## Invocation

Sovereign God and Father of all mankind, sustainer of life.

We, your servants seek direction and counsel from You today. We confess our limitations and inabilities as fallible humans.

Father we give you praise in all things, help us to understand that even trials and hard testing do come with great prospect and opportunity to discover obscure solutions to create a better way of life for us and our posterity.

Instill therefore, wisdom, courage and tenacity beyond the ordinary, in these privileged men and women that, they will dignify their office by honoring justice and embrace the integrity of this great, historic City of Detroit. Place your hand on the president as he directs the deliberations at this critical time of fierce challenges and unpredictable responses.

Dear father, cause motives to be pure and unselfish. Deal with the hearts of this honorable council, behind these doors and without and defend their interests and families.

Let each of your servants live with the conviction that the cause they serve is beyond the ambit of this city but indeed for the pride of all the patriotic peoples throughout the Americas. May God be with us, as we ask through Christ Jesus. Amen.

Re: Address: 14005 Alma. Name: Roy  
Jay Montney Jr.-Chase Home  
Finance. Date ordered removed:  
March 4, 2008 (J.C.C. p. ).

In response to the request for a deferral  
of the demolition order on the property  
noted above, we submit the following  
information:

A special inspection on May 2, 2008  
revealed the building is secured and  
appears to be sound and repairable.

The owner has paid the current taxes  
due as of April 25, 2008.

The proposed use of the property is  
owner occupancy. This is the first deferral  
request for this property.

Therefore, it is recommended that the  
demolition order be deferred for a period  
of three (3) months subject to the follow-  
ing conditions:

1. The building shall be maintained  
securely barricaded until rehabilitation is  
complete. All relevant permits for rehabili-  
tation work shall be obtained. Rehabilita-  
tion is to be complete within six (6)  
months, at which time the owner will  
obtain one of the following from this  
department:

- Certificate of Acceptance related to  
building permits
- Certificate of Approval as a result of a  
Housing Inspection
- Certificate of Inspection, required for  
all residential rental properties

2. The owner shall not occupy or allow  
occupancy of the structure without a cer-  
tificate (as outlined above).

3. The yards shall be maintained clear  
of weeds, junk and debris at all times.

We recommend that utility disconnect  
actions cease to allow the progress of the  
rehabilitation.

At the end of the deferral period, the  
owner must contact this department to  
arrange an inspection to evidence that  
conditions of the deferral have been main-

tained and that there has been substantial  
progress toward rehabilitation. If the build-  
ing becomes open to trespass or if condi-  
tions of the deferral are not maintained,  
we may proceed with demolition without  
further hearings. And, pursuant to the  
Property Maintenance Code we will issue  
a Blight Violation Notice.

A request for deferral exceeding four  
must be made by petition to City Council  
through the office of the City Clerk.

**Department of Public Works

April 14, 2008

Honorable City Council:

Re: Petition No. 3452 — DTE Energy requesting the outright vacation of Plaza Drive between First Avenue and Third.

Petition No. 3452 (Amendment) of "DTE Energy" whose address is 2000 Second Avenue, Detroit, Michigan 48226, request the outright vacation of Plaza Drive, 40 feet wide, between First Street, 60 feet wide and Third Avenue, variable width. This request is to complete the final phase of DTE's significant renovation of the building, which is about 40 years old. The project will include construction of a three-story atrium with meeting facilities, a new vehicular

entrance for visitors, security enhancements, and extensive landscaping.

The petition was referred to the City Engineering Division — DPW for investigation (utility clearance) and report. This is our report:

Detroit Water and Sewerage Department (DWSD) reports that there are sewers and water mains in Plaza Drive between First and Third. However, DWSD has no objections to the outright vacation of Plaza Drive, provided that the water mains and sewers are abandoned in accordance with plans approved by DWSD, at no cost to DWSD, and will not be the responsibility of DWSD. All of the work is to be done under DWSD's permit and inspection.

The Public Lighting Department (PLD) reports having an underground fed street lighting poles and cable running in the area request for vacation. PLD will remove their underground fed street lighting facilities at project expense.

AT&T Telecommunication reports having underground facilities in Plaza Drive, if these facilities must be vacated it must be done at the petitioner and/or owners request to AT&T. If the AT&T facilities are not going to be removed, then a private easement will be retained for AT&T facilities.

DTE Energy Gas and Electric Divisions — the Gas Division reports having an existing 2-inch gas main running along Plaza Drive in said area. The vacation of Plaza Drive must be duly executed in accordance with Wayne County Treasury and Register of Deeds, and that the party pursuing in the vacation of the said Plaza Drive pays or the cut, cap, and abandonment of the existing 2 inch plastic gas main. DTE's Electric Division reports a cost of \$17,000.00 for the removing and or rerouting.

All City departments and privately owned utility companies have reported no objections to the outright vacation of the public right-of-way. Provisions protecting utility installations are part of the resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,

Honorable City Council:

Re: Petition No. 2120 — Gigante Prince Valley Supermercado, request for the conversion to easement Fletcher Street and encroach into an alley.

Petition No. 2120 of "Gigante Prince Valley Supermercado" whose address is 5931 Michigan Avenue, Detroit, Michigan 48210 request conversion to easement the remaining portion of Fletcher Street, 60 feet wide, and to maintain an encroachment of a six and a half (6.5) feet by five and a half (5.5) feet concrete pad for a transformer in the East-West public alley, 20 feet wide all in the block bounded by Michigan Avenue, 120 feet wide, Lola Street, 60 feet wide, Hammond Avenue, 33 feet wide, and Wesson Avenue, 60 feet wide.

The request was approved by the Solid Waste Division — DPW, and the Traffic Engineering Division. The petition was referred to the City Engineering Division — DPW for investigation (utility clearance and review) and report. This is our report:

All public right-of-way work, including maintenance, must be subject to city permits, inspection, and specifications. "Gigante Prince Valley Supermercado" and/or their assigns must obtain permits from City Engineering Division — DPW for any public right-of-way work together with building permits.

Detroit Water and Sewerage Department (DWSD) reports no objections to the Conversion to easement and the encroachment of the concrete pad with transformer provide that minimum clearances are maintained.

All other City Departments and privately owned utility companies have reported no objections. Provisions protecting utility installations are part of the resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,

JESSY JACOB

Interim City Engineer

City Engineering Division — DPW  
By Council Member Tinsley-Talabi:

Resolved, All that part of Fletcher Street, 60 feet wide, West of Wesson Avenue, 60 feet wide, lying South of and abutting the South line of Lot 1 and the public alley vacated on November 30,

The agreement shall save and protect the City of Detroit from any and all claims, damages or expenses that may arise by reason of the issuance of the permits and faithful or unfaithful performance by the petitioner of the terms thereof. Further, the petitioner shall agree to pay all claims, damages, or expenses that may arise out of the maintenance of the proposed encroachments; and further

Provided, That such use of the public rights-of-way shall be under the rules and regulations of the City Engineering Division in conjunction with the Building and Safety Engineering Department (if necessary). Honorable City Council:

Re: Petition No. 1563 — Sunshine Ltd. Word Processing Specialist, for renewal of the temporary closure of Berden Avenue between Radnor Avenue and Balduck Memorial Park. Petition No. 1563 of "Sunshine Ltd. Word Processing Specialist" request the renewal of the temporary closing (previously adopted by City Council April 24, 2002 — J.C.C. Pgs. 1140-43) of Berden Avenue, 60 feet wide, between Radnor

Avenue, 60 feet wide, and Balduck Memorial Park, to continue to abate the nuisance conditions in said area.

The request was approved by the Traffic Engineering Division — DPW and the Planning and Development Department. The Petition was referred to the City Engineering Division — DPW for investigation and report. This is our report:

The Traffic Engineering Division — DPW (TED) requires that the petitioner contact the Operations Section of TED for deploying proper signage and barricades, if necessary.

The Recreation Department and/or General Services, the Water and Sewerage Department, AT&T Telecommunications, Comcast Cablevision, Detroit Edison and the Fire Department (all) continue to require unimpeded access to service the public and/or their existing facilities. Any

fence and gate installation must provide 13 feet horizontal and 15 feet vertical clearance for utility maintenance vehicles.

Any fence and gate installation must be installed in such a manner to only limit vehicular traffic and the sidewalk must be left unimpeded by any obstructions.

All other City Departments and privately owned utility companies have reported no objections to the proposal, provided they have the right to ingress and egress at all times to their facilities.

An appropriate resolution, containing the necessary conditions, is attached for consideration by your Honorable Body.

Respectfully submitted,

JESSY JACOB

Honorable City Council:

Re: Medical Center Rehabilitation Project  
No. 2. Development: The Northern  
Section of Tolan Park; (a/k/a Part of  
701 Mack). (Requesting Scheduling  
Public Hearing.)

We are in receipt of an offer from The Detroit Medical Center, a Michigan Non-Profit Corporation, to purchase the above-captioned property for the amount of \$900,000 and to develop such property. This property contains approximately 5.3 acres and is zoned R-6 (High Density Residential District).

The Detroit Medical Center proposes to use this property in conjunction with property they already own, to renovate and expand the existing Children's Hospital located at 3901 Beaubien into a state-of-the-art medical facility to address the growing volume of over 300,000 patients annually.

The proposed development will consist of two (2) phases with approximately \$200 million worth of capital re-investment.

**PHASE I**

The first phase will consist of the construction of an approximately 70,000 square foot five-story medical office facility. The proposed complex will house the Hospital's General Pediatrics Clinic and outpatient rehabilitation services, along with a paved surface parking lot for the storage of approximately four hundred (400) licensed operable vehicles. Any area not paved will be appropriately lighted and landscaped to enhance the overall site.

**PHASE II**

The second phase will consist of the expansion and renovation of clinical space within the main hospital inclusive of doubling the size of the emergency room and intensive care units, and building new centers for cardiology, neurology and cancer treatment. In addition, approximately two hundred (200) physician offices will be relocated from the main hospital to the new facility.

The Planning and Development Department has evaluated the proposal by The Detroit Medical Center, a Michigan Non-Profit Corporation, and now wishes to move forward with the conveyance of the subject property.

The disposal of this land by negotiation is an appropriate method for making the land available for redevelopment and the proposed agreement is in satisfactory form.

We, therefore, request that your Honorable Body adopt the attached resolution authorizing the advertising of, and the holding of a public hearing concerning this offer on the 18th Day of June, 2008 at 10:20 a.m.

Respectfully submitted,  
DOUGLASS J. DIGGS  
Director

By Council Member Collins:

Resolved, That this offer by The Detroit Medical Center, a Michigan Non-Profit Corporation, to purchase and develop the Northern Section of Tolan Park, (a/k/a Part of 701 Mack) in the Medical Center Rehabilitation Project No. 2, is in satisfactory form; and

That the disposal of this land by negotiation is an appropriate method for making the land available for redevelopment; and

That the developer possesses the qualifications and financial resources necessary to acquire and develop the property in accordance with the Development Plan; and

That the offered aggregate price of \$900,000.00 is equal to the fair market value of the land for use in connection with the Development Plan, and to hold a public hearing concerning this offer on the 16th Day of July, 2008 at 10:20 a.m.

#### PUBLIC COMMENTS

**Council Member Tinsley-Talabi** presented a Testimonial Resolution to Mr. Edgar Burch, owner of C.C.'s Sweethouse located in the Eastern Market.

**Glenn Porzacek**: I am in support of the reopening of 6 Mile. I want to mention to the Council that one day on my way back home from a meeting, I was stopped by the infamous freight train that crosses Van Dyke near Davison. I realized when I was stuck there that there was no way out. You couldn't go east because 6 Mile is closed. You couldn't go west because that same train crosses 6 Mile and Mt. Elliott, and the only way out was south and that was an inconvenience to me; however, I would like to know what happens if

there is a fire emergency, police emergency, or if one of those trains happen to cause a chemical spill? What would occur in my old neighborhood to the people who live there now? I'd like the council to seriously consider that those of us who are concerned about that neighborhood are not concerned just because it has good memories, but because if the city is going to need to move forward, as we'd all like to do, safety is also an issue for the folks around Van Dyke and 6 Mile.

**Collins:** I would like you to have the clerk take this gentleman's name, address, and phone number and have someone from the Fire Department and Homeland Security give an answer to his questions and make sure the answer come to the City Council and also to the gentleman.

**K. Cockrel:** I will have my staff get the gentleman's information and we will forward it to the clerk.

**Kerwin Wimberley** (Mayor's Office): It is my recollection and I will confirm it with the department as soon as they respond back to me, but for the record, if we reopen 6 Mile, the Airport would probably have to close because of safety issues dealing with the runway we use. The Federal Aviation Association mandates certain rules and regulations with the Airport and that is why it was closed in 1987.

Member JoAnn Watson responded the Neighborhood and Community Services, as well as, the Public Health and Safety Committee both have supported the reopening of 6 Mile and had asked the Research & Analysis Division to set up a study, discussion, and draft legislation related to that. Member Tinsley-Talabi added that they also requested relevant department and agencies present what their actual plans are.

The following speakers also appeared today to respectfully request City Council to reopen E. 6 Mile between Van Dyke and Conner because of various concerns such as loss of businesses; increase in traffic, noise, pollution, and accidents in area of Van Dyke and E. 7 Mile: Mamie Estes, Chris Kempa (Friends of Fletcher Field), and Pat Bosch.

**Mrs. Person:** I'm here because of Brewer Recreation Center. I've been down here a number of times asking to re-open this recreation center because we asked the Pistons foundation to help us put in a walking track, barbeque pits, and basketball courts. The Chrysler Foundation helped us out and then you turned around and closed our recreation center. I think that is very unfair to the people of the eastside of Detroit because that is the only recreation cen-

ter in that area adjoining to Joy Jr. High School. I think it is unfair for you to misuse the people over there and give everybody else, Northwest Activity Center, \$18 million and can't give us a half million on the eastside of Detroit. Something is wrong with this whole situation.

**Martha Childs:** I'm representing the Morningside Neighborhood and we would like for you to open a recreation center in our area. We don't have anything in our area for our children or seniors to walk to. There are places in other people neighborhood, but we want one in our neighborhood for us. there is a building in Balduck Park and we think that should be open and we could use that for a recreation center.

**K. Cockrel:** I would like to have the issue of recreation centers, also the one Ms. Person raised that is closed off, I'd like to have those issues referred to the Committee on Neighborhoods and Community Services so that they can be examined more thoroughly.

**Tinsley-Talabi:** There was a state grant that was identified for Balduck Park, what is the status of that? I know there weren't enough votes, but can we still apply for that grant?

**S. Cockrel:** We approved the application, but did we get it?

**K. Cockrel:** We will ask for a report from the Recreation Department.

**Eric Dueweke:** I'm the vice president of the Morningside Community Organization. I want to also support the re-opening or the opening of a rec center in our eastside area. We have, as many of you know, building of new houses over there with Habitat for Humanity and U-Snap-Bac. We have some strong neighborhood associations in addition to ours. We have well over 30,000 residents in that far eastside area south of I-94. We used to have a pretty decent rec center (Canon Recreation), but it is now closed, so we have lots of young folks who really don't have a place to go. Reopening Canon might be a good idea.

**Watson:** Who could tell us how much would it cost to re-open Canon?

**Dueweke:** I don't see anybody here from the Rec Department, so maybe they could speak to that. This Balduck Park situation I don't think should be held hostage to whether or not the Master Plan is approved or not approved. Why don't you cut out those parts of it about selling the park, if that is the only issue.

**Watson:** That is what council members suggested.

**Dueweke:** And just take that Master Plan and get it approved so we can get some help from Lansing. I think there was a lot of good citizen input into that

Master Plan from what I saw of it and I encourage you all to put that thing in place.

**Watson:** If your first recommendation to re-open Canon?

**Dueweke:** Either one. Obviously that might be quicker in the short term than building something newer at Balduck, but either or both of those we need to do something for these young people.

**Watson:** We need to direct the Recreation and Budget Departments to give us some costs for re-opening Canon and also to give us some documentation relative to Balduck.

**Collins:** I would like to ask the Recreation Department to give us a report on what recreational centers are open at this time and to make sure they tell us whether they are either on the westside or eastside. Also, tell us what their plans are for the centers that are closed or open so that we can share what the Recreation Department gives us with the community. After we receive the report, I would like for it to be referred to the Neighborhood and Community Services Standing Committee so they can make some recommendations.

The following speakers also appeared today to respectfully request City Council to open a recreation center on the eastside of Detroit or either re-open a closed recreation center (Brewer Recreation Center) on the eastside:

Kelly Marks, Marcelus Brice, Elizabeth Cureton, John Williams, Kelly Zellner, Adella King, and Janyira Sims.

**Wyoman Mitchell** passed out pins supporting the national headquarters on Child Health.

**Valerie Burris** thanked Council for their hard work on the budget. She also informed Council of an insurance scam taking place in her neighborhood relative to sale of properties to some out-of-state buyers.

**Wesley Manning:** Two years ago I tried to buy a lot on my street (2609 Military) on 6/26/06. I was told I could not buy it because I did not live next to it, but in the meantime, some other gentleman had applied for it and bought it. It has no address around it. My ex-wife bought the house next to the lot last January a year ago. She went down on June 22nd and applied for the lot, put the application in and she went down yesterday to check on it, but learned it was already sold to the guy. The other guy said he was going to build a house, which to me, he is not going to build a house, and he is going to put a used car lot there. This is a residential neigh-

borhood and a lot of children are in the neighborhood. There will be a lot of parking taken up by this.

**Tinsley-Talabi:** I thought the policy was that owners were given first right and so I think we really need to look at what is happening here. I'm going to request a report from the Planning & Development Department to see how this occurred.

**K. Cockrel:** As an addendum to your suggestion, Member Tinsley-Talabi, that we also have the City Planning Commission look into this because it sounds like it may be a violation of the existing Zoning Ordinance.

**Shirley Graves** read a letter written by her daughter, Denise Graves, to the City Council relative to her removal from school for fighting even though she has received numerous awards. Council Member Collins recommended that Ms. Graves take her concern to the Detroit Public School Administration.

**Debra Martin:** I would like to address the council on the matter of property that I purchased April 2006 . . . actually not April, it was purchased . . . the letter I have here from the city is dated December 6, 2006. This property I was led to believe was four consecutive lots, but when I paid the balance of the money that was owed on the property which is \$23,000, these lots are on (Shoemaker and McClellan) and when I got out there to see exactly where the lots were, they were divided by a street. There is a school on the corner of Shoemaker and McClellan and right next to that school two of the lots exist and then here is a store and then two more lots, so they are not consecutive, so that was the first disappointment. The second thing was that once I paid the money that was owed, I got the deed and the deed said that if I don't develop that land within 12 months, that land would revert back to the city. These were two things that had I known up front, I would not have followed through with the purchase of that land. I really feel that I was misled and I would like to have a refund actually on that. I actually wanted to bring some community development and try to bring something for that community for four consecutive lots and it is not four consecutive lots.

**K. Cockrel:** Do you have anything in writing on this?

**Martin:** Yes, I do. I have the first paperwork they sent me out saying they received my \$2,300 deposit and then I have what I received after I paid the balance off and the deed.

**K. Cockrel:** If you can hang around for a

June 17

1527

2008

minute I will have one of my staff persons take that and make copies of it so we can do some further investigation.

**Collins:** I want to recommend that she goes to the Planning & Development Department and ask to rescind the sale. When they sell property for development, they do want it developed within 12 months.

**K. Cockrel:** Actually, I was just having my office make copies of her paperwork so it can be shared with council members, but actually I was going to suggest that it be referred to your committee since it involves property sales which falls under the jurisdiction of the committee you chair.

**Collins:** Okay, that is Wednesday here at 10:00.

**Martins:** Okay. \_\_\_\_\_

Honorable City Council:

Re: A Resolution to Amend the Detroit Master Plan of Policies for the easternmost section of Gabriel Richard Park to accommodate the renovation of the Brodhead Naval Armory into a new entertainment center.

Pursuant to the City of Detroit's City Charter (Section 8-102), the Planning and Development Department's (P&DD) Planning Division has submitted for your consideration and action a proposed Amendment to the Detroit Master Plan of Policies. Adoption by your Honorable Body of this resolution would accommodate changes in the Master Plan of Policies that would facilitate the renovation of the Brodhead Naval Armory at 7600 East Jefferson Avenue into an entertainment center.

**Location****South side of East Jefferson Avenue near East Grand Boulevard.**

The subject area is located in the East Sector, Indian Village Subsector of the Master Plan of Policies. The subject area is generally bounded by East Jefferson Avenue on the north, Baldwin Avenue (extended) on the east, the Detroit River on the south, and Gabriel Richard Park and Sheridan Avenue (extended) on the west.

**Existing Site Information****Future general land use:**

"MP", Major Park

**Existing land and/or building use:**

An underutilized military facility

**Existing zoning:**

R6 (High Density Residential)

**Size (acreage):**

Approximately 10 acres

**Surrounding Site Information****Future general land use:**

**North:** "SRC", Special Residential-Commercial

**East:** "RH", High Density Residential

**South:** Detroit River

**West:** "MP", Major Park

**Existing land and/or building use:**

**North:** Sheridan Place Apartments

**East:** Multi-story Apartments

**South:** Detroit River

**West:** Gabriel Richard Park

**Existing zoning:**

**North:** PD (Planned Development)

**East:** R6 (High Density Residential)

**South:** Detroit River

**West:** PR (Parks and Recreation)

**Project Proposal****Future general land use:**

"SRC", Special Residential-Commercial

**Proposed land and/or building use:**

The proposed project involves the renovation of the locally designated historic Brodhead Naval Armory building into an entertainment/sports training facility. The sports training facility will be owned and operated by the Hilmer Kenty Detroit Boxing Club and will train amateur fighters while also providing an executive boxing and fitness program. The entertainment venue will focus on families by featuring bowling lanes and an outdoor driving range.

**Proposed zoning (most likely):**

SD4 (Special Development, riverfront mixed-use).

**Interpretation****Impact on Surrounding Land Use**

The proposed Amendment will give recognition to a use that had long been established on this site. In addition to its use as a naval training facility, the armory had also been used to host dances, conventions, boxing matches, and other social events over the years. The reuse of a historic building such as the Brodhead Armory may also spur momentum for reinvestment along both side of E. Jefferson, which contains a number of vacant properties, especially on the north side of the street.

**Impact on Transportation**

The proposed rehabilitation project will likely put more auto traffic onto East Jefferson. With regards to parking, the developer plans to obtain space on the opposite side of E. Jefferson to accommodate the required number of spaces needed for off-street parking. DDOT bus routes include the E. Jefferson and Van Dyke-East Lafayette lines. A SMART route also services E. Jefferson.

**Recommended Master Plan Amendment**

The Planning and Development Department (P&DD) requests this proposed Amendment to the Master Plan of Policies to facilitate the rehabilitation of a historic building on a major arterial of Detroit. The restoration of the historic Brodhead Armory will restore the luster of a facility

June 17

2008

that has been underutilized and not properly maintained in recent years. The proposed Amendment will also give recognition to an entertainment/commercial use that has existed on the subject site for many years. Finally, although the size of Gabriel Richard Park will be technically reduced by the proposed rezoning to accommodate the rehabilitation project, no actual parkland will be lost and the park will remain physically intact.

The Planning Division of the Planning and Development Department therefore requests that the proposed future land use on the Generalized Proposed Land Use map in the Master Plan of Policies be changed for the subject area from "MP", Major Park to "SRC", Special Residential-Commercial.

Respectfully submitted,  
DOUGLASS J. DIGGS  
Director

Re: Formal Request of the Planning and Development Department (P&DD), for the authorization to encumber \$900,000 in General Obligation Bond to support the Lenox Water Front Estates Infrastructure Improvements.

On November 16, 2006, your Honorable Body approved the reprogramming of \$900,000 of the original \$2.5 million contract CPO #26713359 to support infrastructure improvements for the Morgan Waterfront Estates Residential project (formerly known as Laro Coal site) CPO #27330584.

Since that time, Morgan Development, LLC has completed approximately 65% of the infrastructure improvement work for the Lenox site as required under Contract CPO #26713359 and has now requested the replacement of the \$900,000 to complete its site improvements for the project.

The Planning and Development Department (P&DD) has reviewed Morgan Development, LLC's request and finds it to be consistent with the Contract CPO #26713359 as approved by your Honorable Body.

We, therefore, request that your Honorable Body adopt the attached resolution, with a Waiver of Reconsideration and authorize P&DD to encumber \$900,000 of General obligation fund appropriation #(00944) to be reinstated in CPO# 26713359 currently in place for the Lenox Water Front Residential Project area and obligate this \$900,000 in order to supplement the original budget set forth to provide public infrastructure improvements.

Re: Petition No. 2429 — Music Hall Center for the Performing Arts, request permit for outdoor seating in storm lobby of the Jazz Café at the Music Hall, until November 30, 2008.

The above named petitioner has requested permission for an Outdoor Café Service. This service will convene April 1, 2008 through November 30, 2008.

The Department of Public Works/City Engineering Division (DPW/CED) who has jurisdiction over temporary encroachment on City right-of-ways has approved this petition provided that the owner/petitioner remit the annual use-permit fee (at a cost of \$457.00) to City Engineering Permit Section. The approval is contingent upon following the "Outdoor Café Guidelines" as supported by the City Council and guided by Chapter 58, Section 50-2-8.1 of the City Code.

The Department of Health and Wellness Promotion has approved this petition, subject to petitioners strict adherence to the 1999 Food Code, Food Law of 2000 and the City Ordinance, Chapter 21.

The Central District Precinct of the Police Department has approved this petition provided that the petitioner apply for a temporary license to serve controlled substances within the designated outdoor café area.

The Planning and Development Department (P&DD) is not aware of any objections from any other city agencies involved. It is the recommendation of the P&DD that the petitioner's request be granted subject to the terms and conditions provided in the attached Resolution.

April 16, 2008

Honorable City Council:

Re: Request to accept the grant from the Department of Health and Wellness Promotion for the year of 2008

The Department of Health and Wellness Promotion awarded the Detroit Police Department's Office of Public Information **\$2,500.00 with no cash match**, to purchase wearables/accessories and any other printed promotional

materials for the Detroit Police Department's city-wide anti-gun violence campaign named **2mg = Too (2) many guns**. The appropriation number is 12677. These items will aid in the public awareness campaign which is design to appeal to the young people in our community by providing them an opportunity to openly display their support for anti-gun violence. The grant funding will allow this program to constructively utilize pop-culture imagery to combat the negative stereotypes and destructive depictions of human behavior that are increasingly being viewed as acceptable by young people.

The Department of Health and Wellness Promotion allocated grant funds from its Detroit Community Gun Violence Prevention Partnership. If approval is granted to accept this funding, 2nd Deputy Chief James E. Tate, Commanding Officer of the Office of Public Information, would serve as the project director.

The Board of Police Commissioners has approved this request. I am requesting approval from your Honorable Body to accept the grant from the Department of Health and Wellness Promotion.

If you have any questions or concerns regarding this matter, please feel free to contact me at 596-1800, Monday through Friday, 9:00 a.m. to 5:00 p.m.

**MEMBER REPORTS**

**CONYERS:** I have something I'd like to talk about a construction jobs prep course which is free for the residents of the City of Detroit where they teach them carpentry skills, plumbing, electrical, and masonry skills and they teach them how to build houses and install solar energy panels. They need to call this number: (313) 467-4066. It is going to be on June 23rd from 10-12 a.m.

**CONYERS:** I have a list of homes on Prairie Street that need to be torn down and one on Martindale. I will give those to the clerk.

**WATSON:** I have distributed to my colleagues recommended next steps on GDRRA that we should consider, in my view, because the chair of the Environmental Justice Task Force including challenging the legal status of GDRRA as an authority because I found out in research that when it was first set out, Highland Park was a part of the authority. Highland Park is no longer a supporting municipality, so I believe that, in fact, an attorney has advised me that after the debt is paid on July 1, 2009, GDRRA could possibly be dissolved by the same kind of ordinance that created GDRRA almost 20 years ago, after July 1, 2009. In addition to legal documents determining the lease agreements and all the city-owned land used by the incinerator and issues related to conflicts of interest relative to the those persons who are representing purportedly the city and who are also representing GDRRA which has overcharged the city for trash over the last 19 years.

**WATSON:** I am distributing a 10-point urban agenda I'd like us to consider when we have our retreat.

**TINSLEY-TALABI:** I did bring to the table, in fact I am working with some persons as it relates to when a home is renovated, looking at the city relieving that homeowner of two years taxes. I'm looking at that and working with some Realtors and others.

**TINSLEY-TALABI:** There will be HIV aids testing across the city next Friday and Saturday.

**JONES:** A couple of weeks ago, the matter of CPC reappointments and term limits came up and the Internal Operations Standing Committee asked the council members to get nominations for CPC and to date we have not received any nominations.

**Finance Department**

March 7, 2008

Honorable City Council:

Re: Reprogram of General Obligation Bond Funds.

The Finance Department is requesting approval to transfer capital bond funds. These funds will be used to pay for professional services to aid in the review of transactions of the General Obligation Bond Program for arbitrage rebate issues.

Tax-exempt bonds bear interest at a lower rate than comparable taxable securities. This enables local government units to issue tax-exempt bonds, and invest the bond proceeds in higher yielding taxable securities. The spread between the interest payments on the bonds and the interest earnings on the investments is called "arbitrage" and must be rebated to the Federal Government. Arbitrage calculations must be done on an ongoing basis, in compliance with the arbitrage rebate rules.

Bond funds originally appropriated in FY 2004 for the Department of Public Works Intelligent Traffic System are no longer required, as this project is eligible for State of Michigan reimbursement. We request to transfer \$500,000 from this existing DPW bond balances on Non-departmental to pay for this necessary service.

Honorable City Council:

Re: Proposed Ordinance to Amend Section 18-5-5 Concerning the Contracts that Require Approval of the City Council.

Attached is a substitute ordinance to lower the threshold for contracts that require approval of the City Council from \$25,000 to \$5,000. The ordinance, as proposed, does not include the language of the ordinance adopted on May 13, 2008 that requires City Council approval for all legal service contracts.

The attached ordinance also includes language to clarify that this ordinance would not affect contracts entered before the effective date of the ordinance; and to clarify this ordinance will not prevent the City from entering into emergency procurements with notification and approval by the City Council within a specified time period.

The Research and Analysis Division recommends that the City Council introduce the substitute ordinance and set a new date for the public hearing.

Respectfully submitted,

DAVID D. WHITAKER

Director

**RESOLUTION TO KEEP ST. JOHN  
CONNER CREEK VILLAGE  
EMERGENCY HOSPITAL OPEN**

By COUNCIL MEMBER WATSON,  
Joined By COUNCIL MEMBERS  
JONES, and CONYERS:

WHEREAS, St. John Conner Creek Village emergency hospital, like other emergency hospitals serves the uninsured as well as the insured community members, and it should not be punished for this; and

WHEREAS, St. John Health System states as its mission statement their dedication to providing care to the poor and the vulnerable; their values which extend to having "respect" and "compassion" for the dignity and diversity of life and, their commitment in advocating for those who have no voice.

WHEREAS, The most of the emergency centers are located in the downtown area, and St. John Conner Creek provides emergency care to the east side Detroit, to approximately 20,000 patients a year.

WHEREAS, The community to which the emergency center serves was not informed about the risk to which their hospital faces of being closed down, and the possible change from an emergency care provider to an "urgent care" provider was not fairly discussed. The change in name clearly implies a loss of some services or else, there would be no change.

WHEREAS, In 2003 the St. John Health System made a promise to the community to leave the Emergency Center open, upon the closing of St. John Northeast Community hospital, which was renamed Conner Creek Village Emergency Hospital.

WHEREAS, St. John Health System, is in the process of opening a new Emergency center in Macomb County on 23rd Mile and Romeo Plank Rd. sometime this summer, an area although, which may be populated with insurance-equipped patients, would not be complying with the oath, promise, and mission statement which focused on aiding the poor.

WHEREAS, An Urgent Care center is not what the community needs, but instead more appropriately an Emergency center. An Urgent Care center is only opened for a limited amount of time during the day, and as stated on the St. John Health Systems web page the urgent care system deals with conditions that can be appropriately treated in the home. It provides healthcare to minor health conditions, which is contrary to the more extensive healthcare that can be provided in the Emergency room.

WHEREAS, We are all members of the Detroit community and a Michigan Community that reported that 41% of its 40,000 licensed physicians plan to retire

from their practice of medicine within the next ten years, and thus cannot afford to close down the hospitals that we do have running. THEREFORE, BE IT

RESOLVED, That the Detroit City Council strongly opposes and calls for an investigation into the St. John Health Systems Board of Trustees decision to close down, or change the emergency care center to an "urgent care center".

BARBARA BROOKS: Ms. Brooks stated her son was issued three tickets for riding a bicycle. He was issued them for the following reasons: not having a bicycle license; disruption of traffic and for just being a bicyclist. The tickets totaled \$345.00.

Council Member Watson referred her to the Police Commission and the Public Health and Safety Standing Committee.

LEO ELLIS: Mr. Ellis stated he was wrongfully arrested in Arizona; because of that incident today he can't find work. he passes the interviews, but when a background check is done, he's told no further interviews or he would not be hired due to his arrest.

He would like some help because this has been going on for over a year; he also spoke to the media.

Council President Kenneth Cockrel, Jr. volunteered to work with him.

LEONTYNE PERSON (Bewick Block Club): Ms. Person complained the Brewster Recreation Center was closed in the Bewick Block Club area. The senior citizens need the center to keep busy with the activities offered at the recreation center. She wants the recreation centers (especially the Eastside) reopened which have been closed in the City of Detroit.

Council President Kenneth Cockrel, Jr. reminded Ms. Person she had previously spoken about this matter a few weeks ago. The matter has been referred to the Neighborhood and Community Service Standing Committee.

JONATHAN ELIE: He participated in the "Safe Surrender Project". He realized he had one warrant for his arrest. His neighbor, who has a relationship with someone in the Police Department, found out he had two warrants for his arrest. He felt it inappropriate that his neighbor could find out this personal information.

Mr. Elie also found out an outside contractor was doing City work for maintenance and repair at the Water Department. Outside contractors or Imperial Construction is hired to do the repair. He felt the Privatization Ordinance is being violated. He fears retaliation from management.

Council President Kenneth Cockrel, Jr. , advised Mr. Elie all information given will be referred to the Public Health and Safety Standing Committee, who has jurisdiction over the Water and Sewerage Department.

Honorable City Council:

Re: New Center Pavilion. Payment in Lieu of Taxes (PILOT).

New Center Pavilion Apartments is an

existing nine-story apartment building (76 units total — 40 one-bedroom and 36 two-bedroom), which is currently paying a 10% pilot service charge. Amin A. Irving, President of Ginosko Development Company on behalf of New Center Pavilion Limited Dividend Housing Association, Limited Partnership is requesting a new pilot resolution for this entity. The Partnership has been awarded Low Income Tax Credit for an annual amount of up to \$347,621. Other financing includes a loan in the amount of \$1,914,000 from Capital Fund Investment Corporation for 30 years at 7.07%, a HUD Financed Interest Reduction Payment Loan in the amount of \$409,084 through Capital Fund Services for 5.25 years at 7.40%; \$340,000 from Great Lakes Capital Fund Nonprofit Housing Corp. for 18 years at 5.15%.

The renovations to development will consist of: the conversion of the ninth floor space to add a community room, converting space on the first floor to add an office and waiting room. Replacement of cabinets, counters and doors, drywall and ceramic tile repair. The plumbing and electrical hardware & accessories will be replaced. All units will be painted; the carpet and vinyl floor will also be replaced.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1996, (P.A. 346, as amended, MCLA125.1415A).

The units will be rented to households whose income does not exceed 40% of the area median income adjusted for family size. Four of the two-bedroom units will be reserved for households with children.

Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of 10% of the net shelter rent.

Re: Surplus Property Sale — 2241 Puritan.

The City of Detroit acquired as tax reverted property from the State of Michigan, located on the South side of Puritan, between Log Cabin and Inverness, a/k/a 2241 Puritan. This property consists of a One-Story Commercial structure located on an area of land measuring approximately 2,000 square feet and zoned B-4 (General Business District).

The purchaser proposes to rehabilitate the property for use as a "General Merchandise/Retail Store". This store would provide goods and services to the neighborhood and surrounding community. The inventory will consist of pop, candy, potato chips, milk and other sundries. It will not include the sale of alcohol. This use is permitted as a matter of right in a B-4 zone.

**Department of Public Works  
City Engineering Division**

May 16, 2008

Honorable City Council:

Re: Petition No. 1567 — Groundwater and Environmental Services Inc. (GES/Shell Oil) requesting for installation of eight (8) monitoring wells in Archdale Avenue, Southfield Northbound Service Drive, and the public alley in the area North of West Warren and between Southfield Service Drive and Archdale.

Petition No. 1567 of "Groundwater and Environmental Services Inc. (GES/Shell Oil)" whose address is 10381 Citation Drive, Suite 500, Brighton, Michigan 48116 request permission to install and maintain eight (8) monitoring wells within Southfield Northbound Service Drive, Archdale Avenue, 50 feet wide, and the East-West public alley, 20 feet wide, all in the area North of West Warren Avenue, 106 feet wide, and between Southfield Service Drive and Archdale Avenue, 50 feet wide. The purpose of the bored wells is to monitor the existence or extent of soil contamination from leaking underground fuel storage tanks (a/k/a "L.U.S.T.").

The encroachment petition was referred to the City Engineering Division — DPW for investigation and report. This is our report:

The Department of Environmental Affairs (DEA) is responsible for developing and implementing a coordinated and comprehensive environmental policy for the City of Detroit, including soil remediation from leaking underground fuel storage tanks. To ensure public safety DEA will review the petitioner's environmental activities prior to the issuance of city permits. A Right-of-Entry is required by DEA prior to contractor field activity.

Soil borings and monitoring well installations are equivalent to an "open cut" in a public street or alley. Necessary permits will have to be obtained for any street or alley opening, backfill, surface restoration, barricade, or occupancy of the city rights-of-way to install monitoring wells. The City Engineering Division — DPW will require the permit applicant to secure approval of project plans from the Department of Environmental Affairs.

It is the responsibility of "Groundwater and Environmental Services Inc. (GES)/Shell Oil" to give reasonable and proper notice to any abutting property owner(s) before commencing any open cut or boring operations within public rights-of-way.

The enforcement of fire safety regulations and building codes is the responsibility of the Fire Marshal and Buildings and Safety Engineering Department. Generally, the Fire Marshal and Buildings and Safety Engineering Department report no objections to the placement and

maintenance of permanent L.U.S.T. monitoring well encroachments within public rights-of-way.

DTE Energy — Gas Division (DTE) reports involvement, but no objections provided that the proposed encroachments must be at least a minimum of 3 feet away from our existing gas facilities, also must be free from any obstruction(s) for DTE's equipment to do any repairs and/or relocation of DTE's existing gas facilities in the near future.

The Water and Sewerage Department (DWSD) reports involvement, but no objections provided the proposed encroachments for monitoring well installation provide a minimum clearance. The petitioner must follow DWSD provisions.

The Public Lighting Department (PLD) reports involvement, but no objections provided that the contractor call MISS DIG 72 hours prior to starting any underground construction where they plan the underground encroachment. No structure can be built over PLD installations. As per PLD requirements, any structure proposed to build shall maintain a minimum of 4 feet 6-inch horizontal clearance and 12-inch vertical clearance from the PLD overhead lines and installations. The contractor will be liable for any damages any PLD underground facilities.

All other involved City departments and privately owned utility companies request the petitioner(s) make use of "MISS DIG" facilities before any soil borings or permanent monitoring wells are installed in public (street or alley) rights-of-way.

Finally, the City Engineering Division — DPW requires "Groundwater and Environmental Services Inc. (GES)/Shell Oil" to submit certified "as-built" drawings, a map and survey, showing the exact location of the petitioner's complete permanent L.U.S.T. monitoring well installations within public rights-of-way.

In accord with Detroit Code (Sec. 50-1-9), there is an appropriate resolution, granting the encroachment petition, attached for consideration by your Honorable Body.

Respectfully submitted,

JESSY JACOB

Interim City Engineer

City Engineering Division — DPW  
By Council Member Tinsley-Talabi:

Whereas, The Department of Environmental Affairs (DEA) is responsible for developing and implementing a coordinated and comprehensive environmental policy for the City of Detroit, including soil remediation from leaking underground fuel storage tanks. To ensure public safety DEA will review the petitioner's environmental activities prior to the issuance of city permits; also

Whereas, The State of Michigan requires that all underground storage

tanks be registered and inspected for leaks. Also, the "State" has mandated the replacement of leaking tanks including removal (and proper disposal) of contaminated soil; also

Whereas, Any L.U.S.T. can contaminate soil and diminish the value of surrounding properties, including public rights-of-way. The taxpayers of Detroit invested substantial capital in the acquisition, site preparation, insurance, and maintenance of public rights-of-way. Finally, it is in the interests of public health, safety, and welfare to detect the presence of hazardous materials and/or soil contamination from L.U.S.T.(s); therefore be it

Resolved, The City Engineering Division — DPW is hereby authorized and directed to issue permits to "Groundwater and Environmental Services Inc. (GES/Shell Oil" at the site of 17720 West Warren Avenue, Detroit, Michigan to install and maintain eight (8) monitoring wells encroaching within public rights-of-way for the purpose of detecting the presence of hazardous materials and/or soil contamination from any leaking underground storage tanks (L.U.S.T.); said public rights-of-way being nearby or adjoining property described as follows:

Land in the City of Detroit, Wayne County, Michigan being adjacent to and adjoining Lot 11 and 14 through 23, both inclusive, and Lot 35 all in the "Easthaven Subdivision" of a part of the S.W. 1/4 of S.W. 1/4 of Section 1, T.2S., R.10E. as recorded in Liber 47 Page 1, Plats, Wayne County Records;

1 — Monitoring well in the East side of the Southfield Northbound Service Drive between the East-West public alley, 20 feet wide, and West Warren Avenue, 106 feet wide.

3 — Monitoring wells in the East-West public alley, 20 feet wide, between the Southfield Northbound Service Drive and Archdale Avenue, 50 feet wide.

2 — Monitoring wells in the East side of Archdale Avenue, 50 feet wide, between the East-West public alley, 20 feet wide, and West Warren Avenue, 106 feet wide.

2 — Monitoring wells in the West side of Archdale Avenue, 50 feet wide, between the East-West public alley, 20 feet wide, and West Warren Avenue, 106 feet wide.

Provided, That nothing in this resolution shall be construed as giving any authority, permission or grant to the permittee for any part of the encroaching L.U.S.T. monitoring wells to be placed upon the surface or underground rights of privately owned property. Enforcement of violations of fire safety regulations and building codes is the responsibility of the Fire Marshal and the Buildings and Safety Engineering Department. Department for approval and permits to place any monitoring wells on privately owned property (if necessary); and further

Provided, It is the intention of this resolution to authorize the City Engineering Division — DPW (prior to the issuance of “encroachment” permits) to require the permit applicant to perform any reasonable task to protect public property interests including, but not limited to, the submission of engineering plans (containing construction details and distances from property lines) of the proposed encroaching L.U.S.T. monitoring wells. The City Engineering Division — DPW shall require the permit applicant to secure approval(s) of said plans from the Department of Environmental Affairs. Also, the City Engineering Division — DPW may require the permit applicant to secure approval(s) of said plans from Wayne County, the State of Michigan, other city departments (including commissions, authorities, corporations, councils, boards, contractors, and agencies whenever applicable) and/or utility companies; whether Wayne County, the State of Michigan, other city departments and/or utility companies are specifically enumerated in this resolution or not; and further

Provided, Said L.U.S.T. monitoring well encroachments shall be maintained under the rules and regulations of the City Engineering Division — DPW, the department of Buildings and Safety Engineering, and the Fire Marshal in accord with Detroit Code Section 50-1-9 and 10; and further

Provided, Whenever it becomes necessary to open-cut, drill, bore, jack, occupy or barricade public rights-of-way for additional test holes or maintenance of the monitoring well installation(s), such work shall be according to detailed permit application drawings (to be submitted by the petitioner or their assigns, subject to city department review and stamp approvals) prior to any public right-of-way construction (including, if necessary, adjustments or removals); and further

Provided, It is the responsibility of “Groundwater and Environmental Services Inc. (GES)/Shell Oil” to give reasonable and proper notice to any abutting property owner before commencing any (permitted) open cut or boring operations within public rights-of-way; and further

Provided, Said encroaching L.U.S.T. monitoring well installations shall be according to the specifications of the Public Lighting Department (PLD). Monitoring wells drilling equipment shall use “care and caution” to clear PLD overhead power lines; PLD requires a minimum of 4 feet 6-inch horizontal clearance and 12 inch vertical clearance from the PLD conduit bank and manholes. The fixed encroachments shall not hinder

movement of PLD maintenance equipment; and further

Provided, Said encroaching L.U.S.T. monitoring well installations shall be according to the specifications of the Water and Sewerage Department (DWSD). DWSD requires free and easy access to water main and/or sewer facilities at all times to permit proper operation, maintenance, alteration or repair of DWSD sewers, drains, water mains, fire hydrants, catch basins, sewer and water manholes (and any other DWSD facilities). The proposed permanent monitoring wells are not allowed to be built over DWSD facilities or hinder movement of DWSD maintenance equipment; and further

Provided, All costs for the construction, maintenance, permits and use of the encroaching L.U.S.T. monitoring wells shall be borne by the petitioner. Should damages to utilities occur the petitioner shall be liable for all incidental repair costs and waives all claims for damages to the encroaching installations; and further

Provided, If it becomes necessary to repair or replace the utilities located or to be located in the public rights-of-way, by the acceptance of this permission, the petitioner(s) for themselves, their heirs or assigns, waive claims for any damages to the encroaching installations and agree to pay the costs incurred in the removal, if their removal becomes necessary, and to restore the property affected to a condition satisfactory to the City Engineering Division — DPW at the petitioner’s expense; and further

Provided, That the encroaching L.U.S.T. monitoring wells shall be installed and maintained with a secure frame and cover, so as to fit flush within the public sidewalk, berm, or pavement grade. All public rights-of-way shall be maintained safe and convenient for public travel. The petitioner shall be liable for all claims, demands, costs, damages, expenses, and causes of action of every kind and character arising in favor of any person, or other legal entity on account of personal injuries or death or damage to property caused by or claimed or alleged to have arisen out of failure to properly install and maintain any encroaching L.U.S.T. monitoring well. The installation and maintenance of said encroachments shall comply with the rules and regulations of the City Engineering Division — DPW and Traffic Engineering Division — DPW; and further

Provided, That the petitioner shall file with the Finance Department and/or City Engineering an indemnity agreement approved by the Law Department, saving and protecting the City of Detroit from any and all claims that may arise there from. Also, the petitioner shall be required by

the Law Department in conjunction with the Finance Department — Risk Management Division to present proof of financial capability (bonds or insurance) to pay any claims, damages or expenses that may arise as a result of L.U.S.T. monitoring well(s) placement, installation or maintenance in public rights-of-way; and further

Provided, That said permittee shall be subject to any tax under the provision of the General Property Tax Act which may be levied against it pursuant to law; and further

Provided, That no rights in the public streets, alleys or other public places shall be considered waived by this permission which is granted expressly on the condition that said encroachments shall be removed at the expense of the permittee at any time when so directed by the City Council, and the public property affected shall be restored to a condition satisfactory to City Engineering Division — DPW at the permittee's sole cost and expense; and further

Provided, That said permits issued by the City Engineering Division — DPW and/or the Buildings and Safety Engineering Department are granted with the distinct understanding that in the event the City Charter, or Detroit Code(s), or ordinance(s), or resolution(s), or City policies (governing the placement of encroachments in public rights-of-way) are amended to provide for the levying thereafter, of a fee, charge or rental, to be hereafter determined upon, for the occupancy of public streets, alleys or other public places, that the permittee will pay said fee, charge or rental provided for in said Charter, or code(s), or ordinance(s), or resolution(s), or policies; also said permittee does hereby bind itself thereunto, and accept said permits on the conditions hereby imposed, and in the event said permittee shall contest the validity of said Charter, or code(s), or ordinance(s), or resolution(s), or policies of said fee, charge or rental, or upon refusal to pay same, issued permits shall immediately become void; and further

Provided, That the grade shall be main-

tained in original condition after installation of the wells with flush covers for the holes; and further

Provided, This resolution is revocable at the will, whim or caprice of the City Council, and permittee hereby waives any right to claim damages or compensation for removal of encroachment(s), and further, that the permittee acquires no implied or other privileges hereunder not expressly stated herein; and further

Provided, That the petitioner shall apply to and become a participating member of the "Miss Dig" to comply with Michigan Public Act 53 of 1974, "Protection of Underground Facilities (460.701-460.718)"; and further

Provided, The filing of the indemnity agreement and the securing of the necessary permit(s) referred to herein shall be construed as acceptance of this resolution by the permittee; and further

Provided, That the encroachment permit shall not be assigned or transferred without the written approval of the City Council; and further

Provided, That the City Clerk shall within 30 days record a certified copy of this resolution with the Wayne County Register of Deeds; and be it further

Resolved, The petitioner, "Groundwater and Environmental Services Inc. (GES)/ Shell Oil", shall submit "as built" drawing(s) sealed by a professional engineer or surveyor registered in the State of Michigan to the City Engineering Division — DPW within 30 days after obtaining the necessary "encroachment" permit to install eight (8) proposed monitoring wells. Said "as built" drawing(s) shall furnish a complete means of identifying and ascertaining the precise position of every part of the "encroachment(s)" with courses, distances, and depth throughout (containing City of Detroit datum), so that it may be determined with certainty where any portion of the "encroachment(s)" has been built. Copies of the certified "as built" map(s) and survey(s) shall be an "appendix" to this City Council resolution. Said "appendix" shall be recorded by the City Engineering Division — DPW in the Wayne County Register of Deeds.

Honorable City Council:  
 Re: Petition No. 1670 — Groundwater and Environmental Services, Inc. (GES/Shell Oil) request for installation of thirteen (13) monitoring wells at 11643 Hamilton, and in the public alley in the area of Hamilton and Webb.  
 Petition No. 1670 of "Groundwater and Environmental Services, Inc. (GES/Shell

Oil)" whose address is 10381 Citation Drive, Suite 500, Brighton, Michigan 48116 request permission to install and maintain thirteen (13) monitoring wells within Hamilton Avenue, 60 feet wide, Webb Avenue, 72 feet wide, and the open public alley, 20 feet wide all in the area west of Hamilton Avenue, 60 feet wide, and between Webb Avenue, 72 feet wide, and Burlingame 60 feet wide. The purpose of the bored wells is to monitor the existence or extent of soil contamination from leaking underground fuel storage tanks (a/k/a "L.U.S.T.").  
 The encroachment petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.  
 The Department of Environmental Affairs (DEA) is responsible for develop-

ing and implementing a coordinated and comprehensive environmental policy for the City of Detroit, including soil remediation from leaking underground fuel storage tanks. To ensure public safety DEA will review the petitioner's environmental activities prior to the issuance of city permits. A Right-of-Entry is required by DEA prior to contractor field activity.

Soil borings and monitoring well installations are equivalent to an "open cut" in a public street or alley. Necessary permits have to be obtained for any street or alley opening, backfill, surface restoration, barricade, or occupancy of city rights-of-way to install monitoring wells. The City Engineering Division — DPW will require the permit applicant to secure approval of project plans from the Department of Environmental Affairs.

It is the responsibility of "Groundwater and Environmental Services, Inc. (GES/Shell Oil)" to give reasonable and proper notice to any abutting property owner(s) before commencing any open cut or boring operations within public rights-of-way.

The enforcement of fire safety regulations and building codes is the responsibility of the Fire Marshal and Buildings and Safety Engineering Department. Generally, the Fire Marshal and Buildings and Safety Engineering Department report no objections to the placement and maintenance of permanent L.U.S.T. monitoring well encroachments within public rights-of-way.

DTE Energy — Gas Division (DTE) reports involvement, but no objections provided that the proposed encroachments must be at least a minimum of 3 feet away from our existing gas facilities, also must be free from any obstruction(s) for DTE's equipment to do any repairs and/or relocation of DTE's existing gas facilities in the near future.

The Water and Sewerage Department (DWSD) reports involvement, but no objections provided the proposed encroachments for monitoring well installation provide a minimum clearance. The petitioner must follow DWSD provisions.

The Public Lighting Department (PLD) reports involvement, but no objections provided that the petitioner and/or contractor must call MISS DIG 72 hours prior to starting any underground construction where they plan the underground encroachment. No structure can be built over PLD installations. As per PLD requirements, any structure proposed to be built shall maintain a minimum of three feet horizontal clearance and 12-inch vertical clearance from the PLD conduit bank and manholes. The contractor will be liable for any damages to any PLD underground facilities.

All other involved City departments and privately owned utility companies request

the petitioner(s) make use of "Miss Dig" facilities before any soil borings or permanent monitoring wells are installed in the public (street or alley) rights-of-way.

Finally, the City Engineering Division — DPW requires "Groundwater and Environmental Services, Inc. (GES/Shell Oil)" to submit certified "as built" drawings, a map and survey, showing the exact location of the petitioner's completed permanent L.U.S.T. monitoring well installations within public rights-of-way.

In accord with Detroit Code (Sec. 50-1-9), there is an appropriate resolution, granting the encroachment petition, attached for consideration by your Honorable Body.

Honorable City Council:  
 Re: Petition No. 1674 — Groundwater and Environmental Services, Inc. (GES/Shell Oil) request for installation of ten (10) monitoring wells at 2600 East Jefferson Avenue at Chene Street.  
 Petition No. 1674 — "Groundwater and

Environmental Services, Inc. (GES/Shell Oil)" whose address is 10381 Citation Drive, Suite 500, Brighton, Michigan 48116 request permission to install and maintain ten (10) monitoring wells in the area of East Jefferson Avenue, 120 feet wide, and Chene Street 120 feet wide. The purpose of the bored wells is to monitor the existence or extent of soil contamination from leaking underground fuel storage tanks (a/k/a "L.U.S.T.").

The encroachment petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.

The Department of Environmental Affairs (DEA) is responsible for developing and implementing a coordinated and

Provided, That nothing in this resolution shall be construed as giving any authority, permission or grant to the permittee for any part of the encroaching L.U.S.T. monitoring wells to be placed upon the surface or underground rights of privately owned property. Enforcement of violations of fire safety regulations and building codes is the responsibility of the Fire Marshal and the Buildings and Safety Engineering Department. The petitioner shall apply to the Buildings and Safety Department for approval and permits to place any monitoring wells on privately owned property (if necessary); and further

Provided, It is the intention of this resolution to authorize the City Engineering Division — DPW (prior to the issuance of "encroachment" permits) to require the permit applicant to perform any reasonable task to protect public property interests including, but not limited to, the submission of engineering plans (containing construction details and distances from property lines) of the proposed encroaching L.U.S.T. monitoring wells. The City Engineering Division — DPW shall require the permit applicant to secure approval(s) of said plans from the Department of Environmental Affairs. Also, the City Engineering Division — DPW may require the permit applicant to secure approval(s) of said plans from Wayne County, the State of Michigan, any city departments (including commissions, authorities, corporations, councils, boards, contractors, and agencies whenever applicable) and/or utility companies; whether Wayne County, the State of Michigan, other city departments and/or utility companies are specifically enumerated in this resolution or not; and further

Provided, Said L.U.S.T. monitoring well

encroachments shall be maintained under the rules and regulations of the City Engineering Division — DPW, the Department of Buildings and Safety Engineering, and the Fire Marshal in accord with Detroit Code Section 50-1-9 and 10; and further

Provided, Whenever it becomes necessary to open-cut, drill, bore, jack, occupy or barricade public rights-of-way for additional test holes or maintenance of the monitoring well installation(s), such work shall be according to detailed permit application drawings (to be submitted by the petitioner or their assigns, subject to city department review and stamp approvals) prior to any public right-of-way construction (including, if necessary, adjustments or removals); and further

Provided, Said encroaching L.U.S.T. monitoring well installations shall be according to the specifications of the Public Lighting Department (PLD). Monitoring wells drilling equipment shall use "care and caution" to clear PLD overhead power lines; PLD requires a minimum of 3 feet horizontal clearance and 12 inch vertical clearance from the PLD conduit bank and manholes. The fixed encroachments shall not hinder movement of PLD maintenance equipment; and further

The installation and maintenance of said encroachments shall comply with the rules and regulations of the City Engineering Division — DPW and Traffic Engineering Division — DPW; and further

Provided, The petitioner shall file with the Finance Department and/or City Engineering an indemnity agreement approved by the Law Department, saving and protecting the City of Detroit from any and all claims that may arise there from. Also, the petitioner shall be required by the Law Department in conjunction with the Finance Department — Risk Management Division to present proof of financial capability (bonds or insurance) to pay any claims, damages or expenses that may arise as a result of L.U.S.T. monitoring well(s) placement, installation or maintenance in public rights-of-way; and further

Provided, That said permittee shall be subject to any tax under the provisions of the General Property Tax Act which may be levied against it pursuant to law; and further

Provided, That no rights in the public streets, alleys or other public places shall be considered waived by this permission which is granted expressly on the condition that said encroachments shall be removed at the expense of the permittee at any time when so directed by the City Council, and the public property affected shall be restored to a condition satisfactory to City Engineering Division — DPW at the permittee's sole cost and expense; and further

Provided, That said permits issued by the City Engineering Division — DPW and/or the Buildings and Safety Engineering Department are granted with the distinct understanding that in the event the City Charter, or Detroit Code(s), or ordinance(s), or resolution(s), or City policies (governing the placement of encroachments in public rights-of-way) are amended to provide for levying thereafter, of a fee, charge or rental, to be here-

after determined upon, for the occupancy of public streets, alleys or other public places, that the permittee will pay said fee, charge or rental provided for in said Charter, or code(s), or ordinance(s), or resolution(s), or policies; also said permittee does hereby bind itself thereunto, and to accept said permits on the conditions hereby imposed, and in the event said permittee shall contest the validity of said Charter, or code(s), or ordinance(s), or resolution(s), or policies of said fee, charge or rental, or upon refusal to pay same, issued permits shall immediately become void; and further

Resolved, The petitioner, "Groundwater and Environmental Services, Inc. (GES/Shell Oil)", shall submit "as built" drawing(s) sealed by a professional engineer or surveyor registered in the State of Michigan to the City Engineering Division — DPW within 30 days after obtaining the necessary "encroachment" permit to install ten (10) proposed monitoring wells. Said "as built" drawing(s) shall furnish a complete means of identifying and ascertaining the precise position of every part of the "encroachment(s)" with courses, distances, and depth throughout (containing City of Detroit datum), so that it may be determined with certainty where any portion of the "encroachment(s)" has been built. Copies of the certified "as built" map(s) and survey(s) shall be an "appendix" to this City Council resolution. Honorable City Council:  
 Re: Petition No. 1675 — Groundwater and Environmental Services, Inc. (GES/Shell Oil) request for installation of twelve (12) monitoring wells in public alley, at 1849 East Seven Mile Road at Dequindre Avenue.  
 Petition No. 1675 of "Groundwater and

Environmental Services, Inc. (GES/Shell Oil)" whose address is 10381 Citation Drive, Suite 500, Brighton, Michigan 48116 request permission to install and maintain twelve (12) monitoring wells within East Seven Mile Road, 66 feet wide, Dequindre Avenue, 66 feet wide, North-South public alley, 20 feet wide, and the East-West public alley at 1849 East Seven Mile Road. The purpose of the bored wells is to monitor the existence or extent of soil contamination from leaking underground fuel storage tanks (a/k/a "L.U.S.T").

The encroachment petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.

The Department of Environmental

Affairs (DEA) is responsible for developing and implementing a coordinated and comprehensive environmental policy for the City of Detroit, including soil remediation from leaking underground fuel storage tanks. To ensure public safety DEA will review the petitioner's environmental activities prior to the issuance of city permits. A Right-of-Entry is required by DEA prior to contractor field activity.

Soil borings and monitoring well installations are equivalent to an "open cut" in a public street or alley. Necessary permits have to be obtained for any street or alley opening, backfill, surface restoration, barricade, or occupancy of city rights-of-way to install monitoring wells. The City Engineering Division — DPW will require the permit applicant to secure approval of project plans from the Department of Environmental Affairs.

It is the responsibility of "Groundwater and Environmental Services, Inc. (GES/Shell Oil)" to give reasonable and proper notice to any abutting property owner(s) before commencing any open cut or boring operations within public rights-of-way.

The enforcement of fire safety regulations and building codes is the responsibility of the Fire Marshal and Buildings and Safety Engineering Department. Generally, the Fire Marshal and Buildings and Safety Engineering Department report no objections to the placement and maintenance of permanent L.U.S.T. monitoring well encroachments within public rights-of-way.

DTE Energy — Gas Division (DTE) reports involvement, but no objections provided that the proposed encroachments must be at least a minimum of 3 feet away from our existing gas facilities, also must be free from any obstruction(s) for DTE's equipment to do any repairs and/or relocation of DTE's existing gas facilities in the near future.

The Water and Sewerage Department (DWSD) reports involvement, but no objections provided the proposed encroachments for monitoring well installation provide a minimum clearance. The petitioner must follow DWSD provisions.

The Public Lighting Department (PLD) reports involvement, but no objections provided that no structures can be built over PLD installations. All structures must maintain a 10 feet horizontal clearance from overhead PLD lines and installations. The contractor will be liable for any damages to any PLD underground facilities.

All other involved City departments and privately owned utility companies request the petitioner(s) make use of "Miss Dig" facilities before any soil borings or permanent monitoring wells are installed in the public (street or alley) rights-of-way.

Finally, the City Engineering Division — DPW requires "Groundwater and

Environmental Services, Inc. (GES/Shell Oil)" to submit certified "as built" drawings, a map and survey, showing the exact location of the petitioner's completed permanent L.U.S.T. monitoring well installations within public rights-of-way.

In accord with Detroit Code (Sec. 50-1-9), there is an appropriate resolution, granting the encroachment petition, attached for consideration by your Honorable Body.

Respectfully submitted,  
JESSY JACOB

#### Information Technology Services

May 22, 2008

Honorable City Council:

Re: Budget Request for the Procurement of a New Chiller and other Repairs for Continuing the Operations of the Data Center.

At the beginning of the New Year, the Information Technology Services department (ITS) experienced a major failure with the chillers that are housed in the basement of the Coleman A. Young Municipal Center (CAYMC). The chillers are used to provide cool air to keep the Data Center at an operational temperature of 72 degrees year round, so that servers will not shut down due to over heating. During the outage, ITS encountered many unforeseen expenses which have tremendously effected our budget. Fortunately, with help from various vendors, ITS was able to bring one of the chillers back online to cool the data center.

Currently ITS is operating with one centrifugal chiller with portable air-conditioning backup. This backup method is a major risk for ITS and the City of Detroit. ITS has met with vendors to develop an operational and backup plan. Within the plan the department has identified the costs associated with the procurement of a back up chiller and preventative maintenance that must be completed to ensure continuous operation of the new equipment.

The Budget Department has identified retiree budget funds in the Nondepartmental budget as a source of funding. In order to address this issue ITS will incur a cost of \$65,500 to bring the current centrifugal chiller up to code in order to enter into a maintenance contract and to complete the electrical and duct work for the cooling system. The purchase of a new chiller for back up purposes will cost \$334,500, which includes equipment, labor, and a 2-year maintenance agreement, thus bringing the total to complete the ITS data center project to \$400,000.

The ITS department respectfully request your Honorable Body's approval of the attached resolution to transfer funds to achieve our goal of an operational data center with redundant fail over capabilities.

Honorable City Council:

Re: Transfer of jurisdiction of 5601, 5815, and 5851 W. Jefferson (Revere Copper & Brass) to the Water and Sewerage Department for potential future CSO Control Facility.

On March 16, 1994 (J.C.C. pp. 492-93), the City Council adopted a "Resolution of Authority" for the Detroit Water and

Sewerage Department ("DWSD") to acquire properties, easements and rights-of-way for the purpose of constructing federally-mandated Combined Sewer Overflow ("CSO") basins. DWSD has identified the property located at 5601, 5815, and 5851 W. Jefferson, commonly known as "Revere Copper & Brass," as the location for a CSO Control Facility. In order for the parcel to be available for the CSO program, jurisdiction over the Revere Copper & Brass site needs to be transferred to DWSD. The Planning & Development Department is in support of the transfer of jurisdiction to DWSD.

The Revere Copper & Brass site is approximately 28.663 acres, and is zoned M-4 (Intensive Industrial District). The property is valued at \$5 million. DWSD Director Victor Mercado has agreed that this amount should be borne by the DWSD CSO program in exchange for receiving jurisdiction over the Revere Copper & Brass site.

In accordance with City Code § 14-8-3, I have designated the Detroit Water & Sewerage Department as the department to manage and maintain the Revere Copper & Brass site, to be held for the future public use for the construction and operation of a CSO Control Facility. Pursuant to City Code § 14-8-3, I am requesting that your Honorable Body adopt the attached resolution which approves the transfer of jurisdiction of the approximately 28.663 acre Revere Copper & Brass site to DWSD, in exchange for reimbursement from the DWSD CSO program of \$5 million.

Respectfully submitted,  
NORMAN L. WHITE

Honorable City Council:

Re: Transfer of jurisdiction of a portion of Blain Parcel, a/k/a Atwater West to the Water and Sewerage Department for potential future CSO Control Facility.

On March 16, 1994 (J.C.C. pp. 492-93), the City Council adopted a "Resolution of Authority" for the Detroit Water and Sewerage Department ("DWSD") to acquire properties, easements and rights-of-way for the purpose of constructing federally-mandated Combined Sewer Overflow ("CSO") basins. In anticipation of the future requirements for storm water control in the East Riverfront Development Area, DWSD has identified the northern portion of the parcel formerly known as the Blain Parcel, now known as Atwater West, as the location for a CSO Control Facility to be installed in the future when required. However, in order for the parcel to be available for the CSO program, jurisdiction over the Atwater West parcel needs to be transferred to DWSD. The Planning & Development Department, the Recreation Department, and the Economic Development Corporation of the City of Detroit are all in

support of the transfer of jurisdiction to DWSD.

The City acquired the Blain Parcel through the eminent domain process from Detroit Plaza Limited Partnership. The total acquisition cost, including the value of the land, interest, attorney fees, and costs, was \$34,134,313.03. The size of the Atwater West parcel is 51.9% of the size of the entire Blain Parcel. The proportionate cost of the Atwater West parcel is therefore \$17,715,708.46. DWSD Director Victor Mercado has agreed that this amount of the acquisition cost should be borne by the DWSD CSO program in exchange for receiving jurisdiction over the Atwater West parcel.

In accordance with City Code § 14-8-3, I have designated the Detroit Water & Sewerage Department as the department to manage and maintain the Atwater West parcel, which is being held for future public use as a CSO facility. Pursuant to City Code § 14-8-3, I am hereby asking your Honorable Body to adopt the attached resolution which approves the transfer of jurisdiction of the 142,455 square foot Atwater West parcel to DWSD, in exchange for reimbursement from the DWSD CSO program of the pro rata acquisition cost of \$17,715,708.46.

#### MEMBER REPORTS

**MONICA CONYERS:** Submitted a request from Ms. Edith Hayes for a block club. Will submit request to the Clerk. Council President Pro Tem Conyers also referenced a letter from a Mrs. Sloan who stated street repairs need to be done in the area of Southfield and I-94.

She's been conversing with the Ryan Correctional Facility regarding jobs, etc. Mr. Daryl Woods is a good father and has been fathering his son who attends Michigan State University. She congratulates both men.

**JOANN WATSON:** Council Member

Watson referenced the recent promotional exam given at the Police Department. Allegedly, people are not being properly promoted. She requested City Council Research and Analysis Division (RAD) research this item.

The notion of the City of Detroit asking to vote on the tunnel give-a-way, is not known by most citizens. She requested the legal experts be clear on if the Tunnel give-a-way is considered a utility, nothing can be done to it. The notion that 1,700 City employees would be laid off if the Tunnel give-a-way is not approved is a lie.

Council President Kenneth Cockrel, Jr. stated RAD opined it is a public utility; therefore, under the City Charter, any transfer of sale of the Tunnel as an asset would have to be approved by the voters. The real issue is to have a response from the Law Department relative to the Tunnel issue.

Ms. Watson requested that Council Member Collins come to the Neighborhood and Community Services meeting because Cobo is a major issue.

**KWAME KENYATTA:** Council Member Kenyatta reserved comments on the 1950 Rosenberg case. He had no comment about Mr. Ron Hewitt calling him the "N" word because he supports the forfeiture issue.

He wanted the Entertainment Task Force meeting to be held this Friday, June 27, 2008 scrolled.

**ALBERTA TINSLEY-TALABI:** Complimented everyone involved in the Fireworks.

On June 27th and June 28th there will be over 15 sites where teens can be tested for HIV/AIDS. Parents are welcome.

**BRENDA JONES:** Council Member Jones received a call from Pastor Miles of Christ Corner Stone Church who indicated the church had been broken into. It took a long time for the Police to come because they only had one police car on the shift.

She also received a call from a citizen who had called 311 to complain about illegal dumping. The complainant received a ticket, which she felt something should be done about the matter.

Honorable City Council:

Re: Transfer of jurisdiction of a portion of Blain Parcel, a/k/a Atwater West to the Water and Sewerage Department for potential future CSO Control Facility.

On March 16, 1994 (J.C.C. pp. 492-93), the City Council adopted a "Resolution of Authority" for the Detroit Water and Sewerage Department ("DWSD") to acquire properties, easements and rights-of-way for the purpose of constructing federally-mandated Combined Sewer Overflow ("CSO") basins. In anticipation of the future requirements for storm water control in the East Riverfront Development Area, DWSD has identified the northern portion of the parcel formerly known as the Blain Parcel, now known as Atwater West, as the location for a CSO Control Facility to be installed in the

future when required. However, in order for the parcel to be available for the CSO program, jurisdiction over the Atwater West parcel needs to be transferred to DWSD. The Planning & Development Department, the Recreation Department, and the Economic Development Corporation of the City of Detroit are all in support of the transfer of jurisdiction to DWSD.

The City acquired the Blain Parcel through the eminent domain process from Detroit Plaza Limited Partnership. The total acquisition cost, including the value of the land, interest, attorney fees, and costs, was \$34,134,313.03. The size of the Atwater West parcel is 51.9% of the size of the entire Blain Parcel. The proportionate cost of the Atwater West parcel is therefore \$17,715,708.46. DWSD Director Victor Mercado has agreed that this amount of the acquisition cost should be borne by the DWSD CSO program in exchange for receiving jurisdiction over the Atwater West parcel.

In accordance with City Code § 14-8-3, I have designated the Detroit Water & Sewerage Department as the department to manage and maintain the Atwater West parcel, which is being held for future public use as a CSO facility. Pursuant to City Code § 14-8-3, I am hereby asking your Honorable Body to adopt the attached resolution which approves the transfer of jurisdiction of the 142,455 square foot Atwater West parcel to DWSD, in exchange for reimbursement from the DWSD CSO program of the pro rata acquisition cost of \$17,715,708.46.

Honorable City Council:

Re: Transfer of jurisdiction of 5601, 5815, and 5851 W. Jefferson (Revere Copper & Brass) to the Water and Sewerage Department for potential future CSO Control Facility.

On March 16, 1994 (J.C.C. pp. 492-93), the City Council adopted a "Resolution of Authority" for the Detroit Water and Sewerage Department ("DWSD") to acquire properties, easements and rights-of-way for the purpose of constructing federally-mandated Combined Sewer Overflow ("CSO") basins. DWSD has identified the property located at 5601, 5815,

and 5851 W. Jefferson, commonly known as "Revere Copper & Brass," as the location for a CSO Control Facility. In order for the parcel to be available for the CSO program, jurisdiction over the Revere Copper & Brass site needs to be transferred to DWSD. The Planning & Development Department is in support of the transfer of jurisdiction to DWSD.

The Revere Copper & Brass site is approximately 28.663 acres, and is zoned M-4 (Intensive Industrial District). The property is valued at \$5 million. DWSD Director Victor Mercado has agreed that this amount should be borne by the DWSD CSO program in exchange for receiving jurisdiction over the Revere Copper & Brass site.

In accordance with City Code § 14-8-3, I have designated the Detroit Water & Sewerage Department as the department to manage and maintain the Revere Copper & Brass site, to be held for the future public use for the construction and operation of a CSO Control Facility. Pursuant to City Code § 14-8-3, I am requesting that your Honorable Body adopt the attached resolution which approves the transfer of jurisdiction of the approximately 28.663 acre Revere Copper & Brass site to DWSD, in exchange for reimbursement from the DWSD CSO program of \$5 million.

#### **STATEMENT BY COUNCIL MEMBER ALBERTA TINSLEY-TALABI REGARDING THE ESTABLISHMENT OF A DETROIT TUNNEL AUTHORITY**

After reviewing the most recent set of documents, I am comfortable with supporting the establishment of a tunnel authority. These documents include language that will dissolve the authority if Council does not approve final agreements within 120 days. In order to make an informed decision, Council must be presented with financial and operation agreements that cannot be provided until the Detroit authority has been established.

Even though I still have several unanswered questions, I think it is prudent to take this initial step so that negotiations can continue with the City of Windsor. My

support of the final agreements will depend on the terms and conditions of the joint operating agreement between the city's authority and the one created by Windsor. I want to be comfortable that there will be a proper balance between the two authorities and that local decisions are not unduly influenced.

Additionally, I must be satisfied with the financing documents. Any loan received from the Ontario government must be paid-off in a reasonable time. Doing so will increase the revenues received from the tunnel.

I am also concerned with the potential lay-off of 1300 city employees. I believe that Council acted responsibly by including budget stabilization bonds in the FY 08-09 Budget to prevent the need for lay-offs. In my opinion, lay-offs would be an unnecessary and unfortunate mayoral action.

However, I want to take all reasonable steps to prevent lay-offs and today's action of basically providing the administration with another 120 days to complete agreements is acceptable to me.

I am hopeful that the administration is able to negotiate agreements that can be supported by my colleagues. If not, the budget remains balanced with the earlier actions of Council and there would be no need for lay-offs.

#### Planning & Development Department

June 24, 2008

Honorable City Council:

Re: A resolution to amend the Detroit Master Plan of Policies for the easternmost section of Gabriel Richard Park to accommodate the reuse of the Brodhead Naval Armory (Revised Master Plan Change #64).

Pursuant to the City of Detroit's City Charter (Section 8-102), the Planning and Development Department's (P&DD) Planning Division has submitted for your consideration and action a proposed Amendment to the Detroit Master Plan of Policies. Adoption by your Honorable Body of this resolution would accommodate changes in the Master Plan of Policies that would facilitate reuse of the Brodhead Naval Armory at 7600 East Jefferson Avenue.

#### Location

South side of East Jefferson Avenue

near East Grand Boulevard. The subject area is located in the East Sector, Indian Village Subsector of the Master Plan of Policies. The subject area is generally bounded by East Jefferson Avenue on the north, Baldwin Avenue (extended) on the east, the Detroit River on the south, and Gabriel Richard Park and Sheridan Avenue (extended) on the west.

#### Existing Site Information

##### Future general land use:

"MP", Major Park

##### Existing land and/or building use:

An underutilized military facility

##### Existing zoning:

R6 (High Density Residential)

**Size (acreage):** Approximately 10 acres

#### Surrounding Site Information

##### Future general land use:

**North:** "SRC", Special Residential-Commercial

**East:** "RH", High Density Residential

**South:** Detroit River

**West:** "MP", Major Park

##### Existing land and/or building use:

**North:** Sheridan Place Apartments

**East:** Multi-story apartments

**South:** Detroit River

**West:** Gabriel Richard Park

##### Existing zoning:

**North:** PD (Planned Development)

**East:** R6 (High Density Residential)

**South:** Detroit River

**West:** PR (Parks and Recreation)

#### Project Proposal

**Future general land use:** "SRC", Special Residential-Commercial

##### Proposed land and/or building use:

The proposed Amendment will give Master Plan recognition to the long-term use established at the locally designated historic Brodhead Naval Armory building. The proposed Special Residential-Commercial land use designation will allow mixed residential and commercial opportunities for this site as well as permit the Brodhead Armory to be used for entertainment purposes, consistent with the future general land use for a significant portion of the East Riverfront area.

**Proposed zoning (most likely):** SD4 (Special Development, riverfront mixed-use)

#### Interpretation

##### Impact on Surrounding Land Use

The proposed Amendment will give recognition to a use that had long been established on this site. In addition to its use as a naval training facility, the armory had also been used to host dances, conventions, boxing matches, and other social events over the years. The reuse of a historic building such as the Brodhead Armory may also spur momentum for reinvestment along both sides of E. Jefferson, which contains a number of vacant properties, especially on the north side of the street.

Impact on Transportation

Any proposed reuse of the Brodhead facility will likely put more auto traffic onto East Jefferson. Because of the limited amount of on-site parking, a developer seeking to reopen the Brodhead facility might need to obtain property on the opposite side of E. Jefferson to accommodate the required number of off-street parking spaces. DDOT bus routes include the E. Jefferson and Van Dyke-East Lafayette lines. A SMART route also services E. Jefferson.

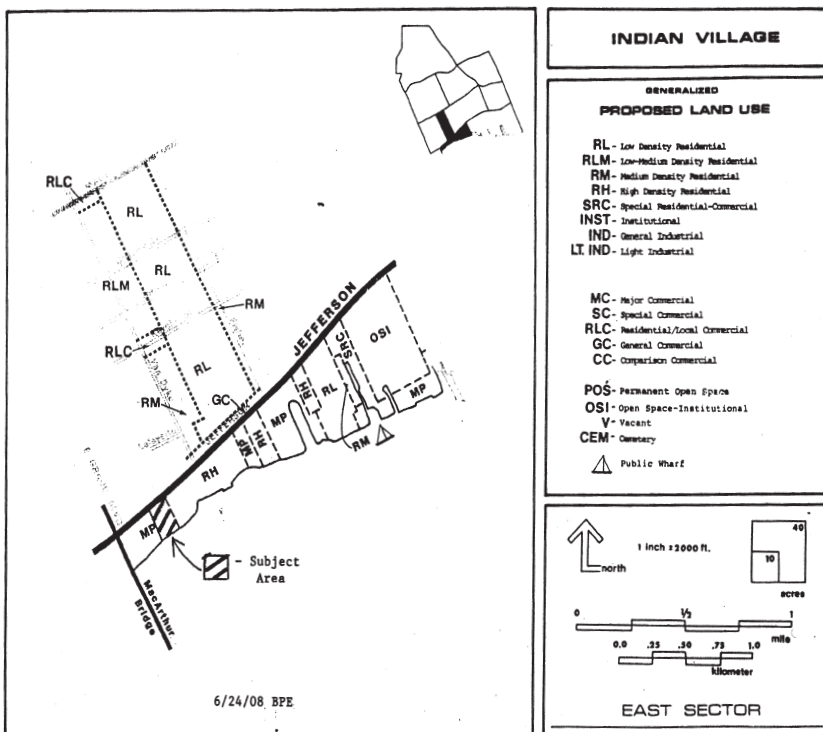

**Recommended Master Plan Amendment**

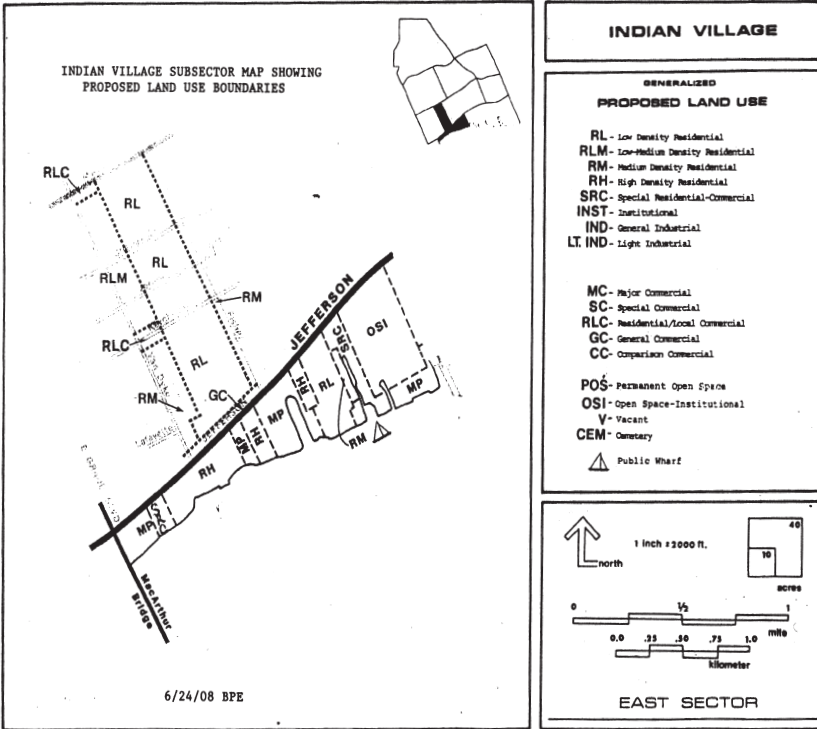

The Planning and Development Department requests this proposed Amendment to the Master Plan of Policies to allow for the rehabilitation of a historic building on a major arterial of Detroit. The proposed Amendment will also give recognition to an entertainment/commercial use that has previously existed on the

subject site. In addition, a land use change to Special Residential-Commercial will allow for mixed residential and commercial uses on this site also, consistent with adjacent areas along the East Riverfront. The Brodhead Armory site will be re-designated in the Master Plan from Major Park to Special Residential-Commercial. The remainder of Gabriel Richard Park will remain designated as parkland. The park will remain physically intact.

The Planning Division of the Planning and Development Department therefore requests that the proposed future land use on the Generalized Proposed Land Use map in the Master Plan of Policies be changed for the subject area from "MP", Major Park to "SRC", Special Residential-Commercial.

Respectfully submitted,  
DOUGLASS J. DIGGS  
Director

**DETROIT MASTER PLAN OF POLICIES MASTER PLAN CHANGE # SIXTY-FOUR A RESOLUTION TO AMEND THE DETROIT MASTER PLAN OF POLICIES FOR THE EASTERNMOST PORTION OF GABRIEL RICHARD PARK TO ALLOW FOR THE REUSE OF THE BRODHEAD NAVAL ARMORY**

By Council Member Collins:

WHEREAS, The Detroit Master Plan of Policies, adopt August 5, 1992, consists of policies and methods for improving the City of Detroit as a place for people to live and work based upon their needs and desires; and

WHEREAS, The Detroit Master Plan of Policies is approved and adopted as a major reference for evaluating proposed development activities and/or action programs such as neighborhood plans, urban renewal plans, zoning amendments, property acquisition or disposition, and construction of public or private facilities; and

WHEREAS, The Detroit Master Plan of Policies is continuously studied and amended as needed to reflect the desires of residents, businesses, and industries of the City of Detroit; and

WHEREAS, The Planning & Development requests that the Master Plan of

Policies be amended for an approximately 5-acre portion of Gabriel Richard Park to accommodate the reuse of the Brodhead Naval Armory; and

WHEREAS, The proposed Amendment will give Master Plan recognition to an entertainment/commercial use that had existed at the Brodhead site for many years; and

WHEREAS, The proposed Amendment will allow for mixed residential and commercial land uses on the site and may also spur the redevelopment of nearby vacant properties along East Jefferson Avenue; and

WHEREAS, Despite the proposed rezoning to accommodate the reuse of the Brodhead facility, no actual parkland will be lost and Gabriel Richard Park will remain physically intact;

NOW, THEREFORE, BE IT RESOLVED, The Detroit Master Plan of Policies is amended as follows:

1. The only map to be modified is the East Sector, Indian Village Subsector Map 302-12B: for the area bounded by East Jefferson Avenue, the southern extension of Baldwin Avenue, the Detroit River, and the southern extension of Sheridan Avenue, which is now shown as "MP", Major Park, map is changed to show "SRC", Special Residential-Commercial.

The Public Lighting Department (PLD) reports no objection to the proposed vacation provided that any structure proposed to be built shall maintain a minimum of 10-inch horizontal clearance from overhead PLD lines and installations.

All other departments and private utility companies have reported no objections to the changes of the public rights-of-way. Provided that if there is a cost for removing and/or rerouting utility installations in said requested area the petitioner and its assigns/heirs will pay all cost. Provisions

# CITY COUNCIL

(REGULAR SESSION)

(All action of the City Council appearing herein is subject to reconsideration and/or approval of the Mayor.)

Detroit, Tuesday, July 8, 2008

Pursuant to adjournment, the City Council met at 10:00 A.M., and was called to order by the President Kenneth V. Cockrel, Jr.

Present — Council Members S. Cockrel, Jones, Kenyatta, Tinsley-Talabi, Watson, and President K. Cockrel, Jr. — 6.

There being a quorum present, the City Council was declared to be in session.

## Invocation

Eternal God, creator of heaven and earth;

We come to You, in the name of Your Son, Jesus Christ.

— Your word declares that, as Your servants, whatsoever we bind on earth is bound in heaven, and so we come to You with full assurance that You will hear, and grant our petitions today.

— Remember our city at this time.

— We have challenges and struggles.

— But as God of the mountains, and God of the valleys, You are bigger and greater than all our struggles, and so we commit them into Your able hands.

— Remember those in law enforcement and other essential services.

— Keep them from harm and dangers.

— Bless our schools and institutions of Higher Learning.

Right now, we commit the men and women of the Detroit City Council into Your care.

— Like the Apostle Paul, *we know in whom we have believed, and we are persuaded that You are able to keep that which we have committed unto You, until that great day.*

— Bless these men and women and their staff with good judgment.

— Bless them with patience.

— Bless them with good health.

— Bless their families who share in their ups and downs from day to day.

— Continue to give them wisdom, knowledge, and understanding as they preside over the affairs of the City of Detroit.

— I pray that You stand by them, when they do the best they can and men misunderstand.

— Remind them of the words of Paul when they become discouraged:

— *We are hard pressed on every side, yet not distressed;*

— *We are perplexed, but not in despair;*  
— *Persecuted, but not forsaken;*  
— *Cast down but not destroyed.*

Direct this council meeting today, and may their efforts be crowned with success. I thank You, in the name of Jesus.

AMEN

#### **City Planning Commission**

June 23, 2008

Honorable City Council:

Re: Proposal of the Greater Corktown Development Corporation (Petition

#2196) to amend Chapter XVII, Zoning District Map No. 3 of the Official Zoning Ordinance to show an R2 (Two-Family Residential District) zoning classification where a B4 (General Business District) zoning classification is presently shown at 3139 and 3145 Harrison Avenue (Recommend Approval).

Submitted herewith is the report and recommendation of the City Planning Commission (CPC) relative to the request of the Greater Corktown Development Corporation to show an R2 (Two-Family Residential District) zoning classification where a B4 (General Business District) zoning classification is presently shown at 3139 and 3145 Harrison Avenue generally bounded by Ash Street, Elm Street, Rosa Parks Boulevard and Harrison Avenue.

#### **BACKGROUND INFORMATION**

The Greater Corktown Development Corporation has embarked on developing infill housing on Harrison Avenue. The Corporation has proposed one infill single-family residential unit at 3139 Harrison. A single-family residential unit was already built at 3145 Harrison. Both 3139 Harrison and 3145 Harrison are located on land zoned B4 (General Business District). The Planning and Development Department (P&DD) currently owns the property at 3139 Harrison. P&DD has authorized the petitioner to take steps to rezone the subject property from B4 to R2.

Although the Greater Corktown Development Corporation has proposed one additional one-family residential unit, such developments are allowed as a matter of right in R2 zoning classification. Both properties are currently zoned B4 where single-family dwellings are a conditional rather than by-right use.

#### **PUBLIC HEARING**

On February 7, 2008, the CPC held a public hearing to consider the proposal of the Greater Corktown Development Corporation to rezone 3139 Harrison and 3145 Harrison from B4 to R2.

Mr. Keegan Mahoney of the Greater Corktown Development Corporation indicated that the Corporation did not see any feasible use for the B4. No other member of the public spoke at the hearing.

Mr. Mahoney described the infill housing project as: eleven single-family homes with three bedrooms and a basement that are to be constructed in "neo-Victorian" style on scattered sites in the area of Sycamore, Martin Luther King Blvd. and Cochrane. Each house will be constructed on a 31 foot by 100 foot sized parcel and contain 1,480 square feet. Mr. Mahoney also indicated that it would cost \$185,000 to construct a house, and they would be priced at \$112,000.

#### **MASTER PLAN REVIEW**

The proposed rezoning is located in the Jeffries Subsector of the Southwest

July 8

1794

2008

Sector of the Master Plan of Policies. The current land use designation is RM (Medium Density Residential) district and the future land use designation for the area is RLM (Low-Medium Density Residential) district.

In a memo from the P&DD dated February 7, 2008, the department reviewed the proposed rezoning and concluded: "That the development conforms to the future land designation of RLM (Low-Medium Density Residential) for the subject area and conforms to the intent of the Master Plan of Policies."

#### ANALYSIS

The CPC notes that the subject property appears to have been zoned B4 because of a now-demolished commercial building at that site. Given that there are no commercial uses or structures in the area, continuation of the B4 zoning would suggest a "spot zone" in the middle of a residential area. B4 zoning does allow for residential uses; however, they are only permitted on a conditional basis, requiring the land to go through a special land use hearing. Once the owner obtains a zoning grant for a residential use on land zoned B4, the Zoning Ordinance requires annual inspections and a Certificate of Maintenance of Zoning Grant Conditions — a burden and expense not incurred in an R2 zoning district.

#### RECOMMENDATION

At its meeting of February 7, 2008, the CPC voted to recommend approval of the amendment to Chapter XVII, Zoning District Map 3 of the Detroit Zoning Ordinance, Chapter 61 of the 1984 Detroit City Code, to show an R2 (Two-Family Residential District) zoning classification where a B4 (General Business District) is presently shown on property located at 3139 Harrison and 3145 Harrison.

##### Downtown Development Authority

June 16, 2008

Honorable City Council:

Re: Downtown Development Authority  
FY 2008-2009 Budget.

Pursuant to Article 28, Act 197, as amended, we have prepared the attached FY 2008-2009 Downtown Development Authority's (the "DDA") General Fund Budget for your approval prior to adoption by DDA.

The amount of funds available from the one mill tax for FY 2008-2009 has been estimated at \$810,000, net of collection delinquencies and reserves for tax settlements, reflecting no change from the actual receipts for Fiscal Year 2007-2008. Transfer from the DDA's Tax Increment Fund of an amount of \$500,000 will remain level at the 2007-2008 allocation. The FY 2008-2009 budget reflects rev-

venues of \$850,000 to be generated from the parking operations, representing a \$50,000 increase from FY 2007-2008 attributable to the lease revenues of the Kennedy Garage and the acquisition by DDA of a parking lot in the Harmonie Park area. Transfer from Fund Balance has been estimated at \$175,000, which is needed to offset the anticipated shortfall in revenue for FY 2008-2009. This amount represents a decrease from FY 2007-2008 of \$70,000, contributable primarily to the increased revenues from parking operations.

On the appropriations side, contractual services of \$1,500,000, reflects no increase from last year. The budgeted amount of \$385,000 for professional services and fees, inclusive of a \$10,000 expense for Computer Support, reflects a \$15,000 decline from the 2007-2008 Fiscal Year primarily due to a decrease in anticipated Insurance expenses. The FY 2008-2009 budgeted expenses of \$28,000 related to parking operations shows a decrease of \$7,000 from last year's expenses as parking operations became more efficient with the acquisition by DDA of the additional parking lot in the Harmonie Park area. Finally, \$500,000 of allocated funds for Special Projects and Contingencies for FY 2008-2009 indicates no increase from last year.

We respectfully request City Council's approval of the attached budget at its July 1, 2008 formal meeting. A waiver of reconsideration is requested.

— REVISED

Honorable City Council:

Re: Resolution to Further Extend a Temporary Moratorium on Consideration of MLCC Activity Permits for Nonconforming Cabarets and Adult Cabarets.

On June 3, 2008, City Council approved a resolution to further defer consideration of requests for approval or disapproval of petitions for activity permits for any Group "A," "B," or "C" cabaret or nonconforming Group "D" adult cabaret referred to City Council by the Michigan Liquor License Commission (MLCC). The resolution expires on Wednesday, July 8, 2008.

In light of a recent discovery of Sec. 2-111 of the Charter (Rule-making) which requires publication of any proposed "rules" to be adopted and a hearing be

held on those "rules", CPC is recommending a further extension of the temporary moratorium. A notice for that hearing would have to be sent four weeks prior to the hearing. With Council's recess after July 25th, it means that the public hearing could not be held until Council returns from recess.

The interdepartmental working group has finalized the proposed procedures and criteria regarding MLCC activity permits. However, more time is needed to allow for City Council to hold a discussion, if desired, and carry out Sec. 2-111 of the Charter (Rule-making) mandate as it relates to adopting the proposed procedures and criteria.

Attached is the proposed resolution for your consideration to extend the approved temporary moratorium on requests for approval or disapproval of petitions for activity permits for nonconforming cabarets — Group "A," "B," or "C" — or nonconforming Group "D" adult cabaret) until December 1, 2008. Activity permits include dance, entertainment, dance-entertainment, and/or topless activity permits.

**B. City Clerk's Receipt of MLCC Local Approval Notice**

Within fourteen (14) days of the City Clerk's receipt of the MLCC Local Approval Notice for City Council's consideration, the City Clerk shall: 1) assign a petition number to the request and 2) mail to the Petitioner the assigned petition number, procedures and criteria for the MLCC Local Approval Notice, and the City Council Application (Application) for Approval of the MLCC Permit via U.S. mail. The MLCC applicant requesting approval of the issuance of the MLCC activity or permits shall be deemed the "Petitioner."

**C. Petitioner's Responsibility**

**1. Application**

The Petitioner must fill out and return the completed Application to the City's Clerk's Office. City Council's MLCC Local Approval Notice process will not begin until the City Clerk's Office has received the completed Application.

**2. Business License Application**

The Petitioner must also apply for the appropriate City of Detroit cabaret or adult cabaret business license as part of the process of obtaining City Council's consideration for the proposed activity permit. The appropriate cabaret or adult cabaret business license application can be obtained at the Buildings and Safety Engineering Department, Business License Center, located in Room 105 of the Coleman A. Young Municipal Center, 2 Woodward Avenue.

**3. City Department Requests**

The Petitioner must provide all requested information to, and fully cooperate with, all City departments requesting any additional information. The Petitioner must provide the requested information to any city department and respond and address any notices of deficiencies to the department's satisfaction within fourteen (14) days of the request or notice. Failure to respond in a timely fashion to a city department's request or resolve any notices of deficiencies may result in a denial of the requested MLCC activity permit.

**D. Review Procedures**

**1. City Departmental Referral.** Within fourteen (14) days upon receipt of a completed Application, the City Clerk shall forward a Departmental Reference Communication along with the completed Application and Local Approval Notice to

the departments and agencies listed below requesting a response:

- a) Buildings and Safety Engineering Department, Building Division ("BD");
- b) Buildings and Safety Engineering Department, Property Maintenance Branch ("PMB");
- c) Buildings and Safety Engineering Department, Business License Center ("BLC");
- d) Detroit Police Department, Liquor License Unit ("DPD");
- e) Law Department; and
- f) City Planning Commission ("CPC").

**2. Designated Coordinator: City Planning Commission.** The CPC shall be the designated coordinator of the MLCC Local Approval Notice process as directed by City Council.

**3. City Departmental Reporting.** Within 60 days of the date of the City Clerk's Departmental Reference Communication, the BD, PMB, BLC, and DPD are requested to provide the following findings to the CPC resulting from such review and investigation.

a. Buildings and Safety Engineering Department, Building Division and Property Maintenance Branch — BD and PMB are requested to provide to the CPC the following information:

1) Where applicable, a 5-year land use history which includes zoning, permit, zoning grant information, and certificate of maintenance of zoning grant conditions; zoning and other code violations; open permits; and any unpaid fees related to the subject premises or other premises in the City of Detroit licensed by the MLCC under the control of the Petitioner (or an entity of which the Petitioner is a part); and

2) Whether the Petitioner (or an entity of which the Plaintiff is a part) has had a land use permit for a cabaret or an adult cabaret or other sexually oriented business suspended or revoked by the City of Detroit within 2 years of the date of receipt by the City Clerk of the Local Approval Notice from the MLCC.

b. Buildings and Safety Engineering Department, Business License Center, BLC is requested to provide the following information to the CPC:

1) A copy of the Petitioner's business license application;

2) A 2-year history of the subject premises and any premises in the City of Detroit under the control of the Petitioner (or an entity of which the Petitioner is a part);

3) Whether the Petitioner (or an entity of which the Petitioner is a part) has had a business license for a cabaret or an adult cabaret or other sexually oriented business suspended or revoked in the City of Detroit within two (2) years of the date of receipt by the City Clerk of the Local Approval Notice from the MLCC; and

July 8

1802

2008

4) The status of the cabaret or adult cabaret license application.

c. Detroit Police Department, Liquor License Unit — The DPD is requested to provide the investigation results/disposition report to the CPC on the Petitioner's request indicating whether:

1) The request has been returned to the MLCC due to the Petitioner's failure to provide requested information to the department;

2) The department approved the request; or

3) The department disapproved the request.

**4. CPC Report and Recommendation.** Within ninety (90) days of the date of the Department Reference Communication from the City Clerk, CPC shall submit a report and recommendation to the City Council which shall include a summary of the departmental reviews and investigations, a recommendation based on the criteria approved by the City Council (see Section E), and a determination on whether an informational hearing (see Section D.5) should be held due to the location of the subject premises to the residentially zoned property. CPC shall send a copy of the report and recommendation to the Law Department and to the Petitioner.

If one or more departments have not provided all of the requested information as specified in Section D.3 within the 60 days of the City Clerk's Departmental Reference Communication, CPC shall contact the appropriate department requesting a status of its report. If one or more departments have not submitted the requested information within ninety (90) days of the date of the City Clerk's Departmental Reference Communication, CPC's report and recommendation to the City Council shall so indicate. The failure of a department to respond to the CPC's request shall not be grounds for recommending a denial, deferral, or delay of the request.

Once the City Clerk has received the CPC report and recommendation, the City Council President shall place the report and recommendation on City Council's next formal agenda for referral to the appropriate standing committee.

Within fourteen (14) days (excluding legislative recess days) of receiving the referral, the appropriate standing committee chair shall place the CPC report and recommendation on its calendar for consideration.

**5. Informational Hearing, where applicable.**

a. **Purpose of Informational Hearing.** Because many of the current Group "A" Cabarets and Group "D" Adult Cabarets are nonconforming and are located adjacent, or in close proximity, to residential zoning districts, residents have

expressed concerns relative to adverse secondary effects of these uses on their property and neighborhood. City Council will afford residents an opportunity to present information relative to the petitioner and the premises as part of an informational hearing. The purpose of the informational hearing is to apprise the surrounding community of the requested activity permit, as well as share the City's findings with those who might be most affected by the MLCC activity permit request. In addition, the informational hearing would allow:

1) The applicant to be made aware of the neighborhood/community's concerns relative to any impact of the subject premises on the surrounding neighborhood; and

2) An opportunity for the neighborhood/community surrounding the subject premises and the applicant to form a working community relationship to improve the quality of life of the surrounding community and address any concerns raised at the informational hearing.

b. **Hearing.** Within thirty (30) days of receipt of the CPC report and recommendation the appropriate standing committee of the City Council shall hold an informational hearing for premises located 300 feet or less from property zoned R1, R2, R3, R4, R5, R6 and residential PDs and also located outside the Central Business District.

If a City department has recommended that the petition for the proposed activity permit be denied and/or the request does not meet the approval criteria adopted by City Council (see Section E) as specified in the CPC report and recommendation, an informational hearing will not be required.

c. **Notice.** Not less than five (5) days prior to the hearing date, notice of all hearings shall be provided to all property owners, residents, businesses and neighborhood associations within 300 feet of the subject premises, and to the Petitioner. The appropriate standing committee will schedule a hearing at the earliest possible date except for the times of the year which City Council is on a legislative recess period. However, any required hearing shall not be scheduled for later than sixty (60) days after the appropriate standing committee has received the CPC's report and recommendation.

d. **Petitioner's Appearance.** The Petitioner shall be allowed to appear at the hearing before the appropriate standing committee and make a written and/or oral presentation concerning the request.

e. **Public Testimony.** Members of the public may provide testimony or additional documentation relevant to the City Council's approval criteria (see Section E) specific to the proposed activity permit at

July 8

1803

2008

the subject premises or about the Petitioner.

**6. Standing Committee's Request for Resolution and Action.** Where no informational hearing is required, upon receipt of CPC's report and recommendation, the appropriate standing committee shall take action by recommending approval or disapproval to the Committee of the Whole and request the appropriate resolution from the Law Department, noting the standing committee's findings based on City Council's adopted approval criteria (see Section E).

However, where an informational hearing has been held, the standing committee shall take the matter under advisement and shall not take action and request the resolution from the Law Department until fourteen (14) days after the hearing, except where the committee determines there is good reason to forego the 14-day period of advisement.

The Law Department shall submit the requested resolution to the standing committee within fourteen (14) days of the standing committee's request for the resolution.

**7. Deferral of Standing Committee or City Council Action of Disapproval.**

Where the standing committee recommends disapproval, the committee shall not request the appropriate resolution from the Law Department for fourteen (14) days after receipt of the CPC recommendation report. Within that 14-day period, the Petitioner may submit to the City Clerk's Office a written request for a deferral of City Council's action, of not more than fourteen (14) days, in order to address any issue raised in the CPC report and recommendation. If the Petitioner has submitted a written request for deferral of action, the standing committee shall defer its action for no more than fourteen (14) days. Prior to the expiration of the 14-day deferral-of-action period, the Petitioner shall indicate in writing to the City Clerk's Office with the appropriate documentation (subject to CPC's confirmation) that the unresolved issues have been addressed.

If the Petitioner has not submitted a written statement requesting a deferral of City Council's action within fourteen (14) days of the standing committee's receipt of the CPC report and recommendation, the standing committee shall request a resolution of disapproval from the Law Department noting the standing committee's findings based on City Council's adopted approval criteria (see Section E).

**8. City Council Action.** The appropriate standing committee shall forward its recommendation of approval or disapproval of the proposed activity permit to City Council's formal agenda within fourteen (14) days of receipt of the appropriate resolution submitted by the Law

Department. The City Council shall take action on the matter at its next scheduled formal session.

**9. Submission of Resolution.** The City Clerk shall send the adopted resolution of approval or disapproval to the Petitioner and MLCC.

**10. MLCC Petitions Received Prior to the Enactment of this Resolution.** All MLCC petitions received by the City Clerk prior to the enactment of this resolution shall be considered in light of the adopted procedures and criteria. Within six (6) months of the Petitioner's application for a Group "A" Cabaret or Group "D" Adult Cabaret business license or within six (6) months of the adoption of the resolution of the MLCC Procedure and Criteria, whichever is later, City Council shall take action to approve or disapprove such MLCC petitions received prior to the enactment of this resolution.

**E. Approval Criteria**

City Council shall approve the transfer of an existing, or the issuance of a new, activity permit, unless:

1. The Detroit Police Department has denied the activity permit;
2. The Business License Center indicates the Petitioner has failed to apply for the appropriate cabaret or adult cabaret City license;

6. The Petitioner has operated a cabaret, an adult cabaret, or other sexually oriented business which has been adjudicated as a public nuisance under state law anywhere in the state during the two (2) year period prior to the date of receipt by the City Clerk of the Local Approval Notice from the Michigan Liquor Control Commission for the proposed activity permit;

7. The Buildings and Safety Engineering Department or other appropriate governmental agency finds that any premises in the City of Detroit licensed by the Michigan Liquor Control Commission and under the control of the Petitioner (or under the control of an entity of which the Petitioner is a part) are non-compliance with applicable provisions of the Zoning Ordinance;

8. **City Planning Commission**

July 3, 2008

Honorable City Council:

Re: Special District Review of Proposed commemorative plaque for Dodge Fountain at Hart Plaza (RECOMMEND APPROVAL).

The Zoning Ordinance requires your Honorable Body to approve any permit application related to work that would involve the exterior of a building or structure in the Public Center (PC) zoning dis-

trict or the Restricted Central Business (PCA) District.

The Civic Center Department has applied to the Buildings and Safety Engineering Department for a building permit to install a commemorative plaque for the refurbishing of the Dodge Fountain in Hart Plaza. The existing commemorative plaque was located on the control building adjacent to the main stage, and is presently in storage. The new plaque is to commemorate the support of Ms. Gretchen Carhart Valade's support for the refurbishing of the fountain. The proposed plaque appearance and location are shown on the attached drawings and site plan. The bronze plaques would be mounted on a 48 inch tall granite column, one on each side, directly south of the fountain, at the edge of the pavers. The land is zoned PC.

As provided in Sec. 61-3-182 of the Zoning Ordinance, any such application must be reviewed by the City Planning Commission (CPC) and the Planning and Development Department (P&DD) as part of the Special District Review process. CPC and P&DD staffs have completed their review and found the proposal to be consistent with the spirit and intent of the PC zoning district. Therefore, we are prepared to sign off on the plans submitted by the Civic Center Department, dated "July 1, 2008."

We respectfully recommend adoption of the attached resolution to authorize the Buildings and Safety Engineering Department to issue a permit for the proposed plaques.

Respectfully submitted,  
MARCELL R. TODD, JR.  
Director  
GREGORY MOOTS  
Staff

By Council Member Collins:

Whereas, The Civic Center Department has applied to the Buildings and Safety Engineering Department for a permit to install a commemorative plaque for the refurbishing of the Dodge Fountain in Hart Plaza; and

Whereas, Zoning District Map No. 1 of Article XVII of the Detroit Zoning Ordinance, Chapter 61 of the 1984 Detroit City Code, indicates that Hart Plaza is located on land zoned PC (Public Center District); and

Whereas, The Zoning Ordinance requires permits for any change to the exterior or site in the PC District to be issued subsequent to special district review by the City Planning Commission and the Planning and Development Department with final approval by the City Council; and

Whereas, The City Planning Commission staff and the Planning and Development Department have reviewed the plans for the two (2) bronze plaques to

be mounted on a 48 inch tall granite column, one on each side, directly south of the fountain, at the edge of the pavers and found them to be suitable in appearance for a location in the public center.

Now, Therefore, Be It Resolved, Detroit City Council finds the proposal to be consistent with the spirit and intent of the PC zoning district and authorizes the Buildings and Safety Engineering Department to issue a permit for two (2) bronze plaques and their supporting granite column, as shown in the drawings submitted by the Civic Center Department and dated July 1, 2008, and

Be It Further Resolved, That the City Clerk forward a copy of this resolution to the Buildings and Safety Engineering Department.

By Council Member Collins:

WHEREAS, Pursuant to 381 PA 1996, as amended ("Act 381"), the City of Detroit Brownfield Redevelopment Authority ("Authority") has been established by resolution of the City Council of the City of Detroit (the "City") for the purpose of promoting the revitalization of eligible properties in the City; and

WHEREAS, Under Act 381 the Authority is authorized to develop and propose for adoption by City Council a brownfield plan for one (1) or more parcels of eligible property; and

WHEREAS, An eligible taxpayer may qualify for a tax credit pursuant to Michigan Public Act 36 of 2007, as amended (the "Michigan Business Tax Act"), for any eligible investments on eligible property identified under a brownfield plan; and

WHEREAS, Pursuant to the resolution establishing the Authority and the bylaws of the Authority, the Authority has submitted a proposed brownfield plan for the Pine Street Townhomes Redevelopment Project (the "Plan") that would enable the owner to apply for a Michigan Business Tax credit for eligible investments on eligible property as defined by Act 381, as amended, after the adoption of this Plan; and

WHEREAS, The Authority submitted the Plan to the Community Advisory Committee for consideration on May 22, 2008, and a public hearing was conducted by the Authority on June 2, 2008 to solicit comments on the proposed Plan; and

WHEREAS, The Community Advisory Committee recommended approval of the Plan on May 22, 2008; and

WHEREAS, The Authority approved the Plan on June 12, 2008 and forwarded it to the City Council with a request for its approval of the Plan; and

WHEREAS, City Council has published

the required notice of the public hearing on the Plan; and

WHEREAS, The City Council held a public hearing on the proposed Plan on July 9, 2008.

NOW, THEREFORE, BE IT RESOLVED, THAT:

1. **Definitions.** Where used in this Resolution the terms set forth below shall have the following meaning unless the context clearly requires otherwise:

"Eligible Activities" or "eligible activity" shall have the meaning described in Act 381.

"Eligible Property" means the property designated in the Plan as the Eligible Property, as described in Act 381.

"Plan" means the Plan prepared by the Authority, as transmitted to the City Council by the Authority for approval, copies of which Plan are on file in the office of the City Clerk.

"Taxing Jurisdiction" shall mean each unit of government levying an ad valorem property tax on the Eligible Property.

2. **Public Purpose.** The City Council hereby determines that the Plan constitutes a public purpose.

3. **Best Interest of the Public.** The City Council hereby determines that it is in the best interests of the public to promote the revitalization of environmentally distressed areas in the City to proceed with the Plan.

4. **Review Considerations.** As required by Act 381, the City Council has in reviewing the Plan taken into account the following considerations:

(a) The property designated in the Plan meets the definition of Eligible Property, as described in Act 381;

(b) The Plan meets the requirements set forth in section 13 of Act 381.

(c) The proposed method of financing the costs of Eligible Activities is feasible.

(d) The costs of Eligible Activities proposed are reasonable and necessary to carry out the purposes of Act 381.

(e) No captured taxable value is estimated to result from the adoption of the Plan since all Eligible Activities will be financed by the owner of the Eligible Property and the Plan does not provide for the use of tax increment revenues for eligible activities.

5. **Approval and Adoption of Plan.** The Plan as submitted by the Authority is hereby approved and adopted. A copy of the Plan and all amendments thereto shall be maintained on file in the City Clerk's office.

6. **Disclaimer.** By adoption of this resolution and approval of the Plan, the City assumes no obligation or liability to the owner, developer, lessee or lessor of the Eligible Property for any loss or damage that may result to such persons from the adoption of this resolution and Plan. The City makes no guarantees or representa-

tions as to the determinations of the appropriate state officials regarding the ability of the owner, developer or lessor to qualify for a Michigan Business Tax Act credit pursuant to Act 36, Public Acts of Michigan, 2007, as amended.

7. Repealer. All resolutions and parts of resolutions insofar as they conflict with the provisions of this resolution be and the same hereby are rescinded.

8. The City Clerk is requested to submit four (4) certified copies of this Resolution to the DBRA, 500 Griswold Street, Suite 2200, Detroit, MI 48226.

I hereby certify that the foregoing is a true and complete copy of a resolution adopted by the City Council of the City of Detroit, County of Wayne, State of Michigan, at a regular meeting held on the day of , 2008, and that said meeting was conducted and public notice of said meeting was given pursuant to and in full compliance with the Open Meetings Act, being Act 267, Public Acts of Michigan, 1976, as amended, and that the minutes of said meeting were kept and will be or have been made available as required by said Act.

Honorable City Council:

Re: Request to apply for a FY 2008 Congressionally Mandated Award from the Department of Justice (DOJ).

The United States Department of Justice, Office of Justice Programs is currently seeking applications for FY 2008 Congressionally Mandated Awards. Local governments are eligible to apply for funding to improve the capacity of the criminal justice system, to effectively plan, manage and allocate resources, and to encourage information sharing to reduce the incidence of crime and drug activity.

In 2007, the Detroit Police Department (DPD) submitted a proposal to receive a federal appropriation to establish a Missing Person Unit. The proposal addressed current methodologies used by the DPD with its investigation of missing persons. Ms. Judy Poston, of the Department of Justice (DOJ), informed

the Department that funding was awarded to the DPD in the amount of **\$402,457.00, with no cash match**. The grant would begin in the fall of 2008 and operate for three years. During the grant period, the DPD would continue to look for funding for the program and seek to establish it as a continuation grant.

Sergeant Jerry Shoate, of Records, is currently developing a program that meets the grant guidelines. In the application, the majority of the budget would pay salaries/overtime for individuals assigned to the Missing Person Unit (one sergeant, two police officers, and one civilian). Additionally, funds will be allocated for necessary equipment, supplies, and training/travel. In addition to improving the records functions, the mission of the newly created Missing Person Unit would be to actively investigate missing juveniles, vulnerable adults, and persons in the field who are mentally or physically challenged residing in the City of Detroit.

In the event that approval is granted to apply and the award is received, Sergeant Shoate would serve as the project director. The **deadline for the submittal of the application is June 11, 2008**.

The Board of Police Commissioners has approved this request. I am requesting approval from your Honorable Body to apply for the grant and adopt the resolution.

If you have any questions or concerns regarding this matter, please feel free to contact me at 596-1800, Monday through Friday, 9:00 a.m. to 5:00 p.m.

Re: Request permission to accept grant funding for overtime from the Southwest Detroit Business Association.

The Southwest Detroit Business Association (SDBA) applied for and recently received a grant award from the Local Initiatives Support Corporation (LISC). Within this grant award (41599-0035), the Detroit Police Department's Southwestern District was allocated **\$39,400.00, with no cash match.**

The purpose of this grant is to support the SDBA in its efforts to improve public safety by increasing Detroit Police Department (DPD/Department) personnel in the specified areas in Southwest Detroit. Specifically, the funds will pay police officers' overtime to address the increase of robberies and reported shootings in the area.

The crime enforcement strategies that will be implemented to achieve the desired objectives will be based primarily on crime analysis data gathered by Department personnel. The strategies derived will be flexible, agile and fluid to insure that emerging crime trends and patterns are appropriately addressed. The primary methods which will be utilized include increasing visibility and applying direct police enforcement action to specified areas. Personnel assigned to this operation will take enforcement action on illegal narcotic activity and the removal of dangerous weapons and wanted persons identified in those areas. The community component of the plan will address quality of life issues (environmental) and vigorous enforcement of all traffic violations and ordinances such as loiterers, juvenile offenses (curfew violations and Minor Unlawfully in Public Place (MUIPP)), abandoned vehicles, prostitution, etc. The enforcement of quality of life infractions will contribute to a reduction in shootings and robberies.

The SDBA, will serve as the fiduciary and reimburse the Department for all incurred overtime resulting from this initiative. In the event that approval is granted to accept this award, Southwestern District Deputy Chief Claudia Barden-Jackson would serve as the project director. The appropriation number is 12676 and this grant will end on December 31, 2008.

Participation requires the approval of your Honorable Body, via adoption of the attached resolution. The Board of Police Commissioners has been notified of the funding and approved participation.

Honorable City Council:

Re: Petition No. 2240 — University of Detroit Mercy request vacation of 18th Street running north of Martin Luther King Boulevard to Magnolia Avenue.

Petition No. 2240 of "University of Detroit Mercy" request conversion of 18th Street, 60 feet wide, between Magnolia Avenue, 50 feet wide and Martin Luther King Boulevard, 124 feet wide into an easement for utilities. This vacation will assist the University of Detroit Mercy with additional parking to accommodate our students and customers.

The request was approved by the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

All City departments and privately owned utility companies have reported no objections to the conversion of public rights-of-way into a private easement for public utilities. Provisions protecting utility installations are part of the resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,

JESSY JACOB

Interim City Engineer

Honorable City Council:

Re: Proposed Ordinance to Amend Chapter 47 of the 1984 Detroit City Code, *Retirement Systems, Article II, 1973 Defined Benefit/Defined Contribution (Annuity) Plan of the General Retirement System*, to Provide for an Employee Loan Program for the 1973 Defined Contribution Plan.

Pursuant to the applicable provisions of the 1997 Detroit City Charter, the above-referenced proposed ordinance is being submitted to your Honorable Body for introduction and scheduling of a public hearing. The proposed ordinance provides for participants in the 1973 Defined Contribution Plan of the General Retirement System to obtain loans from their annuity funds. The loan program will be subject to the requirements of the United States Internal Revenue Code and the rules and procedures established by the Board of Trustees of the City of Detroit General System.

The original version of the proposed ordinance was transmitted to your

Honorable Body earlier this year. Based on a memorandum from Council Fiscal Analyst, language has been added to clarify eligibility both for union and for non-union employees, the basis for the determination of interest, and the relationship of the interest rate to the costs incurred by the system in administering the program.

The Law Department requests that the internal Operations Committee refer this proposed ordinance to the Committee of the Whole for action. We will be available to answer any questions you may have concerning this proposed ordinance.

Thank you for your consideration.

Respectfully submitted,

**AN ORDINANCE to amend Chapter 47 of the 1984 Detroit City Code, Retirement Systems, Article II, 1973 Defined Benefit/Defined Contribution (Annuity) Plan of the General Retirement System, by adding Section 47-2-22, Participant Loan Program, to provide a loan program whereby a participant of the 1973 Defined Contribution Plan may borrow funds from his or her account subject to requirements and limitations of: 1) the United States Internal Revenue Code, 26 U.S.C. 1 *et seq.*, and 2) the Rules of the Board of Trustees of the General Retirement System, which may be established from time to time.**

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

**Section 1.** Chapter 47 of the 1984 Detroit City Code, *Retirement Systems, Article II, 1973 Defined Benefit/Defined Contribution (Annuity) Plan of the General Retirement System*, be amended by adding Section 47-2-22, *Participant Loan Program*, to read as follows:

**CHAPTER 47. RETIREMENT SYSTEMS  
ARTICLE II. 1973 DEFINED  
BENEFIT/DEFINED CONTRIBUTION  
(ANNUITY) PLAN OF THE GENERAL  
RETIREMENT SYSTEM**

**Sec. 47-2-22. Participant Loan Program.**

(a) *Established.* Any loans granted or renewed shall be made pursuant to a Participant Loan Program which shall conform with the requirements of Section 72(p) of the Internal Revenue Code, 26 U.S.C. 1 *et seq.* Such loan program shall be established in writing by the Board of Trustees, and must include, but need not be limited to the following:

(1) The identity of the administrator of the Participant Loan Program;

(2) A procedure to apply for loans, the amount of loan that will be approved or denied, and limitations, if any, on the types and amount of loans offered;

(3) The procedures under the program

for determining a reasonable rate of interest; and

(4) The events constituting default and the steps that will be taken to preserve plan assets.

(b) *The Loan Program.*

(1) This Loan Program shall be contained in a separate written document copies of which shall be made available in the offices of the City of Detroit General Retirement System for prospective participants in the program. The Board of Trustees is authorized to adopt rules and regulations, from time to time, to govern the administration and the operation of this program. Copies of the rules shall also be made available to prospective participating members of the system in the offices of the General Retirement System, and

(2) All collective bargaining agreements which accept the terms of this section are specifically agreeing to be subject to the Board's authority to modify or amend the Participant Loan program from time to time, including during the effective terms of the applicable labor agreement and no such modification or amendment shall be deemed a violation of said labor agreement and no grievance or other form of action shall be effective to overturn or alter the Board's decision.

(c) *Eligibility.* Subject to rules and procedures established by the Board, loans will initially be made only to non-union participants of the General Retirement System. Union employees will be eligible when their respective bargaining unit has accepted the program. Former participants, spouses or participants, and beneficiaries are not eligible to receive any loans from the Plan. Subject to rules and procedures established by the Board, a participant who has been in the plan for twelve (12) months or more is eligible to apply for a loan from this plan.

(d) *Amount of Loan.* A participant who has satisfied applicable rules and procedures may borrow from his or her account an amount, which does not exceed fifty percent (50%) of the participant's vested accumulated balance, or ten thousand dollars (\$10,000.00) reduced by the excess, if any, of: 1) the highest outstanding balance of loans from the trust during the one (1) year period ending on the day before the date on which the loan is made, or 2) the outstanding balance of loans from the trust on the date on which the loan is made, whichever is less. The minimum loan amount shall be one thousand dollars (\$1,000.00).

(e) *Terms and Conditions.* In addition to such rules and procedures that are established by the Board, all loans shall comply with the following terms and conditions:

(1) Loan applications shall be in writing;

(2) Loans shall be repaid by equal pay-

roll deductions over a period not to exceed five (5) years, or, where the loan is for the purpose of buying a principal residence, a period not to exceed fifteen (15) years. In no case shall the amount of the payroll deduction be less than twenty dollars (\$20.00) for any two-week period;

(3) Each loan shall be made against the assignment of the participant's entire right, title, and interest in and to the trust, supported by the participant's collateral promissory note for the amount of the loan, including interest payable to the order of the trustee;

(4) Each loan shall bear interest at a rate determined by the Board. The Board shall not discriminate among participants in its determination of interest rates on loans. Loans initiated at different times may bear different interest rates, where, in the opinion of the Board, the difference in rates is supported by a change in market interest rates or a change in the pension system's current assumed rate of return. The loan interest rate shall bear a reasonable relationship to market rates for secured loans of a similar duration and shall bear a reasonable relationship to the costs to the pension trust of administering the trust. The loan interest rate shall be calculated in a manner that will not negatively affect the City's costs to the trust or the return to trust members;

(5) Loan repayments shall be suspended under this plan as permitted by Section 414(u)(4) of the Internal Revenue Code, 26 U.S.C. 414(u)(4). A participant who has an outstanding loan balance from the plan who is absent from employment with the employer, and who has satisfied the requirements of 26 USC 141(u) of the Internal Revenue code shall not be required to make loan repayments to the fund during said periods of absence.

(f) *Renewal of Loan.* Any loans granted or renewed shall be made pursuant to the participant loan program and Section 72(p) of the Internal Revenue Code, 26 U.S.C. 72(p) and the regulations thereunder.

(g) *Loan Balance.* A participant's outstanding loan balance shall be considered a directed investment by the participant and interest payments, shall be credited to the participant's account balance, and shall not be part of net investment income or part of the participant's account balance for the purpose of allocation of net investment income under Section 47-2-18 of this Code.

(h) *Distributions.* No distributions shall be made to a participant, former participant, or beneficiary until all loan balances drawn on the applicable vested accumulated balance and applicable accrued interest have been liquidated.

(i) *Annual Report.* The General Retirement System shall include, in their annual report to all members, an accounting of the loan program established by

this section, which contains the number and amount of loans made, the costs of administering the program, the amount of payments made including interest received by the trust, the amount of loans outstanding, including any defaults or delinquencies, and an evaluation as to whether the interest charged in that fiscal year covered the costs of administering the program.

**Secs. 47-2-22 47-2-23-47-2-30. Reserved.**

**Section 2.** All ordinances, or parts of ordinances, that conflict with this ordinance are repealed.

**Section 3.** This ordinance is declared necessary for the preservation of the public peace, health, safety, and welfare of the People of the City of Detroit.

**Section 4.** In the event that this ordinance is passed by a two-thirds (2/3) majority of City Council Members serving, it shall be given immediate effect and shall become effective upon publication in accordance with Section 4-116 of the 1997 Detroit City Charter. In the event that this ordinance is passed by a less than two-thirds (2/3) majority of the City Council Members serving, it shall become effective no later than thirty (30) days after enactment in accordance with Section 4-115 of the 1997 Detroit City Charter.

June 18, 2008

Honorable City Council:

Re: Proposed Ordinance to Amend Chapter 55 of the 1984 Detroit City Code, "Traffic and Motor Vehicles," by Amending Section 55-2-24, "Disposition of Parking Violation Notices and Citations," Division 5, "Parking Violations Bureau," Section 55-2-42, "Schedule of Fines, of Reductions for the Prompt Payment of Fines, and of penalties for the late payment of fines, for parking violations," and Section 55-2-44, "Immobilization and Impoundment of Vehicles for Failure to Answer Parking Violation Notices or Citations."

On November 26, 2007, the above-referenced proposed ordinance was transmitted to your Honorable Body. At a discussion that was held at the Public Health and Safety Committee in January 14, 2008, your Honorable Body, through Council Members Alberta Tinsley-Talabi and Sheila M. Cockrel, requested that certain provision of the above-referenced proposed ordinance be reviewed and addressed.

Subsequently, members of the Municipal Parking Department, Council Research and Analysis Division, and the Law Department met, on two occasions, to discuss and to resolve the issues that were raised. As a result, the above-referenced proposed ordinance was revised, approved as to form, and transmitted to your Honorable Body on February 1, 2008.

Thereafter, the Public Health and Safety Committee held discussions regarding this proposed ordinance on March 3, 2008, March 17, 2008, and April 14, 2008. A public hearing was held on May 12, 2008. As a result of the public hearing, *substantive* changes were made to increase the time lines for providing a warning notice, rescinding a warning notice, and providing a final notice. In addition, proposed Subsection (m), which provided that, where a vehicle is unclaimed after impoundment, a registered owner or secured party may secure release of the vehicle by paying all fines, penalties, fees, costs and restitution prior to sale or other disposition of the vehicle, was deleted.

Pursuant to the applicable provisions of the 1997 Detroit City Charter, and due to the substantive changes, the above-referenced proposed ordinance is being submitted to your Honorable Body for re-introduction, consideration, and passage. This proposed ordinance has been approved as to form.

This proposed ordinance amends Chapter 55 of the 1984 Detroit City Code, "Traffic and Motor Vehicles," by amending Article II, "Administration and Enforcement," Division 3, titled "Parking Violation

Notices and Citations," containing Sections 55-2-21 to 5-2-29, Division 5, "Parking Violations Bureau," containing Sections 5-2-41 and 55-2-42, and Division 6, titled "Parking Scofflaw Program," containing Sections 55-2-44 to 55-2-50.

Specifically, the proposed ordinance provides that parking violation notices and citations that are not disposed of as provided by applicable state law and Chapter 55 of the 1984 Detroit City Code are deemed unanswered. The term "unanswered" is significant in the administration of the Parking Scofflaw Program, and, until this amendment, there has been no legal definition of the term. In addition, this proposed ordinance provides that, where a vehicle is registered in another state or country and a parking fine is not paid within thirty (30) days of the date of issuance of a parking violation notice or citation, an additional fifty dollar (\$50.00) penalty shall be being added to the original fine.

Significantly, the proposed ordinance clarifies that immobilization and/or impoundment may occur on any vehicle that is currently registered to an owner where the registered owner has failed to answer six (6) or more parking violation notices or citations regarding illegal parking, which have accrued on any vehicle currently or previously registered to the owner. In addition, the proposed ordinance enables the Municipal Parking Department Parking Violation Bureau to more efficiently administer the Parking Scofflaw program, sometimes known as the "Boot and Tow Program", by providing that a warning notice of impending immobilization and/or impoundment be prepared and sent sixty-three (63) days after the issuance of a sixth (6th) unanswered parking violation notice or citation; by reducing the time for obtaining rescission of a warning notice of impending immobilization and impoundment from twenty-one (21) days to fourteen (14) days; by providing that a warning notice of impending immobilization and/or impoundment may be rescinded, among other ways, where the registered owner appears, in person, at the Parking Violations Bureau and enters into and fully complies with a formal payment plan; by providing that a final notice of impending immobilization and/or impoundment be prepared and sent seventy-seven (77) days after either the issuance of a sixth (6th) unanswered parking violation notice or the failure of the registered owner to take action to rescind the warning notice; by reducing the time for obtaining rescission of a final notice of impending immobilization and impoundment from twenty-one (21) days to seven (7) days; and by providing that a final notice of impending immobilization and/or impoundment may

July 15

1854

2008

be rescinded, among other ways, where the registered owner appears, in person, at the Parking Violations Bureau and enters into and fully complies with a formal payment plan.

Moreover, this proposed ordinance provides notice of impoundment to any secured party or parties as well as to the registered owner of a vehicle that has been impounded, reduces the time for claiming an impounded vehicle from thirty-five (35) days to twenty-one (21) days, and provides that, where a hearing is requested and provided within three (3) days of the request and the decision is adverse to the registered owner, the registered owner may only secure release of his or her vehicle by complying with the order within twenty-one (21) days of the Administrative Hearings Tribunal decision date, or by initiating review and providing the requisite cash deposit within twenty-one (21) days of the Administrative Hearings Tribunal decision date. In addition, the proposed ordinance provides that, where a registered owner fails to pay the full amount due, the owner is required to return the vehicle, which was released to the owner, to the possession of the Parking Violations Bureau, within twenty-one (21) days of entry of order by the Administrative Hearings Tribunal, for disposition in accordance with Chapter 55 of the 1984 Detroit City Code.

Further, this proposed ordinance provides that, where a decision of the Administrative Hearings Tribunal is adverse, a registered owner must pursue review of the adverse decision, within twenty-one (21) days of entry of the order, through any available equitable remedy. Lastly, this proposed ordinance provides that, where a restraint is damaged, destroyed, or lost as a result of being removed or altered by a person, who was not authorized to remove or alter the restraint, the parking Violations Bureau shall be entitled to an order of restitution in accordance with state law, in addition to, or in lieu of, any other penalty authorized by law.

We are available to answer any questions that your Honorable Body may have concerning this proposed ordinance. Thank you for your consideration.

Respectfully submitted,  
JOHN E. JOHNSON, JR.

#### City Council Division of Research & Analysis

July 11, 2008

Honorable City Council:

Re: Amending Chapter 55, of the Detroit City Code, *Traffic and Motor Vehicles*, Article IX, *Motorcycles, Motor-Driven Cycles And Bicycles*, Division 3, *Bicycle Licensing*, by repealing Division 3, *Bicycle Licensing*.

At the Public Health and Safety Standing Committee meeting this morning, the Research and Analysis Division (RAD) was asked to provide the language necessary to repeal the section of the City Code that requires bicycles to be licensed, the fee associated with that license, and the regulations governing riding a bicycle in the City of Detroit.

Attached for your review is the language to repeal the appropriate section of the City Code.

It is recognized that registering and licensing bicycles is a necessary step to

help prevent theft and to expedite the return of stolen bicycles to the proper owner. To that end, it was suggested that RAD work with the Police Department, Law, and local bicycling advocate groups to develop new language for this section of the Code that will address the charge for registration, recognition of bicycle registration in another city, the fine for non-registered bicycles, and an informational campaign to alert citizens of the change in City of Detroit policy regarding bicycles.

The Police Department announced that it would begin issuing citations for non-registered bicycles in August. In order to implement City Council's public policy on bicycles this season, it is necessary to immediately repeal this section of the City Code, even though the replacement language has not yet been developed.

Should you need anything further please advise.

Respectfully submitted,  
DAVID D. WHITAKER

Honorable City Council:

Re: Resolution Authorizing the Issuance and Sale of a Sewage Disposal System Revenue Bond to the Michigan Municipal Bond Authority,, of Junior Standing to the City's Sewage Disposal System Revenue and Revenue Refunding Bonds now outstanding.

The attached Resolution authorizes the issuance and sale of approximately \$405 million of Sewage Disposal System Revenue Bonds for the purpose of defraying part of the cost of acquiring and constructing repairs, extensions and improvements to the City's Sewage Disposal System Capital Program.

This financing is for participation in the Michigan Municipal Bond Authority's Clean Water Revolving Fund 4th Quarter Financing, to take advantage of the Authority's lower cost of borrowing.

It is anticipated that the sale will occur in early September. Bond Counsel has prepared the attached Resolution and I recommend its adoption by your Honorable Body, with waiver of reconsideration, at your next formal session.

Respectfully submitted,  
NORMAN L. WHITE  
Finance Director

**Section 3. Estimated Costs and Period of Usefulness of the Projects.** The DWSD Estimated Cost of each Project, including expenses incidental to each Project and its financing, specified in Section 4 hereof, is hereby approved and confirmed, and the period of usefulness of each Project is estimated to be not less than 40 years.

**Section 4. Bonds Authorized; Issuance of Bonds; Incorporation of the Bond Ordinance.**

(a) To pay all or a part of the costs of each Project, including payment of legal, financial, printing and other expenses incident thereto and incident to the issuance and sale of the Bonds, payment of capitalized interest, if necessary and permitted by the State Revolving Fund Program, the City shall borrow a sum of not to exceed the Maximum Bond Amount for each Series Bond and issue the Series Bond therefor pursuant to Act 94 and the Bond Ordinance. The Maximum Bond Amount

shall be \$370,000,000 for the Series 2008-SRF1 Bonds and shall be \$35,000,000 for the Series 2008-SRF2 Bonds.

(b) The Bonds shall be issued as SRF Junior Lien Bonds under the Bond Ordinance, and shall be of junior standing and priority of lien and secured on a subordinate basis to Senior Obligations and all Junior Obligations which may be issued under the Bond Ordinance with a higher priority of lien on Net Revenues than that granted the SRF Junior Lien Bonds. Notwithstanding the foregoing, in the event that the City is unable to meet the Authority's requirement that the Bonds receive an investment grade rating if they are issued as SRF Junior Lien Bonds, then the Bonds shall be issued as Second Lien Bonds or, if necessary to achieve an investment grade rating, as Senior Lien Bonds, and all references herein to the lien priority of the Bonds, whether in the caption of the Bonds, in reference to funds or accounts related to the Bonds under the Bond Ordinance, or otherwise, shall be changed to reflect the applicable lien priority.

(c) The proceeds of each Series Bond shall be used for the purpose of acquiring and constructing the respective Project, for capitalized interest, if necessary and permitted by the State Revolving Fund Program, and to pay issuance costs described above. The balance of the costs of the Projects and the other costs, expenses, and deposits shall be paid from the proceeds of additional Securities issued under the Bond Ordinance, if any, and moneys of the System now on hand and legally available therefor and such moneys are hereby appropriated therefor.

(d) Except as otherwise provided in this Resolution, all of the provisions of the Bond Ordinance shall apply to the Bonds, the same as though set forth in full in this Resolution, the purpose of this Resolution being to supplement the Bond Ordinance to authorize the issuance of SRF Junior Lien Bonds as herein provided for the purpose herein set forth, such purpose being authorized by the Bond Ordinance, upon the conditions therein stated, which conditions have been fully met or will be fully met prior to the issuance of the Bonds.

**Section 5. Bond Details, Issuance in Series Registration, Execution and Transfer of Bond.**

(a) The Bonds for Project A shall be designated SEWAGE DISPOSAL SYSTEM SRF JUNIOR LIEN REVENUE BONDS, SERIES 2008-SRF1; and the Bonds for Project B shall be designated SEWAGE DISPOSAL SYSTEM SRF JUNIOR LIEN REVENUE BONDS, SERIES 2008-SRF2. The Bonds shall bear such additional or alternative designation as may be determined by the Finance Director of the City, subject to the

Bond Ordinance. In the event the Bonds are not issued in 2008, the Finance Director is authorized in his discretion to redesignate the year and series designation of the Bonds and any funds and accounts established hereunder to correspond with the year of issuance of the Bonds.

(b) The Bonds for each Project shall be issued in the Maximum Bond Amount for that Project, or such lesser amounts as shall be set forth in the DEQ Orders or Purchase Contracts, and shall be payable as to principal on such dates as are set forth in the related DEQ Orders or Purchase Contracts for the Bonds, provided, however, that the maximum aggregate amount of interest and principal becoming due in any Fiscal year (whether at maturity or by reason of Mandatory Redemption Requirements) on all securities outstanding under the Bond Ordinance, including Bonds, shall not exceed the amount permitted by the Bond Ordinance. Principal of the Bonds shall be payable in the same manner as interest thereon on the annual payment date set forth above.

(c) The Bonds shall bear interest at a rate of 2.50% per annum, or such other interest rate as shall be set forth in the related DEQ Orders or Purchase Contracts, payable, except as hereinafter provided, on each Interest Payment Date by check made by the Transfer Agent, and mailed, or sent by other means, to the registered owner at the registered address, as shown on the registration books maintained by the Transfer Agent; provided, however, that at the written request of the Authority or other registered owner of at least \$1,000,000 principal amount of the Bonds (which request may provide that it will remain in effect with respect to subsequent Interest Payment Dates unless and until changed or revoked at any time prior to an Interest Payment Date by subsequent written notice to the Transfer Agent), interest shall be paid by wire transfer or other immediately available funds acceptable to the Transfer Agent and the City. Except as hereinafter provided, interest on the Bonds shall be payable to the registered owner of record as of the Bonds as of the 15th day of the month immediately preceding any Interest Payment Date. The date of determination of registered ownership for purposes of payment of interest as provided in this paragraph may be changed by the City to conform to market practice in the future.

(d) Notwithstanding any other provision of this Bond, so long as the Authority is the owner of this Bond, (a) this Bond is payable as to principal, premium, if any, and interest at The Bank of New York Trust Company, N.A. or at such other place as shall be designated in writing to the Issuer by the Authority (the "Authority's

July 15

1866

Depository"); (b) the Issuer agrees that it will deposit with the Authority's Depository payments of the principal of, premium, if any, and interest on this Bond in immediately available funds by 12:00 noon at least five business days prior to the date on which any such payment is due whether by maturity, redemption or otherwise; in the event that the Authority's Depository has not received the Issuer's deposit by 12:00 noon on the scheduled day, the Issuer shall immediately pay to the Authority, as invoiced by the Authority, an amount to recover the Authority's administrative costs and lost investment earnings attributable to that late payment; and (c) written notice of any redemption of this Bond shall be given by the Issuer and received by the Authority's Depository at least 40 days prior to the date on which such redemption is to be made.

(e) The Bonds shall be dated September 29, 2008 or such other dates as provided in the related DEQ Orders or the Purchase Contracts. The Series Bond for each Project shall be issued as a single, fully registered bond.

(f) The Bonds may be subject to redemption prior to maturity by the City only with the prior written consent of the Authority and on such terms as may be required by the Authority.

(g) Unless waived by any registered owner of a Bond to be redeemed, official notice of redemption of such Bond shall be given by the Transfer Agent on behalf of the City. Such notice shall be dated and shall contain at a minimum the following information: complete official name of the issue, including series; original issue date; payment dates; interest rate; the date of redemption notice; the redemption date; the redemption price; the place where the Bonds, or portions thereof called for redemption, are to be surrendered for payment; the Transfer Agent's name and address with contact person and phone number; and a statement that interest on the Bond or portions thereof called for redemption shall cease to accrue from and after the redemption date if moneys are on hand with the Transfer Agent to redeem Bonds or portions thereof called for redemption.

In addition, further notice shall be given by the Transfer Agent in such manner as may be required or suggested by regulations or market practice at the applicable time, but no defect in such further notice nor any failure to give all or any portion of such further notice shall in any manner affect the effectiveness of a call for redemption if notice thereof is given as prescribed herein.

**Section 6. Payment of Bonds.** The Bonds and the interest thereon shall be payable solely from the Net Revenues, and to secure such payment, the statutory lien upon the whole of the Net Revenues

created in the Bond Ordinance, subject to the prior lien thereon of Senior Obligations and any other Junior Obligations which may be issued under Bond Ordinance with a higher priority of lien on Net Revenues than that granted the SRF Junior Lien Bonds, is hereby confirmed in favor of the Bonds.

The obligation of the City to pay the principal of and interest on the Bonds shall continue until such payment in full has been made or until sufficient cash or sufficient Government Obligations shall have been deposited in trust for payment in full of the principal of and the interest on the Bonds to be defeased to its maturity, or, if called for redemption, to the date fixed for redemption, together with the amount of the redemption premium, if any. Upon deposit of cash or Sufficient Government Obligations, as provided in the previous sentence, the statutory lien herein referred to shall be terminated with respect to the Bonds for which such deposit was made, and, the holders of such Bonds shall have no further rights under this Resolution except for payment from the deposited funds and registration and replacement of bonds, and such Bonds shall no longer be considered to be outstanding under the Bond Ordinance and this Resolution.

**Section 7. Funds and Accounts; Flow of Funds.** Except as otherwise provided in this Resolution, all of the provisions relative to funds and accounts, their maintenance, the flow of funds and other details relative thereto, shall remain as specifically set forth in the Bond Ordinance.

**Series 8. Bond Proceeds.**

(a) The portion of the proceeds of the sale of each Series Bond representing capitalized interest, if any, as received, shall be deposited in the SRF Junior Lien Bond Interest and Redemption Fund established by the Bond Ordinance, and the City may take a credit for the amount so deposited against the amount required to be deposited in such fund for payment of the next maturing interest payment on the related Series Bond.

(b) The balance of the proceeds of the sale of each Series Bond, as received, shall be deposited in the related Construction Sub-Account. These sub-accounts shall be established and maintained as separate depository accounts in accordance with the Bond Ordinance. Moneys in each Construction Sub-Account shall be applied solely in payment of the costs of the related Project, and any engineering, legal, financial or printing costs, and other expenses incident thereto and to the financing thereof. Payments for construction, either on account or otherwise, shall not be made unless the registered engineer in charge of such work shall file a signed statement with the Commissioners to the effect that the work

has been completed in accordance with the plans and specifications therefor, that it was done pursuant to and in accordance with the contract therefor, that such work is satisfactory, and that such work has not been previously paid for. Payment of the costs of engineering, legal, financial, printing, and other costs of issuance with respect to the Bonds as provided in this section shall be made upon submission of appropriate documentation to the Finance Director of the City.

(c) Any unexpended balance remaining in any Construction Sub-Account after completion of the related Project may, with the prior approval of the Authority and at the discretion of DWSD, be used for further improvements, enlargements, and extensions to the System if, at the time of such expenditure, such use is approved by the Michigan Department of Treasury, Municipal Finance Division, if such permission is then required by law, and if such use will not, in the opinion of nationally recognized bond counsel, impair the exclusion of interest on the Bonds from gross income for federal income tax purposes. Any remaining balance after such expenditure shall, with the prior approval of the Authority, be paid into the SRF Junior Lien Bond Interest and Redemption Fund for the purpose of redemption or purchase, at not more than the fair market value, of the outstanding Bonds or portions thereof. Bonds acquired by purchase shall be canceled and shall not be re-issued.

**Section 9. Bond Form.** Each Series Bond shall be in substantially the form set forth in Appendix A hereto, with additions appropriate for the respective Series Bond and with such changes and additions as shall be determined appropriate by the Finance Director.

**Section 10. Covenants Regarding Exclusion of Interest on the Bonds for Federal Tax Purposes.** The City hereby covenants with and represents to the Authority and any other registered owners of the Bonds that so long as any portion thereof remains outstanding and unpaid as to either principal or interest, the City shall, to the extent permitted by law, take all actions within its control to maintain, and will refrain from taking any action which would impair, the exclusion of the interest on the Bonds from gross income for federal income tax purposes under the Internal Revenue Code of 1986, as amended (the "Code"), including, but not limited to, actions relating to any required rebate of arbitrage earnings and the expenditure and investment of Bond proceeds and moneys deemed to be proceeds of the related Series Bond, and to prevent the Bond from being or becoming a "private activity bond" as that term is used in Section 141 of the Code.

**Section 11. Act 34 Compliance; Sale**

**of Bonds.** The Mayor and the Finance Director, each acting alone, is authorized and directed to do all such things, take all such actions and make all such applications and filings with the Michigan Department of Treasury as may be necessary or appropriate to comply with Act 34, Public Acts of 2001, as amended, or otherwise precedent to or in connection with the issuance, sale and delivery of the Bonds.

**Section 12. Authorizations of Deputies or Persons Serving in an Acting or Interim Capacity.** During the absence or disability of the Mayor, Finance Director, Director of DWSD, Treasurer, or Corporation Counsel, any person serving as the deputy for such officer may exercise all the powers and perform all the duties of, and make all the determinations herein required or permitted hereunder by, such officer with respect to the Bonds. While the office of Mayor, Finance Director, Director of DWSD, Treasurer, or Corporation Counsel is vacant, any person serving as such officer in an acting or an interim capacity and such person's deputy, may each exercise all the powers and perform all the duties of, and make all the determinations herein required or permitted hereunder by, such officer with respect to the Bonds.

**Section 13. Execution of Bonds.** The Mayor and the Finance Director are hereby authorized and directed to execute each Series Bond by manual or facsimile signature for and on behalf of the City and in its name, to impress or imprint thereon the official seal of the City or a facsimile thereof, and to deliver each Series Bond to the Authority upon the terms and conditions set forth in the respective Purchase Contract.

**Section 14. Sale of Bonds; Execution of Authority's Documents.** Each Series Bond shall be sold to the Authority pursuant to the related Purchase Contract. The Purchase Contract, Supplemental Agreement, and the Issuer's Certificate for each Series Bond, in the forms on file with the Finance Director, are hereby approved; and the Mayor, the Finance Director, and the Director of the DWSD are each hereby authorized to execute and deliver, for and on behalf of the City, such Purchase Contracts, Supplemental Agreements, and Issuer's Certificates to the Authority in the forms hereby approved with such changes thereto and insertions therein as the Finance Director shall determine are necessary or desirable. The executed forms of the Purchase Contracts, the Supplemental Agreements, and the Issuer's Certificates shall be deemed to be the final forms thereof.

**Section 15. Authorization of Other Officials.** The Mayor, City Clerk, Finance Director, Treasurer, Corporation Counsel, Director of DWSD, or any of them, are

hereby authorized to execute and deliver such certificates, documents, instruments, opinions, and other papers as may be deemed necessary or appropriate to complete the sale, execution, and delivery of the Bonds as determined by such officials executing and delivering the foregoing items. Any actions heretofore taken by such persons in furtherance of the foregoing are hereby ratified and confirmed.

**Section 16. Declaration of Official Intent.** The City makes the following declarations for the purpose of complying with the reimbursement rules of Treas. Reg. §1.150-2 pursuant to the Code:

(a) The City plans to finance each Project through the issuance of the related Series Bond in an amount not to exceed the Maximum Bond Amount.

(b) The City Council of the City hereby declares its intent to reimburse itself from the proceeds of each Series Bond for expenditures made or to be made for the related Project.

(c) The maximum aggregate principal amount of each Series Bond expected to be issued for the related Project is the Maximum Bond Amount for that Series Bond.

(d) Advances to be made for any Project will be borrowed from the Improvement and Extension Fund of the City's Sewage Disposal System Fund, which shall be reimbursed upon the issuance of each series of Bonds.

**Section 17. Resolution Constitutes a Contract Interpretation; Modification.** The provisions of this Resolution shall constitute a contract between the City and each registered owner of the Bonds. The provisions of this Resolution shall be construed and interpreted liberally in order to effectuate the purposes of the Bond Ordinance, Act 94, the Shared Credit Rating Act, Act No. 227, Public Acts of Michigan, 1985, as amended, which creates the Authority, and the Natural Resources and Environmental Protection Act, Act 451, Public Acts of Michigan, 1994, as amended. The provisions of this Resolution, including, but not limited to, provisions with respect to disbursements of bond proceeds, disbursements, and payments of capitalized interest on the Bonds and payments by the City to the Authority in amortization of the Bonds, may be modified by agreement of the City and the Authority without the consent of the holders of Securities outstanding under the Ordinance, so long as such modifications do not prejudice such holders of Securities of higher priorities.

**Section 18. Repeal; Savings Clause.** All other ordinances, resolutions or orders, or parts thereof, in conflict with the provisions of this Resolution are, to the extent of such conflict, hereby repealed.

**Section 19. Severability; Paragraph Headings; Conflict.** If any section, para-

graph, clause or provision of this Resolution shall be held invalid, the invalidity of such section, paragraph, clause or provision shall not affect any of the other provisions of this Resolution. The section headings in this Resolution are furnished for convenience of reference only and shall not be considered to be part of this Resolution.

**Section 20. Publication and Recordation.** This Resolution shall be published in full in The Detroit Legal News, a newspaper of general circulation in the City qualified under State law to publish legal notices, promptly after its adoption.

Municipal Bond Authority

PRINCIPAL AMOUNT: \*\*\*\*\$\_\_\_\_\_\*\*\*\*

The City of Detroit, located in the County of Wayne, Michigan (the "Issuer") for value received, hereby promises to pay to the Michigan Municipal Bond Authority (the "Authority"), out of the hereinafter described Net Revenues of the Issuer's Sewage Disposal System, the principal amount of \_\_\_\_\_

Dollars (\$\_\_\_\_\_) or so much thereof as shall have been advanced to the Issuer pursuant to the Purchase Contract between the Issuer and the Authority dated as of \_\_\_\_\_

, 2008 and a Supplemental Agreement by and among the Issuer, the Authority, and the State of Michigan, acting through the Department of Environmental Quality, in lawful money of the United States of America, with interest on the principal from the date each disbursement of such principal is advanced by the Authority to the Issuer at the rate of two and one-half percent (2.50%) per annum until paid. Interest is first payable on April 1, 2009 and semiannually on each October 1 and April 1 thereafter, and principal is payable on the first day of \_\_\_\_\_, commencing \_\_\_\_\_ 1, \_\_\_\_\_ (as identified in the Purchase Contract), and annually thereafter in the principal installments indicated on the Payment Schedule attached as Exhibit A hereto, unless prepaid prior thereto as hereinafter provided. This bond is payable as to principal, premium, if any, and interest at the corporate trust office of The Bank of New York Trust Company, N.A. or to such other place as shall be

designated in writing to the Issuer by the Authority (the "Authority's Depository").

This bond may be subject to redemption prior to maturity by the Issuer only with the prior written consent of the Authority and on such terms as may be required by the Authority.

Notwithstanding any other provision of this bond, so long as the Authority is the owner of this bond, (a) this bond is payable as to principal, premium, if any, and interest at The Bank of New York Trust Company, N.A. or at such other place as shall be designated in writing to the Issuer by the Authority (the "Authority's Depository"); (b) the Issuer agrees that it will deposit with the Authority's Depository payments of the principal of, premium, if any, and interest on this bond in immediately available funds by 12:00 noon at least five business days prior to the date on which any such payment is due whether by maturity, redemption or otherwise; in the event that the Authority's Depository has not received the Issuer's deposit by 12:00 noon on the scheduled day, the Issuer shall immediately pay to the Authority, as invoiced by the Authority, an amount to recover the Authority's administrative costs and lost investment earnings attributable to that late payment; and (c) written notice of any redemption of this bond shall be given by the Issuer and received by the Authority's Depository at least 40 days prior to the date on which such redemption is to be made.

In the event of a default in the payment of principal hereof or interest hereon when due, whether at maturity, by redemption or otherwise, the amount of such default shall bear interest (the "additional interest") at a rate equal to the rate of interest which is two percent above the Authority's cost of providing funds (as determined by the Authority) to make payment on the bonds of the Authority issued to provide funds to purchase this bond, but in no event in excess of the maximum rate of interest permitted by law. The additional interest shall continue to accrue until the Authority has been fully reimbursed for all costs incurred by the Authority (as determined by the Authority) as a consequence of the Issuer's default. Such additional interest shall be payable on the interest payment date following demand of the Authority. In the event that (for reasons other than the default in the payment of any municipal obligation purchased by the Authority) the investment of amounts in the reserve account established by the Authority for the bonds of the Authority issued to provide funds to purchase this bond fails to provide sufficient available funds (together with any other funds which may be made available for such purpose) to pay the interest on outstanding bonds of the Authority issued to fund such amount, the Issuer shall and

hereby agrees to pay on demand only the Issuer's pro rata share (as determined by the Authority) of such deficiency as additional interest on this bond.

During the time funds are being drawn down by the Issuer under this bond, the Authority will periodically provide the Issuer a statement showing the amount of principal that has been advanced and the date of each advance, which statement shall constitute prima facie evidence of the reported information; provided that no failure on the part of the Authority to provide such a statement or to reflect a disbursement or the correct amount of a disbursement shall relieve the Issuer of its obligation to repay the outstanding principal amount actually advanced, all accrued interest thereon, and any other amount payable with respect thereto in accordance with the terms of this bond. Capitalized terms not defined herein and defined in the hereinafter defined Bond Ordinance are used herein as therein defined.

For the prompt payment of the principal of and interest on this bond, the revenues of the Sewage Disposal System of the Issuer (the "System"); including all appurtenances, extensions, and improvements thereto, after provision has been made for reasonable and necessary expenses of operation, maintenance and administration (the "Net Revenues"), are irrevocably pledged, and a statutory lien thereon is recognized and created. The bonds of this series are of equal standing and priority of lien on Net Revenues as all other SRF Junior Lien Bonds issued under and in accordance with the Bond Ordinance and are of junior standing and priority of lien as to Net Revenues, and secured on a subordinate basis, to all Senior Obligations heretofore and hereafter issued under and in accordance with the Bond Ordinance and Junior Obligation heretofore and hereafter issued under and in accordance with the Bond Ordinance with a higher lien than that granted SRF Junior Lien Bonds.

This bond is issued pursuant to Ordinance No. 18-01, effective October 22, 2001 (the "Bond Ordinance"), and under and in full compliance with the Constitution and statutes of the State of Michigan, including specifically Act 94, Public Acts of Michigan, 1933, as amended, for the purpose of paying all or part of the cost of acquiring and constructing replacements, repairs, extensions and improvements to the System and paying the costs of issuing this bond.

This bond is a self-liquidating bond which is not a general obligation of the Issuer and does not constitute an indebtedness of the Issuer within any constitutional, statutory, or charter limitation, but is payable, both as to principal and interest, solely from the Net Revenues of the

System. The principal of and interest on this bond are secured by the statutory lien hereinbefore mentioned.

For a complete statement of the revenues from which and the conditions under which this bond is payable, a statement of the conditions under which additional bonds of equal standing may hereafter be issued, and the general covenants and provisions pursuant to which this bond is issued, reference is made to the Bond Ordinance.

**APPENDIX B  
PROJECT A**

**Upper Rouge Tunnel CSO Control — South Tunnel Segment 5175-09 (PC 764).** The Project includes, but is not necessarily limited to the excavation, initial support and final lining of the pumping station work shaft. This shaft is 80 feet in diameter and is sunk to a depth of 200 feet, and will be used to launch the tunnel boring machine, for muck removal and materials conveyance during the construction of the South Tunnel. It will later be incorporated into a pumping station under a separate contract. The pumping station work shaft is located just north of the intersection of Warren Avenue and Outer Drive. The Project also includes excavation, initial support and final lining of 18,700 linear feet of tunnel from the pumping station work shaft to the DS-7 work shaft located in Eliza Howell Park north of the intersection of Schoolcraft and Virgil Avenue. The tunnel will be in rock approximately 150 feet below grade with a finished internal diameter of 30 feet. Alternate bids for the initial and final lining of the tunnel will be accepted. In addition, the Project includes the excavation, initial support and final line of 6 connecting adits/deacration chambers ranging in finished internal diameter from 7 to 32 feet, and in length from 80 to 1,441 feet. These connect the main South Tunnel to drop shafts that will be constructed under other separate contracts. All associated work including dewatering, noise control, traffic management, permitting, disposal of excavated material, etc. will also be included with the Project.

**PROJECT B**

**Oakwood Relief Sewer System Project 5175-07 (PCS-79).** The Detroit Water and Sewerage Department (DWSD) is planning to construct a new pump station and 9 million gallon retention basin to serve the Oakwood Sewer District in southwest Detroit, as part of the City's long term program to control combined sewer overflows (CSOs). Sewer system improvements will be undertaken

concurrently with the CSO control project to provide the capacity needed to transport peak flows during wet weather events without surcharging the System. These projects are needed to comply with the requirements of the National Pollutant Discharge Elimination System (NPDES) permit issued to DWSD by the State of Michigan. DWSD is also proposing a major renovation and upgrade to the Oakwood District sewers to expand the transport capacity of the system and reduce basement flooding problems in the tributary area. The collector sewer improvements will be undertaken as a separate construction project, independent of the proposed CSO control facility.

The Project includes, but is not necessarily limited to, the construction of three junction chambers, along with 290 linear feet of influent (two 145 foot parallel lines) of 18 foot diameter combined sewer (hand mine tunnel), 308 linear feet of 10 foot diameter combined sewer (hand mine tunnel), and 874 linear feet of 7.5 foot diameter combined sewer (fiberglass reinforced pipe insert). Also the construction of approximately 427 linear feet of 15, 21, 24, and 36 inch combined sewer generally in Pleasant, Liddesdale, and Sanders Streets along with 215 linear feet of catch basin leads, three (3) standard manholes and eight (8) catch basins in the City of Detroit, Michigan. Additionally, the Project includes but is not limited to the construction in open cut of approximately 7,505 linear feet of 12, 15, 18, 21, 24, and 27 inch combined sewer along with approximately 1,453 linear feet of catch basin leads, 39 standard manholes, 5 drop manholes and 51 catch basins in the area bounded by the Rouge River to the north, Heidt Street to the west, Fort Street to the east and Sanders to the south in the Oakwood Sewer District in the City of Detroit, Michigan.

Honorable City Council:

Re: Resolution Authorizing the Issuance and Sale of Water Supply System Revenue Bonds to the Michigan Municipal Bond Authority, of Junior Standing to the City's Water Supply System Revenue and Revenue Refunding Bonds now outstanding.

The attached Resolution authorizes the issuance and sale of approximately \$10 million of Water Supply System Revenue Bonds for the purpose of defraying part of

the cost of acquiring and constructing repairs, extensions and improvements to the City's Water Supply System Capital Program.

This financing is for participation in the Michigan Municipal Bond Authority's Drinking Water Revolving Fund 4th Quarter financing to take advantage of the Authority's lower cost of borrowing.

It is anticipated that the sale will occur in early September. Bond Counsel has prepared the attached resolution and I recommend its adoption by your Honorable Body, with waiver of reconsideration, at your next formal session.

Respectfully submitted,

(a) To pay all or a part of the costs of the Project, including payment of legal, financial, printing and other expenses incident thereto and incident to the issuance and sale of the Bonds, payment of capitalized interest, if necessary and permitted by the State Revolving Fund Program, the City shall borrow a sum of not to exceed the Maximum Bond Amount and issue Bonds therefor pursuant to Act 94 and the Bond Ordinance. The Maximum Bond Amount shall be \$10,000,000 for the Bonds.

(b) The Bonds shall be issued as SRF Junior Lien Bonds under the Bond Ordinance, and shall be of junior standing and priority of lien and secured on a subordinate basis to Senior Obligations and all Junior Obligations which may be issued under the Bond Ordinance with a higher priority of lien on Net Revenues than that granted the SRF Junior Lien Bonds. Notwithstanding the foregoing, in the event that the City is unable to meet the Authority's requirement that the Bonds receive an investment grade rating if they are issued as SRF Junior Lien Bonds, then the Bonds shall be issued as Second Lien Bonds or, if necessary to achieve an investment grade rating, as Senior Lien Bonds, and all references herein to the lien priority of the Bonds, whether in the caption of the Bonds, in reference to funds or accounts related to the Bonds under the Bond Ordinance, or otherwise, shall be changed to reflect the applicable lien priority.

(c) The proceeds of the Bonds shall be used for the purpose of acquiring and constructing the Project, for capitalized interest, if necessary and permitted by the State Revolving Fund Program, and to pay issuance costs described above. The balance of the costs of the Project and the other costs, expenses, and deposits shall be paid from the proceeds of additional Securities issued under the Bond

Ordinance, if any, and moneys of the System now on hand and legally available therefor and such moneys are hereby appropriated therefor.

(d) Except as otherwise provided in this Resolution, all of the provisions of the Bond Ordinance shall apply to the Bonds, the same as though set forth in full in this Resolution, the purpose of this Resolution being to supplement the Bond Ordinance to authorize the issuance of SRF Junior Lien Bonds as herein provided for the purpose herein set forth, such purpose being authorized by the Bond Ordinance, upon the conditions therein stated, which conditions have been fully met or will be fully met prior to the issuance of the Bonds.

**Section 5. Bond Details, Issuance in Series Registration, Execution and Transfer of Bond.**

(a) The Bonds shall be designated WATER SUPPLY SYSTEM SRF JUNIOR LIEN REVENUE BONDS, SERIES 2008-SRF1 and shall bear such additional or alternative designation as may be determined by the Finance Director of the City, subject to the Bond Ordinance. In the event the Bonds are not issued in 2008, the Finance Director is authorized in his discretion to redesignate the year and series designation of the Bonds and any funds and accounts established hereunder to correspond with the year of issuance of the Bonds.

(b) The Bonds for each Project shall be issued in the Maximum Bond Amount for that Project, or such lesser amounts as shall be set forth in the DEQ Order or Purchase Contracts, and shall be payable as to principal on such dates as are set forth in the DEQ Order or Purchase Contract for the Bonds, provided, however, that the maximum aggregate amount of interest and principal becoming due in any Fiscal year (whether at maturity or by reason of Mandatory Redemption Requirements) on all securities outstanding under the Bond Ordinance, including Bonds, shall not exceed the amount permitted by the Bond Ordinance. Principal of the Bonds shall be payable in the same manner as interest thereon on the annual payment date set forth above.

(c) The Bonds shall bear interest at a rate of 2.50% per annum, or such other interest rate as shall be set forth in the related DEQ Order or Purchase Contract, payable, except as hereinafter provided, on each Interest Payment Date by check made by the Transfer Agent, and mailed, or sent by other means, to the registered owner at the registered address, as shown on the registration books maintained by the Transfer Agent; provided, however, that at the written request of the Authority or other registered owner of at least \$1,000,000 principal amount of the Bonds (which request may provide that it will remain in effect with respect to subsequent Interest Payment Dates unless and

July 15

1874

2008

until changed or revoked at any time prior to an Interest Payment Date by subsequent written notice to the Transfer Agent), interest shall be paid by wire transfer or other immediately available funds acceptable to the Transfer Agent and the City. Except as hereinafter provided, interest on the Bonds shall be payable to the registered owner of record as of the Bonds as of the 15th day of the month immediately preceding any Interest Payment Date. The date of determination of registered ownership for purposes of payment of interest as provided in this paragraph may be changed by the City to conform to market practice in the future.

(d) Notwithstanding any other provision of the Bond, so long as the Authority is the owner of the Bond, (a) the Bond are payable as to principal, premium, if any, and interest at The Bank of New York Trust Company, N.A. or at such other place as shall be designated in writing to the City by the Authority (the "Authority's Depository"); (b) the City agrees that it will deposit with the Authority's Depository payments of the principal of, premium, if any, and interest on the Bond in immediately available funds by 12:00 noon at least five business days prior to the date on which any such payment is due whether by maturity, redemption or otherwise; in the event that the Authority's Depository has not received the Issuer's deposit by 12:00 noon on the scheduled day, the City shall immediately pay to the Authority, as invoiced by the Authority, an amount to recover the Authority's administrative costs and lost investment earnings attributable to that late payment; and (c) written notice of any redemption of the Bond shall be given by the City and received by the Authority's Depository at least 40 days prior to the date on which such redemption is to be made.

(e) The Bonds shall be dated September 29, 2008 or such other dates as provided in the DEQ Orders or the Purchase Contracts. The Bond shall be issued as a single, fully registered bond.

(f) The Bonds may be subject to redemption prior to maturity by the City only with the prior written consent of the Authority and on such terms as may be required by the Authority.

(g) Unless waived by any registered owner of a Bond to be redeemed, official notice of redemption of such Bond shall be given by the Transfer Agent on behalf of the City. Such notice shall be dated and shall contain at a minimum the following information: complete official name of the issue, including series; original issue date; payment dates; interest rate; the date of redemption notice; the redemption date; the redemption price; the place where the Bonds, or portions thereof called for redemption, are to be surrendered for payment; the Transfer Agent's name and address with contact person and phone

number; and a statement that interest on the Bond or portions thereof called for redemption shall cease to accrue from and after the redemption date if moneys are on hand with the Transfer Agent to redeem Bonds or portions thereof called for redemption.

In addition, further notice shall be given by the Transfer Agent in such manner as may be required or suggested by regulations or market practice at the applicable time, but no defect in such further notice nor any failure to give all or any portion of such further notice shall in any manner affect the effectiveness of a call for redemption if notice thereof is given as prescribed herein.

**Section 6. Payment of Bonds.** The Bonds and the interest thereon shall be payable solely from the Net Revenues, and to secure such payment, the statutory lien upon the whole of the Net Revenues created in the Bond Ordinance, subject to the prior lien thereon of Senior Obligations and any other Junior Obligations which may be issued under Bond Ordinance with a higher priority of lien on Net Revenues than that granted the SRF Junior Lien Bonds, is hereby confirmed in favor of the Bonds.

The obligation of the City to pay the principal of and interest on the Bonds shall continue until such payment in full has been made or until sufficient cash or sufficient Government Obligations shall have been deposited in trust for payment in full of the principal of and the interest on the Bonds to be defeased to its maturity, or, if called for redemption, to the date fixed for redemption, together with the amount of the redemption premium, if any. Upon deposit of cash or sufficient Government Obligations, as provided in the previous sentence, the statutory lien herein referred to shall be terminated with respect to the Bonds for which such deposit was made, and, the holders of such Bonds shall have no further rights under this Resolution except for payment from the deposited funds and registration and replacement of bonds, and such Bonds shall no longer be considered to be outstanding under the Bond Ordinance and this Resolution.

**Section 7. Funds and Accounts; Flow of Funds.** Except as otherwise provided in this Resolution, all of the provisions relative to funds and accounts, their maintenance, the flow of funds and other details relative thereto, shall remain as specifically set forth in the Bond Ordinance.

**Series 8. Bond Proceeds.**

(a) The portion of the proceeds of the sale of the Bonds representing capitalized interest, if any, as received, shall be deposited in the SRF Junior Lien Bond Interest and Redemption Fund established by the Bond Ordinance, and the City may take a credit for the amount so deposited against the amount required to

be deposited in such fund for payment of the next maturing interest payment on the Bonds.

(b) The balance of the proceeds of the sale of the Bonds, as received, shall be deposited in the Series 2008-SRF1 Construction Sub-Account. This sub-account shall be established and maintained as a separate depository account in accordance with the Bond Ordinance. Moneys in the Series 2008-SRF1 Construction Sub-Account shall be applied solely in payment of the costs of the Project, and any engineering, legal, financial or printing costs, and other expenses incident thereto and to the financing thereof. Payments for construction, either on account or otherwise, shall not be made unless the registered engineer in charge of such work shall file a signed statement with the Commissioners to the effect that the work has been completed in accordance with the plans and specifications therefor, that it was done pursuant to and in accordance with the contract therefor, that such work is satisfactory, and that such work has not been previously paid for. Payment of the costs of engineering, legal, financial, printing, and other costs of issuance with respect to the Bonds as provided in this section shall be made upon submission of appropriate documentation to the Finance Director of the City.

(c) Any unexpended balance remaining in the Series 2008-SRF1 Construction Sub-Account after completion of the Project may, with the prior approval of the Authority and at the discretion of DWSD, be used for further improvements, enlargements, and extensions to the System if, at the time of such expenditure, such use is approved by the Michigan Department of Treasury, Municipal Finance Division, if such permission is then required by law, and if such use will not, in the opinion of nationally recognized bond counsel, impair the exclusion of interest on the Bonds from gross income for federal income tax purposes. Any remaining balance after such expenditure shall, with the prior approval of the Authority, be paid into the SRF Junior Lien Bond Interest and Redemption Fund for the purpose of redemption or purchase, at not more than the fair market value, of the outstanding Bonds or portions thereof. Bonds acquired by purchase shall be canceled and shall not be reissued.

**Section 9. Bond Form.** The Bond shall be in substantially the form set forth in Appendix A hereto, with such changes and additions appropriate as shall be determined appropriate by the Finance Director.

**Section 10. Covenants Regarding Exclusion of Interest on the Bonds for Federal Tax Purposes.** The City hereby covenants with and represents to the Authority and any other registered owners

of the Bonds that so long as any portion thereof remains outstanding and unpaid as to either principal or interest, the City shall, to the extent permitted by law, take all actions within its control to maintain, and will refrain from taking any action which would impair, the exclusion of the interest on the Bonds from gross income for federal income tax purposes under the Internal Revenue Code of 1986, as amended (the "Code"), including, but not limited to, actions relating to any required rebate of arbitrage earnings and the expenditure and investment of Bond proceeds and moneys deemed to be proceeds of the Bonds, and to prevent the Bond from being or becoming a "private activity bond" as that term is used in Section 141 of the Code.

**Section 11. Act 34 Compliance; Sale of Bonds.** The Mayor and the Finance Director, each acting alone, is authorized and directed to do all such things, take all such actions and make all such applications and filings with the Michigan Department of Treasury as may be necessary or appropriate to comply with Act 34, Public Acts of 2001, as amended, or otherwise precedent to or in connection with the issuance, sale and delivery of the Bonds.

**Section 12. Authorizations of Deputies or Persons Serving in an Acting or Interim Capacity.** During the absence or disability of the Mayor, Finance Director, Director of DWSD, Treasurer, or Corporation Counsel, any person serving as the deputy for such officer may exercise all the powers and perform all the duties of, and make all the determinations herein required or permitted hereunder by, such officer with respect to the Bonds. While the office of Mayor, Finance Director, Director of DWSD, Treasurer, or Corporation Counsel is vacant, any person serving as such officer in an acting or an interim capacity and such person's deputy, may each exercise all the powers and perform all the duties of, and make all the determinations herein required or permitted hereunder by, such officer with respect to the Bonds.

**Section 13. Execution of Bonds.** The Mayor and the Finance Director are hereby authorized and directed to execute the Bonds by manual or facsimile signature for and on behalf of the City and in its name, to impress or imprint thereon the official seal of the City or a facsimile thereof, and to deliver the Bonds to the Authority upon the terms and conditions set forth in the respective Purchase Contract.

**Section 14. Sale of Bonds; Execution of Authority's Documents.** The Bonds shall be sold to the Authority pursuant to the Purchase Contract. The Purchase Contract, Supplemental Agreement, and the Issuer's Certificate for the Bonds, in the forms on file with the Finance Director, are hereby approved;

July 15

1876

2008

and the Mayor, the Finance Director, and the Director of the DWSD are each hereby authorized to execute and deliver, for and on behalf of the City, such Purchase Contract, Supplemental Agreements, and Issuer's Certificates to the Authority in the forms hereby approved with such changes thereto and insertions therein as the Finance Director shall determine are necessary or desirable. The executed forms of the Purchase Contract, the Supplemental Agreements, and the Issuer's Certificates shall be deemed to be the final forms thereof.

The Bonds are being sold through a negotiated rather than a competitive sale because sale to the Authority through the State Revolving Program enables the City to obtain the lowest borrowing cost for the Project.

**Section 15. Authorization of Other Officials.** The Mayor, City Clerk, Finance Director, Treasurer, Corporation Counsel, Director of DWSD, or any of them, are hereby authorized to execute and deliver such certificates, documents, instruments, opinions, and other papers as may be deemed necessary or appropriate to complete the sale, execution, and delivery of the Bonds as determined by such officials executing and delivering the foregoing items. Any actions heretofore taken by such persons in furtherance of the foregoing are hereby ratified and confirmed.

**Section 16. Declaration of Official Intent.** The City makes the following declarations for the purpose of complying with the reimbursement rules of Treas. Reg. §1.150-2 pursuant to the Code:

(a) The City plans to finance the Project through the issuance of the Bonds in an amount not to exceed the Maximum Bond Amount.

(b) The City Council of the City hereby declares its intent to reimburse itself from the proceeds of the Bonds for expenditures made or to be made for the Project.

(c) The maximum aggregate principal amount of the Bonds expected to be issued is the Maximum Bond Amount.

(d) Advances to be made for the Project will be borrowed from the Improvement and Extension Fund of the City's Water Supply System Fund, which shall be reimbursed upon the issuance of the Bonds.

**Section 17. Resolution Constitutes a Contract Interpretation; Modification.** The provisions of this Resolution shall constitute a contract between the City and the registered owner of the Bonds. The provisions of this Resolution shall be construed and interpreted liberally in order to effectuate the purposes of the Bond Ordinance, Act 94, the Shared Credit Rating Act, Act 227, Public Acts of Michigan, 1985, as amended, which creates the Authority, and the Natural Resources and Environmental Protection Act, Act 451, Public Acts of Michigan,

1994, as amended. The provisions of this Resolution, including, but not limited to, provisions with respect to disbursements of bond proceeds, disbursements, and payments of capitalized interest on the Bonds and payments by the City to the Authority in amortization of the Bonds, may be modified by agreement of the City and the Authority without the consent of the holders of Securities outstanding under the Bond Ordinance, so long as such modifications do not prejudice such holders of Securities of higher priorities.

**Section 18. Repeal; Savings Clause.**

All other ordinances, resolutions or orders, or parts thereof, in conflict with the provisions of this Resolution are, to the extent of such conflict, hereby repealed.

**Section 19. Severability; Paragraph Headings; Conflict.** If any section, paragraph, clause or provision of this Resolution shall be held invalid, the invalidity of such section, paragraph, clause or provision shall not affect any of the other provisions of this Resolution. The section headings in this Resolution are furnished for convenience of reference only and shall not be considered to be part of this Resolution.

**Section 20. Publication and Recordation.** This Resolution shall be published in full in The Detroit Legal News, a newspaper of general circulation in the City qualified under State law to publish legal notices, promptly after its adoption.

**Section 21. Effective Date.** This Resolution shall be effective immediately.

This bond is payable as to principal, premium, if any, and interest at the corporate trust office of The Bank of New York Trust Company, N.A. or to such other place as shall be designated in writing to the Issuer by the Authority (the "Authority's Depository").

This bond may be subject to redemption prior to maturity by the Issuer only with the prior written consent of the Authority and on such terms as may be required by the Authority.

Notwithstanding any other provision of this bond, so long as the Authority is the owner of this bond, (a) this bond is payable as to principal, premium, if any, and interest at \_\_\_\_\_ or at such other place as shall be designated in writing to the Issuer by the Authority (the "Authority's Depository"); (b) the Issuer agrees that it will deposit with the Authority's Depository payments of the principal of, premium, if any, and interest on this bond in immediately available funds by 12:00 noon at least five business days prior to the date on which any such payment is due whether by maturity, redemption or otherwise; in the event that the Authority's Depository has not received the Issuer's deposit by 12:00 noon on the scheduled day, the Issuer shall immediately pay to the Authority, as invoiced by the Authority, an amount to recover the Authority's administrative costs and lost investment earnings attributable to that late payment; and (c) written notice of any redemption of this bond shall be given by the Issuer and received by the Authority's Depository at least 40 days prior to the date on which such redemption is to be made.

In the event of a default in the payment of principal hereof or interest hereon when due, whether at maturity, by redemption or otherwise, the amount of such default shall bear interest (the "additional interest") at a rate equal to the rate of interest which is two percent above the Authority's cost of providing funds (as determined by the Authority) to make payment on the bonds of the Authority issued to provide funds to purchase this bond, but in no event in excess of the maximum rate of interest permitted by law. The additional interest shall continue to accrue until the Authority has been fully reimbursed for all costs incurred by the

Authority (as determined by the Authority) as a consequence of the Issuer's default. Such additional interest shall be payable on the interest payment date following demand of the Authority. In the event that (for reasons other than the default in the payment of any municipal obligation purchased by the Authority) the investment of amounts in the reserve account established by the Authority for the bonds of the Authority issued to provide funds to purchase this bond fails to provide sufficient available funds (together with any other funds which may be made available for such purpose) to pay the interest on outstanding bonds of the Authority issued to fund such account, the Issuer shall and hereby agrees to pay on demand only the Issuer's pro rata share (as determined by the Authority) of such deficiency as additional interest on this bond.

During the time funds are being drawn down by the Issuer under this bond, the Authority will periodically provide the Issuer a statement showing the amount of principal that has been advanced and the date of each advance, which statement shall constitute prima facie evidence of the reported information; provided that no failure on the part of the Authority to provide such a statement or to reflect a disbursement or the correct amount of a disbursement shall relieve the Issuer of its obligation to repay the outstanding principal amount actually advanced, all accrued interest thereon, and any other amount payable with respect thereto in accordance with the terms of this bond. Capitalized terms not defined herein and defined in the hereinafter defined Bond Ordinance are used herein as therein defined.

For the prompt payment of the principal of and interest on this bond, the revenues of the Water Supply System of the Issuer (the "System"); including all appurtenances, extensions, and improvements thereto, after provision has been made for reasonable and necessary expenses of operation, maintenance and administration (the "Net Revenues"), are irrevocably pledged, and a statutory lien thereon is recognized and created. The bonds of this series are of equal standing and priority of lien on Net Revenues as all other SRF Junior Lien Bonds issued under and in accordance with the Bond Ordinance and are of junior standing and priority of lien as to Net Revenues, and secured on a subordinate basis, to all Senior Obligations heretofore and hereafter issued under and in accordance with the Bond Ordinance and Junior Obligation heretofore and hereafter issued under and in accordance with the Bond Ordinance with a higher lien than that granted SRF Junior Lien Bonds.

This bond is issued pursuant to Ordinance No. 01-05, effective January 26, 2005 (the "Bond Ordinance"), and under and in full compliance with the Constitution and statutes of the State of

Michigan, including specifically Act 94, Public Acts of Michigan, 1933, as amended, for the purpose of paying all or part of the cost of acquiring and constructing replacements, repairs, extensions and improvements to the System and paying the costs of issuing this bond.

This bond is a self-liquidating bond which is not a general obligation of the Issuer and does not constitute an indebtedness of the Issuer within any constitutional, statutory, or charter limitation, but is payable, both as to principal and interest, solely from the Net Revenues of the System. The principal of and interest on this bond are secured by the statutory lien hereinbefore mentioned.

For a complete statement of the revenues from which and the conditions under which this bond is payable, a statement of the conditions under which additional bonds of equal standing may hereafter be issued, and the general covenants and provisions pursuant to which this bond is issued, reference is made to the Bond Ordinance.

The Issuer has covenanted and agreed, and does hereby covenant and agree, to fix and maintain at all times while any bonds payable from the Net Revenues of the System shall be outstanding, such rates for service furnished by the System as shall be sufficient to provide for payment of the interest on and the principal of this bond and any other bonds of superior and equal standing payable from the Net Revenues as and when the same shall become due and payable, and to create and maintain a bond redemption fund therefor, to provide for the payment of expenses of administration and operation and such expenses for maintenance of the System as are necessary to preserve the same in good repair and working order, and to provide for such other expenditures and funds for the System as are required by the Bond Ordinance.

It is hereby certified and recited that all acts, conditions and things required by law precedent to and in the issuance of this bond and the series of bonds of which this is one have been done and performed in regular and due time and form as required by law.

IN WITNESS WHEREOF, the City of Detroit, Wayne County, Michigan, by its City Council has caused this bond to be signed by the manual or facsimile signatures of its Mayor and its Finance Director and its corporate seal or a facsimile thereof to be impressed or imprinted on this bond, all as of September 29, 2008.

**RESOLUTION REGARDING THE  
COMBINED SEWER OVERFLOW  
FACILITY ON LIDDESDALE**

By ALL COUNCIL MEMBERS:

WHEREAS, The Detroit Water and Sewerage Department ("DWSD") is currently undertaking the construction of the federally mandated Oakwood Pumping Station CSO Project which began June, 2007 and is scheduled for completion in December, 2010; and

WHEREAS, Despite DWSD's claims that they attempted to inform the residents of the upcoming construction project, the residents of the 700/800 block of Liddesdale have alleged that they were not notified of the project prior to its initiation; and

WHEREAS, The construction of a combined sewerage overflow facility is a three-year project that requires major reconstruction of the sewer system in the immediate area and a continuous 24 hour work schedule at times; and

WHEREAS, The lives of all of the residents within the construction area have been impacted by the construction work; however, the residents in the 700/800 block of Liddesdale have alleged that their quality of life has been particularly devastated during the construction period; and

WHEREAS, The residents on Liddesdale have complained their living conditions have become inhabitable due to the following conditions: standing water, mosquito epidemic, incessant vibration, sewage backups, flooding basements, noise, dust, mud and stench; and

WHEREAS, The residents on Liddesdale have complained the vibrations and other physical impact from the CSO construction have physically damaged their homes and property; and

WHEREAS, DWSD has vast experience undertaking construction projects that are of a disruptive nature to residents in the affected areas and more specifically has constructed CSOs in residential areas wherein the same kind of issues have arisen; and

WHEREAS, In an effort to reduce the impact of the adverse conditions mentioned above, the Department of Environment Affairs ("DEA") has recommended moving the construction site fence back twenty feet and building a barrier wall between the construction site and the residents, but residents are unconvinced that a wall will be enough to address their concerns; and

WHEREAS, The Administration has reduced the hours of construction in an effort to address immediate problems and concerns raised by the residents. NOW THEREFORE BE IT

RESOLVED, Detroit City Council strongly urges DWSD to immediately make every effort to find a reasonable resolution to the many issues raised by the residents including but not limited to the following:

1. The Administration should give special attention to the issues associated with the residents of Liddesdale, that these residents be personally notified of any future activity related to the CSO project and any other DWSD project slated for this area and a Liddesdale representative should be included in the Advisory Committee,

2. Consideration be given to relocating the Liddesdale residents, temporarily or permanently, as may be reasonably necessary, to preserve their quality of life; the costs for such relocation should be borne by DWSD,

3. The residents of Liddesdale should be reasonably compensated for the property damages, injuries and costs that are causally connected to the CSO project, and

4. As recommended by DEA, consideration be given to relocating the construction site fence further away from the residents, and building a substantial barrier wall between the residents and the construction site, to protect residents from the effects of the construction activities, if possible; and BE IT FURTHER

RESOLVED, DWSD should develop a management plan designed to mitigate any negative impact within residential communities and such should be followed by each contractor undertaking a CSO or related project pursuant to contract; and BE IT FINALLY

RESOLVED, That a copy of this resolution be forwarded to the Detroit Water and Sewerage Department; the Mayor's Office and all contractors involved in the Oakwood Pumping Station CSO Project.
