrope/Harris* settlement, as well as an obligation for said payment, in violation of the both Section 2-106 and 6-403 of this Charter, all in violation of Section 8-303 of the Charter;

And

WHEREAS, This Honorable Body finds that violation of Sec. 2-106 constitutes grounds for forfeiture of elective office; and

WHEREAS, This Honorable Body finds that the Mayor settled the *Brown/Nelthrope/Harris* case against the City without the informed consent — and therefore, without the authentic consent — of the Detroit City Council, thereby violating Section 6-403 of the City Charter in violation of Sec. 6-403 of the City Charter and that this behavior constitutes grounds for forfeiture of elective office; and

WHEREAS, This Honorable Body finds that violation of Sec. 8-303 of the City Charter constitutes grounds for forfeiture of elective office; NOW, THEREFORE, BE IT

RESOLVED, That the Detroit City Council charges Mayor Kwame M. Kilpatrick with conduct that constitutes forfeiture on three distinct grounds, to wit, violations of Sec. 2-106, Sec. 6-403, and Sec. 8-303 of the Detroit City Charter; AND BE IT FINALLY

RESOLVED, That this Honorable Body shall schedule a public hearing on or about June 13, 2008, before the entire body on the the charge that conduct by Mayor Kwame M. Kilpatrick in violation of Sec. 2-106, Sec. 6-403, and Sec. 8-303 of the City Charter constitutes grounds for forfeiture of elective office, and notice of the hearing shall be published in one (1) or more daily newspapers of general circulation in the city at least one (1) week in advance of the hearing.

and that I will faithfully discharge the duties of office to the best of my ability;" and

WHEREAS, It is implicit in the Oath of Office that there the Mayor provide accurate, honest and complete information to the City Council when he is obligated by the Charter to do so, so as to assure that settlements are in the best interests of the City of Detroit, as distinguished from the personal interest of an elected official of the City of Detroit, i.e. Mayor Kwame M. STATEMENT BY COUNCIL PRESIDENT  
KENNETH V. COCKREL, JR. ON VOTE  
OF RESOLUTIONS PERTAINING TO  
MAYOR KWAME KILPATRICK

May 13, 2008

Today I joined with the majority of the Detroit City Council in voting to support four important resolutions pertaining to Mayor Kwame Kilpatrick.

The four resolutions include:

1. A resolution to receive and accept the findings outlined in the investigative report on the circumstances surrounding the settlement of Brown, Nelthrope & Harris vs. the City of Detroit.

2. A resolution to censure Mayor Kwame Kilpatrick.

3. A resolution asking Governor Jennifer Granholm to remove the Mayor from office using her powers under the constitution of the State of Michigan.

4. A resolution declaring that Council believes the Mayor's conduct in the settling of the aforementioned lawsuit was inappropriate and therefore meets the grounds for forfeiture of his seat under the City Charter.

This was not an easy vote for me personally. In fact, it may have been the most difficult vote I have ever had to take. It was however a vote that I believe was necessary. The majority of the Council has already voted to ask the Mayor to resign. He has steadfastly refused. In the interim, City Council's investigation into the settlement and its legislative hearings on the same matter have produced further evidence of grave wrong-doing and a deliberate attempt to withhold critical information from the City Council and the public.

Such actions run contrary to the cause

of good government and cannot be tolerated. Detroit residents have the right to demand honesty and integrity in their elected officials. When those officials fail to deliver it they should be removed from office.

STATEMENT OF COUNCIL WOMAN  
SHEILA M. COCKREL REGARDING  
YES VOTE ON RESOLUTIONS  
PERTAINING TO REMOVAL OF MAYOR  
KWAME M. KILPATRICK

The City of Detroit is engulfed in a constitutional crisis that began in January of 2008. It must be acknowledged that this is not only a crisis — it is a tragedy. Mayor Kwame Kilpatrick, a man with enormous talent and charisma, is facing criminal charges and public disgrace for decisions and choices he has made. Mayor Kilpatrick has yet to accept responsibility for his actions and their consequences.

In this environment, it is essential that elected political leadership take firm and uncompromising positions on the myriad of issues that the Mayoral scandal place squarely in the lap of the Detroit City Council. It is for this reason that I have voted YES on all four resolutions before Council today — the resolution to formally adopt the Goodman Report finding of facts and law, the resolution to Censure the Mayor, the Resolution to commence forfeiture proceedings under the Detroit City Charter and finally the Resolution to request that the Governor intervene pursuant to the Michigan State Constitution and MCLA 168.327.

I am troubled by the continuing display of mayoral arrogance, refusal to accept responsibility and cynical disregard for the rule of law.

This Administration lacks a moral compass. A pattern of disregard for the rule of law became evident through the City Council's Legislative Hearings; fine upstanding lawyers chose to ignore the City Council's status as a client, the Mayor and his representatives baldly lied, distorted the truth, and just plain omitted information in conversations with Council Members urging settlement of the Brown/Nelthrope and Harris cases.

The Mayor apparently does not understand that there must be acceptable boundaries when hiring friends and family — no matter how much talent some of the individuals bring to city government.

The public treasury cannot be treated as a personal bank account. Indiscriminate use of City credit cards and vehicles does not come with election to the position of Mayor. Perks provided by the trappings of office are not a divine right. No elected official is above the law.

I believe that this historic vote by City Council is critical to this City's future. As a city government we see questionable contracting and hiring practices. You often

May 13

hear the lament, "Well, you know, this is how we do business in Detroit." I say, "No, it's not the way we should do business nor will we continue to let this ethically compromised government go unchallenged." We must reaffirm that we are a city governed by the rule of law.

This City has produced elected political leadership known for outstanding integrity — men and women of principle — for city, state and national offices. These individuals have played key roles through tumultuous times at every level of government over many, many years. It is time for all of us to stand up and say "enough is enough." Detroit will come out a stronger and more vibrant City.

**STATEMENT BY COUNCIL MEMBER  
BRENDA JONES REGARDING VOTE  
ON RESOLUTIONS PASSED BY  
DETROIT CITY COUNCIL**

On May 13, 2008, the Detroit City Council took unprecedented action in our city's history, voting to censure Mayor Kwame M. Kilpatrick and to initiate proceedings to remove the Mayor from public office.

The Detroit City Council voted to:

- 1) censure the Mayor for official acts of misconduct, in part by violating Section 2-106 of the Detroit City Charter
- 2) charge the Mayor with forfeiture of elective office in accordance with Section 2-107 of the Detroit City Charter, and
- 3) request that Governor Jennifer M. Granholm initiate proceedings to remove Mayor Kwame M. Kilpatrick from public office.

Today, I voted with the majority to pass the aforementioned resolutions. These decisions, like every vote I cast on behalf of the citizens, were made after careful, deliberate and serious consideration. When I was elected, I took an oath, as did the Mayor and my colleagues, to uphold the Detroit City Charter. I must reiterate here today, however, that my vote reflects my love for our city, not hatred of our mayor. My decision is a vote for the *process* rather than a vote against the *person*.

It is truly unfortunate that the Mayor's actions have brought negative attention to our city and its residents during the past five months, requiring Council to deviate from its normal course of business. However, we are required by the Charter and bound by our oath to represent the citizens of Detroit, protect the financial assets of our city and to act appropriately when harm is imminent, apparent, or actual.

Therefore, I joined with the majority that Sections 2-106, 6-403 and 8-403 of the Detroit City Charter have been violated by Mayor Kilpatrick and the actions taken by the Detroit City Council are in the best interests of the City of Detroit and on behalf of its citizens.

**STATEMENT BY COUNCIL MEMBER  
KWAME KENYATTA AFFIRMING MY  
VOTES FOR PROCEEDING WITH ALL  
AVAILABLE OPTIONS FOR REMOVING  
THE MAYOR**

Today, in an act of bravery and courage that will sound a historic note in the annals of the history of the City of Detroit, a majority of my colleagues and myself voted to:

- Censure the Mayor
- Charge the Mayor with forfeiture of office
- Request that Governor Granholm remove the Mayor from office

I voted in the affirmative on all three resolutions along with Council Member Brenda Jones, Council Member Joann Watson, Council Member Sheila Cockrel and Council Member Kenneth V. Cockrel, Jr.

I voted yes because I believe that the removal of the Mayor from office is of the utmost importance. His removal is a necessary step towards excising the malignant tumor that has continued to grow and metastasize within the City of Detroit rendering its residents subject to a cancer that can only be healed with the removal of Mayor Kwame M. Kilpatrick.

With this in mind, the significance of today's vote cannot be overstated. It must be reiterated that my unwavering support for these processes comes not from a desire to inflict harm on the Mayor. I want to make it clear that the measures that have been undertaken over the past few months have not been done with great joy, satisfaction or maliciousness but with great pain and remorse that we find ourselves at this point in Detroit's history.

The fact that the Mayor has left Council with no alternative but to seek action on the above resolutions is indeed a sad reality. I am as equally sure that this gives the Governor no joy as well to have to consider removing a sitting mayor from the key city in the State of Michigan. However, she like us, are bound by our duty to the people and the Charter and the State Constitution to act.

Instead, my motivation arises only from a sacred duty afforded me by Detroit residents to protect the financial assets of the City of Detroit from mishandling and misappropriation.

It is my belief that Sec. 2-106, Sec. 6-403 and Sec. 8-303 of the Detroit City Charter have been violated. And it is therefore most fitting and proper that the actions that have been put into motion on this day be taken without delay.

#### TESTIMONIAL RESOLUTION FOR

##### NELSON MANDELA

By ALL COUNCIL MEMBERS:

WHEREAS, Nelson Mandela personifies struggle. He is still leading the fight against apartheid with extraordinary vigor and resilience after spending nearly three decades of his life behind bars. He has sacrificed his private life and his youth for his people, and remains South Africa's best known and loved hero, and

WHEREAS, Mandela has held numerous positions in the ANC: ANCYL secretary (1984); ANCYL President (1950); ANC Transvaal president (1952); deputy national president (1952); and ANC president (1991), and

WHEREAS, Mandela was born at Qunu, near Umtata on 18 July 1918. His father, Henry Mgadla Mandela was chief counselor to Thembuland's acting paramount chief David Dalindyebo. When his father died, Mandela became the chief's ward and was groomed for the chieftainship. Mandela matriculated at Healdtown Methodist Boarding School and then started a BA degree at Fort Hare. As an SRC member he participated in a student strike and was expelled, along with the late Oliver Tambo, in 1940. He completed his degree by correspondence from Johannesburg, did articles of clerkship and enrolled for an LLB at the University of the Witwatersrand. In 1944 he helped found the ANC Youth League, whose program of Action was adopted by the ANC in 1949, and

WHEREAS, Mandela was elected national volunteer-in-chief of the 1952 Defiance Campaign. He traveled the country organizing resistance to discriminatory legislation. He was given a suspended sentence for his part of the campaign. Shortly afterwards a banning order confined him to Johannesburg for six

months. During this period he formulated the "M Plan", in terms of which ANC branches were broken down into underground cells. By 1952 Mandela and Tambo had opened the first black legal firm in the country, and Mandela was both Transvaal president of the ANC and deputy national president. A petition by the Transvaal Law Society to strike Mandela off the roll of attorneys was refused by the Supreme Court, and

WHEREAS, In the 'fifties, after being forced through constant bannings to resign officially from the ANC, Mandela analyzed the Bantustan policy as a political swindle. He predicted mass removals, political persecutions and police terror. For the second half of the 'fifties, he was one of the accused in the Treason Trial. With Duma Nokwe, he conducted the defense. When the ANC was banned after the Sharpeville massacre in 1960, he was detained until 1961 when he went underground to lead a campaign for a new national convention, and

WHEREAS, In 1962 Mandela left the country for military training in Algeria and to arrange training for other MK members. On his return he was arrested for leaving the country illegally and for incitement to strike. He conducted his own defense. He was convicted and jailed for five years in November 1962. While serving his sentence, he was charged, in the Rivonia trial, with sabotage and sentenced to life imprisonment. A decade before being imprisoned, Mandela had spoken out against the introduction of Bantu Education, recommending that community activists "make every home, every shack or rickety structure a centre of learning", and

WHEREAS, Robben Island, where he was imprisoned, became a centre for learning, and Mandela was a central figure in the organized political education classes. In prison Mandela never compromised his political principles and was always a source of strength for the other prisoners. During the seventies he refused the offer of a remission of sentence if he recognized Transkei and settled there. In the eighties he again rejected PW Botha's offer of freedom if he renounced violence. It is significant that shortly after his release on Sunday 11 February 1990; Mandela and his delegation agreed to the suspension of armed struggle, and

WHEREAS, Mandela has honorary degrees from more than 50 international universities and is chancellor of the University of the North. He was inaugurated as the first democratically elected State president of South Africa on 10 May 1994 - June 1999. Nelson Mandela retired from public life in June 1999. He currently resides in his birth place - Qunu, Ranskei, and

WHEREAS, Nelson Mandela's words,

"The struggle is my life". NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council hereby proudly salutes and commends Nelson Mandela for his continuous voice for the needs, desire, and political aspirations as a people.

We are looking for five (5) acres. You have 1,000 acres on Belle Isle and some possible sites for us would be next to the Harbor Master, near the Dossin Museum, near the Detroit Yacht Club or possibly the land across the lagoon. There are many other sites on Belle Isle if we were refused the site at the Boat Club. We will need our own site.

There are many scholarships to be awarded to the rowers throughout the nation. It will be opened to all of the citizens in Metropolitan Detroit.

**President Kenneth Cockrel, Jr.:** The information I am now receiving is directly in contradiction to what the Council was told a few weeks ago. When this initial proposal for the Merritme Academy was announced, the questions I had was how would this affect what you are trying to do. **The Committee will need to investigate this further. This will be an agenda item for Thursday's Meeting of the Neighborhood and Community Services Standing Committee.**

**Andy Timmons:** My concern is close session meetings on the incinerator. I think it should be open and free to the public because we have a vested interest in the economic, environmental and health impacts of this facility. I propose an act or similar legislation to stop close sessions. (Copies of a proposed act or similar legislation were available for all Council Members.) I hope that you will please have no more meetings in secret.

- I went to the Water Board and completed a card for donating \$1 to \$3 and my answer was "No" because my bills were so high. I could not afford any more money being paid out for my bills. My bills ranged from \$500 to over \$800 a month.

- I believe that any one running for public office in the City of Detroit and/or Wayne County and the State of Michigan should have a 10 million dollars liability policy and/or bond on themselves to protect the taxpayers.

**Dan Sordyl, Kirby and Ferry Neighborhood Association:** Distributed a list of concerns that he would like to see the Council act on in the future:

- Develop a program that will reward the neighborhood association groups for the recycling.

- Remove the Dioxin from the Incinerator; take the plastic/PVC out ASAP.

- Make a deal with the new owners of the incinerator to upgrade the facility to a plasma converter or shut down the incinerator.

I ask you if you feel that this is a conflict of interest of public health by having DPW invest in the Boston base company that has the largest stake in the incinerator.

**President K. Cockrel, Jr.:** For clarity, the DPW (Department of Public Works) does not have a separate pension fund. Do you mean the Detroit Police and Fire pension fund? Is that what you are referring to? **We will get clarity on this statement.**

I saw where the Water Board over charged the City and the suburbs a combined 26 million dollars. I want to know where it is floating. I do not think this should be charged against the citizens. Honorable City Council:

Re: Proposed Ordinance to Amend Chapter 18, Article V, *Purchases and Supplies*, of the 1984 Detroit City Code to Require City Council Approval of All Legal Service Contracts, Including All Contracts for Expert Witnesses or Expert Consultants That Arise Out of Legal Representation.

The City Clerk has forwarded to me for my approval or veto a proposed ordinance to amend Chapter 18, Article V, *Purchases and Supplies*, of the 1984 Detroit City Code to require approval by City Council of all legal service contracts, regardless of amount, including contracts for expert witnesses or expert consultants that arise out of legal representation. For the reasons stated below, I hereby **veto** this proposed ordinance.

Regularly, the Law Department is faced with two types of lawsuits where it is necessary to retain outside counsel. The first is where a conflict of interest has arisen that requires the department to seek outside counsel, 1) when the appointee or employee sues the City of Detroit under labor and employment law or workers compensation law while a third party has sued the same employee under tort law, or 2) when the defense of the City and its employee, usually a police officer, are adverse.

The second is where a lawsuit is filed against the City, or its elected officials, appointees or employees, that concern an area of the law, which is not within the expertise of staff attorneys. For example, condemnation law, maritime law, intellectual property law, or bond law are areas of the law where it is cost effective to hire outside legal counsel rather than maintain staff attorneys to handle such matters. These areas require legal expertise that is not within the scope of most attorney's training. They also require specialized pleadings for answers as well as for special and affirmative defenses. Where staff attorneys are required to answer such a complaint without the expertise of outside counsel who specialize in the field, it is likely that the staff attorney may not be aware of certain affirmative defenses, which must be plead with the answer or be forever barred.

As you know from litigation that has been filed over the recent years against

the City Council in cases arising under the Michigan Open Meetings Act, the Michigan Court Rules require adherence to certain time frames in filing answers to pleadings, such as complaints and special and affirmative defenses. In particular, the Michigan Court Rules require that all complaints, which are filed in Wayne County Circuit Court or the 36th District Court, be answered within twenty-one (21) days of personal service or within twenty-eight (28) days of service by mail. Likewise, the Federal Rules of Civil Procedure require that all complaints, which are filed in United States District Court for the Eastern District of Michigan, be answered within twenty (20) days. Often a summons and complaint are served on City elected officials, appointees and employees who do not deliver or forward the summon and complaint to the Law Department until the 21-day, 28-day, or 20-day period is about to elapse. The City of Detroit Law Department receives summons and complaints from its clients on a daily basis. The majority of cases are handled by staff attorneys. However, where, under the proposed ordinance, the Law Department is required to obtain City Council approval before hiring an outside counsel who has the expertise to answer a complaint, there is a real risk that the City, and its elected officials, appointees and employees, will be defaulted for failure to respond in a timely manner.

Whether a case is one where a conflict of interest has arisen, or requires legal expertise that is not possessed by a staff attorney, a more critical situation involving these types of cases is where a court has entered an order to show cause, which requires an attorney to appear in court within hours or days of entry of the order to represent the City, or its elected officials, appointees or employees, for claims of injunctive relief or other relief under state or federal law. These include, among others, claims alleging violation of the Michigan Open Meetings Act, the Michigan Freedom of Information Act, Michigan Election Law, and the First Amendment of the United States Constitution. In such instances, an attorney or law firm must be selected to appear in court in accordance with the mandate of the order to show cause, literally, within hours or days of entry of the court order.

Furthermore, much of the litigation handled by the Law Department requires the use of experts, whether physicians, psychiatrists, psychologists, engineers, or economic and damage experts. As an example, tort and workers compensation litigation regularly require the use and assessment of a medical doctor for the independent medical evaluation of a plaintiff. The department handles hundreds of cases that require the use of

experts. Based upon the language of the Section 18-5-5(d)(1) of proposed ordinance, which only makes reference to a "law firm", the hiring of experts and supporting specialists do not fall within the exception for public exigencies". The language precludes arguing that the hiring of a legal expert or legal consultant is an emergency procurement which requires immediate delivery of articles or the performance of services, or that it must be approved on an emergency basis because there is a threat to public health, welfare, or safety under emergency conditions where prior approval of the City Council would be impossible or impracticable under the circumstances.

The Michigan Code of Professional Ethics requires that the Law Department provide effective and zealous defense of its clients, whether being the City of Detroit, or its elected officials, appointees, or employees. Currently, the case load of attorneys in litigation, labor and workers compensation is overwhelming, particularly since, due to budget cuts, the number of Law Department staff attorneys has decreased from 113 to 81 over the past four (4) years. The department also regularly uses court reporters for depositions and other sworn testimony. To require contractual approval for all of these types of contracts by the City Council will unduly burden and hinder the ability of staff attorneys to provide a solid defense for the City and its elected officials, appointees, and employees. This requirement will slow the progress of litigation and the flow of legal work.

It is well known that, under Council's committee structure, the process leading to approval of a legal services contract by City Council takes, at a minimum, twenty-six (26) days before being sent to me for approval. The provisions of the proposed ordinance will unnecessarily cause defaults where answers cannot be timely made, unnecessarily cause monetary losses where experts cannot be timely obtained, and unnecessarily result in adverse decisions and settlements that could have been avoided but for this amendment.

Section 6-403 of the 1997 Detroit City Charter required that the Corporation Counsel defend all actions or proceedings against the City, and where requested, represent any elected official, appointee, or employee in any action or proceeding that concerns official duties. In short, this proposed ordinance undermines the ability of any Corporation Counsel to timely handle legal matters that are his or her responsibility under this section.

The attorneys in the Law Department have made tremendous strides in the past numbers of years to improve their reputation with the bench and bar by winning more cases than they have lost. They have transcended the previous negative image for failure to answer complaints, discovery requests, and motions in a

timely manner. By requiring approval of all contracts related to its operations, this proposed ordinance places unnecessary additional burdens on the Law Department staff, which will jeopardize the tremendous strides that have been made over recent years.

Lastly, when Chapter 18, Article V, was revised and revamped through Ordinance No. 31-99, which was passed by City Council on October 13, 1999, it had taken seven (7) years for a Committee from the former Administration and City Council to work through all the issues concerning City contracts. At that time, great care was made to separate contracts for goods and services, which are codified in Division 1, *Generally*, from professional services contracts, which are codified in Division 2, *Professional Services Contracts*. Unfortunately, the proposed ordinance which was rushed through City Council in twenty-five (25) days, from introduction to public hearing, unravels the time-consuming and painstaking work that was done through Ordinance No. 31-99 by mixing legal services contracts both with contracts for goods and services in proposed Section 18-5-5 and with professional services contracts in proposed Sections 18-5-31 and 18-5-34.

Significantly, the proposed ordinance fails to define the term "public exigencies", thereby leaving City appointees and employees who must implement the ordinance with no guidance as to the occasions when such situations arise. This deficiency is bound to cause disagreement between the Administration and Council, which, most likely, will result in litigation requiring outside counsel thereby resulting in confusion concerning their retention.

There are many ordinances that Council has taken months to debate, refine and pass. Examples include Ordinance No. 46-06, which amended the City Ethics Ordinance and took one (1) year from transmittal to Council passage; the proposed ordinance to amend Section 55-2-44, *Parking Scofflaw Program*, known as the "Booting and Towing Ordinance", which has been pending for six (6) months since being transmitted on November 26, 2007; and the proposed ordinances to amend Chapter 11 of the 1984 Detroit City Code, *Cigarettes*; Chapter 33 of the 1984 Detroit City Code, *Minors*; and Chapter 38 of the 1984 Detroit City Code, *Offenses, Miscellaneous Provisions*, to protect our youth from the dangers of truancy, violence on and around school grounds, and hookah pipes, which has been pending for four (4) months since being transmitted on January 16, 2008.

It is unfortunate that City Council chose to react to recent events by quickly drafting and rushing through this proposed ordinance in twenty-five (25) days without

May 20

1203

2008

the necessary contemplation and deliberation to understand the legal impact of its policy choices. For all of these reasons, I must **veto** this proposed ordinance with a view that Council will sustain the veto and, thereafter, work with the Administration and the City Law Department to resolve the Body's concerns without jeopardizing either the litigation position of the City and its elected officials, appointees, and employees, or the City coffers.

Respectfully,  
KWAME M. KILPATRICK  
Mayor

On April 22, 2008, a case evaluation panel evaluated the above-captioned lawsuit and awarded Fifteen Thousand Dollars (\$15,000.00) in favor of Plaintiff. Honorable City Council:

Re: Robert France and Vandean France vs. City of Detroit. Case No.: 07-720045 NO. File No.: A19000.003422 (KAC).

On April 22, 2008, a case evaluation panel evaluated the above-captioned lawsuit and awarded Fifteen Thousand Dollars (\$15,000.00) in favor of Plaintiffs. The parties have until May 20, 2008, to either accept or reject the case evaluation. Failure to file a written acceptance or rejection within this period constitutes a rejection.

Based upon our review of the facts and particulars of this lawsuit, which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body, it is our considered opinion that acceptance of the case evaluation award is in the best interest of the City of Detroit.

We, therefore, request your Honorable Body to authorize acceptance of the case evaluation award; and, in the event that Plaintiff accepts the award, to deem such acceptance as a settlement and to direct the Finance Director to issue a draft in the amount of Fifteen Thousand Dollars (\$15,000.00) payable to David J. Fried, attorney, and Robert France and Vandean France, to be delivered upon receipt of properly executed Releases and Stipulation and Order of Dismissal entered in Lawsuit No. 07-720045 NO, approved by the Law Department.

April 22, 2008

Honorable City Council:

Re: Address: 6633 Rohns. Name: Stephen Arthur. Date ordered removed: October 24, 2001 (J.C.C. pg. 3057).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on April 7, 2008 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of April 1, 2008.

The proposed use of the property is owner occupancy.

This is the first deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of three months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial

progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four must be made by petition to City Council through the office of the City Clerk.

Respectfully submitted,

Honorable City Council:

Re: Petition No. 2166 of "UbanTECH, LLC, Rights-of-way agents/engineering technicians", Request to encroach into the W. Alexandrine St., between Woodward and Cass Avenues, in order to construct a five (5) story parking structure.

Petition No. 2166 of "UrbanTECH, LLC", at 35920 S. Valley Ct. Suite 212, Farmington Hills, Michigan 48335 on behalf of "Woodward SA-PK, LLC", 19100

Woodston Rd., Detroit, Michigan 48203, originally requested to encroach into the southerly line of W. Alexandrine Avenue, between Woodward and Cass Avenues. However, during the course of the City Engineering Division — DPW's investigation, said petition has been amended to request the outright vacation of the southerly 14'6" of W. Alexandrine Avenue, 100 feet wide, between Woodward Avenue, 120 feet wide, and the north-south public alley, 20 feet wide, first west of Woodward Avenue, between W. Alexandrine and Selden. Also, the request includes the 4'0" sub surface encroachment into said north-south public alley, all to facilitate the construction of the proposed new five (5) story parking structure that's part of the Woodward Garden Development Project.

The request was approved by the

May 20

2008

Planning and Development Department. The petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.

The Traffic Engineering Division — DPW has no objection to the outright vacation of the public rights-of-way and encroachments, provided that a 15.00 foot margin is maintained along W. Alexandrine between the proposed vacation and the curb line. Also, provided that the 4'0" encroachments into the public alley are subsurface only and that the full width of said public alley, 20 feet wide is maintained.

The Public Lighting Department (PLD) reports having an underground fed street lighting pole on the south side of W. Alexandrine in the area of the requested vacation. Removal and relocation of the PLD pole will have an estimated cost of \$7000.00. PLD notes that the \$7000.00 figure is only a tentative estimate based on the projected scope of work as it appears at present.

The Detroit Water and Sewerage Department (DWSD) have existing water mains and sewers located in W. Alexandrine west of Woodward. However, the DWSD has no objections to the requested outright vacation of the southerly 14'6" of W. Alexandrine west of Woodward located north of Lots A, B, and C.

Also, the DWSD reports an existing sewer located in the north-south alley, west of Woodward and south of W. Alexandrine. The DWSD has no objections provided that the appropriate encroachment language is included in the resolution, protecting the DWSD installations.

DTE Energy Gas (MichCon) has no objections provided that the foundations and footings for the proposed caissons along W. Alexandrine, from 0' to 200' westerly of Woodward Avenue, must be at least a minimum of 3' away from existing MichCon gas facilities (6"-CI-1/4 # 1950, approx. 15' north of the south ROW of W. Alexandrine). Furthermore, the public right-of-way where the proposed caissons are located must also be free from any obstruction(s) for MichCon equipment(s) to do repair(s) and/or relocation(s) of their existing gas facilities.

DTE Energy Edison (DTE) reports having a duct run 20.6 feet north of the south line of W. Alexandrine. However, has no objection provided that the vacation is free and clear of any DTE facilities.

DTE Energy/MichCon Gas Company reports no objections to the changes in public rights-of-way provided developer & contractor contact, prior to construction beginning, Michcon's Public Improvement Department at 313-577-7323.

Comcast Cable will require access to maintain existing conduit runs said public

alley 20 feet wide. If it is determined that their existing facilities need to be relocated, the cost to relocate is estimated at \$8000.00.

AT&T reports having an existing conduit run located in the north-south public alley between W. Alexandrine and Selden. AT&T requests that the developer contact MISS DIG to determine if proposed caissons will interfere with telephone conduit run. If it does interfere, the developer is required to call AT&T CG Group at 1-888-901-2871 to develop cost to move conduit.

All other involved City departments and privately owned utility companies have reported no objections to the proposed encroachments and outright vacation. Where appropriate, provisions protecting utility installations are part of this resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,

Honorable City Council:

Re: \$5,000 City Council Approval Threshold for Contracts Ordinance.

Attached is the draft ordinance to amend the threshold at which City Council approval is needed for contracts. This draft ordinance was originally submitted to City Council in February 2005. In this draft ordinance, the threshold beyond which Council approval is needed for contracts is \$5,000.

Please note that no changes were made to contracts from either the Health Department or the Water and Sewerage Department. The threshold for contracts from these departments remains at \$25,000. These departments were excluded from the proposed new threshold for Council approval for contracts because of the sheer number of contracts generated by each of these departments that are less than \$25,000. It was felt that

to include contracts less than \$25,000 from these departments would inundate Council. If however, it is your desire to include these departments in the new threshold limit, the necessary changes can be made.

Respectfully submitted,  
DAVID D. WHITAKER  
Director

#### City of Detroit Finance Department

May 19, 2008

Honorable City Council:

Re: Greektown garage sale and tax-exempt status of bonds.

The City sold the Greektown garage on May 20, 2006. The garage was financed through the sale of Parking and Arena System Bonds, Series 1998A. A certificate regarding sale of bond-financed property stated that it was reasonably expected that by not later than two years following the sale of the garage that either (i) at least \$575,302 of the purchase price would be expended for other parking facilities, or (ii) an additional portion of the 1998A Bonds would be redeemed or defeased, or (iii) a combination of the foregoing. While the System has made the necessary dollar amount of repairs, the City has only provided them \$376,429.59 of the proceeds from the sale.

The General Fund received the sales proceeds and must reimburse the Parking System for both the cost of issuance in the amount of \$25,366.05 and the remaining balance for the capital projects. That amount is \$224,238.46.

We propose to utilize the Internal Revenue Service reimbursement. Attached is the proposed resolution.

Respectfully submitted,

NORMAN L. WHITE  
CFO/Finance Director

By Council Member S. Cockrel:

#### MEMBER REPORTS:

**WATSON:** I will distribute to my colleagues information regarding the Community Development Block Grant Guidelines. I understand that one of the members of the Law Department voiced an opinion that somehow Council should be left out of the specific allocations to community groups. The regulations of the Federal Government states that they do not want Council Members opting out, they want more input which is exquisitely stated in regulations, which is accessible to anyone. Just go to HUD.com.

**TINSLEY-TALABI:** I want to invite everyone out on Friday when we will have our kick-off. This year we will be at 7 Mile and Hoover. It will be good for the community to see Council as a Body speaking against drugs, alcohol and tobacco.

**PRESIDENT K. COCKREL, JR.:** I have been in correspondence via e-mail with Mr. Williams who is President of Heritage at Riverbend Condominiums Association. Mr. Williams is expressing some concerns about the proposed sale of land at 492 Riverbend on East Jefferson between Chalmers and Dickerson. He is asking that there be a public hearing held on this matter. I WILL REFER THIS TO COUNCIL MEMBER COLLINS AS THE CHAIR OF THE COMMITTEE ON PLANNING AND ECONOMIC DEVELOPMENT. I AM REQUESTING THAT A PUBLIC HEARING ON THIS BE SET.

Also there is a request for representation for Kavassery Ramachandran relative to a case involving the estate of Terrence Jeffery, and Kendric Jeffery, vs. City of Detroit. I WOULD LIKE TO FORWARD THIS TO INTERNAL OPERATIONS COMMITTEE AND I WANT THE APPROPRIATE DEPARTMENTS IN THE CASE TO GIVE ME ALL OF THE INFORMATION I AM REQUESTING IN THIS MEMO.

## City Planning Commission

May 20, 2008

Honorable City Council:

Re: Request for City Council Approval for the Issuance of a Michigan Liquor Control Commission Temporary Extended Hours Permit to Michigan Holdings LLC at St. Andrew's Hall, located at 431 E. Congress.

Submitted herewith is a proposed resolution approving the issuance of a temporary extended hours permit to Michigan Holdings LLC at St. Andrew's Hall, located at 431 E. Congress.

On May 20, 2008, the City Planning Commission staff received a Michigan Liquor Control Commission (MLCC) Application for Temporary Authorization for approval of a Temporary Official Permit for Difference in Hours of Operation from Michigan Holdings, LLC to extend hours of the combination dance-entertainment permit at St. Andrew's Hall on May 25 and 26, 2008 to 2 a.m.-4 a.m. The request is in conjunction with the Detroit Electronic Music Festival which will take place on May 23-May 26, 2008 at Hart Plaza.

The promoter of the Detroit Electronic Music Festival wishes to hold promotional parties and entertainment at St. Andrew's Hall on May 25 and 26, 2008 following the events at Hart Plaza. St. Andrew's Hall is

May 22

1258

2008

licensed by the City as a Group "A" Cabaret and does hold a MLCC combination dance-entertainment permit at this location.

Section 916 (8) of the Michigan Liquor Control Code of 1998, being MCL 436.1916 (8), requires that approval of the local legislative body and the Police Department for the extended hours permit by the Michigan Liquor Control Commission. The Detroit Police Department Liquor License Unit (LLU) has conducted a preliminary investigation and review of the request. The LLU recommends that Michigan Holdings LLC have 25 security guards on duty at the location during the hours of the event. The applicant has agreed to LLU's condition.

City Council has not adopted procedures or criteria related to temporary "extended hours" requests. However, in its discussions of procedures and criteria for cabarets wishing to operate regularly on an "extended hours" basis, Council has favored approval of cabarets located in the Central Business District unless the location is less than 300 feet from a residential dwelling. St. Andrew's Hall is located in the Central Business District and is located less than 300 feet from the Millender Center Apartments. If St. Andrew's Hall were petitioning for a regular "extended hours" permit, Council would first hold a public hearing before acting to approve or disapprove the request.

Due to the fact that the request is in conjunction with the Detroit Electronic Music Festival and is only a two-day event, City Planning Commission staff feels that consideration of this request without a public hearing would be appropriate.

Respectfully submitted,  
MARCELL R. TODD, JR.

Director

**RESOLUTION FOR THE APPROVAL  
OF THE ISSUANCE OF A TEMPORARY  
OFFICIAL PERMIT FOR DIFFERENCE  
IN HOURS OF OPERATION PERMIT  
FOR A GROUP "A" CABARET AT  
431 E. CONGRESS**

By Council Member Collins:

Whereas, Section 916 (8) of the Michigan Liquor Control Code of 1998, being MCL 436.1916 (8) requires approval of the local legislative body and the Police Department for the extended hours permit by the Michigan Liquor Control Commission;

Whereas, Pursuant to this requirement, the applicant, Michigan Holdings, LLC, has forwarded to this Body an Application For Temporary Authorization;

Whereas, This Application For Temporary Authorization requested City Council's approval of a Temporary Official Permit For Difference in Hours of Operation for combination dance-entertainment for a Class "C" liquor license at 431 E. Congress, St. Andrew's Hall, on May 25 and 26, 2008 during the Detroit Electronic Music Festival weekend;

Whereas, The extended hours requested to conduct the combination dance-entertainment are between 2 A.M. and 4 A.M. at this location;

Whereas, Pursuant to Section 916 (9) of the Michigan Liquor Control Code of 1998 being MCL 436.1916 (9), the issuance of an extended hours permit does not authorize topless activity, Keno or other gaming, extension of hours for the serving of alcoholic liquor, and the extension of hours for the consumption of alcoholic liquor;

Whereas, City of Detroit Zoning District Map No. 2 indicates that 431 E. Congress is in a B6 (General Services) zoning district;

Whereas, Pursuant to Section 61-9-116 of the Detroit Zoning Ordinance, Chapter 61 of the 1984 Detroit City Code, the use of this location for the sale of beer or intoxicating liquor for consumption on the premises or for a cabaret is a by-right use since the location is within the Central Business District;

Whereas, Investigation reveals that the location has been approved for patron dancing and licensed by the City as a Group "A" Cabaret and that the MLCC has issued a combination dance-entertainment permit at the location;

Whereas, A Group "A" Cabaret license is required for an establishment open to the public which sells or serves alcoholic beverages with or without food, and either allows dancing with or without live entertainment, or provides three (3) or more live entertainers at one time with or without dancing;

Whereas, The Buildings and Safety Engineering Department's Business License Center reports that the owner and premises have met the requirements of Chapter 30 of the 1984 Detroit City Code for the issuance of the required City business licenses for the location;

Whereas, After preliminary investigation and review, the Detroit Police Department Liquor License Unit, on behalf of the Chief of Police, has recommended approval with conditions of the Temporary Official Permit for Difference in Hours of Operation for the location upon City Council's approval;

Whereas, The Detroit Police Department Liquor License Unit, on behalf of the Chief of Police, has preliminary recommended the condition that 25 security guards be on duty at this location during the hours of the event on May 25 and May 26, 2008.

Whereas, MLCC records do not indicate any MLCC violations within the preceding twelve (12) months;

Whereas, The Detroit City Council has determined that it would be appropriate to

May 22

1259

2008

approve the issuance of MLCC "extended hours" permits for licensed cabarets in the City of Detroit in certain situations;

Whereas, The applicant is also the promoter of the Detroit Electronic Music Festival and requests to extend the event at this location during the hours of 2 A.M. to 4 A.M. on May 25 and 26, 2008; and

Whereas, The Detroit City Council has considered the Application For Temporary Authorization For a Temporary Official Permit For Difference In Hours Of Operation for a combination dance-entertainment permit for the approval by City Council of a request by Michigan Holdings, LLC for a Group "A" Cabaret at 431 E. Congress for the dates of May 25 and May 26, 2008 during the hours of 2 A.M. and 4 A.M.

Now Therefore It Is Resolved, Pursuant to Section 916 (8) of the Michigan Liquor Control Code, being MCL 436.1916 (8), that the Detroit City Council approves the issuance of a Temporary Official Permit For Difference In Hours Of Operation for a combination dance-entertainment permit to Michigan Holdings, LLC for a Group "A" Cabaret at 431 E. Congress for the dates of May 25 and May 26, 2008 during the hours of 2 A.M. and 4 A.M.

It Is Further Resolved, That a copy of this Resolution, and the City Clerk's certification of this approval for an Application For Temporary Authorization for a Temporary Official Permit For Difference In Hours Of Operation for a combination dance-entertainment permit be forwarded to the Michigan Department of Labor and Economic Growth, Liquor Control Commission, 715 Harris Drive, P.O. Box 30005, Lansing, MI 48909-7575, the Detroit Police Department, Liquor License Unit, 7310 Woodward, Detroit, MI 48202, and the Buildings and Safety Engineering Department Business License Center, 105 Coleman A. Young Municipal Center, Detroit, MI 48226.

**City of Detroit**  
**Historic Designation Advisory Board**  
May 22, 2008

Honorable City Council:

Re: Emergency moratorium for work within Jefferson Chalmers Historic Business District.

As discussed at the meeting of the Planning and Economic Development Standing Committee on May 21, 2008, your Honorable Body is requested to enact a six (6) month moratorium for work within the Jefferson Chalmers Historic Business District.

This moratorium is requested pursuant to MCL 399.214 (Section 14 of the Local Historic District Act, PA 169 of 1970, as amended), which allows the legislative body to declare an emergency moratorium of up to six months duration, providing the City the option to summarily deny permits for work within an historic district where such work would do irreparable harm to the resources of that district.

As a practical matter, internal alterations and repairs to a building within the historic district would not be affected by a moratorium since the Jefferson Chalmers Historic Business District only addresses the building exteriors.

Attached, please find a resolution to establish a six (6) month emergency moratorium for the Jefferson Chalmers Historic Business District.

Respectfully submitted,  
MARCELL R. TODD, JR.  
Director

By Council Member Collins:

Whereas, Pursuant to previous resolution, the Detroit City Council has received a report and ordinance from the Historic Designation Advisory Board for the proposed historic designation of the Jefferson Chalmers Historic Business District and on May 21, 2008 held a public hearing on same; and

Whereas, The proposed district is already listed on the National Register of Historic Places; and

Whereas, Section 14 of the Local Historic District Act (PA 169 of 1970 as amended), being MCL 399.214, sets forth provisions whereby the legislative body of the local unit of government may declare an emergency moratorium of up to six months duration providing the City with the option to summarily deny permits for work within an established or proposed district, when said work will do irreparable harm to the resources of that district; and

Whereas, There is evidence of pending work within the bounds of the proposed district that will in fact do irreparable harm to resources of the proposed Jefferson Chalmers Historic Business District, including an application for a permit to demolish a building located within and that contributes to the historic character of the proposed District.

Now, Therefore, Be It Resolved, That the Detroit City Council declares a six (6) month emergency moratorium for work within the proposed Jefferson Chalmers Historic Business District as described in the attached map and corresponding legal description:

**The boundaries of the Proposed Jefferson Chalmers Historic Business District are as follows:**

**Planning & Development Department**

April 24, 2008

Honorable City Council:

Re: Rescission of Land Sale & Property For Sale By Development Agreement  
Development: 1942 West Grand River (G.A.R. Building).

On April 4, 2007, your Honorable Body authorized the sale of the above-captioned property to Olympia Development of Michigan, L.L.C., a Michigan Limited Liability Company, for the purpose of renovating the existing four-story commercial structure.

It has come to our attention that due to circumstances beyond their control, the Developer is unable to proceed with the sale at this time.

We are now in receipt of an offer from New Gar, LLC, a Michigan Limited Liability Company, to purchase the above-captioned property for the amount of \$220,500 and to develop such property. This property is situated on an area of land that contains approximately 5,062 square feet and is zoned B-5 (Major Business District).

The Offeror proposes to renovate the structure into a retail/gift shop and restaurant on the first floor, along with office space and civil war exhibits/memorabilia on the second floor. The third and fourth floors will contain additional office space and conference facilities.

The Planning and Development Department has determined that this potential development would have a beneficial impact on the G.A.R. Historic District and comply with all City requirements, including compliance with the Zoning Ordinance's site plan review and the Traditional Main Street Overlay Area Review. This use is permitted in a B-5 zoned district and is subject to review by the Detroit Historic District Commission.

We, therefore, request that your Honorable Body rescind the sale to Olympia Development of Michigan, L.L.C., a Michigan Limited Liability Company, making it available to other interested parties.

We, also, request that your Honorable Body adopt the sale and authorize the Planning & Development Department's Director, or his authorized designee, to execute an agreement to purchase and develop this property with New Gar, LLC, a Michigan Limited Liability Company, together with a deed to the property and such other documents as may be necessary to effect the sale.

Respectfully submitted,

and be it further

Resolved, That in accordance with the Offer to Purchase and the foregoing communication, the Planning & Development Department's Director, or his authorized designee, be and is hereby authorized to execute an agreement to purchase and develop the above-described property, together with a deed to the property and such other documents as may be necessary to effect the sale, with New Gar, LLC, a Michigan Limited Liability Company, for the amount of \$220,500.

and be it further

Resolved, That this agreement be considered confirmed when executed by the Planning and Development Department's Director, or his authorized designee, and approved by the Corporation Counsel as to form.

#### Invocation

Eternal and everlasting God, we come before Your Divine Presence on this day with thanksgiving in our hearts.

We thank You Father, for giving these nine council members an opportunity to serve Your people in this great city.

Lord, we understand that to whom is given, much is required. So we ask Your blessing upon each of them as they struggle with the daily affairs of the City of Detroit.

Lord, lead them and unite them in all of their endeavors, as they walk in Your will and walk in Your way.

Help them make our city one of true peace, and one where the vice of poverty shall cease to feaster; a city of brotherly love, where all will see the work of Your mighty hand.

Lord, shelter them from all dishonesty and civic corruption; from all vainglory and selfish luxury; from all cruelty and the spirit of violence; from covetousness which is idolatry; from impurity which defiles the temple of the Holy Spirit.

Give them wisdom, grace and peace, and at the close of day, let their work be acceptable in Your sight.

These and all others blessing we ask in the name of Our Lord and Savior, Jesus Christ.

Amen!

A) The Eight Mile and Southfield area needs a concrete barrier (cars are running into homes, etc.).

B) There is 15 feet of grass in Byman Park (sp) located on Martin Street. Residents are pooling their money together in an attempt to cut squares in the park because children walk through on their way to Chadsey High School.

C) The Southfield Police are flying down Pembroke Street. They've watched two high-speed police chases in the last three months that involved fatalities.

D) On Chalmers and McQueen there are no streetlights within a three-mile radius.

*(Complaint was submitted in writing to be forwarded to the appropriate committees).*

**CHAD KNOX — Batting All Together (BAT)**

Comments were related to the dangerous structure located next door to his home for over 10 years. He's called everyone from the Principal at Central High School to Ms. Turner in the Mayor's Office. Students from Central High School are going into the building using drugs. His fear is that eventually one of the girls is going to be raped in that building or if fire occurs, there will be damage to his home.

Honorable City Council:  
Re: Freedom Place Apartments —  
Payment in Lieu of Taxes (PILOT).  
Freedom Place Apartments (aka)

University City is an existing housing complex, which is currently paying a PILOT Service Charge. Ownership of the development is being transferred from University L.D.H.A. to Freedom Place Apartments LHDA. The new owner is requesting an extension of the PILOT payments for a period of 50 years.

The complex, which was built in 1982, is located in the area of West Warren and Trumbull. It is comprised of a mid-rise building that contains 142 units (these units are reserved for qualified elderly residents); a low-rise building which has 96 garden apartments and 114 townhouses for a total of 352 rental units. The owners have applied to Michigan State Housing Development Authority (MSHDA) for two preservation loans for a total of \$24,712,059. The MSHDA Part A loan, if approved, will be for a term of 35 years at 6.45% interest, Part B loan, if approved, will be for a term of 50 years at 3% interest. It is intended that the property be renovated and made available to elderly and family households whose incomes are at or below 60% of Area Median Income.

If the loan application is approved, over \$12,000,000 in rehabilitation work will occur. Expected renovations will include renovated kitchens and bathrooms, new carpeting painting, new furnaces and central air conditioning units, replacement of 3 original boilers in the senior building, renovation to the mechanical and electrical systems, renovations to the community room and other common areas, replacement of doors and windows as well as new roofing systems.

Exterior and ground repair will include a new fence, replacement and installation of new lighting, refurbishment of the closed swimming pool, resurfacing of the tennis and basketball courts, repairs to the parking lots and sidewalk and installation of new landscaping. The community building will be converted to a multipurpose building which will house the rental office, community room with bathrooms and kitchen, media center and a small exercise room.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1996, (P.A. 346, as amended, MCLA 125.1415A).

Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of 4% on the net shelter rent.

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on April 30, 2008 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of April 28, 2008.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:
  - Certificate of Acceptance related to building permits
  - Certificate of Approval as a result of a Housing Inspection
  - Certificate of Inspection, required for all residential rental properties

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

The State of Michigan Department of

struction phase of the following bridge  
structures:

1. I-96 WB Service Drive over Rouge  
River — Rehabilitation
2. I-96 EB Service Drive over Rouge

DPW needs the help of your Honorable  
Body to issue a resolution stating that it  
has approved the applications and is  
actively seeking participation in the  
replacement of the structures. This action  
by your Honorable Body will complete the

deadline for application is June 2, 2008.

A resolution is attached for your  
Honorable Body approval.

#### CONSENT AGENDA MEMBER REPORTS

##### CONYERS

Found an article in a California newspaper that said you can buy 10 homes in the City of Detroit for one thousand dollars down. You will get \$10,000 monthly and \$150,000 annually. She would like the Administration to tell her where these

May 27

1309

2008

homes are located, because all the people who will be coming here to buy the homes will be slum lords, and City of Detroit residents will have no recourse of where to go. If there are homes available at these prices, Detroit citizens need to know where they are, too, so that they can buy them and live in them. She will make sure that the Administration as well as her colleagues receives a copy of the article.

#### **WATSON**

She would like to urge those colleagues who did not vote to support Council acting from a position of power on closing the incinerator to reconsider their vote at the adjourned session, which is coming up later.

She also asked that there be a special review based on inside information she has been given by a Greater Detroit Resource Recovery Authority (GDRRA) employee who believes that Council ought to have some monitoring of the materials that are being collected and sold for scrap. It is believed that City Council may not be totally abreast of all the revenue that is being shared for the scrap being collected by GDRRA in the name of the City.

There has also been a request made by the West Grand Boulevard Collaborative for an emergency ordinance (she is asking Research and Analysis to follow up on this). Reverend Jim Holley has asked that she please send forth his request that Planning and Development issue whatever resources can be issued with respect to Considine's Little Rock Family Life Center. They have been talking with Ms. Kyra Maclin in Planning and Development. The City has approved the grant. It is taking forever to receive the first dollar, and the money is to be used to repair the front of the building.

#### **COLLINS**

On Line item 168, Council voted to approve the funding for the promotional exam. I think we voted it down and passed a letter last week (I think you signed it Mr. President) telling them that they proceed at their own risk, that Council did not approve the resolution. We take a stand for nothing and we serve notice for nothing. It just seems to me that people just laugh at what we do at this table because we counter band our own actions. Be that as it may, I just wanted to point that out.

#### **TINSLEY-TALABI**

I just want to remind colleagues and our viewing audience that beginning next week, they're going to institute "Fugitive Safe Surrender". It's an opportunity for persons to get a second chance. If anyone thinks they may have an outstanding warrant, they should really show up at Second Ebenezer Church. Pastor Vann will be here to speak on this next week. I think it's a great opportunity. They've done this in cities across America and they've

had resounding success, as thousands have come forward. They've gone before this "Fugitive Safe Surrender" and found out that they were, in fact, given a second chance. This is for non-violent offenders. She is encouraging people to call the City Council Offices. She is going to make sure that everyone receives the information. Would like Detroit to take the lead on this and is expecting thousands to come forward in Detroit to get another chance on their lives.

She has put together a fact sheet on energy drinks. She is not pulling out any specific energy drink but feels that there are some things we need to know about energy drinks, especially as it relates to children. She will be sharing that information with colleagues.

#### **JONES**

This body passed a resolution to pay Gisstennar Mobile Auto Wash for one month. Their contract was ended and T&N took over the services, and they have not been paid. So, I'd like for them to be paid per the resolution.

#### **K. COCKREL**

I've been sent some photos and my office has had contact with a resident of Southwest Detroit about the old McMillan School. The photo showed that building is in terrible shape. Since the school was closed, it was bought by a private owner who had plans to convert it into his office space. However, he's done nothing with it. It looks like it has caught on fire at least once. I'm asking that this be routed to the Buildings and Safety Engineering Department. It really needs to be demolished. I know that the building was designated an historic site, but at this point it's almost a total loss anyway. So, I hope the Historic Designation doesn't create any problem because it really needs to come down.

***(Complaint was referred to Buildings and Safety Engineering Department, Historic Designation Advisory Board and the Detroit Board of Education)***

Honorable City Council:

Re: Correction of Errors to the 2008-2009 Mayor's Budget.

After further review of the 2008-09 Budget submitted to City Council on April 12, 2008, errors and amendments have been discovered which should be corrected. There are two categories of corrections. First, there are "substantive" errors, which must be corrected as an amendment to the Recommended Budget. Second, there may have been typographic and/or data entry errors, which do not affect appropriation totals or budget balancing. The "substantive" corrections will be identified with (\*), and will be addressed in the attached resolution.

Honorable City Council:

Re: Supplemental Correction of the 2008-2009 Mayor's Budget.

The General Services Department has entered into a Memorandum of Understanding (MOU) with Wayne County (CPO No. 2763330) to perform an additional cut of vacant lots in the City of Detroit for a total of \$650,000. This agreement is for the duration of this calendar year ending December 31, 2008. A total of \$325,000 for the current budget and \$325,000 for Fiscal Year 2008-2009.

The MOU has been submitted to your Honorable Body for consideration. Therefore as a supplemental correction we are requesting to increase the 2008-2009 Mayor's Budget for the General Services Department Budget by \$325,000, to provide additional funding for vacant lot cuts.

As a result of this amendment, the revised total budget is \$3,044,489,932. The position count will remain the same.

I will be available to address any concerns or questions that you may have.

WAYNE COUNTY TREASURER  
CONTRACT NO.  
2763330**

**MEMORANDUM OF UNDERSTANDING  
BETWEEN THE CITY OF DETROIT  
AND THE OFFICE OF THE  
WAYNE COUNTY TREASURER**

**THIS MEMORANDUM OF UNDERSTANDING** ("MOU") is made and entered into this 24th day of April, 2008 by and between the City of Detroit acting by and through its General Services Department, as a governmental entity (hereinafter referred to as ("the City") and the Office of the County Treasurer, the foreclosing governmental unit in Wayne County as defined in Public Act 123 of 1999, MCL 123.78 et. seq., (hereinafter referred to as "the Treasurer"). This MOU sets forth terms under which the City will provide services to the Treasurer for the removal of solid waste and for the maintenance of vacant parcels of land of tax foreclosed properties whose title was transferred to the Treasurer by judgment of the Wayne County Circuit Court.

**WITNESSETH**

WHEREAS, Title to tax foreclosed properties located within the City of Detroit has been transferred to the Treasurer and were not purchased at public auction; and

WHEREAS, The unsold vacant parcels of land in the Treasurer's inventory are open to the accumulation of solid waste and are often in need of maintenance; and

WHEREAS, The City has an established infrastructure to remove solid waste and perform maintenance services with respect to blighted properties located within the City of Detroit; and

WHEREAS, The Treasurer desires to undertake corrective action with respect to blighted properties in its inventory; and

WHEREAS, The City has agreed to provide the Treasurer with services to remove solid waste and maintain the vacant parcels of land in the Treasurer's inventory; and

WHEREAS, The Parties, working together in the public interest, desire to enter into this MOU to outline the scope and manner of services to be provided to the Treasurer by the City;

NOW THEREFORE, In consideration of the mutual undertakings of the parties hereto, it is agreed as follows:

May 27

1318

2008

## 1. Scope of City Services

- As to all vacant properties owned within the City by the Treasurer, the City will provide mowing and solid waste removal services adequate to protect such properties from citation for violation of City ordinances.
- The City will direct its inspectors to inform the General Services Department of all conditions on Treasurer owned vacant properties which would justify the issuance of a Blight Violation Notice and will further direct such inspectors the Blight Violation notices should not be issued to the Treasurer as regards Treasurer owned vacant properties as long as this MOU is in effect. In the event that such a Blight Violation Notice is issued the City will appear on behalf of the Treasurer and request its dismissal and if the County incurs costs in connection with Blight Violation Notices issued while this MOU is in effect the amount of such costs may be taken as a deduction from payments due to the City under this MOU.
- The City will provide combined mowing and solid waste removal services (services) four (4) times a calendar year, consistent with the City schedule for blighted property to be performed during the calendar year as to all vacant Treasurer owned properties within the City.

## 2. Payments and Invoicing

- Between the period of January and March of each year during which this MOU is in effect the Treasurer will advise the City of the number of lots included in the County's inventory of properties within the city on the immediately previous January 1st. During this period the City and the Treasurer will work together to agree on the total annual amount to be paid to the City for providing mowing and solid waste removal services during the calendar year. The total amount to be paid to the City and the manner of payment shall be governed by and contingent upon the execution of a separate payment schedule in the general form attached as Schedule A.
- After the completion of a scheduled service, the City will provide an invoice to the Treasurer for payment. Unless otherwise agreed upon by the parties, the Treasurer agrees to pay the invoice within forty-five (45) days after receipt. In the event of non-payment, upon written notice, as described in Section 3, below, the obligation of the City to perform services as required herein and to refrain from issuing Blight Violation Notices will be terminated.

## 3. Terms and Scope

- The initial term of this MOU is January 1, 2008 through December 31, 2008 unless terminated by either party as provided herein.
- This MOU is renewable on an annual basis upon execution of a new Schedule A during each calendar year.
- No amendment to this MOU is effective unless it references this MOU, is written, is signed, and acknowledged by duly authorized representatives of both parties and approved by the City Council.
- Each party will designate a contact person who will be responsible for facilitating and implementing the terms and conditions of this MOU.
- The Parties will operate in good faith to resolve, clarify or accommodate with respect to any and all issues arising under this MOU.
- The Parties further agree that either party may terminate this Memorandum of Understanding upon 30 days written notice to the other party.

## 4. Indemnification

- Except as to the assistance specified in Paragraph 1 pursuant to which the City will appear on behalf of the County as regards Blight Violation Notices issued in connection with properties covered by this MOU, there shall be no indemnification of either party by the other as regards liabilities arising out of the functions covered by this MOU. Each governmental party shall be responsible for its own liabilities and defense as determined by law provided, however, that any liability for damage caused by trees falling on adjoining property due to natural causes including wind shall remain that of the landowner and any liability for damage relating to the performance of mowing and solid waste removal services shall be the responsibility of the City if such damage arises out of the negligence of City employees.

**THE DETROIT CITY COUNCIL  
2008-2009 FINANCIAL AND BUDGETARY PRIORITIES,  
PUBLIC POLICY, PLANNING, AND ACTION RESOLUTION**

By ALL COUNCIL MEMBERS:

WHEREAS, The Detroit City Council has held extensive hearings and deliberations on the 2008-2009 Budget as proposed by the Mayor; and

WHEREAS, On this day, May 27, 2008, the Detroit City Council adopted a program budget that is based on sound budgetary principles for municipalities, well reasoned financial assumptions, past performances, stated goals and projections for City departments, divisions and agencies, and in consideration of the profound fiscal uncertainties of the current economy and the anticipated revenue reductions from federal and state funding sources; and

WHEREAS, In adopting this budget, the Detroit City Council incorporates fiscal and public policy priorities outlined below to provide for improved and efficient government operations and service delivery to all communities, residents, citizens, institutions, and businesses in this great city; and

WHEREAS, We would be remiss if we were not to acknowledge the current political environment that has proven to be challenging to our efforts to keep the City functioning, it is important to say that in spite of recent events, the current budget passed by City Council this day, reflects a spirit of cooperation between both branches of government, that places the citizens' interest in maintaining city services above the political fray; and

WHEREAS, The budget presented by the Administration included an assumption of the elimination of a \$65 million dollar deficit in the General Fund using proceeds from a complex proposed sale of the United States side of the Detroit-Windsor Tunnel to the not yet established Detroit Tunnel Authority (DTA) and the expansion of an Interlocal Cooperating Agreement between the DTA and a like entity to be established by the City of Windsor through which Windsor would eventually operate, control and obtain all profits derived from the operation of the Tunnel until Windsor has been repaid the sum of \$75 million plus interest that it will initially loan the DTA; and

WHEREAS, City Council has, to date, not received all of the contractual financial agreements that specify the details of this proposed transaction. As Council has reiterated, without sufficient financial and legal documentation, this Honorable Body cannot exercise its required due diligence on the transfer of such an important asset and therefore cannot support the assumed collection of this revenue during the 2007-2008 fiscal year or the inclusion of this proposed revenue in the 2008-2009 Budget. Therefore, Council has undertaken to fill the gap created with the substitution of an alternative revenue source; namely, the proposed sale of Fiscal Stabilization Bonds; and

WHEREAS, This is not to be interpreted to mean that should the Administration supply sufficient documentation during this or the upcoming fiscal year which, establishes the policy and fiscal soundness of this tunnel transaction from Detroit's perspective, that obviates the needs to utilize these bonds, then the issuance of bonds should not be pursued; and

WHEREAS, The Detroit Police Department has been reorganized from a system that included twelve (12) precincts located within the neighborhoods and scattered across the city to a system with six (6) districts that are spaced far apart; and

WHEREAS, This reorganization resulted in the closing of six (6) buildings that placed police officers within the community and has now greatly increased the physical distances from a police station for many citizens seeking assistance in order to make complaints or reports or to avail themselves of other services within the Department; and

WHEREAS, Members of the public have repeatedly complained to this Body that the removal of the precincts relates to a real absence of a police presence among the neighborhoods and has created an atmosphere that lends itself to at least the perception of an increase in criminal behavior and has led the City Council to encourage the Administration to return to the precinct system of police stations; and

WHEREAS, This Honorable Body has received numerous complaints regarding a lack of response or slow response by the Police Department to emergency calls for home invasions and other in-progress crimes and this Council has repeatedly asked the Department for a plan of action to improve on their response to these requests; and

WHEREAS, Last fiscal year the City Council appropriated funds, for recruitment to fill vacant positions within the Fire Department, it is and has been the desire of City Council to increase the number of firefighters who reside in the City of Detroit; and

WHEREAS, Representatives from the Executive Branch have testified before this Honorable Body that the only recruitment method the Fire Department has utilized this year has been to send notices to current city employees in an effort to increase the number of city residents; this Council wishes to make it known that it is our desire that the process be opened to the general public so that all otherwise eligible residents of this city might also have an opportunity to apply for these jobs; and

WHEREAS, In spite of a growing need for additional EMS units to respond to emergency requests for medical attention, a number of positions in the EMS Division remain vacant. The City Council encourages the Department to immediately move to fill those

positions with qualified Detroit residents and asks that a first report on the Department's progress in this area be provided to this Body within ninety (90) days followed by a second report in one-hundred and twenty (120) days; and

WHEREAS, The Detroit City Council has heard the voice of the citizens and recognizes the need to move towards a cleaner and greener Detroit. This year's budget reflects adherence to the call for a more environmentally conscious government, particularly in regard to how the City manages its solid waste disposal. Although continued contractual obligations do not permit the immediate shutting down of the Greater Detroit Resource Recovery Facility, and the City Council is frustrated by the fact that as this facility is controlled by the Greater Detroit Resource Recovery Authority we are limited in what actions we can take to shut down the incinerator. City Council does, however, believe it imperative that we work together with the Authority to implement a new course of action. More time and information is needed to develop and implement a plan to achieve our ultimate goal. We believe with that goal in mind we can move the entire City toward recycling and a date will be forthcoming for the closing of the Facility; and

WHEREAS, There will necessarily be a period of transition as the City seeks to move away from the burning of the City's solid waste, City Council takes the lead by providing funding for the creation of a Pilot Recycling Program in anticipation of the City's transition toward more economical and environmentally friendly methods of waste disposal and an end to the current trash fee; and

WHEREAS, City Council has received numerous complaints from residents who feel they were unfairly ticketed by Compliance Officers with the Environmental Enforcement Division or Buildings & Safety Engineering for the illegal dumping of all manner of trash and other solid waste within the city that was caused by a party or parties unknown to them; and

WHEREAS, This Council believes it is patently unfair to require those residents to pay the entire cost of the ticket as determined by the Department of Administrative Hearings while they appeal their cases; to address this problem, first, we have increased the revenue figures for the Buildings & Safety Engineering Department to provide for the addition of three (3) new positions along with the transfer of staff and funding to Inspections, so that those citizens protesting their ticket will be entitled to a show-cause hearing within the Department before the tickets are adjudicated in the Department of Administrative Hearings; and

WHEREAS, To further address the issue, our state lobbyist is directed to seek a change in state law to permit an appeal of these environmental tickets with the posting of a 10% cash bond and not the full amount of the ticket; and

WHEREAS, The increased development of food born illnesses resulting from improperly prepared foods, prompts the Detroit City Council to request that our Lansing Lobbyist immediately begin work to secure a change in state law that will grant Detroit's Department of Health and Wellness Promotion with the funding and authority to conduct inspections in places other than restaurants that provide food services. These types of inspections are currently under the jurisdiction of the State of Michigan and we believe the citizens of Detroit will be better served if this becomes a local function; and

WHEREAS, In further recognition of the importance of good healthcare for our residents this Council appropriated \$4,000,000.00 in last fiscal year's budget for an additional twenty-five (25) registered nurses within the Health and Wellness Promotion Department, yet those positions remain unfilled. The Detroit City Council implores this Administration to take action to fill the twenty-five (25) vacant nursing positions; and

WHEREAS, Areas of this city are undeserved when it comes to the availability of and the proximity to quality health care services. We ask that the Department of Health and Wellness Promotion develop a written plan to increase the number of Federally Qualified Health centers within the city in order to improve access to high-quality health care for our residents; and

WHEREAS, This Council believes it is also important that residents have access to the cultural and recreational opportunities that this city provides; therefore, we are increasing the appropriation to DDOT for an additional bus route on the Woodward line to provide transportation from Downtown Detroit to the Cultural Center and the Detroit Zoo in Royal Oak during the spring and summer months; and

WHEREAS, Facilities on Belle Isle such as the Children's Zoo and the Aquarium are no longer in operation leaving only the Nature Center for residents to enjoy; and

WHEREAS, This Body believes that the focus has been shifted to the Detroit Zoo, we are creating a new cost center and funding it with \$100,000.00 to explore the possibility of separating the Belle Isle facilities from those covered by the Agreement between the City of Detroit and the Detroit Zoological Society; and

WHEREAS, The resulting decrease in revenue projections from sources within the City due to a decline in population and cuts in state revenue sharing require the City to continue to be extremely judicious in its use of taxpayer funds while still seeking to provide the necessary services its citizens require, expect, and deserve; and

WHEREAS, The Detroit City Council, through its action in reviewing the Mayor's proposed budget has acted to approve funding to accomplish the following:

May 27

1334

2008

- Replaced anticipated \$65 million proceeds from the proposed Detroit/Windsor Tunnel deal with Fiscal Stabilization Bonds due to the continued lack of adequate information from which this Honorable Body can do its due diligence prior to reaching a decision on the proposed transaction;
- Creation of a Pilot Recycling Program in an effort to move the city in a transition year towards closing the incinerator;
- Cover a portion of the Medicare premium of General City retirees over the age of 65 who retired prior to 1998;
- The addition of four (4) contractual positions with the Board of Review to improve its capacity to process the greatly increased number of appeals for property tax relief;
- Development of a process that includes show-cause hearings for persons protesting tickets for illegal dumping;
- One (1) additional full-time position and funding for contractual services within the Office of the Ombudsman to improve their ability to respond to citizen complaints;
- Explore the possibility of separating the Belle Isle Nature Center and the Aquarium from the Detroit Zoological Society Operating Agreement;
- Add an additional route to the Woodward DDOT line that will run from downtown Detroit to the Detroit Zoo six (6) months of the year;
- Increased the subsidy to the Charles H. Wright Museum of African-American History;
- Provide training for members of the Board of Ethics; and

WHEREAS, The Detroit City Council has completed its review process for the 2008-2009 Community Development Block Grant (CDBG) program, including a review of recommendations by the Mayor, the City Planning Commission, and the Citizen Review Committee; and

WHEREAS, The Mayor has announced an "Economic Stimulus Plan" that includes laudable goals that this Council agrees are worthy projects that should be undertaken and will only serve to improve and expand the services we provide our citizens; and

WHEREAS, The Mayor has also consistently pushed his "Next Detroit Neighborhood Initiative" (NDNI) as the City umbrella under which these achievements would occur this Honorable Body has only recently been informed that the NDNI will actually be a separate and distinct non-profit 501C(3) entity under whose auspices the Mayor's Economic Stimulus projects will be completed; and

WHEREAS, There has been absolutely no discussion with this Honorable Body regarding the complexities involved with the shifting of projects and improvements that are inextricably tied to City funding, Community Development Block Grant Funds and the necessity for Bond Approval to an organization that has yet to be created, has no board of directors and removes all possibility of oversight by the City Council;

**NOW, THEREFORE BE IT RESOLVED THAT THE 2008-2009 BUDGET OF THE DETROIT CITY COUNCIL INCLUDES THE FOLLOWING LEGISLATIVE BUDGET PRIORITIES, POLICY, AND PLANNING ACTIONS:**

1. That the Detroit City Council adopts Schedule A, City Council changes to the Community Development Block Grant/NOF Funds.
2. That the Detroit City Council adopts Schedule B, City Council changes to the 2008-2009 Budget.
3. That Non-Departmental Appropriation 10102 be increased by \$1,654,200.00 to provide a healthcare improvement of \$30.00 per month for all General City retirees over the age of 65 and retired prior to 1998 for payment of their Medicare premium.
4. That \$164,000 is added to the Office of the Ombudsman to support one (1) additional position and additional contractual services to handle citizen complaints.
5. That \$250,000.00 be added to the City Council Research & Analysis Division budget for outside legal services.
6. Restore \$13,520.00 to the City Council Fiscal Analysis Division.
7. Restore \$5,000.00 to the City Planning Division.
9. Restore \$1,000.00 to the Historic Designation and Advisory Bureau.
9. Restore \$21,865.00 to the Offices of Council President Pro Tem. Monica Conyers; Council Member JoAnn Watson, Council Member Sheila Cockrel, Council Member Barbara-Rose Collins, Council Member Kwame Kenyatta, Council Member Alberta Tinsley-Talabi, Council Member Martha Reeves and Council Member Brenda Jones.
10. Grant all appointees; non-union and contractual personnel of the Legislative Branch a 4% general wage increase effective July 1, 2008.
11. Creation of a new cost center with an appropriation of \$100,000.00 for exploration of a separation of the Belle Isle facilities from the Detroit Zoological Society Agreement with the City of Detroit.
12. Increased funding in the Buildings & Safety Engineering Department for the creation of a new organization and the addition of four (4) FTEs for Show-Cause Hearings.
13. Creation of a new appropriation be that is funded with \$3,850,000.00 for a Pilot Recycling Program.

May 27

1335

2008

14. That Non-Departmental Appropriation 00060 is increased by \$25,000.00 for training for members of the Board of Ethics.
15. That D-DOT's budget is increased by \$500,000.00 for the addition of a Woodward bus route that runs from downtown Detroit to the Detroit Zoo.
16. An increase in Non-Departmental to reflect a \$3,900,000.00 subsidy to the Charles H. Wright Museum of African-American History; and

BE IT FURTHER RESOLVED, That the City Council directs our lobbyists in Lansing and Washington, D.C. to use all their efforts to increase the amount of funding to Detroit for Homeland Security and to remove the obstacles that prevent those funds from coming directly to the City as a distinct and separate package; and

BE IT FURTHER RESOLVED, That the City Council directs our state lobbyists to seek a change in state law that will permit an appeal of environmental tickets with the posting of a 10% cash bond instead of the full amount of the ticket; and

BE IT FURTHER RESOLVED, That the City Council urges the Health & Wellness Promotion Department to immediately move to fill the twenty-five (25) vacant nursing positions within the Department and report to this Honorable Body on the status of same within ninety (90) days; and

BE IT FURTHER RESOLVED, That the Council encourages the Administration to use the Human Services Department to immediately begin a continuous monitoring of the Water Affordability Plan using existing staff which will not create another cost for the City; and

BE IT FURTHER RESOLVED, That the Detroit City Council hereby directs the Auditor General to immediately begin a forensic audit of the \$16 million contract that funded improvements to the Northwest Activity Center; and

BE IT FURTHER RESOLVED, That in conjunction with the previous statement this Council questions the rationale for the Northwest Activity Center to continue as a separate entity and calls on the Administration to begin discussions with the Council regarding its reorganization within the Recreation Department; and

BE IT FURTHER RESOLVED, That the Detroit Board of Police Commissioners be reminded of the reason for its very creation and employ a stronger, more aggressive use of its power in its response to citizens complaints; and to that end be encouraged to seek additional development training to help with that goal; and

BE IT FURTHER RESOLVED, That because residency is no longer a legitimate requirement when seeking individuals to join the Police Department, this Honorable Body urges the Department to begin much more aggressive recruitment efforts within the City of Detroit in order to increase the number of city residents within those ranks; and

BE IT FURTHER RESOLVED, That the City Council believes it is of extreme importance that our residents feel safe and secure in their homes and to that end we ask the Chief of Police to present this Honorable Body with an action plan to reduce the incidences of home invasions and provide us with a monthly report on the progress of those efforts; and

BE IT FURTHER RESOLVED, The City Council urges the Mayor to continue to seek ways to improve upon the progress made by the creation of the 311 Call Center by demanding that the individual city departments provide a prompt response to all requests for service and follow that with a self-assessment to resolve the problems that necessitate those requests; and

BE IT FURTHER RESOLVED, That the Detroit City Council implores this Administration to make an all-out effort to improve the state of joblessness within our city by seeking and directing more funding to the Workforce Development Department and by working in collaboration with the State of Michigan and other agencies in coordination with Health & Wellness Promotions' Substance Abuse Prevention Program; and

BE IT FURTHER RESOLVED, That this City Council wishes to convey its strongest disapproval regarding the stealth and duplicitous nature employed by this Administration in its efforts to dismantle the very system of checks and balances that lie at the core of a democratic government by seeking to create a 501C(3) entity outside of city government to manage and control essential local governmental services and functions that should be City projects; and

BE IT FINALLY RESOLVED, That, the City Clerk is directed to provide a copy of this resolution to the Mayor, the Finance Director, the Budget Director, all agencies, departments, and divisions of the City of Detroit, the City's state and federal lobbyists, the Detroit Library Commission, the Wayne County Prosecutor's Office, the Detroit Wayne County Port Authority, the Detroit Retired City Employees Association, the Detroit Police Officers Association, the Detroit Police Lieutenants and Sergeants Association, the Michigan Congressional Delegation, the Michigan Municipal League, and the Southeast Michigan Coalition of Governments.

**RESOLUTION  
REGARDING THE CESSATION OF  
CONSTRUCTION ON THE LIVERNOIS  
MEDIAN AND THE FILING OF A  
WRIT OF MANDAMUS**

By Council Members Jones and Watson:

Whereas, The Detroit City Council adopted a resolution on June 13, 2007, recommending construction on the Livernois Median be halted and future construction be delayed until a comprehensive study by the business and residential communities is completed; and

Whereas, This resolution also requested that construction activity only resume after the findings and recommendations from the comprehensive study have been presented; and

Whereas, The Administration has elected to proceed with the construction of Phases II and III of the median, despite widespread opposition from the business and residential communities negatively impacted by Phase I of the median; and

Whereas, The Administration has also ignored the aforementioned resolution, duly enacted by the legislative body of the City of Detroit; and

Whereas, A writ of mandamus, which orders a public agency, governmental body or public official to perform an act required by law when it has neglected or refused to do so, is required for ongoing construction work on the Livernois Median to stop; and

Whereas, The City Council has a vested interest in ensuring duly enacted resolutions are given proper deference; and

To the residents of the City of Detroit, Honorable Colleagues, and Mayor Kwame Kilpatrick:

As your President, I am honored once again to present the Budget Address of the Detroit City Council on behalf of my colleagues and our individual and division staffs. It is a task I do not take for granted because, as I have always said, and will restate today, none of us holds elected office in perpetuity.

This year's budget process has been quite unique because Council has been forced to deal with issues surrounding the Executive Office that have been challenging and have had to be incorporated into the time we traditionally reserve for our budget deliberations. As an honorable body, we have used our charter mandated authority to move swiftly and judiciously through a process that none of us took great pleasure in presiding over. However, as elected officials our jobs are not always easy and we must make tough decisions that are not always popular.

I think I can speak for all my colleagues when I say none of us took this job to be popular but rather to effectuate change, represent Detroiters and move this City forward. As a body, I believe we are doing just that. I must take this time to state that I am proud at the way this Honorable body has dealt with these difficulties in a just and thoughtful manner and I am honored to be a part of this City Council.

Despite the aforementioned challenges, I believe this Honorable body and the Executive Branch have worked together with a high level of cooperation. With that being said, this City Council still identified some concerns and potential pitfalls that we needed to address. One of our annual charter-mandated responsibilities is to approve the budget for the coming fiscal year. This is a responsibility none of us take lightly.

As this Honorable Body always does, we undertook a review of all city departments and their proposed budgets for the 2008-2009 fiscal year. We also conducted budget hearings every one of the departments over a period of several weeks. We have now completed this process and have made a number of changes to the Mayor's budget.

#### **The Current Detroit Windsor Tunnel Proposal Is Not the Solution**

Once again, the Mayor has submitted before City Council a plan to execute a long-term joint management deal with the City of Windsor to restructure the operations of the Detroit-Windsor tunnel. The proposal calls for transferring the ownership of the Detroit half of the Detroit-Windsor Tunnel to a newly created authority run by board members appointed by the Mayor and City Council. The agreement would remain in place for a 75-year period and the total value of the agreement is \$75 million. However, after using a portion of the \$75 million to fund an annuity for an insurance package on the tunnel as well as financing and legal fees the city is expected to realize \$65 million.

In the last two budgets recommended by the Mayor, the manner in which the Administration planned to solve the budget balancing issue by lowering the prior year deficit amount was to finance or sell the tunnel, first for \$58 million and now a

year later for \$65 million. In both instances these proposals arrived before Council in the last moments before the end of the fiscal year with insufficient documentation. The first proposal was to securitize the revenue from the tunnel. Twelve months have gone by and now the second proposal is to sell the tunnel to a yet to be created tunnel authority which would take the direct decision-making on the tunnel away from Detroit elected officials.

You may recall that during the deliberations of the Mayor's recommended 2005-2006 budget, the extent of "if comes, what ifs, and you got to be jokings" that were included in his budget included an amazing array of gimmicks like shifting animal control and restaurant inspections to the county, the consolidation of the city's bus system with SMART, and the regionalization of Cobo Hall's operations. Unfortunately, these are no closer to reality today than they were at that time.

Council saw through the charade, canceled the typical departmental budget hearings and got down to business, going through the budget appropriation by appropriation, examining the functions of each department and making the hard decisions about what services needed to be reduced or cut to produce a truly balanced operational plan for the upcoming fiscal year. At no time did the Council ever recommend fiscal stabilization bonds to solve the problem.

But City Council is recommending them now. The fiscal stabilization bonds that are proposed to total \$78 million to cover the prior year's deficits — \$58 million is specifically tied to the tunnel and \$20 million is to cover other prior year's deficits.

The Administration in a flurry of activity and negotiations has brought almost \$47 million in land sales to the table at the last minute to reduce the initial deficit projection. A rush to sell City assets always concerns this body. Many of these parcels were proposed to be sold for last year's budget and then were not sold without any explanation. Also, it is important to note that land sales are only one time revenue generators and will never fix the underlying structural revenue shortfalls.

As for the tunnel deal, it is important to note that if Council ever approved this proposed transaction we would lose all our interest, oversight and authority in the Detroit half of the Detroit-Windsor tunnel. This is not something Council is interested in doing at this time in the absence of a deal that makes sense financially and which protects the interest of the City of Detroit. Council has yet to be convinced that the limited information presented on the current incarnation of these deals meets either test.

Until the Council is convinced, we believe this deal is irresponsible and shortsighted. A more appropriate and

responsible approach is Fiscal Stabilization Bonds — a tried and true finance option and recommended by the Director of our Fiscal Analysis Division. This sale would not occur until late in the 2008-2009 fiscal year and would only be necessary if the Administration cannot complete the tunnel transaction, present an alternative savings plan, or identify a new revenue source to make up this shortfall. Some have questioned why Council has again taken this approach as opposed to making cuts. Consider the following: Personnel cuts totaling \$78 million would require the layoffs of 1,300 civilians. This is the equivalent of the staffs of the entire Departments of Public Works, General Services, and Finance. Until Council sees a revised offer on the tunnel deal and certification through audited financial statements that the city's financial position is better than what Council has determined, cuts would be premature and would seriously hamper city service delivery.

#### **Economic Stimulus Package**

The Mayor has been quoted in the media and at this Council table as stating that he and his Administration spent 18 months developing the Economic Stimulus Package, however this Council was afforded little time to review this package to make an informed, fiscally responsible decision on the proposal or to ask intelligent questions on the contents of the package. Therefore, we made a uniform decision not to discuss the package at the table with Mayor Kilpatrick or his Administration. Let me take this opportunity to once again remind Mayor Kilpatrick that, as Detroit's legislative branch, we must be given adequate and timely financial information in order to make this and other decisions that affect our finances.

The Mayor's Economic Stimulus Proposal asks Council to abdicate its fiduciary responsibility mandated by the Detroit City Charter in order for his honor to have authority over \$200 million in contracts, \$25 million in loans and \$75 million rainy day fund. The Mayor's proposal will cost a total of \$900 million, \$540 million in interest over the initial borrowing of \$360 million, with \$60 million to be borrowed just to cover the first two years of debt service. What is clear from our preliminary review is that the package does not stimulate Detroit's economy and it falls short of creating relevant core services that Detroiters deserve and demand from City government. Moreover, the Mayor plans to pledge 15 percent of casino tax dollars, a major revenue source, for 30 years to finance the package. Our fiscal Director feels it is ill-advised to do this in the face of rising costs and declining revenues.

Council believes also that the financing of this package, which would be accomplished through a bond issue is equivalent to financing \$300 million-plus worth of work on a credit card, something the City

can ill afford given its already-considerable debt burden.

#### **Community Development Block Grants**

In light of city government's still suspect, but improving fiscal condition and the social economic challenges each citizen is facing, the Council is all the more conscious of the need to maximize federal dollars such as those that come through the Community Development Block Grant (CDBG) Program. The 2008-2009 entitlement from HUD is \$36.6 million, which is \$2 million less than the current year. While funding for the current year was a 1% increase over the previous year, we see a return to the trend of previous year with this 5.6% decrease in funding. Sadly, this reduction is matched or rather out-paced by the growing needs in our Detroit community.

Preparation for this year's review began by working with the Administration to modify the City's CDBG and the Neighborhood Opportunity Fund (NOF) program just as indicated in last year's address. The timeline was adjusted in hopes that CDBG/NOF would be completed in March prior to the Budget review. Joint Threshold criteria were agreed to by both branches of government as well as joint selection and ranking criteria.

However, as the process progressed it became more and more apparent that one particular criterion calling for the majority of an organization's board members to be Detroit residents, was detrimental for a number of groups. While some were able to meet the criterion others either did not have the time to make the change and/or were challenged by organizational structure. The staff of the Planning and Development Department (P&DD) and the City Planning Commission (CPC) working with the local office of HUD devised a second Request for Proposals and corresponding process minus the problematic criterion. CPC staff was able to do in about one month, what is generally done in three.

This year 371 proposals for CDBG/NOF were submitted by community-based organizations and public service agencies throughout the city. Of that total 56 were new groups. By the end of a greatly compressed but vigorous deliberative process 164 proposals were allocated funding.

The City Council employed several strategies through the CPC staff utilizing the scores from selection and ranking review and the funding priorities, adopted by Council in the summer of 2007, to determine the distribution of funds among the various proposals. Health, Recreation, and Senior Citizens were the top three priority areas determined for public service activities. Economic Development, Home Repair, and Demolition were the top three priorities identified for non-public service activities. While this resulted in

the exclusion of some long standing groups, it was important to uphold our process and decrease the number of groups to which funds are awarded per HUD's direction. We hope to identify untapped opportunity and expand the pool of funding sources in the future.

Job creation for youth and heads of households is a carryover concern from last year. Funds were secured for youth programs for both this and next summer working with P&DD. Dollars were set aside for additional job creation and related economic development activities through community organizations and the Office of Neighborhood Commercial Revitalization.

Each year, one of the major activities funded through CDBG is demolition. Over the past 20-plus years well over \$229 million in CDBG funds has been spent and more than 31,000 structures have been demolished. For 2008-09, the Mayor proposed spending about \$5.24 million on demolition and the Council responded with about \$5.1 million on demolition preferring as with last year that other funding sources be explored along with support for preservation. A recently approved pilot program with HUD properties through the City to qualified non-profits. We are also encouraged that the Law Department hopes to begin going after outstanding debt owed to the City including those landowners with liens against their property for demolition.

Unfortunately, this year's process, already delayed and revised as a result of the need to issue the second request for proposal (RFP), was additionally impacted by a poorly timed and ill-conceived effort of the administration to further alter the CDBG/NOF program amid the process. The Mayor submitted recommendations for funding in categories rather than for individual groups. The administration's apparent desire was to have the Council respond in kind and leave the actual selection of groups for funding to the administration in a post budget process. They attempted to leverage this position with a legal opinion alleging possible Charter violations. The Council sought its own legal opinion of Special Council and determined to proceed with the normal and expected process.

The Community Development Block Grant and Neighborhood Opportunity Fund process requires a new way of thinking altogether. Both the Legislative and executive branches have clearly exhibited the will to modify the program in order to suit their respective priorities as well as respond to concerns of HUD and concerns arising from the greater community. Both branches appear to support targeting of funds and a reduction in the number of groups funded in an effort to have greater impact. There has also been

support for changing the timetable associated with the program. While City Council has attempted to modify the program outside of the review period with the cooperation of P&DD, it was unwise and unnecessary for the administration to force the issued of categories in the manner chosen.

The City Council urges the administration to engage us in a constructive discussion of modifications to the City CDBG/NOF program beginning this June. HUD sees us as one city. We should work cooperatively and transparently toward the enhancement of this program to ensure its future benefit to City Government and the many organizations and programs serving the City.

#### **Other Good News By Way of City Council's Closing Resolution**

Other changes that Council has made to the budget for Fiscal Year 2008-2009 include the following:

This Council believes it is patently unfair to require residents to pay the entire cost of blight tickets while they appeal their cases. As a result, we have increased the revenue for the Buildings & Safety Engineering Department to provide for the addition of four (4) new positions along with the transfer of staff and funding to Inspections so that those protesting their ticket will be entitled to shown-cause hearing.

The increased development of food-borne illnesses resulting from improperly prepared foods, prompts the Detroit City Council to request that our Lansing Lobbyist immediately begin work to secure a change in state law that will grant Detroit's Department of Health and Wellness Promotion with the funding and authority to conduct inspections in places other than restaurants that provide food services. These types of inspections are currently under the jurisdiction of the State of Michigan and we believe the citizens of Detroit will be better served if this becomes a local function.

Council also recognizes the increased demands on the Board of Review, demands that stem in no small part from an economic climate that facilitates the increased risk of foreclosure due to delinquency on property taxes, mortgage payments or both. To ensure proper, thorough review of applications for tax relief from the board the Council is allocating funds for the addition of four (4) contractual positions with the Board of Review to improve its capacity to process the greatly increased number of appeals for property tax relief.

City Council has put approximately \$3.9 million in next year's budget to start a pilot recycling plan in the City of Detroit. This is the result of Council's preliminary review of documents associated with the "sale/lease back" transaction involving the Greater Detroit Resource Recovery

May 27

2008

Authority (GDRRA) and the Resource Recovery Facility about 17 years ago, one of the most complicated deals in this city's history by far.

Now, the City is faced again with important decisions and deadlines involving the facility, including the decision to continue to lease the facility or not by June 1, 2008, and the decision to repurchase the facility or not by July 1, 2008. Implicit in these decisions is whether or not the City of Detroit continues to dispose of its trash using its current waste-to-energy system through GDRRA or implement a recycling program as other municipalities around the country have done.

The City Council is disappointed that the Administration has only just recently provided key documents and information to the City Council regarding its strategy on the future of the GDRRA and the Resource Recovery Facility. Nonetheless, the Honorable body is committed to working with the Administration on these difficult and complex questions.

The Council is also grateful for the input and feedback from various environmental groups and subject matter experts on recycling shared with City Council's Environmental Taskforce chaired by Councilwoman Joann Watson.

Although continued contractual obligations don't allow for the immediate shutting down of GDRRA, this Honorable Body will continue working toward a new course of action. More time and information is needed to develop and implement a plan to achieve Council's ultimate goal. The \$3.9 million allocation helps move the City toward recycling and a vision for a cleaner city advanced also advanced by Council's Keep Detroit Beautiful and Green Task Forces which are chaired respectively by Alberta Tinsley-Talabi and myself.

Each year Council embarks on our budget deliberations I am reminded of a quote by Nelson Mandela "It always seems impossible until it's done." This comes to mind because balancing the city budget in a fiscally responsible manner is a huge undertaking for this Council. There are differing opinions at this table during this process at times because we all have a high degree of passion for the City of Detroit. We go into the budget process with a fine-toothed comb with an eye toward maintaining core city services, not cutting jobs, improving city services and delivering a budget to the Mayor that the citizens of Detroit can be proud of.

We must develop a new and improved fiscal discipline moving forward — we must balance our books and we must deliver high quality service to our customers — the Taxpayers, our true bosses. None of us hold these jobs in perpetuity

and we must value what we do on a daily basis. This job is a privilege and I've come to understand this more and more over the past 11 years.

Someone once told me that each day is a gift — and that the past is history; the future is a mystery and this moment is a gift. That is why this moment is called the "present." We must take care of the present in order to protect our future. Finally, we must have integrity in all we do for the people of Detroit.

We wish to extend a special thanks to several groups and individuals. First and foremost to our Fiscal Analysis Division: Irvin Corley, Jr., Director; Anne Marie Langan, Deputy Director; Fiscal Analysis Division Staff; Derrick Headd, Sabrina Shockley and Jerry Pokorski. To our Auditor General and staff; Loren Monroe, Jeffrey Vedula; to our Research and Analysis Division Director, David Whitaker and staff; to the City Planning Commission Director, Marcell Todd and staff; City Ombudsman Dureen Brown, Deputy Ombudsman John Binion and staff. We thank our City Clerk, Ms. Janice Winfrey and staff for their support.

We also thank our council member office staff collectively and individually for their commitment, time and professional skill and efficiency.

Additionally, we want to once again thank Mayor Kwame Kilpatrick, Pam Scales, Director of Budget, and all their staff for their high level of cooperation during this budget process.

In closing, we thank each and every city employee, all union and community representatives, and especially the citizens of Detroit. We appreciate your support, your voices, your prayers, and your continuing partnership in our city. We have also appreciated your many letters, phone calls, and e-mails and want you to know that many of your suggestions played a key role in shaping the decisions we have made in this budget process.

God bless and thank you.

#### Mayor's Office

May 30, 2008

Honorable City Council:

Over the last seven years we worked together to restructure the city's budget in ways that have never been considered. When I took office in 2002 the city was faced with a 300 million dollars mounting structural deficit, which if left unabated, would have plunged the city into receivership. The city was faced with a "Hobson's Choice" of either continuing to do business the way it has done in the past, or create a new world order to change the paradigm on how we approach problems, determine solutions, and execute a plan of action.

In spite of a stagnant state economy, local companies facing increased competition from the globalization of the world economy, cuts in Federal and State revenue sharing, and the worst economic climate in Michigan since the "Great Depression" we established an aggressive plan of action aimed at creating the

"Next Detroit". That term embodies what we believe to be the hope of the citizens of this city to redefine what we are, not continue to hold on to what we were, and old ways of thinking. We rolled up our sleeves, began the difficult task of reshaping our workforce, service delivery models and thought processes on what could be accomplished. This was done in a business like fashion. Facing a down grade in the city's credit from all of the nation's rating agencies in 2005, we took the road less traveled and changed how we viewed the city and its operation to focus on the best way to deliver service to our residents and reduce our operating cost. We did the following:

- Changed the structural nature of health and benefits received by city employees that has resulted in substantial savings on an ongoing basis.

- Eliminated 100 million dollars in gross payroll.

- Reduced the dollar amount for outside contract services that the city enters into.
- Reduced overtime dramatically over the last five years.

- Consolidated real estate leases to save an estimated 40 million dollars on an ongoing basis.

- Dramatically reduced the amount of property that the city had to maintain through aggressive sale of non-productive land.

- Spun off operations of the Detroit Zoo, Historical Museum, and Eastern Market to reduce city's commitment to these entities and create an independent funding model for them to carry forward into the future.

- Transferred operation of the Southfield "Waste Transfer Station" to the Greater Detroit Resource Recovery Authority, which dramatically reduced internal cost to handle trash in the City of Detroit.

- Created a General Services Service Department to consolidate internal operations of city departments to provide greater efficiency.

- Created 74 million dollars in additional revenue by instituting a "Trash Fee" to cover the cost of handling and disposing of solid waste.

- Consolidated police precincts into districts, placing more officers on the street, reducing officers used in administrative capacities, and providing for greater flexibility in the operations of the police department.

Now, as we stand on the cusp of a balanced budget, we must avoid the temptation to return to old school thinking to balance the budget, which rejects innovative out of the box thinking in how a municipality deals with its assets. We can not retreat from the progress we have made to eliminate the city's structural deficit.

To this end I am vetoing the following

items in Council's budget: Prior Year Deficit of \$78 million, Fiscal stabilization bonds of \$78 million, the whole block grant schedule, Charles H. Wright Museum of African American History ("MAAH") \$2 Million appropriation, City Council budget for \$250,000 for lawyers to pursue proceedings against the Mayor's office and to balance I am vetoing the reduction in police turnover \$1 million and Property Sales of \$1.25 million. (Schedules A and B Attached.)

First, let me address the use of Fiscal Stabilization Bonds or "Deficit Financing Bonds." These bonds by statute address short terms needs of a municipality to get it through difficult times. These bonds are more expensive than short term borrowing for Revenue or Tax Anticipation Notes ("Rans and Tans" respectively) that the city issues every years. By borrowing sixty-five million dollars in fiscal stabilization bonds, the city is actually borrowing \$78 million dollars with interest, reducing flexibility in next year's budget. When you examine the five-year trend in the city's budget projection you see that this type of borrowing accomplishes the exact opposite of what council intends: it destabilizes the city's financial condition. That for sure is not the way to go.

During Council's deliberation on the budget and proposed use of budget stabilization bonds, Moody's rating service indicated that it would downgrade the city's credit rating. We advised Moody's that their action was premature because this administration would not use deficit borrowing to fill any budget gaps. We advised Moody's that we would make adjustments in the city's workforce, reduce spending, and sell unproductive land to compensate for whatever shortfall that may exist in this year's budget if we are not able to get a tunnel deal done. Yesterday Moody downgraded the city's credit rating because of council's actions. This type of financial irresponsibility must not be allowed to happen. Standard and Poors and Fitch are waiting in the wings to downgrade the city's credit rating if we continue this path.

This is not the first time Council has been irresponsible in handling budget matters. Two years ago this body allowed the contract for the city's outside auditors audit to sit until November 2006, putting the city months behind in fulfilling its audit requirements to the state. This single act put the city two years behind in preparing financial statement audits and has resulted in the state withholding revenue sharing on at least two different occasions because of council's in-action. The city is still suffering from the effect of that decision.

Now this body has proposed to issue deficit bonds because it doesn't want to act on an innovative way to eliminate the last vestiges of a 300 million dollars struc-

tural deficit. Borrowing to solve the problem is not the answer. That approach has never worked. This administration will not engage in deficit spending nor explore any option "Robbing Peter to pay Paul" in an attempt to avoid tough decision-making. Relying on the landmark decision granting power to Mayor Coleman A. Young in the Stecher decision when a previous council acted irresponsibly in trying to force bad budget decisions on the administration we will make the necessary adjustments in next year's budget if we are not able to get the tunnel deal done. Deputy Mayor Anthony Adams has already begun the process of determining what cuts, changes, modifications and alterations will be necessary if we don't get the tunnel deal done by June 31, 2008.

The discourse about the tunnel deal is disconcerting. Either there is a fundamental misunderstanding of how an appointive board operates, or a fundamental misunderstanding of high finance. Either way, it's frightening. What council was asked to do was to create an authority comprised of appointees of both the Mayor and Council to oversee an asset that we would receive seventy-five million dollars for, net sixty five million dollars, to the city's general fund. We currently receive roughly \$400,000 dollars a year in revenue from the tunnel. That represents approximately .028% of the city's revenue in any given year, which does very little to help the city balance its budget. It is the proverbial "drop in the bucket". We were able to negotiate a deal, which by all standards is in line with appraisals and established value for the tunnel — get money for the city's general fund and still maintain oversight for the asset and eliminate our structural deficit. We see nothing wrong with this approach.

Using the city of Chicago as a guidepost and what they did to securitize revenue from their toll way we actually improved upon their model. Chicago ceded authority over operation of its toll way to a private operator and took the money and ran. Here, the city grants control to a public board, gets money for its general fund, has no liability associated with the operation of the tunnel in the event of a revenue shortfall, and benefits from upside in any revenue generated from its operation. That is smart, innovative thinking, which eliminates the need to deficit borrow. Non-productive assets such as the tunnel need to be put to productive use. That's what the tunnel deal does. Lets not be afraid to "think outside the box"; let's not be blinded by a political agenda which rejects all that is different and new because it comes from the Messenger. Look at the message: eliminate the last vestige of a 300 million dollar structural deficit.

Next, let me address the issue of my

vetoing the block Grant Schedule. The idea of the Mayor and the Planning and Development Department (P&DD) allocating CDBG funding is not new. Since the inception of the CDBG grant program in Detroit (in 1974), Mayor Coleman A. Young allocated the bulk of CDBG funding to "bricks and mortar" type activities. In 1976, using the 10% contingency line item, \$506,000 dollars was set-aside (through Council Resolution) for the Neighborhood Opportunity Fund. Under subsequent administrations the NOF has been allowed to grow to its current unwieldy size. This unwieldy bureaucracy is also hampered by the imprudent act of funding up to the public service cap. While there is an allowable 15 percent cap on Public Service activities, there is not a mandate to spend up to and in recent years over the cap creating backlog of projects that cannot go to contract.

In 2002-2003 P&DD began a major "Restructuring" of the CDBG process. The thrust of the initiative featured targeting to clusters through specific activities needed in those areas. In 2004-2005 those specific activities, identified in prior years, became categories. In 2004-2005 Categories were introduced and were approved by City Council. The groups were named by the Mayor. Since that time "Broad Categories" have been provided through the budget process every year. However, after the 2004-2005 fiscal year, City Council has voted groups into the budget against the City Charter. According to the April 17, 2008 legal opinion of the City of Detroit Law Department, "Based upon the above authority, [the City Charter] it is our opinion that City Council appropriation of a line item budget, through the naming of specific subrecipient group, for Community Development Block Grant funds and Neighborhood Opportunity Funds is a violation of section 8-205 of the 1997 Detroit City Charter. Instead, the naming of such groups is the responsibility and prerogative of the Executive Branch through its Planning and Development Department."

I contend that City Council was not blind sided by some new phenomenon, or "ill conceived effort", but by P&DD effort to set the process right.

P&DD has also continually asserted the need to address HUD's concerns cited in its 2003 Monitoring findings and more recently through end of year evaluations as shown briefly below:

In HUD's 2003 monitoring report HUD officials suggested improving our CDBG process in four ways. Implementing these HUD directives will prevent the possibility of HUD reducing our CDBG allocation for non-performance:

1. "Make the Consolidated Plan a Meaningful Planning and Implementation Tool and only fund projects, which directly

address the goals of the City's Consolidated Plan.

2. Activities should be concentrated so that there are visible and sustainable results."

3. "Spend HUD funds to achieve demonstrable results and give priority to projects, which address the needs and goals of the Consolidated Plan.

4. "Reduce the number of projects/ activities funded annually."

Since 2003 the administration has proposed changes in the City of Detroit's CDBG allocation process based on these HUD directives.

The Administration proposed to address these HUD directives by creating funding categories tailored to the Consolidated Plan. Our current process is driven by each organization's own immediate needs rather than an investment strategy developed by City elected officials with analytical support by their staff and input from the community. The CDBG proposal process — involving the combined efforts of the Mayor, Council, CPC, and Planning and Development Department (P&DD) staff, could be used to develop a Detroit community investment strategy (based on Consolidated Plan goals). The strategy should be used as the basis for the City's CDBG funding allocations.

P&DD has focused on the needs identified in the 5-Year Strategy by allocating funds to the eligible activity categories that are needed to assist in the redevelopment of the City rather than focusing on individual sponsoring organizations.

A meaningful dialog between City Council and the Administration is promised by City Council every year; as is indicated in this year's budget, but with few results that directly address many of HUD's concerns. Interactions with City Council have resulted in joint threshold and selection criteria. The joint criteria resulted in a re-issuance of CDBG proposals despite our objections to use other less costly and time-consuming solutions. Additionally, in an effort to work cooperatively, P&DD recently reprogrammed funds that City Council assigned to the wrong activity.

This year the Council allowed its staff (City Planning Commission) to allocate funding to groups based on Council priorities and then over rode their decisions by allowing 14 groups back into the funding pool. This action results in staff being moved from the public service activity, where they logically should be funded, to an activity that is inappropriate based on HUD requirements. In addition, City Council has continued to initiate programs over the years that have resulted in unspent funds that were recently reprogrammed by the Administration to fight Lead hazards in the City of Detroit. Over a

million dollars remain unspent in council programs uninitiated without the input of P&DD. We agree that "a constructive discussion of modification to the City CDBG/NOF program beginning this June", should occur. We also agree that HUD sees us as one City and we should work cooperatively and transparently toward the enhancement of this program, however, this cannot occur when for example City Council engages HUD in a dialogue regarding the CDBG process without P&DD knowledge or input until after the fact.

Categorical funding will streamline program administration and allow us to have greater impact on critical services that our residents need. For years we have parceled out dollars to many organizations, which attempt to deliver service. This scattered service delivery model does not lend itself to creating "cooperative ventures" between organizations. It perpetuates a silo mentality because each organization competes for scarce resources, not focusing on the broader mission on how they can provide service by working with others. Recently large philanthropic organizations have turned to a more cooperative model, reducing the number of agencies they fund to better direct scarce resources to service delivery. We must follow suit, and thus the reasons for my veto.

With respect to the Charles H. Wright Museum of African American History ("MAAH"), the \$2 million increase in their subsidy doubles their current operating subsidy from the city. This is more operational money than the city has ever given them and more than they asked for. The MAAH has struggled in the past but is starting to stabilize their finances by increasing private contributions and membership. That is the way towards self-sufficiency. The reason for spinning off the DIA, Historical and not having MAAH a city department was to allow them to function as museum's do. They cannot survive if they are that dependent on the city for financial support. In tough times they get cut with short notice and no recourse. Independence is crucial for their own survival. Plus, this change would be an additional operational, long-term cost on the general fund that outstrips their ability to fund raise. At a time when we are balancing our operational budget these types of increases pushes us backwards. We are adding things that we cannot support long term when they have other options.

I would also be remiss if I didn't comment on the use of Real Estate sales to eliminate the city's structural deficit. Real

estate sales always represent a "Bug-a-boo" to some members of council because they are concerned that we are selling off assets. When you examine the city's current real estate portfolio, it would take this administration and the next proceeding administrations years to sell off all that we own. While we have never advocated selling everything I note that we gave you a package of real estate sales more than 20 million over this year's budget to create budget relief in next fiscal year. I will never discourage opportunity purchases which, in this instance, aid in the construction of a new addition to Children's Hospital of Michigan ("Tolan Field"), allow the city to stay in compliance with DWSD consent decrees regarding our operation of the water and sewage system ("Blain, Riverside Park, Revere Cooper and Brass"), or eliminate vacant buildings that the city has to maintain ("Broadhead Armory, GAR Building, Stone Pool). That makes good business sense.

Finally, a word about Economic Stimulus Package. This package is designed to enhance the city's aging infrastructure and stimulate growth and development in the local economy, create entrepreneurial loan fund and a rainy day fund balance. Under the current method of funding capital projects it would take the city more than 15 years to fund all of the capital projects listed in the package. By consolidating these projects into a stimulus plan we would be able to accomplish several things: employ Detroit companies at a time when there is a general slow down in the local economy, employ Detroiters who needs jobs during this time, redevelop numerous municipality facilities to upgrade, create better work environments and reduce our operational costs, consolidate operations to provide greater efficiencies and service to our residents. My travels around the city have revealed a great deal of interest from city residents who understand the need to improve the quality of the city's facilities, create new businesses to employ Detroiters, and the need to create a rainy day fund for the city. The fact that Greektown filed for bankruptcy doesn't impact the feasibility of the financial structure. Our market analysis took into account the possibility of Casino failure. We will be forwarding to you updated feasibility books on Monday, June 2, 2008, and look forward for the opportunity to have a full discussion of the merits of the stimulus package.

Sincerely,  
KWAME M. KILPATRICK  
Mayor

STATEMENT BY COUNCIL MEMBER  
SHEILA M. COCKREL REGARDING  
MAYOR KILPATRICK'S VETO OF  
FY 2008/09 CITY COUNCIL  
BUDGET ACTION

June 2, 2008

I continue to be deeply troubled by Mayor Kilpatrick's inability to engage in policy debate in a truthful and factual manner. Barely twenty words into his message the litany of untruths and half-truths begins.

Apparently the Mayor has "forgotten" that when he took office, Mayor Archer left him with a \$1.5 Million surplus in the General Fund, rather than "... 300 million dollars (in) mounting structural deficit".

Indeed, Mayor Archer's wise and careful stewardship left this Mayor with \$8.5 Million dollars in the Rainy Day Fund, which the Kilpatrick Administration promptly drained in FY02/03.

Mr. Kilpatrick writes, "... Moody's downgraded the city's credit rating because of Council's actions." I have read the Moody's Opinion dated May 29, 2008, very carefully. Nowhere does the analyst, Ms. Elizabeth Foes, indicate that the City Council was responsible for this downgrade. To the contrary, the writer asserts that the "persistent economic challenges that have impacted the State of Michigan and particularly the local economy . . ." played a role in the Moody's downgrade decision.

Other factors that led to this decision are the continuing deficits that have occurred in the Kilpatrick era-including the 2006 \$174 Million deficit (11.7%) in the General Fund.

The most damning statement in the Moody's opinion regarding the Kilpatrick stewardship of the City's resources is, and I quote: "Between fiscal 2002 and fiscal 2006, General Fund expenditure growth exceeded revenue growth annually (or expenditure reductions have been less than revenue shortfalls) creating **annual structural imbalance.**"

The opinion also notes "The sale of the tunnel between the city and the city of Windsor has been **delayed repeatedly.**" The Administration promised to bring the Tunnel Deal to Council for review in June of 2007. However, there have been three different versions of the Tunnel Deal since it was first brought to Council's attention in 2007. Counsel for the city has repeatedly revised transactional documents, with the most recent version of only some of the pertinent documents being provided to Council on May 21, 2008. It should also be noted that to date there is no financing in place to allow the City of Windsor to lend the money to the Detroit Tunnel Authority, which would then purchase the Tunnel from the City. Council cannot approve this transaction without knowing if financing is even available. The repeat-

June 3

1360

2008

ed delays emanate from the Administration's inability to bring forth a complete set of transactional documents for council's review.

The single most disingenuous assertion in the Mayor's Veto message is that the Council is responsible for the pattern of untimely filing the Comprehensive Annual Financial Report (CAFR) for a number of years. This misstatement of the truth is emblematic of this Mayor's inability to take responsibility for his own or the Administration's actions. The facts are that the outside auditor, KMPG, would not start the 05/06 audit until the 04/05 Audit was complete. It could not be completed because of numerous problems within the Administration. The fact that the FY06 Audit was filed 14 months late in February of 2008 with a number of "reportable conditions" is testimony to the inadequacies of Mayor Kilpatrick's leadership and his Administration.

I vote to override the Mayor's veto of the General Fund budget because I believe that, on the whole, the City Council has made fiscal sound decisions. I did not vote in the affirmative to give MAAH more funds than had been asked for in their budget. I believe that to be bad policy; however, the majority voted for this unsound fiscal policy.

Finally, while I am voting to override the Mayor's Veto, I do believe there are valid questions that have been raised regarding the Block Grant allocation process. I do believe that the council made unwise decisions in ignoring the recommendations of the CPC regarding 14 specific groups. I believe that there must be a dialogue on future Block Grant allocations before HUD runs out of patience with the City of Detroit.

At the end of the day, what is "frightening" (to quote the Mayor) is not this City Council's understanding of "high finance" but the fact that this struggling city, in such perilous times, has a Mayor whose arrogance and hubris paralyzes the orderly operation of City government.

Subordinated Distributable State Aid in accordance with Act 97, as set forth more fully in Section 7 hereof. The Series 2008 Revenue Notes shall be issued as fixed rate notes in such amounts as determined in the Sale Order, shall be numbered in some convenient manner, and shall mature on the Maturity Date as shall be determined in the Sale Order.

The Series 2008 Notes shall bear interest at rates determined in the Sale Order, but within the limitations of Act 34. The Series 2008 Tax Notes and the Series 2008 Revenue Notes may each be sold at an aggregate net discount (distinct from any compensation to be paid to the Underwriters in the form of a discount or any other Issuance Costs payable from the Series 2008 Notes) of not greater than 3%, all as shall be determined in the Sale Order, provided that the true interest cost (TIC) of each of the Series 2008 Tax Notes and the Series 2008 Revenue Notes shall not be greater than 5.50%. Except as hereinafter provided, interest on each of the Series 2008 Tax Notes and the Series 2008 Revenue Notes shall be payable at the applicable Maturity Date to the registered owner of record as of the applicable Regular Record Date. Interest on each of the Series 2008 Tax Notes and the Series 2008 Revenue Notes shall be calculated on such basis as is set forth in the Sale Order. The principal and interest of the Series 2008 Notes shall be payable at the Transfer Agent as principal paying agent or at such other co-paying agents as may be designated in the Sale Order, upon presentation and surrender of the appropriate Series 2008 Notes.

The Series 2008 Notes will be dated such date or dates as determined in the Sale Order and will be issued in Authorized Denominations. The registered owner of any Series 2008 Tax Note or Series 2008 Revenue Note may exchange such Series 2008 Note for other Series 2008 Tax Notes or Series 2008 Revenue Notes, respectively, of the same series and like maturity in Authorized Denominations by surrendering the Series 2008 Notes to be exchanged at the designated office of the Transfer Agent, together with an assignment duly executed by the registered owner thereof or his attorney or legal representative in such form as shall be satisfactory to the Transfer Agent.

All of the Series 2008 Notes will be issued in a book-entry system of registration, and actual purchasers of the Series 2008 Notes will not receive certificated Series 2008 Notes; provided, however, that the Finance Director may determine not to continue the system of book-entry registration, in which event fully registered note certificates, subject to the transfer and exchange requirements of this Resolution, shall be issued to the regis-

tered owners of the Series 2008 Notes. It is intended that the Series 2008 Notes be registered so as to participate in a securities depository system (the "DTC System") with DTC, as set forth herein. Each series of the Series 2008 Tax Notes and the Series 2008 Revenue Notes shall be initially issued in the form of a separate single fully registered note in the amount of each separate stated maturity thereof, if any. Upon initial issuance, the ownership of each such Series 2008 Note shall be registered in the name of Cede & Co., as the nominee of DTC, and except as provided below with respect to termination of the book-entry only system, all of the outstanding Series 2008 Notes shall be registered in the name of Cede & Co., as the nominee of DTC. The Finance Director is authorized to execute and deliver such letters to or agreements with DTC as shall be necessary to effectuate the DTC system, including the Representation Letter.

With respect to Series 2008 Notes registered in the name of Cede & Co., as nominee of DTC, the City and the Transfer Agent shall have no responsibility or obligation to any broker-dealer, bank or other financial institution for which DTC holds Series 2008 Notes from time to time as securities depository (a "Depository Participant") or to any Person on behalf of whom such a Depository Participant holds an interest in the Series 2008 Notes (an "Indirect Participant"). Without limiting the immediately preceding sentence, the City and the Transfer Agent shall have no responsibility or obligation with respect to (i) the accuracy of the records of DTC, Cede & Co., any Depository Participant or any Indirect Participant with respect to any ownership interest in the Series 2008 Notes, (ii) the delivery to any Depository Participant or any Indirect Participant or any other Person, other than a registered owner of a Series 2008 Note, of any notice with respect to the Series 2008 Notes, or (iii) the payment to any Depository Participant or any Indirect Participant or any other Person, other than a registered owner of a Series 2008 Note, of any amount with respect to principal of or interest on the Series 2008 Notes. While in the DTC System, no Person other than Cede & Co., or any successor thereto, as nominee for DTC, shall receive a Series 2008 Note certificate evidencing the obligation of the City to make payments of principal and interest pursuant to this Resolution. Upon delivery by DTC to the Transfer Agent of written notice to the effect that DTC has determined to substitute a new nominee in place of Cede & Co., and subject to the provisions in this Resolution with respect to interest checks or drafts being mailed to the registered owner, the word "Cede & Co." in this Resolution shall refer to such

new nominee of DTC; and upon receipt of such a notice the Transfer Agent shall promptly deliver a copy of the same to each paying agent, if any.

In the event that (a) the City determines that DTC is incapable of discharging the responsibilities described herein and in the Representation Letter, (b) the Representation Letter shall be terminated for any reason or (c) DTC or the City determines that it is in the best interest of the beneficial owners of any the Series 2008 Notes that they be able to obtain certificated notes, the City shall notify DTC and DTC Participants of the availability through DTC of note certificates and the Series 2008 Notes shall no longer be restricted to being registered in the name of Cede & Co., as nominee of DTC. At that time, the City may determine that the Series 2008 Notes shall be registered in the name of and deposited with a successor depository operating a securities depository system, as may be acceptable to the City, or such depository's agent or designee, and if the City does not select such alternate securities depository system then the Series 2008 Notes may be registered in whatever name or names the registered owner of Series 2008 Notes transferring or exchanging Series 2008 Notes shall designate, in accordance with the provisions hereof.

Notwithstanding any other provisions of this Resolution to the contrary, so long as any Series 2008 Note is registered in the name of Cede & Co., as nominee of DTC, all payments with respect to principal of and interest on such Series 2008 Note and all notices with respect to such Series 2008 Note shall be made and given, respectively, in the manner provided in the Representation Letter.

The Series 2008 Notes shall not be subject to redemption prior to maturity.

**Section 6. Payment of Series 2008 Tax Notes.** The full faith and credit of the City is hereby irrevocably pledged for the payment of principal of and interest on the Series 2008 Tax Notes and in case of insufficiency the Pledged Taxes for the payment thereof, the City hereby irrevocably pledges to levy ad valorem taxes in the 2008/2009 fiscal year of the City on all taxable property in the City, within the applicable constitutional, statutory and charter limitations, for the purpose of paying for operating expenditures of the City and for the repayment of the Series 2008 Tax Notes from the receipt thereof.

The City hereby covenants that to secure payment of the Series 2008 Tax Notes, from the first collections of Pledged Taxes there shall be set aside in the Tax Note Repayment Account to be used exclusively for the payment of principal and interest on the Series 2008 Tax Notes, a portion of each dollar collected that is not less than 125% of the percent-

age that the principal amount of the Series 2008 Tax Notes bears to the amount of the Pledged Taxes from which such dollar is collected until the amount set aside in the Tax Note Repayment Account is sufficient to pay in full the principal of and interest of the Series 2008 Tax Notes on the applicable Maturity Date. The requirements of the preceding sentence shall apply to each installment of Pledged Taxes collected by the City. Subject to Section 9 hereof, moneys on deposit in the Tax Note Repayment Account may be used only to pay the outstanding principal of and interest on the Series 2008 Tax Notes. If the City determines that issuing the Series 2008 Tax Notes will result in a deficiency in the funds available to pay the necessary operating expenditures of the 2007/2008 fiscal year, the City shall levy additional taxes in the future from within constitutional, charter, and statutory limits to prevent a continuation of the deficiency from year to year.

After the payment in full of all principal of and interest on the Series 2008 Tax Notes at the applicable Maturity Date or thereafter and if the City has no further payment obligations to the holders of such Series 2008 Tax Notes, and the City has paid all amounts owed to any credit enhancement provider which has paid principal of and interest on the Series 2008 Tax Notes, the balance on deposit in the Tax Note Repayment Account may be disbursed to the City for use as provided by Act 34 upon the filing with the Transfer Agent a certificate of the Finance Director of the City stating no further obligations are due from the City to holders of the Series 2008 Tax Notes or to any credit enhancement provider with respect thereto.

The City reserves the right to issue additional notes of equal standing as to the Pledged Taxes with the Series 2008 Tax Notes, subject to the limitations fixed by law.

**Section 7. Payment of Series 2008 Revenue Notes.** The Series 2008 Revenue Notes and the interest thereon shall be payable from Shared Revenues and Subordinated Distributable State Aid. To the extent that Shared Revenues and Subordinated Distributable State Aid are insufficient, the City pledges to pay the principal of and interest on the Series 2008 Revenue Notes as a first budget obligation from the proceeds of an annual levy of ad valorem taxes on all taxable property in the City, subject to applicable constitutional, statutory, and charter limitations.

The City reserves the right to issue additional notes of equal standing as to the Shared Revenues with the Series 2008 Revenue Notes, subject to the limitations fixed by law.

(a) Shared Revenues. Subject to the

June 3

2008

last sentence of this Section 7(a), the City hereby covenants that to secure payment of the Series 2008 Revenue Notes, from the first receipt of the payment of Shared Revenues for the 2008/2009 fiscal year of the City there shall be set aside in the Revenue Note Repayment Account to be used exclusively for the payment of principal of and interest on the Series 2008 Revenue Notes, a portion of each dollar of Shared Revenues received that is not less than 125% of the percentage that the principal amount of the Series 2008 Revenue Notes bears to the amount of the Shared Revenues remaining to be collected in the 2008/2009 fiscal year until the amount set aside in the Revenue Note Repayment Account is sufficient to pay in full the principal of and interest on the Series 2008 Revenue Notes on the applicable Maturity Date (each such set aside is hereinafter the "Set Aside Amount"). The requirements of the preceding sentence shall apply to all installments of Shared Revenues collected by the City. Subject to Section 9 hereof, moneys on deposit in the Revenue Note Repayment Account may be used only to pay the outstanding principal of and interest on the Series 2008 Revenue Notes. After the payment in full of all principal and interest on the Series 2008 Revenue Notes at the applicable Maturity Date or thereafter and if the City has no further payment obligations to the holders of such Series 2008 Revenue Notes, and the City has paid all amounts owed to any credit enhancement provider which has paid principal of and interest on the Series 2008 Revenue Notes, the balance on deposit in the Revenue Note Repayment Account may be disbursed to the City upon the filing with the Transfer Agent a certificate of the Finance Director of the City stating no further obligations are due from the City to holders of the Series 2008 Revenue Notes or to any credit enhancement provider with respect thereto. Because Distributable State Aid currently consists entirely of Shared Revenues, the City hereby acknowledges the City's prior contractual obligations to set aside Distributable State Aid until there are sufficient funds to pay Outstanding Distributable State Aid Obligations, notwithstanding the set aside requirements contained in Act 34 and in this Section 7(a). In order to harmonize the set aside requirement of Act 34 with the preexisting pledge of Shared Revenues as a component of Distributable State Aid, the provisions of this Section 7(a) shall be deemed to be satisfied by the City so long as Subordinated Distributable State Aid is paid for the benefit of the Series 2008 Revenue Notes under the provisions of Section 7(b) hereof in the amounts and at times that would be sufficient to pay each

Set Aside Amount as provided in this Section 7(a), beginning with the first set aside commencing after the setting aside of Distributable State Aid for Outstanding Distributable State Aid Obligations as provided in the Solid Contract.

(b) Subordinated Distributable State Aid. To further secure and provide for payment of the Series 2008 Revenue Notes, the City hereby pledges and assigns for the benefit of the holders of the Series 2008 Revenue Notes, on a subordinated basis, all of the City's right, title and interest in and to (a) all Distributable State Aid payable to the City by the State as provided in Act 97 and (b) the Set Aside Trust Fund. The City acknowledges that it has created and established with the State Aid Trustee a separate segregated trust fund designated "1989 City of Detroit Distributable State Aid Bonds Set Aside Trust Fund." The City does hereby determine and direct that all Distributable State Aid payable to the City shall continue to be paid by the State to the State Aid Trustee to be held by the State Aid Trustee in the Set Aside Trust Fund as security for, and for the benefit of, the owners or holders (and their assigns) of, Distributable State Aid Obligations in accordance with the Solid Contract, Act 97, and this Resolution. The Set Aside Trust Fund shall be held by the State Aid Trustee and applied in accordance with Act 97, as provided in the Solid Contract, the Set Aside Trust Fund Resolution, and this Resolution, to the payment of the Distributable State Aid Obligations. The Set Aside Trust Fund and all Distributable State Aid paid by the State Treasurer to the State Aid Trustee shall be subject to a lien which is under the Solid Contract and Act 97 made a statutory lien (x) paramount and superior to all other liens (including the subordinate lien on Distributable State Aid in favor of the Series 2008 Revenue Notes pursuant to this Resolution and other Subordinated Distributable State Aid Obligations), except for liens of equal standing in favor of Outstanding Senior Distributable State Aid Obligations and future Senior Distributable State Aid Obligations hereinafter issued or incurred by the City within limitations provided under the Solid Contract and Act 97 and (y) ranking equally and ratably with all such liens of equal standing, for the sole purpose of paying the Senior Distributable State Aid Obligations and (z) with respect to Subordinated Distributable State Aid Obligations, is subordinate only to the lien in favor of Senior Lien Distributable State Aid Obligations. As provided in Act 97, the Set Aside Trust Fund and all Distributable State Aid held by the State Aid Trustee in the Set Aside Trust Fund shall be exempt from being levied upon, taken, sequestered, or applied toward paying the

debts or liabilities of the City other than the payment of Distributable State Aid Obligations issued or incurred in accordance with the Solid Contract and Act 97.

The Finance Director shall notify in writing the State Treasurer of the date, original principal amount, designation, name and address of the paying agent, and the amounts and Maturity Dates of each issue of Series 2008 Revenue Notes payable on a subordinated basis from Distributable State Aid (whose amount and payment date has then been determined) not later than the closing date of the Series 2008 Revenue Notes (the "Series 2008 Revenue Notes Distributable State Aid Notice"). The Finance Director shall advise the State Treasurer in the Series 2008 Revenue Notes Distributable State Aid Notice that funds for the payment of the Distributable State Aid Obligations shall thereafter include funds to pay on a subordinated basis principal of and interest on Series 2008 Revenue Notes and shall be paid to the State Aid Trustee, first for the benefit of the holders of the Senior Distributable State Aid Obligations and second, the holders of the Subordinated Distributable State Aid Obligations, including the Series 2008 Revenue Notes. The Series 2008 Revenue Notes Distributable State Aid Notice shall be substantially in the form attached hereto as Exhibit C. A certified copy of this Resolution of the City Council authorizing and approving the issuance of the Series 2008 Revenue Notes shall be attached to the Series 2008 Revenue Notes Distributable State Aid Notice. The Finance Director shall also cause a copy of the Series 2008 Revenue Notes Distributable State Aid Notice, together with a certified copy of this Resolution of the City Council authorizing and approving the issuance of the Series 2008 Revenue Notes, to be delivered to the State Aid Trustee before or as soon as practicable after the issuance of the Series 2008 Revenue Notes, but in any event no later than ten days after the delivery of the Series 2008 Revenue Notes.

In accordance with the requirements of Act 97, upon receipt of the Series 2008 Revenue Notes Distributable State Aid Notice, the State Treasurer shall thereafter pay all Distributable State Aid payable to the City with respect to the Series 2008 Revenue Notes to the State Aid Trustee on a subordinated basis to the Distributable State Aid required to be paid by the State Treasurer for the Outstanding Senior Distributable State Aid Obligations and future parity obligations of the City payable from Distributable State Aid issued and incurred in accordance with the Solid Contract and Act 97, until the State Treasurer is notified in writing by the State Aid Trustee that there is on deposit in the Set Aside Trust Fund, sufficient

funds to pay installments of all Outstanding Distributable State Aid Obligations, such future issued and incurred obligations of the City payable from Distributable State Aid due and, on a subordinated basis, the Series 2008 Revenue Notes during the Operating Year as hereinafter provided.

With respect to this Resolution, City Council hereby acknowledges that payments of Distributable State Aid Obligations from Distributable State Aid moneys by the State Aid Trustee shall be governed by and controlled by the provisions of the Solid Contract in Section 306 of the Supplemental Full Faith and Credit General Obligation Solid Waste Disposal Contract, which includes pursuant to subsection 306(d) payment "to the paying agent for the Outstanding Distributable State Aid Obligations".

Because Distributable State Aid consists only of Shared Revenues and because Act 34, the statutory authority for issuing the Series 2008 Revenue Notes as obligations secured by Shared Revenues, specifies the payment mechanism for the Series 2008 Revenue Notes, the statutorily required mechanism for paying the Series 2008 Revenue Notes through set aside payments, as described in this Section 7, shall govern payment of the Series 2008 Revenue Notes, notwithstanding the Solid Contract; provided, however, the Distributable State Aid Obligation payment provisions of the Solid Contract shall continue to apply to other Distributable State Aid Obligations issued or outstanding thereunder and under Act 97. During the 2008/2009 Operating Year, when the State Aid Trustee has on deposit in the Set Aside Trust Fund Distributable State Aid or other funds of the City including the Debt Service Reserve Funds, in an amount sufficient to pay or provide for payment of all installments of the Outstanding Distributable State Aid Obligations and any future obligations of the City payable from Distributable State Aid issued and incurred in accordance with the Solid Contract and Act 97, other than the Series 2008 Revenue Notes, the State Aid Trustee shall set aside in a separate account of the Set Aside Trust Fund, from the next available dollars of Distributable State Aid and each subsequent receipt of Distributable State Aid, amounts equal to the Set Aside Amounts until there has been set aside in such separate account an amount sufficient, without investment thereof, to pay principal and interest on the Series 2008 Revenue Notes when due. After payment of each such Set Aside Amount, the balance of each payment of Distributable State Aid shall be paid to the City or its Agent. After the amount in the separate account in the Set Aside Trust Fund is sufficient to pay, without investment thereof, principal and

2008

interest on the Series 2008 Revenue Notes, all amounts in such separate account shall be transferred to the Transfer Agent for the Series 2008 Revenue Notes when the Series 2008 Revenue Notes become due and payable.

During the 2008/2009 Operating Year, when the State Aid Trustee has on deposit in the Set Aside Trust Fund Distributable State Aid or other funds of the City including the Debt Service Reserve Funds, in an amount sufficient to pay or provide for payment of all installments of the Series 2008 Revenue Notes, Outstanding Distributable State Aid Obligations and any future obligations of the City payable from Distributable State Aid issued and incurred in accordance with the Solid Contract and Act 97 payable during such Operating Year, it shall notify the State Treasurer in writing substantially in the form attached hereto as Exhibit D (a "Sufficiency Notice") that it has on deposit sufficient funds to pay the installments of the Series 2008 Revenue Notes, Outstanding Distributable State Aid Obligations and any other obligations of the City payable from Distributable State Aid issued and incurred in accordance with the Solid Contract and Act 97 payable during such Operating Year, and shall thereafter pay all monies on deposit in excess thereof to the City or its agent. Pursuant to Act 97, the State Treasurer thereafter shall pay to the State Aid Trustee, in its capacity as agent of the City, all Distributable State Aid due the City, until the next Operating Year, and the State Aid Trustee shall pay such Distributable State Aid to the City. Starting with the next Operating Year, the State Treasurer shall thereafter again pay all Distributable State Aid to the State Aid Trustee in its capacity as such trustee for the holders of Distributable State Aid Obligations, until again notified that sufficient funds are on hand as provided in Act 97 and the Solid Contract. Notwithstanding the provisions of the preceding three sentences, if the State Aid Trustee shall at any time prior to the end of an Operating Year after having given a Sufficiency Notice in respect of such Operating Year receive notice from the Finance Director that additional amounts in respect of Distributable State Aid Obligations issued and incurred in accordance with the Solid Contract and Act 97 will be payable during such Operating Year, the State Aid Trustee shall forthwith so notify the State Treasurer and, upon receipt of such notice by the State Treasurer, any Sufficiency Notice theretofore given in respect of such Operating Year will, for purposes of this paragraph, be deemed ineffective, and thereafter the State Treasurer shall again pay all Distributable State Aid to the State Aid Trustee in its capacity as trustee for the

owners or holders of the Distributable State Aid Obligations, until the State Treasurer may thereafter be notified, as provided in Act 97 and the Solid Contract, that sufficient funds are on hand. In accordance with Act 97, all income derived from the investment of monies held by the State Aid Trustee shall be credited to the account of the City and shall be paid to the City or its agent when the next payment is made by the State Aid Trustee to the City or its agent.

The pledge and assignment of Distributable State Aid created by this Resolution for the benefit of the holders of the Series 2008 Revenue Notes shall be on a subordinated basis to the pledge of Distributable State Aid as security for the Outstanding Senior Distributable State Aid Obligations, and with any Senior Distributable State Aid obligations of the City hereafter issued or incurred in accordance with Act 97 and the Solid Contract and on a parity with the Outstanding Subordinated Distributable State Aid Obligations and future Subordinated Distributable State Aid Obligations which may be issued pursuant to the Solid Contract and Act 97. The City may issue or incur additional obligations pledging Distributable State Aid under Act 97 on parity with the Senior or Subordinated Distributable State Aid Obligations but only upon compliance with and subject to the provisions of Act 97 and the Solid Contract. The City shall not issue or incur obligations payable from Distributable State Aid with a priority of payments senior to the Distributable State Aid Obligations.

In the event that 15 Business Days prior to a payment date for Distributable State Aid Obligations, moneys on deposit in the Set Aside Trust Fund are not sufficient to pay the Distributable State Aid Obligations due on such payment date the State Aid Trustee shall give notice of such insufficiency as provided in the Solid Contract. Upon the receipt of such notice the City shall pay to the State Aid Trustee on or prior to such payment date sufficient funds, when taken with monies already on deposit and monies otherwise made available, to pay the amount of the insufficiency stated in the notice. In the event that 5 Business Days prior to a payment date for Distributable State Aid Obligations, moneys on deposit in the Set Aside Trust Fund and the Debt Service Reserve Funds are not sufficient to pay principal of and/or interest on Distributable State Aid Obligations due on such payment date, the State Aid Trustee shall request the State Treasurer to advance sufficient Distributable State Aid available under Act 97 to pay the amount of such sufficiency.

The directions provided by the City to the State Aid Trustee as set forth in the State Aid Trust Fund Resolution and in the

Solid Contract are not amended or superseded to the extent of any conflict by any provision of this Resolution.

Section 8. Credit Enhancement and Other Agreements. The Finance Director is authorized to negotiate, obtain and enter into an agreement with respect to a letter of credit, policy of bond insurance, surety bond, guarantee or similar instrument issued by a financial, insurance or other institution, and which provides security in respect of all or part of the Series 2008 Notes, provided that the Finance Director determines that such credit enhancement is in the best interests of the City. The Finance Director is also authorized to obtain and enter into one or more forward commitments to provide a letter of credit, bond insurance, a surety bond, guarantee or similar instrument issued by a financial, insurance or other institution, and which provides security in respect of any amount of additional Series 2008 Notes which may be issued subsequent to the initial issue of Series 2008 Notes, as the Finance Director shall determine, provided that the Finance Director determines that such forward commitment for such credit enhancement is in the best interests of the City. The Finance Director is hereby authorized to pay for the cost of such forward commitment from the proceeds of the Series 2008 Notes or any other funds of the City legally available therefor. In connection with the execution of any of the agreements authorized by this Section 8, the Finance Director is authorized to include in the Sale Order, such covenants and agreements of the City as shall be necessary or appropriate, and, if necessary or appropriate, to appoint a trustee and to prescribe the powers and duties of such trustee in the Sale Order.

Section 9. Funds and Accounts; Flow of Funds. There is hereby established pursuant to this Resolution a trust fund to be held by the City and designated the "Note Fund Series 2008" within which there are established two subaccounts designated the "Tax Note Proceeds Account" and the "Revenue Note Proceeds Account" for receipt of the proceeds of the related Series 2008 Notes, except for accrued interest, if any.

There is hereby established pursuant to this Resolution a special trust fund to be held by the City in a bank account separate from any other money of the City and designated the "Note Repayment Fund". The Finance Director is authorized to establish within the Note Repayment Fund subaccounts for each of the Series 2008 Tax Notes and the Series 2008 Revenue Notes, designated, respectively, the Tax Note Repayment Account and the Revenue Note Repayment Account and such further subaccounts as the Finance Director deems necessary or appropriate.

Moneys in the Tax Note Repayment Account and the Revenue Note Repayment Account shall not be commingled and shall be used only to pay the Series 2008 Tax Notes or the Series 2008 Revenue Notes, respectively. There shall be deposited in the Tax Note Repayment Account the Pledged Taxes collected by the City for repayment of the Series 2008 Tax Notes in accordance with the set aside requirement of Act 34 and this Resolution pursuant to Section 6 hereof. There shall be deposited in the Revenue Note Repayment Account the Shared Revenues received by the City for repayment of the Series 2008 Revenue Notes in accordance with the set aside requirement of Act 34 and this Resolution pursuant to Section 7(a) or as provided in Section 7(b) hereof. Until the Series 2008 Notes are paid in full and any obligations to a provider of credit enhancement with respect thereto have been satisfied, money in the Note Retirement Fund shall be used for no other purpose other than to pay Series 2008 Notes issued under this Resolution.

Anything in this Section 9 to the contrary notwithstanding, in the event the City obtains a direct pay letter of credit to pay principal of and interest on the Series 2008 Tax Notes or the Series 2008 Revenue Notes when due, then within the Tax Note Repayment Account or the Revenue Note Repayment Account, as applicable, there shall be established a Payment and Reimbursement Subaccount and a Credit Facility Drawing Subaccount. All Pledged Taxes set aside in accordance with Act 34 and this Resolution shall be deposited in the Payment and Reimbursement Subaccount of the Tax Note Repayment Account. All Shared Revenues set aside in accordance with Act 34 and this Resolution shall be deposited in the Payment and Reimbursement Subaccount of the Revenue Note Repayment Account. Amounts drawn on a letter of credit shall be deposited in the applicable Credit Facility Drawing Subaccount and shall be used to pay principal of and interest on the applicable Series 2008 Notes when due. Moneys in a Payment and Reimbursement Subaccount shall first be used to the extent necessary to pay, when due, principal of and interest on the applicable Series 2008 Notes. To the extent that moneys in a Payment and Reimbursement Subaccount are not needed for such purpose as a result of payment of such principal and interest by a draw on a letter of credit, such moneys shall be used to reimburse the applicable letter of credit provider.

Section 10. Series 2008 Note Proceeds. From the proceeds of the sale of the Series 2008 Notes there shall be immediately deposited in the Tax Note

Repayment Account and the Revenue Note Repayment Account, an amount equal to the accrued interest, if any, received on the delivery of the Series 2008 Tax Notes and the Series 2008 Revenue Notes, respectively.

The balance of the proceeds of the sale of the Series 2008 Notes shall be deposited in the applicable subaccount of the Note Fund Series 2008 and used to pay for operating expenditures of the City for the current fiscal year.

Section 11. Series 2008 Note Forms.

The Series 2008 Tax Notes shall be in substantially the form set forth in Exhibit A attached hereto and the Series 2008 Revenue Notes shall be in substantially the form set forth in Exhibit B attached hereto, with such changes and additions (including without limitation, to reflect any applicable credit enhancement) as shall be established pursuant to a Sale Order within the parameters of this Resolution.

Section 12. Covenants Regarding Exclusion of Interest on the Series 2008 Notes for Federal Tax Purposes.

The City hereby covenants and represents with the registered owners of the Series 2008 Notes that so long as any of the Series 2008 Notes remain outstanding and unpaid as to either principal or interest, the City shall, to the extent permitted by law, take all actions within its control to maintain, and will refrain from taking any action which would impair the exclusion of the interest on the Series 2008 Notes from gross income for federal income tax purposes under the Code, including, but not limited to, actions relating to any required rebate of arbitrage earnings and the expenditure and investment of Series 2008 Notes proceeds and moneys deemed to be Series 2008 Notes proceeds, and to prevent the Series 2008 Notes from being or becoming "private activity bonds" as that term is used in Section 141 of the Code or an "arbitrage bond," as that term used in Section 148 of the Code.

Section 13. Continuing Disclosure. Unless otherwise set forth in a Sale Order because of an exemption from Rule 15c-2-12 (the "Rule"), the City hereby agrees to abide by the provisions of the rule so long as any Series 2008 Notes are outstanding. The Finance Director is hereby authorized to execute one or more continuing disclosure undertakings of the City which comply with the provisions of the Rule.

Section 14. Defeasance. In the event cash or direct obligations of the United States or obligations the principal of and interest on which are guaranteed by the United States, or a combination thereof, the principal of and interest on which, without reinvestment, come due at times and in amounts sufficient to pay at maturity or irrevocable call for earlier optional

redemption, the principal of, premium, if any, and interest on the applicable series of the Series 2008 Notes shall be deposited in trust, this Resolution shall be defeased in respect of such Series 2008 Notes and the owners of such Series 2008 Notes shall have no further rights under this Resolution except to receive payment of the principal of, premium, if any, and interest on such Series 2008 Notes from the cash or securities deposited in trust and the interest and gains thereon and to transfer and exchange notes as provided herein.

Section 15. Sale of Series 2008 Notes.

(a) The Series 2008 Notes shall be sold at negotiated sale to the Underwriters named in the applicable Purchase Contract in a form on file with the Finance Director, with such changes thereto as the Finance Director shall determine are in the best interests of the City, within the parameters established herein. Such changes within the parameters of this Resolution shall be conclusively established by the Finance Director's execution and delivery of the applicable Purchase Contract to the representative of the Underwriters (the "Representative"). The Finance Director is authorized to accept, on behalf of the City, an offer from the Representative to purchase the applicable Series 2008 Notes wherein the aggregate compensation to be paid to the Underwriters thereof shall not be more than 1% of the original principal amount of the Series 2008 Notes, on terms and conditions provided in the Purchase Contract approved by the Finance Director.

(b) The sale of the Series 2008 Notes to the Underwriters pursuant to a negotiated sale is hereby approved. The reasons for choosing a negotiated sale instead of a competitive sale include the belief of the City Council, based upon the recommendation of the Finance Director and the City's Financial Advisor, that a negotiated sale will allow the Series 2008 Notes to be offered to investors in the most efficient manner possible while also allowing sufficient flexibility to adjust to market structuring and timing demands in order to result in the lowest possible borrowing costs to the City.

The Purchase Contract shall be dated the date of the sale of the applicable Series 2008 Notes. The Finance Director is hereby authorized and directed to execute the Purchase Contract for and on behalf of the City and, upon execution by the Representative, to receive the good faith check, if any, described therein.

(c) The Finance Director is authorized to determine whether to require a good faith check from the Underwriters or, in lieu thereof, to require the Underwriters to pay liquidated damages to the City for the failure (other than as permitted by the

Purchase Contract) to accept delivery of, and pay for, the Series 2008 Notes.

Section 16. Delegation of Authority to, and Authorization of Actions of, Finance Director. (a) The Finance Director is authorized to exercise the authority and make the determinations authorized by Section 315(1)(d) of Act 34 and shall determine, in addition to any determinations authorized elsewhere in this Resolution, on the basis of his evaluation of the maximum amount of Series 2008 Tax Notes and Series 2008 Revenue Notes which can be sold, given anticipated interest rates or for any other reasons, whether to issue the full authorized amount of the Series 2008 Tax Notes and Series 2008 Revenue Notes as specified in Section 3 of this Resolution and whether to issue the Series 2008 Tax Notes or the Series 2008 Revenue Notes as two or more issues. If the Finance Director determines to offer either of the Series 2008 Tax Notes or the Series 2008 Revenue Notes as more than one issue, then each separate issue shall conform to the requirements established in this Resolution, shall bear a distinctive designation, consistent with the definition of the term "Series 2008 Tax Notes" or "Series 2008 Revenue Notes," as applicable, herein, as shall be determined by the Finance Director. In such case the Finance Director shall have the power and authority to make all determinations and decisions with respect to each such issue. The Finance Director may also cause the preparation of and approve the form and distribution of one or more preliminary official statements (collectively, the "Preliminary Official Statement") and final official statements (collectively, the "Official Statement") or other offering materials to be used in conjunction with the sale or offering of the Series 2008 Notes and deem any Preliminary Official Statement "final" for purposes of the Rule. The Finance Director shall also determine and establish, in accordance with this Resolution, the Maturity Date or dates for the Series 2008 Notes.

(b) The Finance Director is hereby authorized and directed to do and perform any and all acts and things with respect to the Series 2008 Notes which are necessary or appropriate to carry into effect, consistent with this Resolution, the authorizations herein contained, including without limitation, financial advisory services, securing ratings by bond rating agencies, acquiring bond insurance, letter of credit, surety bond, guarantee or similar instrument issued by a financial, insurance or other institution, and which provides security in respect of all or part of the Series 2008 Notes, printing the Series 2008 Notes (if required), and incurring reasonable fees, costs and expenses incidental to the foregoing, for and on behalf of the City.

(c) The Mayor or, if permitted by law, the Finance Director, is authorized to file applications and to pay the related fees, if any, to the Michigan Department of Treasury at his discretion under Act 34 for one or more Orders of Approval to issue all or a portion of the Series 2008 Notes, and such waivers or other Treasury approvals as necessary to implement the sale, delivery and security for the Series 2008 Notes as authorized herein, and as required by the Michigan Department of Treasury or Act 34.

(d) All determinations and decisions of the Finance Director with respect to the issuance and sale of the Series 2008 Notes as permitted or required by this Resolution shall be ratified, confirmed and approved in the Sale Order.

(e) Except as set forth in Section 18 hereof, during the Finance Director's absence or disability, or while the Finance Director's position is vacant, the Deputy Finance Director, any person serving as Finance Director or Deputy Finance Director in an acting or interim capacity, or any person designated by the Mayor in writing shall exercise all the powers, perform all the duties and make all the determinations required or permitted under this Resolution with respect to the Series 2008 Notes.

Section 17. Transfer Agent. The initial note registrar, paying agent, and Transfer Agent for the Series 2008 Notes shall be U.S. Bank National Association, Detroit, Michigan.

Section 18. Execution of Series 2008 Notes. The Mayor and the Finance Director are hereby authorized and directed to execute the Series 2008 Notes by manual or facsimile signature for and on behalf of the City and in its name, to impress or imprint thereon or affix thereto the official seal of the City or a facsimile thereof and to deliver the Series 2008 Notes to the Underwriters upon receiving the purchase price therefor in lawful money of the United States. During the Finance Director's absence or disability or while the Finance Director's position is vacant, the person serving as administrative head of the Finance Department shall execute the Series 2008 Notes in place of the Finance Director.

Section 19. Official Statement. Circulation of the Preliminary Official Statement by the Underwriters shall be approved by the Finance Director, which approval shall be ratified in the Sale Order. The Finance Director is hereby authorized to execute the Official Statement with respect to the Series 2008 Notes in substantially the form of the Preliminary Official Statement, with such changes as the Finance Director may authorize and containing the business terms set forth in the Sale Order.

Section 20. Ratification. All determi-

**Section 21. Additional Authorization.**

The Mayor, City Clerk, Finance Director, other officials of the City, and their deputies and staff, or any of them, are hereby authorized to execute and deliver such certificates, documents, instruments, opinions and other papers as may be deemed necessary or appropriate to complete the sale, execution and delivery of the Series 2008 Notes as determined by such persons executing and delivering the foregoing items.

This Note is issued pursuant to and in accordance with the Constitution of the State of Michigan of 1963, statutes of the State of Michigan (the "State") and the Charter of the City of Detroit pursuant to and in accordance with a resolution duly adopted by the City Council of the City of Detroit on \_\_\_\_\_, 2008 (the "Note Resolution"), for the purpose of providing funds to pay for operating expenditures of the City for the City's fiscal year beginning July 1, 2007. This Note is not subject to redemption prior to maturity.

This Note is issued in anticipation of the receipt by the City of certain State shared revenues under Act 140 of the Public Acts of 1981 ("Revenue Sharing Payments") in the next succeeding the fiscal year of the City, which Revenue Sharing Payments shall be set aside in a Revenue Note Repayment Account in accordance with the Note Resolution for the prompt payment of the principal of and the interest on this Note when due. The City has pledged, and does hereby pledge to set aside from the collection of Revenue Sharing Payments a portion of each dollar of Revenue Sharing Payments collected by the City in its 2008/2009 fiscal year that is not less than 125% of the percentage that the principal amount of all Revenue Notes issued under the Note Resolution (collectively, "Notes") bear to the amount of Revenue Sharing Payments remaining to be collected in the City's next succeeding fiscal year (the "Set Aside Amounts") until the amount set

Additional Notes, secured by a like pledge on parity with the foregoing pledge, may be issued for the above-stated purpose, subject to constitutional and statutory limitations.

This Note is also secured by distributable aid, received in the City's 2008/2009 fiscal year, pursuant to Act 97, Public Acts of Michigan, 1981, as amended ("Distributable Aid"). The City has pledged and does hereby pledge on a basis subordinate to the Senior Distributable Aid Obligations, Distributable Aid to the payment of the principal of and interest on this Note. So long as Distributable Aid is set aside in the Set Aside Trust Fund for payment of the Notes in accordance with the terms of the Note Resolution, the set aside requirement of the preceding paragraph with respect to Revenue Sharing Payments shall be satisfied. The City has reserved the right to issue additional obligations secured by Distributable Aid in accordance with the Parity Obligations Coverage Test and the Subordinate Obligations Coverage Test, as such terms are defined in the Resolution, within the limitations provided in Act 97.

It is hereby certified, recited and declared that all acts, conditions and things required to exist, happen and to be performed, precedent to and in the issuance of this Note and the Notes of this series, do exist, have happened and have been performed in due time, form and manner as required by the Note Resolution and the Constitution and statutes of the State of Michigan, and that the total indebtedness of the City, including this Note and the series of Notes of which this is one, does not exceed any Constitutional, statutory or charter limitation.

Re: Applications for Neighborhood Enterprise Zone Certificates for 4316 and 4328 Lincoln Ave., Woodbridge Estates Nez Area.

On October 21, 1992, your Honorable Body established neighborhood enterprise zones. I am in receipt of two (2) applications for Neighborhood Enterprise Zone Certificates. THESE APPLICATIONS HAVE BEEN REVIEWED AND RECOMMENDED FOR APPROVAL BY THE CITY PLANNING COMMISSION, A COPY OF WHICH IS ATTACHED. Therefore, the attached Resolution, if adopted by your Honorable Body, will approve these applications.

Respectfully submitted,

By Council Member S. Cockrel:

Whereas, Michigan Public Act 147 of 1992 allows the local legislative body to establish Neighborhood Enterprise Zones for the purpose of providing exemption from ad valorem property taxes, and the imposition of specific property tax in lieu of ad valorem taxes; and

#### City Planning Commission

May 12, 2008

Honorable City Council:

Re: Neighborhood Enterprise Zone (NEZ) Certificate Application for 4316 and 4328 Lincoln Ave., in the Woodbridge Estates NEZ (Recommend Approval).

The City Clerk's Office forwarded to this office an application from Scripps Park Associates LLC for a Neighborhood Enterprise Zone (NEZ) certificate within the Woodbridge Estates NEZ at 4316 and 4328 Lincoln Ave. Your Honorable Body approved the Woodbridge Estates NEZ designation on September 19, 2001. City Planning Commission staff has reviewed the application and recommends approval.

Certificates are being requested for 4316 and 4328 Lincoln Ave., which are confirmed as being within the boundaries of the NEZ and should be eligible for a NEZ certificate under State Act 147 of 1992 as currently written. Scripps Park Associates LLC has applied for the certificates, prior to the issuance of building permits, on behalf of the future owners who will occupy the properties. It is appropriate for them to apply for a certificate at this time, even if a buyer has not yet been identified. The State Tax Commission, however, will not issue a certificate until an owner is identified. When an owner is identified, he or she can then apply for the certificate. At that time, it would not be necessary for City Council to pass another resolution.

The petitioner proposes to construct two single-family homes. Construction is anticipated to begin soon. The developer will need to submit to the State Tax Commission the parcel that is to receive the certificate along with a map showing the parcel.

Please let us know if you have any questions.

#### City Council

##### Division of Research & Analysis

May 15, 2008

Honorable City Council:

Re: Convening of the Elected Officials Compensation Commission.  
President Pro Tempore Conyers

requested that the Research & Analysis Division (RAD) investigate as to when the last meeting of the Elected Officials Compensation Commission (EOCC) was held. RAD has determined that the Commission has not met as required under the City Code; in consequence, RAD has prepared a resolution asking the Mayor to convene the Commission in the fashion set forth under the Code.

#### **Elected Officials Compensation Commission**

The 1997 Detroit City Charter, as amended, at §2-108 provides, in pertinent part, "[t]he salaries of all elective officers shall be determined by an elected officials compensation commission, which shall be created by ordinance containing provisions required by state law."<sup>1</sup> The 1984 Detroit City Code, as amended, at §2-3-19 states, in relevant part, that "[t]he elected officials compensation commission shall meet...**every odd numbered year...**" (Emphasis added).

Read together, the City Charter and Code require that there be a meeting of the EOCC every other year (odd numbered years) to determine the salaries of Detroit's elected officials. However, in violation of this requirement, the Commission has not been convened recently. A check of the records of the City Clerk indicates that the Commission has not met since December 30, 2003.<sup>2</sup>

#### **Members of the Commission**

The controlling ordinance (Attachment 1) provides that there shall be a seven (7)-member board, whose members are appointed by the Mayor and confirmed by City Council. The Commissioners serve staggered seven (7)-year terms, with a new appointment or reappointment required each year. Members shall be appointed before October first of the year of appointment.

RAD reviewed the roster provided by the City Clerk's Office and notes that the terms of only three (3) Commissioners are valid; the remaining members are serving with expired terms (Attachment 2).

#### **Conclusion**

Should City Council desire, it may adopt the attached resolution (Attachment 3), which requests that the Mayor appoint members to the Elected Officials Compensation Commission as soon as possible. This will permit your Honorable Body to act in a timely manner on these recommended appointments, thereby, allowing the Commission to meet as required. This action by the Mayor and City Council will bring the City in compliance with state law, the City Charter and the City Code.

Should you need anything further, please advise.

Respectfully submitted,  
DAVID D. WHITAKER  
Director

By Council Member Kenyatta:

Whereas, Michigan State law requires that local units of government provide for the creation of elected officials compensation commissions (MCLA §117.5c); and

Whereas, Pursuant to this state mandate, the 1997 Detroit City Charter, as amended, at §2-108 and the 1984 Detroit City Code, as amended at §2-3-19 provide for the creation and make-up of the Elected Officials Compensation Commission for the City of Detroit; and

Whereas, The Commission is statutorily required to meet every odd-numbered year to consider and determine any changes to the compensation of elected officials; and

Whereas, A review of the City Clerk's records indicate that the Commission has not met since December 30, 2003; and

Whereas, The terms of four (4) members of the Commission have expired; and

Whereas, By not meeting, the City is in violation of the State Law, City Charter and the City Code; Now Therefore Be It

Resolved, That the Detroit City Council calls upon the Mayor to appoint members to the Elected Officials Compensation Commission so that City Council may then act in a timely manner so that the Commission may convene as is statutorily mandated; and Be It Finally

Resolved, That a copy of this resolution be forwarded to the Honorable Kwame M. Kilpatrick.

<sup>1</sup>MCLA §117.5c mandates that localities implement Elected Official Compensation Commissions.

<sup>2</sup>The Payroll Division has confirmed that there has been no change in the compensation received by Members of the Legislative branch since January, 2000.

**City Council  
 Research & Analysis Division**

May 21, 2008

Honorable City Council:

Re: Request for Assistance on Behalf of Resident Brenda Cowans.

The Research & Analysis Division (RAD) was requested by the Honorable Planning & Economic Development Committee to submit a resolution to Jewish Vocational Services and United Way requesting financial assistance on behalf of Brenda Cowans.

Ms. Cowans provided testimony during the public comment period of the Planning & Economic Development Committee meeting last week regarding

her inability to work or obtain Workers' Compensation benefits that has led to her dire financial situation. Representatives from RAD and Council staffers have spoken to Ms. Cowans regarding this ongoing situation.

Ms. Cowans was an employee of Jewish Vocational Services (JVS) at the United Way offices of Griswold during the Book Cadillac renovations. Ms. Cowans alleges the inhalation of dust and other air borne matter was the source of her workplace injury. Ms. Cowans believes she was terminated because of the MIOSHA complaint she filed regarding the hazardous materials at her worksite. Ms. Cowans has been unable to secure Workers' Compensation or medical benefits since her termination. JVC is challenging her Workers' Compensation claims and it is in the litigation stage. The next hearing is August 12, 2008. Unfortunately, Ms. Cowans' financial situation is critical now. She cannot wait for the August hearing.

Ms. Cowans' immediate needs are assistance with her utility payments, food, and medication. She indicated that she does not have a mortgage on her home and that her taxes are paid. However, RAD discovered that according to the Wayne County Treasurer's Office, her 2006 taxes are delinquent and were forfeited. Her home may be foreclosed next year. She currently owes \$444.07 in taxes and interest. RAD recommends Ms. Cowans:

- Petition the Wayne County Treasurer's Office for a hardship exemption for her outstanding taxes.
- Petition for a poverty exemption with the Board of Review for City of Detroit taxes.<sup>1</sup> If her exemption is approved, it will also exempt her from County taxes.
- Contact Salvation Army for a meeting with a social worker so that a case evaluation may be performed and referrals can be made to available resources.
- Apply for assistance through the City of Detroit Department of Human Services.
- Apply for assistance through the State of Michigan Department of Human Services for:
  - Public assistance benefits to assist her in obtaining funds.
  - Medicaid benefits to assist her in obtaining medical treatment and medications.
  - Benefits to assist her in obtaining food.
  - Contact the Low Income Home Energy Assistance Program for assistance with her utility payments. Ms. Cowans should also contact her utility providers directly to inquire about payment assistance programs or other programs available to assist those experiencing financial difficulties.

June 3

1394

2008

• Contact Neighborhood Legal Services for assistance in her ongoing legal matters.

RAD has provided contact information and applications regarding the above suggestions to Ms. Cowans. RAD was also asked to draft a resolution asking United Way and JVS to assist her financially. Copies of the proposed resolution are attached for your consideration. Additional resource agencies were also included in the resolution because Ms. Cowans has ongoing claims of safety and health discrimination filed against JVS and United Way. RAD believes expanding the agencies contacted increases her ability to find meaningful assistance.

Respectfully submitted,

DAVID D. WHITAKER  
Director

By Council Member Collines:

Whereas, Ms. Brenda Cowans has been unemployed and is having difficulty obtaining Workers' Compensation benefits; and

Whereas, Ms. Brenda Cowans is unable to return to work due to ongoing health issues; and

Whereas, Ms. Brenda Cowans is in dire financial need of assistance and cannot wait until the next hearing on her Workers' Compensation file in August for aid; and

Whereas, Ms. Brenda Cowans needs immediate assistance in obtaining food, medication and payment of her utilities and taxes; and

Whereas, The Detroit City Council is concerned about the status of Ms. Cowans' Workers' Compensation file and its impact on her immediate financial situation; Now Therefore Be It

Resolved, That the Detroit City Council strongly urges social service and crisis intervention agencies, including but not limited to United Way, Jewish Vocational Services, Salvation Army, City of Detroit Department of Human Services, State of Michigan Department of Human Services, Office of the Wayne County Treasurer, City of Detroit Finance Department Assessment Division, Low Income Home Energy Assistance Program, and Neighborhood Legal Services, to assist Ms. Cowan; and Be It Finally

Resolved, That the City Council requests that any social service or crisis intervention agencies not listed above but unable to assist Ms. Cowans' immediate needs do so; and Be It Finally

Resolved, That a copy of this resolution be sent to Ms. Brenda Cowans, United Way, Jewish Vocational Services, Salvation Army, City of Detroit Department of Human Services, State of Michigan Department of Human Services, Office of the Wayne County Treasurer, City of Detroit Finance Department Assessment Division, Low Income Home Energy

Assistance Program, and Neighborhood Legal Services.

Mr. Willie Donwell, Chair of the Board of Review, has assembled a considerable listing of public service agencies and private entities that can provide some assistance to citizens demonstrating financial need who may not otherwise qualify for a poverty exemption under the controlling guidelines.

#### City Planning Commission

May 22, 2008

Honorable City Council:

Re: Request of the Planning and Development Department to show an SD4 (Special Development District, Riverfront Mixed Use) zoning classification on a portion of the property known as 7650 East Jefferson Avenue where an R6 (High Density Residential District) zoning classification is currently shown, generally bounded by E. Jefferson Avenue, Baldwin Avenue (extended), the Detroit River, and Gabriel Richard Park and Sheridan Avenue (extended) (Recommend Approval) (Note Ordinance Attached).

#### NATURE OF THE REQUEST

The Planning and Development Department (P&DD) has requested to show an SD4 (Special Development District, Riverfront Mixed Use) zoning classification on a portion of the property known as 7650 East Jefferson Avenue, where an R6 (High Density Residential District) zoning classification is currently shown. The subject site is 4.7 acres in size and contains the now-vacant Brodhead Naval Armory.

The proposed map amendment is being requested to allow the vacant armory building to be used as a sports training facility. The armory building would also house a bowling avenue, food and beverage facilities and other supportive uses. The remainder of the site would be used for an all-season golf driving range and recreational and entertainment uses.

The site is under the control of the Recreation Department and has been declared surplus by that Department. City Planning Commission (CPC) staff understands that City Council has had concerns about the requested transfer of jurisdiction from the Recreation Department to the Planning and Development Department and not yet taken any action on that transfer or the surplus declaration. The CPC is submitting this rec-

ommendation under the standard rezoning process. Section 61-3-79 of the Zoning Ordinance states "Where a petition for a proposed amendment of a zoning map in ARTICLE XVII of this Chapter is not acted upon by the City Council within one hundred twenty (120) days of the date of receipt of the City Planning Commission's report, it shall be deemed to have been denied, unless extended by the City Council." The 120-day "clock" begins the day that the City Council refers the matter to the standing committee.

#### **SURROUNDING LAND USES AND ZONING**

To the north: multi-family residential, (Planned Development District)

To the south: River

To the east: multi-family residential, R6 (High Density Residential District)

To the west: Park, R6

#### **MASTER PLAN**

The Master Plan future land use designation for this area is "MP," Major Park. The current Master Plan designation would not allow the commercial development of the parcel under SD4. A parallel Master Plan amendment is being considered to accommodate the proposed commercial use, as the SD4 zoning district requires.

#### **PUBLIC HEARING RESULTS**

At the February 21, 2008 public hearing on this matter, four persons spoke: two in favor, one against, and one had only made procedural comments. The person speaking in opposition expressed concern about possible impacts from competing bowling alleys in south-east Detroit, as he proposes another recreational facility including a bowling alley in the area of E. Jefferson and Connor. The developer has spoken to the competing (proposed) bowling alley developer and reportedly has come to an understanding.

#### **ANALYSIS**

The proposed change in zoning from a residential district (formerly used for institutional purposes) to allow mixed commercial and recreational uses is consistent with the general character of the overall area, a mixture of high-density residential buildings, recreational, and commercial concerns. The character and operation of the proposed commercial development is not anticipated to present any detriment to the area. However, we have yet to see a development concept for the site. The rezoning to SD4 would allow any of the allowed uses in that zoning district to be established.

It should be noted that the armory building has a local historic designation under the R. Thorton Brodhead Armory Historic District, Sec. 25-2-137 of the Detroit City Code. The interior of the armory building houses the largest collection of federally-funded Depression-era artwork of any building in the state. Portions of the interior and the entire exte-

rior and grounds are designated, and thus any modifications require approval by the Historic District Commission. The proposed developer has agreed to meet the historic requirements.

#### **RECOMMENDATION**

At the March 6, 2008 meeting, the CPC took action to recommend that the requested map change be approved.

Honorable City Council:

Re: Resolution to override the Mayor's Veto of the City Council's Change to the Mayor's Recommended 2008-2009 Budget.

Attached is the schedule from the Administration outlining the Mayor's veto of City Council's action on the 2008-2009 Mayor's Recommended Budget.

The Mayor has chosen to partially veto City Council's Schedule B through elimination of the fiscal stabilization bond revenue and reduction of the prior year deficit appropriation as well as cut the additional funds of \$2 million for the Museum of African American History and reduce \$250,000 of the Legislative Functions Appropriation of City Council.

The Mayor has chosen to completely veto Schedule A.

The resolution provided by this office, would allow Council to confirm their original changes to the Mayor's 2008-2009 Recommended Budget and override the Mayor's partial veto.

**City Council  
Fiscal Analysis Division**

June 3, 2008

Honorable City Council:

Re: Response to Mayor Kilpatrick's Veto Message for Council's Actions on the Proposed 2008-09 Budget.

Honorable Council Members, as your fiscal advisor, I feel compelled to respond to the Mayor's partial veto of your actions on his proposed 2008-09 General Fund budget. I will not comment on the Mayor's full veto of Council's changes to the proposed Community Development Block Grant 2008-09 budget, as I suspect the City Planning Commission staff will do so.

I have numbered the paragraphs in the Mayor's veto message attached, and will use the numbers as reference points.

**City's Credit Rating Issue**

In paragraph 6 on page 3 of the veto message, the Mayor states "Yesterday Moody downgraded the city's credit rating because of Council's actions. This type of financial irresponsibility must not be allowed to happen. Standard and Poors and Fitch are waiting in the wings to downgrade the city's credit rating if we continue this path".

City Council, I find this statement by Mayor Kilpatrick disingenuous, misleading, and harmful. The Mayor makes it seem as though Council's actions alone is the reason for the downgrade. But, this is far from the truth.

I would like to quote directly from Moody's recent credit report for the reason of the downgrade. A copy of the report is attached. The third paragraph on page 2 under the Opinion section states:

"The downgrade and assignment of Baa3 (from Baa2) (GOULT) (stands for General Obligation Unlimited Tax bonds) and Ba1 (from Baa3) (GOLT) (stands for General Obligation Limited Tax bonds) ratings reflect the city's significant negative General Fund balances, delayed financial reporting, and a struggling economy. Persistent economic challenges that have impacted the state of Michigan, particularly the local economy, are exemplified by declining population, high unemployment levels and contracting housing market; the resulting revenue pressures which have led to past operating deficits and use of short-term borrowing for cash flow purposes which is expected to continue for the near-term; and leveraged debt profile. The rating distinction between the limited and unlimited tax bonds reflects the stronger security provided by the unlimited ad valorem property tax pledge".

There is **no** reference to Council's actions in the above paragraph. In fact, nowhere in Moody's credit report are the words "City Council actions" are used.

The only sentence remotely referring to Council's actions is located in the fourth paragraph of page 2 of Moody's report, which says, "The sale of the tunnel between the city and the city of Windsor for an estimated \$75 million has been delayed repeatedly". But to the average reader, it is not known that Council delayed action on the tunnel deal, and why.

Of course, the tunnel deal for the second year in a row has died because the Mayor has failed to bring a full set of actionable documents to the Council for consideration. Furthermore, City Council could not live up to its fiduciary responsibility by approving the tunnel deal this year without having a clear understanding of the financial terms and documents associated with the proposed \$75 million loan from the Province of Ontario to finance the deal. Moreover, the Council had legitimate concerns about the structure of the so-called "Detroit Tunnel Authority" and the autonomous power such authority would have when established to own and operate the Detroit half of the Detroit-Windsor tunnel under the deal. Lastly, many Council Members are still just plainly opposed to selling a major City asset for a one-time revenue shot to balance the budget. Because of your Honorable Body's unreadiness with the tunnel deal, again after the Mayor had a year to provide a full set of documents for your consideration, you wisely elected not to assume any proceeds from the deal in the budget, and used fiscal stabilization bonds to help keep the budget whole.

Without question, Council's "back were against the wall" in having to again for the second budget season deny the tunnel deal, and painstakingly create a prior year deficit account and fiscal stabilization bonds to help keep the budget intact. Council is well aware that fiscal stabilization bonds is not an ideal solution as well, and once sold, could be fairly expensive with high interest rates. But Council had no choice given the ineptness of the Mayor's tunnel deal proposal. Cautiously, Council did include language in its closing resolution for the 2008-09 budget process indicating that the Body would consider taking out the fiscal stabilization bonds if the Mayor provided proper documentation supporting the deal and the deal made economic sense, and thereby, reduce the prior year deficit account.

But most importantly, Moody's recent downgrade was not directly tied to Council's actions on the budget.

And, I want to remind your Honorable Body that the rating agencies did not downgrade the City's ratings this past December, even though, Council put fiscal stabilization bonds in the budget last year.

**Lateness of the 2006 CAFR Issue**

In paragraph 7 of page 3 of the veto message, the Mayor stated, "This is not the first time Council has been irresponsible in handling budget matters. Two years ago this body allowed the contract for the city's outside auditors audit to sit until November, 2006, putting the city months behind in fulfilling its audit requirements to the state. This single act put the city two years behind in fulfilling its audit requirements to the state. This single act put the city two years behind in preparing financial statement audits and has resulted in the state withholding revenue sharing on at least two different occasions because of Council's in-action. The city is still suffering from the effects of that decision".

I cannot believe the Mayor had the audacity to make this comment, and it is unfair to your Honorable Body. The Administration has yet to quantify how long Council "sat" on this contract. I have been working with City Council for 20 years, and usually Council withholds a contract because it is doing its due diligence regarding the contract.

In addition, a few months ago, before the budget process, Mayor Kilpatrick came before City Council basically blaming the external auditors, KPMG, for the lateness of the audit. But when the KPMG contract extension to complete the 2006 CAFR audit came before your Honorable Body a couple of months later, the Council understood more that the 2006 CAFR audit was delayed because of mismanagement on Finance's part (prior to Norman White's, the current chief financial officer's tenure), lack of Finance personnel, and growing complexity of the CAFR audit process. Council will also recall that the external auditors cited an unprecedented 22 reportable conditions on the City's internal control system, which undoubtedly elongated the 2006 CAFR audit process.

To basically blame the Council for the lateness of the 2006 CAFR audit is just plain wrong.

**\$300 Million Structural Deficit Issue**

In the first paragraph on page 1 of the veto message, the Mayor states, "When I took office in 2002 the city was faced with a 300 million dollars mounting structural deficit, which, if left unabated, would have plunged the city into receivership".

I have yet to understand the mounting \$300 million shortfall when Mayor Kilpatrick took office. As I recall, Mayor Archer during his last term instituted departmental cuts in 2001-02. For fairness sake, I do recall the Kilpatrick administration continuing cut programs on its own during the initial stages of his administration, and the 2001-02 budget ended up with a \$1.5 million surplus.

But, at the end of Mayor Kilpatrick's first budget year, the 2002-03 budget ended up with a \$69 million budget deficit. Ironically, the Mayor, with Council's approval, issued \$61 million in fiscal stabilization bonds, and fully depleted the City's rainy day fund by \$8.5 million, to eradicate the budget deficit.

**Conclusion**

Your Honorable Body, on other minor points, I could continue to critique the Mayor's veto message on Council's budget actions regarding the Mayor's proposed 2008-09 budget. But I thought it was important to focus on and respond to critical issues in his veto message, namely, the City's credit rating, the lateness of the 2006 audit, and the alleged \$300 million structural deficit.

As your Honorable Body knows, I have not always supported Mayor Kilpatrick's budgetary initiatives, and I have been very critical at times. But I believe I have support many of his initiatives as well. At any rate, I will continue to work long hours to provide the Council objective analysis on the Mayor's budgetary and financial initiatives for the good of our beloved City.

But in my humble professional opinion, to place unmerited blame on the City Council for some of the financial challenges faced by the City is unfair and warranted a strong response.

Respectfully submitted,  
IRVIN CORLEY, JR.  
Director

**City Planning Commission**

June 1, 2008

Honorable City Council:

Re: Schedule A Technical Corrections to the 2008-09 CDBG Budget.

The Budget Department has informed City Planning Commission (CPC) staff that there are two minor changes needed to the 2008-09 Community Development Block Grant (CDBG) Schedule A. The revenue section of the Community Development Block Grant (CDBG) Schedule A previously submitted to this Honorable Body was omitted. CPC staff has since revised the Schedule A and it now includes the revenues. In addition to the newly added revenue section, the Budget Department also noted that one appropriation number correction was needed for the 2008-09 Community Development Block Grant (CDBG) Schedule A. The Job Program-Youth was assigned the wrong appropriation number but it has been changed to reflect the correct appropriation number. The change in the appropriation number does not change the amount allocated to the Youth Job Program.

Again, please note that the changes in the appropriation number or the addition of the revenues do not in any change the amounts allocated to the listed organizations or activities. Please let us know if any further information is required on this matter.

We understand that you will be addressing the Mayor's veto of your budget action during your next Formal Session on June 3, 2008. This matter should also be addressed at that time. Attached is the resolution for the technical correction for the Schedule A.

Respectfully submitted,  
 MARCELL R. TODD, JR.  
 Director

Honorable City Council:

Re: Proposed Resolution to Extend a Temporary Moratorium on Consideration of MLCC Activity Permits for Nonconforming Cabarets and Adult Cabarets.

On February 5, 2008, City Council approved a resolution to defer consideration of requests for approval or disapproval of petitions for activity permits for any Group "A," "B," or "C" cabaret or nonconforming Group "D" adult cabaret referred to City Council by the Michigan Liquor License Commission (MLCC). The resolution expires on Wednesday, June 4, 2008.

As you are aware, the interdepartmental working group which consists of City Planning Commission staff, the Law Department, the Research and Analysis Division, the Buildings and Safety Engineering Department's Building Division and Business License Center, and the Police Department have met for many months revising the procedures and criteria that City Council has used since 2003 and 2004.

The interdepartmental working group is close to finalizing the proposed procedures and criteria regarding MLCC activity permits. However, more time is needed to finalize the proposed procedures and criteria. Attached is a proposed resolution for your consideration to extend the approved temporary moratorium on requests for approval or disapproval of petitions for activity permits for nonconforming cabaret — Group "A," "B," or "C" — or nonconforming Group "D" adult cabaret until July 8, 2008.

As an update on the interdepartmental working group's progress on the MLCC

procedures and criteria, attached is the latest draft of the revised procedures and criteria for your review.

**City Planning Commission**

March 26, 2008

Honorable City Council:

Re: Proposed "Adult Uses" Text Amendment to Chapter 61, Zoning (Recommend Approval).

As City Council is aware, the U.S. District Court recently ruled on the con-

stitutionality of certain provisions in Detroit's Zoning Ordinance relative to "adult uses."

On January 17, 2008, the Mayor issued Executive Order No. 2008-1, which imposed a 120-day moratorium on the Buildings and Safety Engineering (B&SE) Department's consideration of new permits and licenses for "adult uses." That moratorium was established to provide time for preparation of amendments to the City Code relative to "adult uses;" the moratorium will expire Friday, May 16, 2008.

The Law Department, Police Department, and the Business License Center of the Buildings and Safety Engineering (B&SE) Department have collaborated with the Research and Analysis Division and City Planning Commission staff to prepare a Zoning Ordinance text amendment. The City Planning Commission (CPC) held a public hearing on that proposed amendment and has voted to recommend approval of it to your Honorable Body.

Attached, please find a copy of the 49-page text amendment. It would be appropriate to hold an interdepartmental discussion on this ordinance prior to its approval as to form and introduction.

**BACKGROUND**

The attached Zoning Ordinance text amendment reorganizes the Zoning Ordinance's "adult use" provisions in light of the City's past experience and that of other municipalities, the recommendations of our outside consultants, Duncan Associates, who prepared a detailed report on sexually oriented businesses in Detroit, and the considered advice of attorney's from the Law Department and City Council's Research and Analysis Division (RAD).

Because "adult uses" enjoy certain First Amendment protections, the courts have returned many decisions on strip clubs, peep shows, adult bookstores and supply stores, and similar uses. City staff has referenced twenty-one (21) of these various decisions as guidance for the provisions of the proposed amendment. The courts have ruled that municipalities can rely on the findings made in other communities as a basis for their own "adult uses" regulations and staff notes twenty-five (25) different studies that confirm Detroit's continued concerns over the secondary effects from "adult uses." These reports are available for review in the CPC office.

**SCOPE OF THE PROPOSED ORDINANCE**

The proposed ordinance has nine (9) main features with respect to "adult uses."

1. It removes "adult uses" from the "Regulated Use" category and creates a new division within Article III for "Adult Uses" (§61-3-252, Pg. 3; §61-3-253, Pg. 4; §61-3-272, Pg. 5; §61-3-341 through §61-3-347, Pgs. 7-13).

2. It specifies time limits within which permit applications for "adult uses" are processed. In certain instances, site plan approval of an "adult use" is required; approval or disapproval must be determined and reported within sixty (60) days (§61-3-344(3), Pg. 10). Appeals of denied site plans to the Board of Zoning Appeals (BZA) are also required to be decided within sixty (60) days (§61-3-344(4), Pg. 11). B&SE must rule on complete permit applications within thirty (30) days (§61-3-344(5) and (6), Pg. 11). Any other "adult use" issue before the BZA must also be decided within sixty (60) days (§61-3-347, Pg. 13).

3. It eliminates the land use terms, adult physical culture establishment and adult personal service establishment (§61-3-252(2), Pg. 3; §61-3-253, Pg. 4; §61-3-272, Pg. 5; §61-9-122(1), Pg. 16; §61-10-62(1), Pg. 17; §61-10-82(1), Pg. 21; §61-10-102(1), Pg. 23; §61-12-41, Pg. 26; §61-12-94, Pg. 27; §61-12-151, Pg. 28; §61-14-39, Pg. 31; §61-16-31, Pgs. 36-37; §61-16-162, Pg. 43; Appendix, Pg. 46); it clarifies the definition of the term, adult supply store (§61-16-31, Pg. 38).

4. It changes "adult uses" from a conditional use in the B6 District (outside the Central Business District), M3, M4, and M5 Districts (§61-9-122(1), Pg. 16; §61-10-62(1), Pg. 17; §61-10-82(1), Pg. 21; §61-10-102(1), Pg. 23) and newly lists "adult users" as by-right uses in the M4 and M5 Districts (§61-10-76(1), Pg. 18; §61-10-96(1), Pg. 23) subject to certain locational limitations.

5. It establishes locational restrictions for "adult uses" to specify that new "adult uses" shall be located farther than 1,000 radial feet from: land zoned R1, R2, R3, R4, R5, R6, and residentially developed PD, SD1, SD2, or SD4; any other Adult Use; any Regulated Use; any school, park, playground, playfield, or playlot; and any religious institution (identified by the Assessor as "exempt" property) (§61-3-344, Pg. 10). These spacing requirements may not be waived by the Board of Zoning Appeals (§61-4-92(3), Pg. 15).

6. It specifies that new "adult uses" are prohibited on any zoning lot within a Major Corridor overlay area (§61-11-326, Pg. 24); Eight Mile Road is added to the list of Major Corridor Overlay Areas (§61-11-322(2), Pg. 24).

7. It requires review and approval of structural alterations to a nonconforming adult use by the Board of Zoning Appeals (§61-3-345(1), Pg. 11). "Adult uses" would have to obtain BZA approval prior to structural alterations if the use is nonconforming even where the gross floor area or size of the lot is not increased. (The Michigan Zoning Enabling Act authorizes municipalities to treat different classifications of nonconforming land uses in distinct manner (MCL 125.3208); Detroit's

Zoning Ordinance already tailors certain provisions to certain types of nonconforming uses.)

8. It allows for the conversion of a nonconforming (Group "D") adult cabaret to a conforming (Group "A") cabaret without need for a conditional use hearing (§61-3-346, Pg. 12).

9. It expands the land use term, adult theater, to adult motion picture theater and adult motion picture arcade (commonly known as peep show) (§61-3-342(3), Pg. 9; §61-10-76(1), Pg. 18; §61-10-96(1), Pg. 23; §61-12-41, Pg. 26; §61-12-94, Pg. 27; §61-12-151, Pg. 28; §61-14-39, Pg. 31; §61-16-31, Pgs. 37, 39; Appendix, Pg. 47).

The proposed ordinance also contains four (4) other provisions of general applicability.

1. It changes the term for abandonment of nonconforming uses from two (2) years to six (6) months for consistency with the term for abandonment of conforming uses (§61-15-21(2), Pgs. 34-35).

2. It clarifies the powers, duties and jurisdiction of the BZA with respect to administrative review. This is meant to remove any confusion as to the BZA's jurisdiction over enforcement matters, which properly go before the Department of Administrative Hearings (§61-2-48, Pg. 2; §61-4-71, Pg. 13).

3. It clarifies certain approval criteria for site plan review by narrowing approval criteria to more objective or measurable factors (§61-3-152, Pg. 2; §61-3-157, Pg. 3).

4. It modifies the definitions of certain terms — cabaret (§61-16-51, Pg. 39); health club (§61-16-101, Pg. 41); incidental (§61-16-111, 61-16-112, Pgs. 41-42).

#### ANALYSIS

Most significant among the changes proposed for "adult uses" is their allowance in the M4 (Intensive Industrial) and M5 (Special Industrial) Districts on a by-right basis rather than in the B6 (General Services) outside the Central Business District, M3 (General Industrial), 4, and M5 Districts on a conditional basis requiring a public hearing. The Buildings and Safety Engineering Department will be able to issue a permit for an "adult use" on an over-the-counter basis but only after several determinations have been made.

Those determinations include the requirement for a 1,000 foot setback from land zoned residential and the locational requirement that a new "adult use" be more than 1,000 feet from any other "adult use" or any "regulated use." Regulated uses include cabarets, dance halls, bars, hotels, motels, pawnshops, plasma donation centers, public lodging houses, and secondhand stores and secondhand jewelry stores. Additionally, new "adult uses" must be spaced farther than 1,000 feet

from other sensitive land uses such as schools, parks/playgrounds, and religious institutions (provided the religious institution is identified as exempt property by the assessor).

The City of Detroit contains 139.59 square miles. Of that, 116.89 square miles (or 74,809.6 acres) are zoned land that shows up on the assessment rolls; rights-of-way are not zoned and do not show up on assessment rolls. CPC staff found that land zoned M4 and M5 alone adds up to more than 13 square miles, almost 12% of the entire city.

However, much of that 12% heavy industrial acreage is close to residential zoning districts or the aforementioned sensitive land uses. (Some M4 land even contains nonconforming residential uses.) Staff ascertained that about 1,394 acres, or 1.6% of the City's land mass and almost 2% of the land that is zoned and taxed — an area the size of Hamtramck — is properly zoned and located for a by-right new adult use, remote from land zoned residential and sensitive land uses.

Of course, some of that 2% is land already occupied by active industrial uses. Part of the 2% holds buildings that appear vacant or whose operation is questionable. Some of the 2% is vacant land or property for sale — about ten different sites.

In drafting the proposed ordinance, staff tried to balance the need to provide enough acreage to satisfy guidelines from case law involving "adult uses" while not opening up so much of the city to new "adult uses" so as to prompt a proliferation.

The courts have been concerned where municipalities rely upon discretionary standards in approving or disapproving uses such as sexually oriented businesses that enjoy some protection from the First Amendment to the U.S. Constitution. Detroit's Zoning Ordinance includes both non-discretionary and discretionary approval criteria for conditional uses. By attaching non-discretionary standards to a by-right use, the Zoning Ordinance avoids any reliance on subjective factors in approving or disapproving permit applications for new adult uses.

#### **RESULTS OF CITY PLANNING COMMISSION PUBLIC HEARING**

At a March 6, 2008 City Planning Commission public hearing on this matter, CPC staff laid out the provisions of the proposed ordinance in detail and referenced the variety of documents and reports substantiating various secondary effects of adult uses. The attorney from the Law Department, the principal author of the draft, provided historical background to Detroit's regulation of adult uses and the legal basis for regulating First Amendment-sensitive land uses. A representative of the Detroit Police

Department's vice bureau indicated the disproportionate demand on police resources that adult uses have placed on the department in comparison to other similar businesses. The hearing officer for the Buildings and Safety Engineering Department offered that the proposed approach to processing adult use permits would be objective and efficient.

Five (5) members of the public, of the estimated thirty (30) persons present, offered spoken testimony — two, seeking answers to specific questions and clarification of the impact on their establishment; two others indicating strong support for the proposed provisions; another generally in support of the ordinance but concerned over the lack of a public hearing requirement.

The Eight Mile Boulevard Association and the Southwest Detroit Business Association submitted letters in support of the proposed ordinance.

#### **CONCLUSION AND RECOMMENDATION**

At its March 20, 2008 meeting, the CPC voted to recommend approval of the proposed ordinance with two modifications — one having to do with the time limits for B&SE's processing of permit applications, the other related to information required from the applicant.

As noted above and as has been the practice with other Zoning Ordinance text amendments, it would be appropriate for Council to hold an interdepartmental discussion on the proposed ordinance prior to formal introduction of the ordinance and the public hearing. In that way, if there are any changes needed in the ordinance they can be incorporated into the draft to be submitted to the Law Department for approval as to form.

We recommend the discussion be scheduled at the earliest possible date so as to have an ordinance in place upon expiration of the 120-day moratorium period.

#### DIVISION 11. ADULT USES

##### Sec. 61-3-341. Purpose.

(a) In the development and execution of this Article, it is recognized that Adult Uses, because of their very nature, have serious objectionable operational characteristics and secondary effects attributable to their operation, such as the increased crime, violence, public intoxica-

tion, prostitution, illegal gambling and narcotics trafficking, the spread of sexually transmitted diseases, decreased property values, the spread of urban blight, and the deterioration of the character of nearby neighborhoods and businesses. These serious secondary effects are of particular concern when several of them are concentrated under certain circumstances or when one (1) or more of them is located in near proximity to a residential zone, thereby having a deleterious effect upon the adjacent areas. Special regulation of these uses is necessary to ensure that these adverse effects shall not contribute to the blighting or downgrading of the surrounding neighborhood. These special regulations are itemized in this Article.

(b) In regulating Adult Uses, it is the purpose of this Article to promote the health, safety, and general welfare of the citizens of the city, and to establish reasonable and uniform regulations to preserve the quality of life and prevent the deleterious secondary effects of Adult Uses within the City. The provisions of this Article have neither the purpose nor effect of imposing a limitation or restriction on the content or reasonable access to any communicative materials, including sexually oriented materials. Similarly, it is neither the intent nor effect of this Article to restrict or deny access by adults to sexually oriented materials protected by the First Amendment, or to deny access by the distributors and exhibitors of sexually oriented entertainment to their intended market. Neither is it the intent nor effect of this Article to condone or legitimize the distribution of obscene material.

(c) Based on evidence of the adverse secondary effects of adult uses presented in hearings and in reports made available to the City Council, and on findings incorporated in the cases of *Pap's A.M. v. City of Erie*, 529 U.S. 277 (2000); *City of Renton v. Playtime Theatres, Inc.* 475 U.S. 41 (1986); *Young v. American Mini Theatres*, 427 U.S. 50 (1976); *Barnes v. Glen Theatre, Inc.*, 501 U.S. 560 (1991); *DLS v. City of Chattanooga*, 107 F.3d 406 (6th Cir. 1997); *East Brooks Books, Inc. v. **Sec. 61-3-342. Adult Uses subject to this Division.**

The Adult Uses subject to this Division are:

- (1) Adult cabaret;
- (2) Adult supply store; and
- (3) Adult motion picture theaters or adult motion picture arcades commonly known as peep shows.

**Sec. 61-3-343. Definitions.**

The terms as used in this Division are defined in Sec. 61-16-31 of this Code.

**Sec. 61-3-344. Permitted Uses:**

**Procedure.**

(a) The Buildings and Safety Engineering Department shall not approve any request for an Adult Use where there is already in existence one (1) or more Adult Use of Regulated Use within a one thousand (1,000) foot radius of the boundaries of the site of the proposed Adult Use.

(b) Any of the Adult Uses listed in Sec. 61-3-342 are permitted on a conditional basis in the M4 and M5 zoning districts, subject to the Adult Use approval criteria in Sec. 61-3-345 of this code rather than the criteria specified in ARTICLE III DIVISION 7, Subdivision C of this Chapter.

(c) Site plan approval is necessary for a proposed Adult Use, as specified in Sec. 61-3-113(5) of this Code; the City's review and written notification to the applicant of its approval or disapproval of the site plan, shall be completed within sixty (60) days of submittal of a complete site plan with all required information; a written disapproval shall state the reasons why the site plan was not approved.

(d) Denial of a site plan may be appealed to the Board of Zoning Appeals, which will hear the case and render a decision within sixty (60) days of application for appeal. See also Sec. 61-3-175.

(e) Once a permit application has been received as complete by the Buildings and Safety Engineering Department, and preliminary site plan approval has been granted:

(1) Notwithstanding any other provision of this Chapter, the Buildings and Safety Engineering Department shall hold the required conditional use hearing as provided in Subsection (b) of this section;

(2) The Planning and Development Department shall have fifteen (15) days following the public hearing to submit a recommendation to the Buildings and Safety Engineering Department with regard to the permit application's consistency with the Adult Use approval criteria;

(3) The Buildings and Safety Engineering Department shall approve or deny the application within thirty (30) days of the public hearing; however, where the department determines that a permit application does not comply with any intensity or dimensional standard of ARTICLE XIII or any general development standard of ARTICLE XIV of this Chapter and cannot be approved without a variance of such standard from the Board of

Zoning Appeals, the department shall provide a written determination to the applicant within thirty (30) days of the public hearing as to the need for such variance; where the applicant fails to apply for such variance within fourteen (14) days of the department's written determination, the permit application shall be deemed denied.

(f) The applicant shall submit such documentation as determined appropriate by the Buildings and Safety Engineering Department in order for the department to determine consistency or non-consistency with all requirements specified in Section 61-3-345 of this Code; the permit application shall not be deemed complete unless the applicant shall have provided the required documentation to the department and paid all appropriate fees.

**Sec. 61-3-345. Adult use approval criteria.**

No Adult Use shall be approved by the Buildings and Safety Engineering Department, or the Board of Zoning Appeals on appeal, unless the Buildings and Safety Engineering Department, or the Board of Zoning Appeals on appeal finds that the applicant has established each of the following at the required public hearing:

(a) Land zoned R1, R2, R3, R4, R5, R6, or residential PD, and any residentially developed zoning lot in the SD1, SD2, and SD4 zoning districts;

The establishment of the Adult Use will not violate any land use prohibition of any adopted development plan as provided in ARTICLE IV, DIVISION 1 of this Chapter as evidenced in a written clearance from the Planning and Development Department.

**Sec. 61-3-346. Expansion and Discontinuance of Use.**

(1) Legally established Adult Uses in

zoning districts where Adult Uses are not permitted by right shall be considered legal nonconforming uses and shall not be expanded, intensified or enlarged, in any manner, excepting structural alterations as defined in Sec. 61-16-32, which must be approved by the Board of Zoning Appeals.

(2) If an Adult Use is discontinued, vacant, inactive or abandoned for more than six (6) months, as determined by two visits of a City inspector and verified by affidavit of the inspector, such use may not be reestablished without applying for and receiving the approval of the City in accordance with the requirements for a new Adult Use in that zoning district.

(3) An Adult Use shall be presumed abandoned after six (6) months where any one (1) of the following has occurred:

(a) The owner has indicated, in writing or by public statement, an intent to abandon the use; or

**DIVISION 2.**

**NONCONFORMING USES.**

**Sec. 61-15-16. Expansion or intensification of nonconforming uses.**

A public hearing at the Board of Zoning Appeals shall be required in any instance that involves the expansion or intensification of a nonconforming use, subject to the provisions of Sec. 61-15-17 of this Code. Nonconforming Adult Uses, however, shall not be considered for expansion or intensification. See Sec. 6-3-346:

(1) Any increase in the gross floor area of a building that houses a nonconforming use shall be deemed an expansion of the nonconforming use. Any increase in the area of a zoning lot where a nonconforming use is located shall be deemed an expansion of the nonconforming use;

"Intensification of use" is defined in Sec. 61-16-112 of this Code.

**Sec. 61-15-20. Change of use to other nonconforming use.**

A nonconforming use may be changed to another nonconforming use only where reviewed and approved by the Board of Zoning Appeals in accordance with the procedures that are specified in Sec. 61-2-46 of this Code. However, a nonconforming use may not be changed to any of the following:

(1) Regulated uses as specified in Sec. 61-3-253 of this Code on land zoned R1, R2, R3, R4, R5, or R6, except where an establishment for the sale of beer or intoxicating liquor for consumption on the premises would reoccupy an existing non-residential building, provided no dance or entertainment activity that would require a cabaret permit and license shall be included;

Where a change in use is approved, the Board of Zoning Appeals shall be authorized to impose conditions that the Body deems necessary to reduce or minimize any potentially adverse effect upon other property in the neighborhood, and to carry out the general purpose and intent of this Zoning Ordinance. Any condition that is imposed must relate to a situation created or aggravated by the proposed use and must be roughly proportional to its impact.

**Sec. 61-15-21. Loss of nonconformity status; abandonment.**

Once abandoned, a nonconforming use shall not be re-established or resumed, except in accordance with the provisions of Sec. 61-15-18 of this Code. (1) Evidence Presumption of Abandonment. A nonconforming use shall be presumed abandoned and its land use rights extinguished where any one (1) of the following has occurred:

- (a) The owner has indicated, in writing or by public statement, an intent to abandon the use; or
- (b) A conforming or less intensive nonconforming use has replaced the nonconforming use; or
- (c) The building or structure that houses the nonconforming use has been removed; ~~or.~~

(2) Evidence of Abandonment. Evidence that a use has been discontinued, vacant or inactive for a continuous period of at least six (6) months, and

<p>Intensity of Land Use</p>	<p>The intensity of a land use shall be based on the zoning district where the specified land use initially appears in the zoning ordinance as a use permitted as a matter of right.</p> <p>For example, a land use first listed as a matter of right use in Article X of this Chapter (industrial zoning districts) shall be deemed more intensive than a land use first listed as a matter of right use in <u>ARTICLE IX</u> (business districts), and a land use first listed as a matter of right use in <u>ARTICLE IX</u> shall be more intensive than a land use first listed as a matter of right use in <u>ARTICLE VIII</u> (residential districts).</p> <p>Similarly, within a given Article, zoning districts bearing a higher number shall be deemed more intensive than districts bearing a lower number; for example, a use first permitted as a matter of right in the M4 District, shall be deemed more intensive than a use first permitted as a matter of right in the M2 District. **RESOLUTION REGARDING INVALID ATTEMPT TO VETO THE DETROIT CITY COUNCIL'S MAY 13, 2008, RESOLUTION TO FILE A CHARGE WITH GOVERNOR JENNIFER M. GRANHOLM SEEKING REMOVAL OF MAYOR KWAME M. KILPATRICK FROM OFFICE**

By COUNCIL MEMBER S. COCKREL:

WHEREAS, Under Section 4-109 of the 1997 Detroit City Charter, the Detroit City Council has broad power to "make any investigations into the affairs of the city and the conduct of any city agency," and includes all activities associated with such an investigation; and

WHEREAS, On April 8, 10 and 11, the Detroit City Council conducted three days of public hearings pursuant to Section 4-109, a quasi-judicial function; and

WHEREAS, The Council's broad power clearly includes the passage of resolutions based upon a Section 4-109 investigation and any such resolution is an inherent part of the investigative process; and

WHEREAS, The Council's quasi-judicial function is intended to be broad and the term "quasi-judicial" has been defined by the Michigan Court of Appeals as a "term applied to the action, discretion, etc., of public administrative officers, who are required to investigate facts, or ascertain the existence of facts, and draw conclusions from them, as a basis for their official action" (*Peiz vs. Secretary of State*, 125 Mich. App. 335 (1983)); and

WHEREAS, On May 13, 2008, as a direct result of its quasi-judicial public hearings under Section 4-109 of the City Charter, the Detroit City Council passed by majority vote a Resolution to File a Charge With Governor Jennifer M. Granholm Seeking Removal of Mayor Kwame M. Kilpatrick from Office, pursuant to Section 327 of Public Act 116 of 1954, Michigan Election Law (MCL 168.327) (hereafter referred to as "the Resolution"); and

WHEREAS, Section 4-119 of the Detroit City Charter clearly states: "Every ordinances or resolution of the city council, *except quasi-judicial acts of the city council* including any under section 9-302, appointments by the city council or *action taken under section 2-107(2-3)*, 4-102, 4-105, 4-108, 4-109, 4-120, 4-121, 7-1006, or 12-110 of *this Charter*, shall be pre-

vented by the city clerk to the mayor within four (4) business days after adjournment of the meeting at which the ordinance or resolution is adopted;" and

WHEREAS, When an exception does not apply, the mayor, pursuant to Section 4-119 of the Charter, has seven days of receipt of a resolution to return it to the city clerk with a veto; and

WHEREAS, The Resolution clearly fell within the exceptions stated in Section 4-119, and Mayor Kwame M. Kilpatrick's attempt to veto the Resolution is invalid and a nullity; and

WHEREAS, A quasi-judicial and investigative action is, as it must be, outside the power of the Mayor to veto;

WHEREAS, From any policy perspective, it would be patently absurd to claim that the Charter intends to allow the Mayor to veto a Resolution that seeks his own involuntary ouster, through the processes of state law; and

WHEREAS, MCL 168.327 does not require the action of a public body in order to mandate the Governor's action, but rather, only a writing supported by a sworn affidavit; and since this requirement has been met, the provisions of the statute are now set in motion and cannot be stopped by Mayor Kilpatrick's invalid attempt to veto the Resolution; NOW, THEREFORE, BE IT

RESOLVED, That the Detroit City Council neither receives as part of the Formal Session record of June 3, 2008, nor acknowledges, Mayor Kwame M. Kilpatrick's invalid attempt on May 27, 2008, to veto the May 13, 2008, City Council Resolution to File a Charge With Governor Jennifer M. Granholm Seeking Removal of Mayor Kwame M. Kilpatrick from Office; and BE IT FINALLY

RESOLVED, That the City Clerk forward this Resolution to the Honorable Governor Jennifer M. Granholm and Mayor Kwame M. Kilpatrick.
