**Human Resources Department  
Labor Relations Division**

August 27, 2008

Honorable City Council:

Re: Implementation of Wage Adjustments and Certain Fringe Benefit Changes for Employees Represented by Utility Workers Union of America, Local 488.

The Labor Relations Division has recently reached agreement with the Utility Workers Union of America, Local 488 on a 2005-08 labor contract. The major changes from the 2001-05 contract is the reduction of the standard weekly pay period for the period extending from July 1, 2008 through June 30, 2009 and the Union's acceptance of the City's Mercer Health Care Plan.

Due to the extensive time required to compile, type, proofread and process the entire contract before submission for formal approval by your Honorable Body, a long delay would occur before normal implementation steps could proceed.

In accordance with the City's longstanding practice, we are, therefore, recommending that your Honorable Body authorize action to reduce the standard two week pay period to seventy-two (72) hours, to reduce the weekly pay period to thirty-six (36) hours, to reduce proportionately those fringe benefit qualifiers which are based upon hours worked, and to implement health care benefit changes and other benefit changes, as set forth in the attached Schedule A, effective July 1, 2008. The complete labor agreement will be submitted to your Honorable Body as soon as it is ready.

Units will have one, two or three bedrooms ranging in size from 850 to 1920 square feet. The Developer will utilize retired shipping containers as the basis for this sustainable green housing project. Radiant floor heating, tankless water heaters and a high tech ceramic insulative paint additive are some of the energy efficient features of this development. In addition, the project anticipates using eco-friendly bamboo flooring, energy star appliances and to recycle or reuse the metal cut away in the process of making door and windows. Total investment is estimated at \$3,300,000 with an eligible investment estimated at \$1,800,000. The Developer is requesting a 20% Michigan Business Tax (MBT) credit of \$360,000.

**City of Detroit**  
**Brownfield Redevelopment Authority**  
September 2, 2008

Honorable City Council:

Re: Amended Trumbull Townhomes Brownfield Redevelopment.

The enclosed Brownfield Plan for the Amended Trumbull Townhomes Redevelopment Project (the "Plan") (Exhibit A), submitted by the Detroit Brownfield Redevelopment Authority Board (the "Authority") to the Community Advisory Committee (the "Committee"), has been considered and reviewed by the Committee and a public hearing was held by the Authority on August 26, 2008 to solicit public comments. At its August 14, 2008 meeting, the Committee considered and approved a resolution recommending approval of the Plan by the Authority and City Council in the form presented by the Authority.

On August 28, 2008, the Authority adopted a resolution (Exhibit B) approving the Plan and authorizing the submission of a certified copy of its resolution and the Plan to the City Clerk, together with a request that the Detroit City Council call a public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

The Plan is now presented to the City Council for approval. The Detroit City Council will, after publication of the notices required by law, hold a public hearing on the Plan. After the public hearing, the City Council shall determine whether the Plan constitutes a public purpose and, if so, may approve or reject the Plan or approve it with modifications.

Project Introduction

Trumbull Lofts, LLC is the project developer ("Developer"). The Plan entails the construction of twenty townhomes. The two-story, 1,100 sf units will each have a two-car garage. The first floors will have innovative "flex space" with entries off Trumbull, which may be used for business or residential purposes. Total project costs are estimated at \$2,934,900 with an eligible investment amount of \$2,367,000. The Developer is requesting a 12.5% Michigan Business Tax (MBT) credit of \$222,791.

This Plan was initially submitted to the DBRA on March 18, 2008 and subsequently transmitted to the Community Advisory Committee (the "Committee"). The Plan was reviewed and considered

by the Committee and on March 18, 2008; the Committee adopted a resolution recommending approval of the Plan. The Plan was subsequently approved by the DBRA on April 3, 2008 and by the Detroit City Council on May 6, 2008.

The Amendment is being brought to the DBRA since the Michigan Department of Environmental Quality (the "MDEQ") has recently determined that the property identified and included in the approval Plan as contaminated property, will not be considered a facility for the purposes of the brownfield incentives. Subsequently, the Developer has conducted additional testing that has revealed that subsurface demolition debris exists on the property thereby qualifying the property as blighted. Such a change in qualifying status from facility to blighted requires an amendment to the Plan.

Property Subject to the Plan

The property comprising the Plan consists of three parcels, located in Detroit's north Corktown neighborhood, on the southwest corner of Sycamore Street and Trumbull Street, bordered by Sycamore Street to the north, Trumbull Street to the west, Ash Street to the south, and Cochrane Street to the west.

Basis of Eligibility

The Property is considered "eligible property" as defined by Act 381, Section 2 because (a) the Property was previously utilized for a residential purpose; (b) it is located within the City of Detroit, a qualified local governmental unit under Act 381; and (c) the Property is determined to be blighted as defined by Act 381.

The City of Detroit Planning Commission has initially determined, that the Property qualifies as "blighted" under the definition in Act 381. Detroit City Council will make final determination upon approval of the Plan.

Eligible Activities and Projected Costs

The "eligible activities" that are intended to be carried out at the Property are considered "eligible activities" as defined by Sec 2 of Act 381, site infrastructure improvements, site preparation, and environmental remediation. The eligible activities and budgeted costs are intended as part of the development of the Property and are to be financed solely by the Developer. The Authority is not responsible for any costs of eligible activities and will incur no debt.

It is currently anticipated that the eligible activities will begin in fall of 2008 and eligible activities will be completed within six months.

Tax Increment Financing (TIF) Capture

The Plan will not capture tax increment revenues for financing costs of eligible activities under this Plan. Tax increment financing of the costs of eligible activities under this Plan will not take place and this Plan shall not have a negative impact

upon the tax revenues of any taxing jurisdiction in which the eligible property is located.

#### Other Development Incentives

The property included in this Plan will seek additional project support through a Neighborhood Enterprise Zone (NEZ).

#### Comments Received

The Committee's communication to the City Council and the Authority, dated August 14, 2008 (Exhibit C), recommending approval of the Plan including the minutes of the public hearing held by the Authority on August 26, 2008 are enclosed for the City Council's consideration.

Whereas, The Act requires that the designation of NEZs must be approved by a resolution adopted by the local governmental unit subsequent to a public hearing at which any taxpayer or resident, or representative of any taxing authority levying a property tax in the City of Detroit, was given the opportunity to address the requested establishment of an NEZ; and

Whereas, A public hearing on the issue of establishing the Triangle Housing Development NEZ was conducted before the Detroit City Council on June 25, 2008, with notice of the public hearing having been given to the general public and by certified mail to every taxing authority levying a property tax with the City of Detroit; and

**City Planning Commission**

September 17, 2008

Honorable City Council:

Re: Request for extension of the review period for "Adult Uses" Zoning Ordinance amendment.

On June 1, 2008, the Planning and Economic Development standing committee received the revised recommendation from the City Planning Commission (CPC) with respect to proposed changes in the "adult uses" provisions of Chapter 61 of the Detroit City Code, the Detroit Zoning Ordinance.

The Committee forwarded the ordinance to the Committee of the Whole for a public hearing that was held at the Pasteur Elementary School just prior to Council's evening community meeting on June 24, 2008. At that time, Council opted

to not refer the Zoning amendment to the formal agenda until the licensing ordinance (Chapters 5 and 30) were ready for consideration. CPC staff is pleased to report that the several City offices working on the draft of the licensing amendments have finalized the last of the unresolved issues; the Law Department is preparing a revised draft of the licensing amendments for review by your Honorable Body and various stakeholders.

However, the Zoning Ordinance specifies that if a Zoning Ordinance text amendment is not approved or denied by Council within 120 days of receipt of the CPC report and recommendation, the ordinance is deemed denied unless Council extends the review period. The 120th day will be Tuesday, September 30, 2008.

We respectfully request that the Committee consider the attached resolution, which would authorize the extension of Council's review period for another 120 days. If the 120-day review period expires without Council action, then any Zoning amendment for adult uses will have to start over with a hearing at the CPC. The U.S. District Court had ordered the City in August, 2007 to amend the Zoning Ordinance "forthwith."

Respectfully submitted,  
MARCELL R. TODD, JR.  
Director

By Council Member Collins:

Whereas, The Detroit City Council is reviewing an amendment to the Detroit Zoning Ordinance related to "adult uses," pursuant to court order; and

Whereas, The Detroit Zoning Ordinance specifies that where a text amendment to the Zoning Ordinance is not approved or denied by City Council within 120 days of receipt of the City Planning Commission's recommendation that the ordinance is deemed to have been denied unless the review period is extended; and

Whereas, City Council took up the City Planning Commission's report and recommendation on the Zoning Ordinance text amendment relative to "adult uses" on June 1, 2008; and

Whereas, The 120-day review period will expire on Tuesday, September 30, 2008; and

Whereas, It is Council's desire to continue consideration of the "adult use" Zoning amendments until such time as the "adult use" licensing amendments are ready for consideration; and

Whereas, The licensing amendments are anticipated to be ready for consideration shortly after September 30, 2008; now therefore be it

Resolved, The Detroit City Council extends the review period for consideration of the "adult use" amendments for a further 120 days beyond September 29, 2008.

#### **Airport Department**

June 24, 2008

Honorable City Council:

Re: Appropriation of Site Cleanup Funds.

The Airport Department is requesting approval to appropriate \$150,000.00 in funds for Underground Storage Tank (UST) removal and cleanup estimated to be incurred by the Airport Department for remediation at an off Airport property site generally known as 10101 Grinnell. This property was acquired through condemnation back in 1998 for obstacle removal from an existing runway approach zone.

The Michigan Department of Environmental Quality has requested a UST be removed from the site identified above since the tank and piping do not meet corrosion protection requirements listed in the Michigan Underground Storage Tank Rules Section 280.21. Funds were awarded, by the U.S. District Court, to the City of Detroit for cleanup of the acquired site and we are requesting funds be appropriated to cover the cost of the UST removal. The Department of Environmental Affairs will administer the cleanup and bill the Airport Department for cost incurred, not to exceed \$150,000.00.

The Airport Department respectfully requests that your Honorable Body grant permission to increase Airport Appropriation 04185, Capital Improvements, by \$150,000.00 and authorize the Airport Department to pay the interagency invoices, not to exceed said amount, when submitted by the Department of Environmental Affairs.

Honorable City Council:

Re: Address: 14155 Pinewood. Name: Gary Mau. Date ordered removed: March 4, 2008 (J.C.C. pg. ).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on March 12, 2008 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of March 10, 2008.

The proposed use of the property is rehabilitation and sale. This is the first deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four must be made by petition to City Council through the office of the City Clerk.

Respectfully submitted,

AMRU MEAH

Director

Re: St. Joseph Senior Village Brownfield Redevelopment.

The enclosed Brownfield Plan for the St. Joseph Senior Village Redevelopment Project (the "Plan") (Exhibit A), submitted by the Detroit Brownfield Redevelopment Authority Board (the "Authority") to the Community Advisory Committee (the "Committee"), has been considered and reviewed by the Committee and a public hearing was held by the Authority on September 9, 2008 to solicit public comments. At its August 28, 2008 meeting, the Committee considered and approved a resolution recommending approval of the Plan by the Authority and City Council in the form presented by the Authority.

On September 11, 2008, the Authority adopted a resolution (Exhibit B) approving the Plan and authorizing the submission of a certified copy of its resolution and the Plan to the City Clerk, together with a request that the Detroit City Council call a public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

The Plan is now presented to the City Council for approval. The Detroit City Council will, after publication of the notices required by law, hold a public hearing on the Plan. After the public hearing, the City Council shall determine whether the Plan constitutes a public purpose and, if so, may approve or reject the Plan or approve it with modifications.

**RESOLUTION  
IN MEMORIAM  
FOR**

**DR. CHARLES F. WHITTEN**

By COUNCIL MEMBER WATSON, Joined  
By COUNCIL MEMBERS COLLINS and  
TINSLEY-TALABI:

WHEREAS, Dr. Charles F. Whitten, a trailblazer in medical education and sickle cell disease, died on August 14, 2008. He was 86. He was born to Tobias Whitten and Emma Carr Whitten in Wilmington, Delaware on February 2, 1922; and

WHEREAS, Following his education at Howard High School in Wilmington, he earned a Bachelor of Science degree in Zoology from the University of Pennsylvania in 1942. He completed his medical degree at Meharry Medical College in 1945. He practiced general medicine for five years in Lackawana, New York and then spent two years as a Captain in the U.S. Army, stationed in Japan and Korea. After one year of advanced study in pediatrics at the University of Pennsylvania Graduate School of Medicine, and a two-year residency in pediatrics at The Children's Hospital of Buffalo, Dr. Whitten completed a fellowship in hematology at Children's Hospital of Michigan in Detroit; and

WHEREAS, Dr. Whitten joined the Wayne State University School of Medicine in 1957. He initially served as chief of pediatrics at Detroit Receiving Hospital, and had the distinction of being the first and only African American to head a department in a Detroit Hospital. During his tenure at Wayne State University, Dr. Whitten served 16 years as Associate Dean for Curricular Affairs, and

September 23

2484

2008

10 years as Dean for Special Programs. He authored over 100 journal articles and 7 book chapters. In 2002, he retired with the title of Distinguished Professor of Pediatrics, Emeritus and was one of only 15 WSU faculty members who had earned that rank at that time; and

WHEREAS, Dr. Whitten was deeply concerned about the under representation of African American physicians. In 1969, this inspired him to conceptualize and implement an innovative post-baccalaureate program, the first initiative of its kind in the nation. When presented with an award from the Association of American Medical Colleges, he said, "In establishing the criteria, I was addressing a personal concern about circumstantial inequities. I am the beneficiary of an advantaged background, however there are many students who are victims of their backgrounds and circumstances, which undermine their ability to be academically competitive. I wanted to create an enabling opportunity for them to be successful"; and

WHEREAS, By its 30th anniversary, the program had graduated almost 300 African Americans and other students of color who otherwise might not have been admitted to medical school. Because of its success, WSU, at that time, graduated more students of color than any medical school with the exception of the College of Medicine at Howard University and Meharry Medical College. The program became a national model. It was one of Dr. Whitten's most gratifying accomplishments; and

WHEREAS, Dr. Whitten was largely responsible for bringing sickle cell disease to the attention of the public, health care providers, legislators and other policy makers. During the early 1970s his research revealed that services for individuals with sickle cell disease and their families did not take advantage of scientific advances, particularly with respect to genetics and disease management; and

WHEREAS, In 1971, with the help of other concerned citizens, he established the Sickle Cell Detection and Information Center, the most comprehensive community program in the country, at the time. In the same year, he founded the organization now known as the Sickle Cell Disease Association of America. He served as President until 1992. He also organized Wayne State University's Comprehensive Sickle Cell Center and served as its director until 1992. During that period, the National Institute of Health awarded the center more than 17 million dollars. At that time, this was the largest grant support in the history of the university. This also led to the development of the Children's Hospital of Michigan Sickle Cell Clinic; and

WHEREAS, Dr. Whitten has been a member of a number of corporate boards of directors. He was the first African American board member at the Gerber Corporation and the National Bank of Detroit and the Comprehensive Health Service (The Wellness Plan); and

WHEREAS, When Dr. Whitten wasn't at the office, he was spending time with his family, cooking, gardening, reading, or writing. The family enjoyed many cross-country road trips, and traveled to Japan, West Africa and the Caribbean. His grandchildren, Simone Jasmine Shurney and Cameron Whitten Shurney were a source of great pride and joy; and

WHEREAS, Until recently, Dr. Whitten conducted business from his bedroom office, which was outfitted with a fax machine, copier, and numerous files. A gourmet chef, Dr. Whitten enjoyed taking courses at sites ranging from high school continuing education programs to the Cordon Bleu; and

WHEREAS, Dr. Whitten was preceded in death by his sister Ernestine Blake, his nephew Alvin Adams, and his niece Yvonne Carr. #### RESOLUTION IN OPPOSITION TO HOUSE BILL 4163

By COUNCIL PRESIDENT CONYERS:

WHEREAS, The Michigan Legislature is considering amending state law to ban smoking in public places, places of employment and food-service establishments, such as restaurants, cafeterias, shopping mall food courts and bars.

WHEREAS, The Detroit City Council understands the myriad of health challenges associated with smoking and respects the intent of the Legislature's effort, yet recognizes, too, that tobacco is a legal product and smoking, an individual's choice.

WHEREAS, The Michigan House on December 5, 2007, passed House Bill 4163 prescribing such a ban but exempted certain cigar bars, tobacco-specialty shops and casinos from the prohibition.

WHEREAS, The Michigan Senate on May 8, 2008, voted to amend the House version of House Bill 4163 by removing the exemptions and simply outright banning smoking in public places, places of employment and food-service establishments.

WHEREAS, The Michigan House on September 23, 2008, failed to concur with the Senate version of House Bill 4163, leaving the controversial public-policy issue unsettled.

WHEREAS, An outright ban on smoking in public places would most assuredly adversely affect the revenues of businesses throughout Michigan and precipitate the layoffs of hundreds, if not thousands, of hard-working Michiganders at a time when Michigan's unemployment rate of 9.1 percent is the highest in the nation.

WHEREAS, Detroit's casino gaming industry would undoubtedly be hard hit by an absolute ban on smoking in public places, as evidenced by the experience of nearby Casino Windsor in Ontario, Canada, which in 2006 prohibited smoking on its premises and saw an immediate 25 percent reduction in revenue.

WHEREAS, Michigan's 19 Native American casinos are located on sovereign land and, thus, would not be affected by a ban on smoking, giving them a competitive advantage over Detroit's three casinos.

WHEREAS, The City of Detroit and the State of Michigan each receive roughly \$200 million per year in tax revenue from Detroit's three casinos and would suffer financial injury if the gaming houses lost revenue because of a smoking ban.

WHEREAS, The City of Detroit uses its casino tax money to, in part, subsidize public safety, and the State of Michigan, to pay for public education.

WHEREAS, Conservative estimates project an outright smoking ban would cost the City of Detroit \$32 million in lost revenue and Detroit Public Schools, \$1.9 million.

WHEREAS, Casino tax revenue has helped the City of Detroit to weather a persistent economic crisis that has gripped the entire State of Michigan since 2002.

WHEREAS, A compromise on this public issue could prescribe an outright ban on smoking but allow "opt-in" privileges for certain bars and food establishments, recognizing that allowing just casinos to "opt-in" would negatively impact the bottom-lines of surrounding "mom and pop" businesses.

WHEREAS, Numerous governmental stakeholders support said compromise, including: the Michigan Licensed Beverage Association, the Michigan Restaurant Association and the Michigan Distributors and Vendors Association. NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council urges the Michigan Legislature to support the compromise on legislation to ban smoking in public places, place of employment and food-service establishments. AND BE IT FINALLY

RESOLVED, That the Detroit City Clerk be instructed to send copies of this adopted resolution to the Honorable Governor Jennifer M. Granholm, the Honorable Detroit Mayor Kenneth V. Cockrel, Jr., the Michigan Legislature and City of Detroit Lansing Lobbyist Kenneth Cole.

Adopted as follows:

Yeas — Council Members S. Cockrel, Jones, Reeves, Tinsley-Talabi, and President Conyers — 5.

Nays — Council Members Collins, Kenyatta, and Watson — 3.

By COUNCIL MEMBER TINSLEY-TALABI:

WHEREAS, In order to conduct the rally and protect the public safety, it is necessary to temporarily close a number of streets in the vicinity of Woodward, Forest and Kirby from Saturday, September 27, 2008 through Sunday, September 28, 2008; and

WHEREAS, The Detroit City Council finds that the criteria set forth in City Code §50-9-18, the standards for issuance of a parade permit, have been satisfactorily addressed; therefore, it is

RESOLVED, That the Detroit City Council accepts the report of the Police Department; and

FURTHER RESOLVED, That the Petition is approved; and

FURTHER RESOLVED, That the Chief of Police is authorized to issue a permit for the rally, including but not limited to the temporary closure of streets in the vicinity of Woodward, Forest and Kirby, and such other streets and public places in this area as may be necessary in the judgment of the Chief of Police, from Saturday, September 27, 2008 through Sunday, September 28, 2008; and

FURTHER RESOLVED, That the various city departments are authorized to establish and implement the necessary plans to facilitate the rally and the temporary closure of streets in the vicinity of Woodward, Forest and Kirby.

#### Planning & Development Department

September 17, 2008

Honorable City Council:

Re: Request for formal Discussion on the General Motor Corporation; Volt Project, Application for Exemption of "New Personal Property" in accordance with Public Act 328 of 1998.

The Planning & Development Department and the Finance Department have reviewed the application of the General Motors Corporation for Exemption of Tax for "New Personal Property", and find that it satisfies the criteria set forth by P.A. 328 of 1998 and would be consistent with development and economic goals of the Master Plan.

Public Act 328 of 1998 states, "the governing body of an eligible local assessing district may adopt a resolution which provides for exemption of all "new personal property of an eligible business located in an eligible district designated in the resolution". Prior to acting upon the resolution, a formal Discussion must be held, and the City Clerk must provide notice of the formal Discussion to the Assessor and to the governing body of each taxing unit that levies an ad valorem tax within the eligible district.

We request that a formal Discussion be scheduled on the issue of adopting "New Personal Property" Exemption Resolution.

Respectfully submitted,  
DOUGLASS J. DIGGS

Director

By Council Member Collins:

Whereas, General Motors Corporation has filed an Application for Exemption of New Personal Property, under Public Act 328 of 1998 ("the Act") in City of Detroit, Industrial Development District in the manner and form prescribed by the Michigan State Tax Commission; and

September 29

2488

2008

Whereas, This City Council is a Qualified Local Governmental Unit as defined by the Act; and

Whereas, This City Council on April 14, 1981, established by Resolution in accordance with the Act; and

Whereas, The taxable value of the property proposed to be exempt plus the aggregate taxable value of property already exempt under the Act and under Public Act 198 of 1974 exceeds 5% of the total taxable value of property in the City of Detroit; and

Whereas, The Applicant is not delinquent in any taxes related to the facility; and

Whereas, The Application is for new personal property as that term is defined in P.A. 197 of 1975, MCL 125.1651 to 125.1681, which property is owned by the Applicant; and

Whereas, The installation/use of the new personal property did not occur before the establishment of the Industrial Development District; and

Whereas, At the time the Certificate is issued, have the reasonable likelihood of increasing and/or retaining employment, increasing commercial activity, revitalizing an urban area, or increasing the number of residents in the community in which the facility is located; and

Whereas, On September 24, 2008, in the City Council Committee Room, 13th Floor, Coleman A. Young Municipal Center, Detroit, Michigan, a formal discussion was held on aforesaid application, at which time the Applicant, the Assessor, and representatives of the affected taxing units had an opportunity to be heard; and

Whereas, Notice was given to the Detroit Board of Education, the City of Detroit Board of Assessors, the Wayne County Board of Commissioners, Wayne County Community College, the Wayne County Intermediate School District, the Huron-Clinton Metropolitan Authority, the Applicant, and by publication to the general public, informing them of the receipt of the Application, the date and location of the discussion, and the opportunity to be heard;

Now Therefore Be It

Resolved, That it is hereby found and determined that the granting of a new Personal Property Exemption Certificate, considered together with the taxable value of Obsolete Property Rehabilitation Exemption Certificates and Industrial Facilities Exemption Certificates if previously granted and currently in force, will not have the effect of substantially impeding the operation of the local governmental unit or impairing the financial soundness of any other taxing unit which levies in an ad valorem property tax with the City of Detroit; and be it further

Re: Neighborhood Enterprise Zone (NEZ) Certificate Application for 1560 Bagley Avenue in the Corktown NEZ area (Recommend Approval).

The City Clerk's Office forwarded to our office an application for a Neighborhood Enterprise Zone (NEZ) certificate at 1560 Bagley Avenue. City Planning Commission staff's research indicates this address is within the Corktown NEZ, which was approved by City Council in 1994.

A certificate for 1560 Bagley is for extensive rehabilitation of a single family structure totaling about \$150,000.00, including in part gutting of all mechanicals, new windows and doors and electrical work.

The property must have a true cash value less than the \$80,000.00 allowed under the NEZ Act. City records show the subject property is eligible with a true cash value of \$67,164.

Based on the above analysis, CPC staff recommends approval of the subject NEZ certificate. Please contact us should you have any questions.

The City Clerk's Office forwarded to this office three applications from the Phoenix Group for Neighborhood Enterprise Zone (NEZ) certificates in the Far East Side Area for the following addresses: 3751, 3767-69, and 3787 Alter Road.

The Far East Side NEZ was approved by City Council on July 23, 2003. The petitioner is proposing to construct single-family homes.

The subject properties are confirmed as being within the boundaries of the NEZ and appear to be eligible for NEZ certificates under State Act 147 of 1992 as currently written. It appears that the request for certificates has been filed prior to the issuance of building permits, consistent with the State Act.

Re: Request for Neighborhood Enterprise Zone (NEZ) Certificate for 469 West Hancock Ave. in the Midtown NEZ area (Recommend Approval).

The City Planning Commission (CPC) staff has received one application for an NEZ certificate in the Midtown NEZ area. The NEZ designation for the Midtown area, generally bounded by Hancock Ave., Cass Ave., Selden Ave. and the Lodge Freeway, was approved by the City Council on March 10, 1999. The CPC staff has reviewed the application and recommends approval.

A certificate is being sought for 469 West Hancock Ave. The condominium is also known as "Unit 7 of Hancock Square Condominium." The petitioner, Mr. Gregory T. Bismack, has purchased the condominium indicated above.

The subject property is confirmed as being within the boundaries of the NEZ and should be eligible for NEZ certificate under State Act 147 of 1992 as currently written.

City records show that Mr. Bismack owns the property. The State Tax Commission is expected to issue a certificate now that the property owner is identified.

We recommend that the NEZ certificate for the above property be approved by City Council as submitted.

**2008 TRI-COUNTY SUMMIT  
GOING GREEN COMMITTEE  
RESOLUTION TO ESTABLISH A  
REGIONAL PARTNERSHIP FOR  
SUSTAINABILITY**

By Council Member Tinsley-Talabi:

Whereas, Environmental and economic challenges are regional in nature and will

September 30

2008

be most effectively addressed by cooperation across jurisdictional boundaries; and

Whereas, The Detroit City Council and the County Commissions of Wayne, Oakland, and Macomb Counties convened at the 2008 Tri-County Summit to collaborate in finding regional solutions to environmental and economic issues; and

Whereas, A sustainable future is one built on meeting today's needs without compromising the ability of future generations to meet their needs, and must encompass the triple bottom line of environmental integrity, economic prosperity and social equity; and

Whereas, This objective can best be achieved through a joint partnership between the Detroit City Council and the County Commissions of Wayne, Oakland, and Macomb Counties; and

Whereas, Such a partnership, to be called the Regional Partnership for Sustainability, will establish a framework for dealing with a wide range of environmental and economic challenges faced by the southeast region of Michigan; and

Whereas, The Partnership will be a substantive product of the 2008 Tri-County Summit, as well as an entity through which government, business and institutions within the region can work together to craft desired goals resulting in solutions for a sustainable future; and

Whereas, We are confident that such a commitment from the Tri-County communities will prove to be a model for regional growth and sustainability;

Therefore Be It

Resolved, That the Detroit City Council and the Wayne, Oakland, and Macomb County Commissions hereby recognize the significant benefit of regional cooperation and join together to establish the Regional Partnership for Sustainability; and

Be It Further

Resolved, That a steering committee shall be formed with two bi-partisan (as appropriate) voting representatives each from the Detroit City Council and the Commissions of Wayne, Oakland, and Macomb Counties to provide direction and oversight; the steering committee will also include non-voting members representing city and county departments and subject experts; and

Be It Further

Resolved, That the Detroit City Council and the Commissions of Wayne, Oakland, and Macomb Counties shall take a vote regarding the establishment of the Partnership by November 15, 2008; and providing the partnership is established, convene the first meeting of the steering committee by January 16, 2009; and

Be It Finally

Resolved, That the Partnership will have a three-year duration with the option to continue its work towards a sustainable

region beyond three years as deemed fit and necessary.

**2008 TRI-COUNTY SUMMIT  
GOING GREEN COMMITTEE  
RESOLUTION TO MAKE ENERGY  
EFFICIENCY THE FOCUS OF THE  
REGIONAL PARTNERSHIP FOR  
SUSTAINABILITY**

By COUNCIL MEMBER TINSLEY-TALABI:

WHEREAS, The Detroit City Council and the County Commissions of Wayne, Oakland and Macomb Counties have established the Regional Partnership for Sustainability; and

WHEREAS, Michigan's per capita energy use continues to steadily increase even as energy costs increase; and

WHEREAS, Cities and counties can increase energy efficiency through green building practices and other energy-efficient actions and policies that can demonstrate measurable results; and

WHEREAS, Energy efficiency and diversification can create opportunities for economic revival by providing job and business opportunities within the emerging green economy; and

WHEREAS, There are models of government-led success in other cities, states, and regions;

THEREFORE BE IT RESOLVED, That the initial focus of the Regional Partnership for Sustainability be on Energy Efficiency; and

BE IT FURTHER RESOLVED, That the Partnership will work with WARM Training, and the Southeast Michigan Regional Energy Office and ReBuild Michigan initiatives for technical assistance, training in best practices and energy audits.

**RESOLUTION  
FOR URGENT NEED TO PROMPTLY  
SECURE ELECTION SERVICES STAFF**

By Council Member Watson:

Whereas, On any given day large numbers of people have mentioned that they have registered several times and have not received their voter's registration card (people who registered as far back as approximately six months ago); and

Whereas, A lot of voters don't know where to go, whether their registrations have been confirmed and/or received by the City and/or the State; and

Whereas, There is a backlog of approximately 22,000 voter registration applica-

tions yet to be processed by the City of Detroit as the result of a record-number of registrations that have been turned in and many more anticipated to be turned in; and

Whereas, Time is of essence to secure the necessary election services staff by Monday, September 29, 2008, so that the backlog and potential surge of newly submitted voter registration applications are processed at the local and state level in a timely manner; and

Whereas, It has been reported that the State of Michigan is concerned about this backlog as well as some college students who registered as early as March/April and on several other occasions and still have not received a card; and

Whereas, The normal method to secure "election service workers — extra service" has sometimes taken months (i.e. a March request to fill a requisition of fifteen (15) said workers did not get completed until September 11, 2008); and

Whereas, The Human Resources Department indicated that if the workers were processed through certification, even under the authority of a Critical Needs Letter, the process could possibly take two (2) weeks; and

Whereas, The City Clerk has indicated that two (2) weeks is too long to wait to secure enough workers and still give the State time to perform their process that ultimately results in issuing registration cards; and

Whereas, Another option available to the City Clerk is to secure the needed fifteen (15) election services staff through a "personal service contract," which if processed promptly can potentially result in the City Clerk starting the new staff on or within a few days of Monday, September 29, 2008; and

Whereas, It is of utmost urgency, for the sake of not disenfranchising otherwise eligible voters because of lack of personnel to process their voter applications in time for the historic November 4, 2008, national election, that the workers be secured sooner than two (2) weeks; and Now, Therefore Be It

Resolved, That the City Council strongly urges the Mayor's administration to give top priority in processing the City Clerk's request to secure election services workers by Monday, September 29, 2008; and Be It Finally

Resolved, That if the City Clerk does not use the resources to hire the additional fifteen (15) election services staff for the November 4, 2008 election, then the City Council strongly urges the Mayor's administration to give top priority to the City Clerk's request to use those resources in administering the special primary City election of February 24, 2009 and special City election of May 5, 2009.

(Department indicates that the wells are being installed as part of an on-going environmental investigation required by the Michigan Department of Environmental Quality (DEQ), on either private or public property; that assuming the City is properly indemnified against potential liability, it would appear that installation of the wells in the right-of-way would not present a problem.) (Department indicates that all repairs that are needed are forwarded to the General Services Department (GSD) on a daily basis and are handled as technical and financial resources are available. Also, a facility of nearly 100 years old makes it difficult and expensive to obtain parts for repairs, as well of the 500,000 square feet of office space and numerous access points the building was vandalized; which involved the theft of copper piping leading to the boiler system, again, very costly and required securing the building to restore the system. However, GSD is actively working to repair this and all other repair issue.)

#### PUBLIC COMMENT

**TRACEY LANE BLAIR:** The house located at 2264 Longfellow, that I purchased, is still in the City of Detroit inventory, and I have not received a deed for the house in spite of the fact that the City Council passed a resolution authorizing me to purchase the house.

**LEWIS SMITH, LAW DEPARTMENT:** We will submit this afternoon a complete

written report and history of this matter for City Council. It should be noted that the Planning and Development Department, after the house was awarded to the City of Detroit in court, did attempt once again to put Ms. Blair in possession of the home. Ms. Blair simply had to make arrangements to pay the tax liens and the water bill because as you know, liens flow with the property meaning that there is nothing that the City of Detroit could do to alleviate that; she had to pay. However, after arrangements and after a certain period of time, she was not able to make arrangements to pay those liens, as such the house remained in the city's inventory.

**S. COLBERT:** I'm asking that something be done to permit male police officers from physically handling female citizens. In addition, I'm asking that documents be provided to citizens that have a complaint with police officers. I'm asking that the citizens have a chance to fill out the complaint forms opposed to stating information to a superior.

**M. CONYERS:** We will refer this to Internal Operations under Council Member Kenyatta. (Mr. Kenyatta staff member received all information and details regarding complaints)

**KEVIN L. G.:** I going to speak hopefully for the music lovers. We want to have a Berry Gordy International Music Festival in the summer of 2010 at Belle Isle. It can only be held in Detroit and I believe that corporations from all over the world will clamor to sponsor a stage, promotions and advertisements.

**TOM LEINN:** We're here on behalf of Tiger Stadium. We're a part of the conservancy and we've been working very hard. Since the last meeting with Council Member Collins Committee, we are very close to signing the MOU and expect to sign it with the DEGC today. We have raised about \$150 thousand dollars and we have promises for the balance, but we don't have it all confirmed yet. We're respectfully asking City Council to give us until Friday to complete the funding of \$219 thousand dollars.

**B. COLLINS:** They should not negotiate with us, they need to speak to George Jackson. My feelings is that everything would be done by today. I think that the city has bent over backwards to accommodate the conservancy.

**K. KENYATTA:** I'm prepared to make a decision today, because I think we have danced around this quite some time. Actually, the original deadline was September 30th. The committee extended the deadline until today; so

there have been several extensions. We should make a decision today, and I would go for the original recommendation to bring it down.

**J. WATSON:** You should remember that contractors don't drive the train; contractor's work for us. We have the right to say, Friday. So, why not do that and act like we're in charge. This Council will be approving a lot of contracts in a few minutes.

**M. REEVES:** In this lifetime, a lot of our history has escaped us. A lot of league players admire us for having a wonderful stadium like Tiger Stadium. I asked at the last meeting if we can extend it until Friday and I really feel that we should consider that.

**M. TODD:** When it comes to the money from Shore Bank, I believe it's my understanding that Shore Bank will not sign off on that money, the release of those funds unless there is a MOU. But the DEGC or EDC representatives are saying that they won't execute the MOU without the funds. That's one thing that will have a bearing on any extension no matter what the length is if that is the truth.

**S. COCKREL:** Looking at your September 26th letter to the Chair of Planning and Economic Development Committee, you said that the demobilization date is currently projected as mid October of 2008; mid-October is next week, not this week. I'm still not clear about why it cannot have a Friday date. If you feel compelled to give them a notice now, a Friday date that's takes effect, it could only be pulled off the table if the money is raised. If they raise the \$150 thousand and can raise the additional \$69 thousand, why not Friday. There's no date here, what is the demobilization date that will pull the trigger that requires the additional \$125 thousand to be spent to complete demolition?

**M. TODD:** November 1, 2008.

Honorable City Council:  
 Re: Applications for twelve (12) Neighborhood Enterprise Zone (NEZ) Certificates in the East Grand Boulevard area (Recommend Approval).

The City Planning Commission (CPC) staff has received twelve (12) applications for Neighborhood Enterprise Zone (NEZ) certificates in the East Grand Boulevard NEZ area. The NEZ designation for the area generally bounded by Woodward Ave., the Chrysler Freeway, East Baltimore Ave., East Milwaukee Ave. and Horton Ave. was approved by City Council on April 30, 2003. The City Planning Commission staff has reviewed the applications and recommends approval.

NEZ Certificates are being requested for: 2843 East Grand Boulevard, Units 1-12. The properties are within the NEZ boundaries described above and should be eligible for NEZ certificates as stipulated under State Public Act 147 of 1992 as currently written.

According to the petitioner, the condominiums would sell for \$200,000.00 per unit. The current true cash value of each unit is \$55,416.00, well below the \$80,000 maximum true cash value per unit mandated by the State Act.

Stephen L. Bias of L & W Building, LLC has applied for the certificates at this time, although buyers of the units have not been identified. The State Tax Commission, however, will not issue a certificate until each owner is identified. Once an owner is identified, he or she can apply for the certificate. At that time, it would not be necessary for the City Council to pass another resolution.

The CPC staff, therefore, recommends that the twelve (12) certificate applications indicated above be approved as submitted.

We have reviewed the above-captioned lawsuit, the facts and particulars of which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body. **City of Detroit  
Brownfield Redevelopment Authority**

September 25, 2008

Honorable City Council:

Re: Carpenter Road Brownfield Redevelopment.

The enclosed Brownfield Plan for the Carpenter Road Redevelopment Project (the "Plan") (Exhibit A), submitted by the Detroit Brownfield Redevelopment Authority Board (the "Authority") to the Community Advisory Committee (the "Committee"), has been considered and reviewed by the Committee and a public hearing was held by the Authority on September 18, 2008 to solicit public comments. At its September 11, 2008 meeting, the Committee considered and approved a resolution recommending approval of the Plan by the Authority and City Council in the form presented by the Authority.

On September 25, 2008, the Authority adopted a resolution (Exhibit B) approving the Plan and authorizing the submission of a certified copy of its resolution and the Plan to the City Clerk, together with a request that the Detroit City Council call a

October 7

2678

2008

public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

The Plan is now presented to the City Council for approval. The Detroit City Council will, after publication of the notices required by law, hold a public hearing on the Plan. After the public hearing, the City Council shall determine whether the Plan constitutes a public purpose and, if so, may approve or reject the Plan or approve it with modifications.

#### Project Introduction

D&H Medical Plaza, LLC and Senior Serenity, LLC are the project developers (the "Developer"). The plan entails renovation of Carpenter Road property that was part of property formerly known as the Greater Detroit Hospital that closed in 2000.

The abandoned four story building located at 3105 Carpenter in Detroit will be redeveloped into a modern medical office building to serve an underserved neighborhood near the Detroit — Hamtramck border. The medical office building is expected to create 80 medical/health science jobs and 6 security/maintenance jobs.

Additionally the medical office-building portion of this project will retain 30 medical/health science jobs and 4 security maintenance jobs. Total capital investment is estimated to be \$8,900,000. The developer is requesting an MBT credit of \$852,508.

3021 Carpenter in Detroit, an abandoned four story 120,000 sq. ft. building, also part of the former Greater Detroit Hospital will be redeveloped into a twenty-four hour assisted living facility. It will also serve the underserved neighborhood that spans the Detroit-Hamtramck border. Development of this portion of the Carpenter Road brownfield plan will occur after the completion of the medical office building described above. It is expected to create more than 120 medical/health science jobs and 15 security/maintenance jobs. Total capital investment for the assisted living facility is estimated at \$9,500,000. The Developer expects to request a 2009 MBT credit of approximately \$1,000,000.

#### Property Subject to the Plan

The property comprising the eligible property consists of the main properties at 3105 and 3021 Carpenter and adjacent and contiguous parcels located at 12231, 12225, 12228 and 12224 McDougall; 12224 and 12230 Mitchell; 12230, 12224, 12225 and 12231 Charest; 12225 and 12231 Gallagher; and 3217 and 3223 Carpenter.

#### Basis of Eligibility

The Property is considered "eligible property" as defined by Act 381, Section 2 because (a) the Property was previously utilized for a commercial purpose; (b) it is located within the City of Detroit, a quali-

fied local governmental unit under Act 381; and (c) the Property is comprised of parcels determined to be functionally obsolete and included parcels that are adjacent or contiguous to that Property as defined by Act 381.

#### Eligible Activities and Projected Costs

The "eligible activities" that are intended to be carried out at the Property are considered "eligible activities" as defined by Sec 2 of Act 381, because they include interior and exterior demolition, lead and asbestos abatement, demolition and relocation of utilities and site preparation. It is currently anticipated construction will begin in the fall of 2008 and eligible activities will be completed within three years.

#### Tax Increment Financing (TIF) Capture

This Plan anticipates the capture of tax increment revenues to reimburse the Developers for the costs of eligible activities under this Plan in accordance with the Reimbursement Agreement. A table of estimated tax increment revenues to be captured is attached to this Plan.

Following is a table of estimated costs of those eligible activities for the Carpenter Road project.

Honorable City Council:

Re: 1015 Spruce Street Brownfield Redevelopment.

The enclosed Brownfield Plan for the 1015 Spruce Street Redevelopment Project (the "Plan") (Exhibit A), submitted by the Detroit Brownfield Redevelopment Authority Board (the "Authority") to the Community Advisory Committee (the "Committee"), has been considered and reviewed by the Committee and a public hearing was held by the Authority on September 18, 2008 to solicit public comments. At its September 11, 2008 meeting, the Committee considered and

approved a resolution recommending approval of the Plan by the Authority and City Council in the form presented by the Authority.

On September 25, 2008, the Authority adopted a resolution (Exhibit B) approving the Plan and authorizing the submission of a certified copy of its resolution and the Plan to the City Clerk, together with a request that the Detroit City Council call a public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

The Plan is now presented to the City Council for approval. The Detroit City Council will, after publication of the notices required by law, hold a public hearing on the Plan. After the public hearing, the City Council shall determine whether the Plan constitutes a public purpose and, if so, may approve or reject the Plan or approve it with modifications.

#### Project Introduction

Made in Detroit is the project developer ("Developer") for Ten Fifteen Spruce. The project site is located in downtown Detroit and entails the restoration, renovation and conversion of the Albert Khan designed Detroit Creamery Building (built in 1914), and surrounding area into a luxury residential and retail complex.

Phase I of the Project consists of converting the primary building of 120,000 square feet into 93 luxury loft condominiums. In addition, a two-story secondary building will be converted into 18,000 square feet of common area including a swimming pool, sauna and steam rooms, a professional fitness center, a business center, small meeting rooms, and a large meeting room with a kitchen and bar, suitable for large parties or banquets.

Phase II will consist of the redevelopment of seven additional parcels with frontage along Grand River Avenue for commercial retail space providing much needed retail services to the condominium owners, as well as the surrounding community. Total investment for the project is estimated to be \$37,000,000 of which approximately \$28,000,000 is anticipated to be eligible for an MBT credit.

The MEDC has issued an invitation letter for this project indicating a 20% MBT credit that is estimated to be \$5,615,000.

#### Property Subject to the Plan

The property included in the Plan consists of 22 parcels located in Detroit's Briggs Neighborhood, on the west side of Detroit, bounded by John C. Lodge Freeway (US-10) and Perry Street to the east and north, Grand River Avenue to the north and west and Pine Street to the south. The property is dissected by Spruce Street and Fifth Street.

#### Basis of Eligibility

The Property is considered "eligible property" as defined by Act 381, Section 2 because the Property is determined to be

a facility, adjacent and contiguous to a facility, or blighted, as defined by Act 381. Environmental Assessments were conducted at 14 of the 22 project parcels in Spring 2008. Each of the 14 parcels were found to meet the definition of a "facility" pursuant to Section 20101 of NREPA Act 451, Part 201, as amended, based on the presence of volatile organic compounds and/or metals measured in fill soil. Eight of the parcels are located adjacent and contiguous to the 14 parcels identified as facilities.

#### Eligible Activities and Projected Costs

The "eligible activities" that are intended to be carried out at the Property are considered "eligible activities" as defined by Sec 2 of Act 381, because they include Baseline Environmental Assessment Activities, due care activities, additional response activities, building demolition, interior demolition, and lead and asbestos abatement, site preparation and public infrastructure improvements. It is currently anticipated construction will begin in spring, 2009 and eligible activities for both Phase I and Phase II will be completed within five years.

#### Tax Increment Financing (TIF) Capture

This Plan anticipates the capture of tax increment revenues to reimburse the Developers for the costs of eligible activities under this Plan in accordance with the Reimbursement Agreement. A table of estimated tax increment revenues to be captured is attached to this Plan.

Following is a table of estimated costs of those eligible activities for the Made in Detroit project.

September 26, 2008

Honorable City Council:

Re: City Council Resolution Approving Demolition of Entire Tiger Stadium.

On July 15, 2008 the EDC Board of Directors passed a resolution recommending to City Council that all of Tiger Stadium be demolished pursuant to the EDC Project Plan adopted by City Council on July 27, 2007. The EDC presented the recommendation to City Council Planning and Economic Development Committee on July 23, 2008, and to the full City Council on July 29, 2008 with the purpose of notifying the demolition contractor to proceed with full demolition by the August

October 7

2682

2008

1, 2008 deadline in order for the City to receive a \$300,000 payment from the contractor.

At the July 29th council meeting, City Council directed the EDC to continue negotiations with the Old Tiger Stadium Conservancy (OTSC) in an effort to save a portion of the stadium with the intent to execute a revised Memorandum of Understanding (MOU) satisfactory to both parties and which would not cause the City to be out of pocket for the cost of maintaining the structure or for potential future demolition costs. The EDC and OTSC subsequently agreed to a summary of terms to be used as a framework for executing a MOU, recognizing that there were still outstanding issues that needed to be resolved. Unfortunately, these issues have not been resolved and a revised MOU has not been executed. More importantly the money required to keep the City from incurring additional costs once the contractor leaves has not been deposited. At this time, we are not sure when to expect execution of a revised MOU by OTSC or if any funds will ever be deposited.

Given the lack of funds on deposit and the fact that the demolition contractor is concluding the selective demolition activities and will therefore be demobilizing from the site in the very near future, delaying a demolition decision could result in additional costs being incurred by the City. Therefore, unless OTSC is able to place on deposit \$219,000, by September 30, 2008, that can be used by the City for maintenance, security, and demolition costs if the project does not move forward by the March 1, 2009 agreed upon deadline, EDC is recommending it notify the contractor to complete the full stadium demolition. Pursuant to our contract, if the EDC informs the contractor before they demobilize (currently projected at mid-October, 2008), of the decision to demolish the entire stadium it will cost the City zero dollars. If we notify them subsequent to that date it will cost an additional \$125,000 to complete demolition.

Please find attached a summary of milestones and action items on this matter, as well as a Resolution Approving Demolition of entire Tiger Stadium in connection with the Tiger Stadium Property Redevelopment Project, should OTSC not deposit at least \$219,000 of unencumbered funds by September 30, 2008.

If you have any questions, please feel free to contact me at 237-4604.

**City Council Resolution Approving  
Demolition of Entire Tiger Stadium in  
Connection with the Tiger Stadium  
Property Redevelopment Project**

By Council Member Collins:

Whereas, The Board of Directors of the

Economic Development Corporation of the City of Detroit (EDC) has approved a Project Plan for the Tiger Stadium Property Redevelopment Project (the "Project Plan"); and

Whereas, City Council approved the EDC Project Plan for the Tiger Stadium Property Redevelopment Project on July 27, 2007; and

Whereas, The EDC is proceeding with all tasks necessary for the implementation of the Project Plan, including the selective demolition of the stadium; and

Whereas, The Project Plan states that the EDC will seek permission from City Council to complete the demolition of the entire Stadium; and

Whereas, The Old Tiger Stadium Conservancy (OTSC), was established for the purpose of promoting and preserving the history of Tiger Stadium, facilitating youth activities, and creating an activity space open to the general public on the site of the historic Tiger Stadium; and

Whereas, Pursuant to a Memorandum of Understanding (MOU) executed between the EDC and the OTSC, the OTSC must provide funding commitments for the restoration and operation of the preserved portion of Tiger Stadium, pay for the costs of retaining for future renovation the portions of Tiger Stadium and pay for ongoing security at the un-demolished portions of Tiger Stadium, as well as comply with all terms and conditions of the MOU; and

Whereas, The OTSC was required to provide the funds necessary to retain and secure the portion of Tiger Stadium (the "Preservation Funds") that is to be saved by March 31, 2008; and

Whereas, The EDC has extended the deadline to receive the Preservation Funds from OTSC numerous times with the most recent deadline being September 8, 2008; and

Whereas, At the request and direction of City Council on July 29, 2008, the EDC has continued negotiations with the OTSC in connection with a revised Memorandum of Understanding to allow the OTSC an opportunity to: acquire the necessary funding commitments, obtain construction plans and prepare the cost estimates to preserve a portion of Tiger Stadium; and

Whereas, A condition of the proposed MOU requires OTSC to place on deposit a minimum of \$219,000 to be used by the City for maintenance, security and potential demolition costs should the project not move forward by the March 1, 2009 agreed upon deadline; and

Whereas, The continued negotiations between OTSC and the EDC have not resulted in the execution of a revised Memorandum of Understanding and OTSC has not deposited the required funds.

Now, Therefore Be It Resolved, The

City Council hereby authorizes the EDC to proceed with demolition of the entire Tiger Stadium pursuant to the approved Project Plan, in the event that by September 30, 2008, an MOU has not been executed by OTSC and \$219,000 is not placed on deposit to be used by the City for maintenance, security and potential demolition costs should the project not move forward by the March 1, 2009 agreed upon deadline.

Re: Public Hearing on the Establishment of the Corktown North Neighborhood Enterprise Zone in Accordance with Public Act 147 of 1992.

The Planning & Development Department and the Finance Department have reviewed the Master Plan and the neighborhood preservation and development goals of the City, and find that establishment of the Corktown North Neighborhood Enterprise Zone would be consistent with the neighborhood preservation and development goals and with the Master Plan.

Public Act 147 of 1992, commonly

referred to as the Neighborhood Enterprise Zone (NEZ) Act, in Section 3(1) states "the governing body of a local governmental unit by resolution may designate one (1) or more neighborhood enterprise zones." Prior to acting upon the resolution establishing an NEZ, a public hearing must be held, and the City Clerk must provide written notice of the public hearing to the assessor and to the governing body of each taxing unit that levies an *ad valorem* tax within the proposed NEZ, said notice to be made not less than 60 days prior to your Honorable Body's passage of a resolution designating an NEZ.

The boundaries of the proposed NEZ are described in Exhibit A (legal description) and illustrated in the map also attached. The Developers proposes to construct 18 town homes and 17 single-family homes in two phases the first phase, which will be the town homes, at an estimated investment of \$4 million.

We request that a Public Hearing be scheduled on the issue of establishing this NEZ, as required by the NEZ Act. Attached for your consideration, please find a resolution establishing a date and time for the public hearing, together with the aforesaid map and legal description of the proposed NEZ.

**Department of Public Works**

June 10, 2008

Honorable City Council:

The Department of Public Works had been operating 4 bulk drop-off sites within the city prior to the end of monthly bulk collection. The sites are located at:

- 8221 W. Davison
- 12255 Southfield Service Drive
- 5840 Anthon
- 19715 John R

These sites have, and will continue to operate as Type B Transfer Facilities as defined in the Wayne County Solid Waste Management Plan (WCSWMP). Type B Transfer stations generally receive domestic solid waste from vehicles unloaded by hand and receive less than 200 cubic yards per day. While these sites are no substitute for curbside collection, they do provide the residents of the City of Detroit with a readily available alternative for bulky items and yard waste disposal. These sites currently augment our existing quarterly bulk collection and provide our residents with the opportunity to dispose of their bulky items and yard waste 52 weeks per year. Our collection sites not only offer convenience to the residents, but they assist the Department of Public Works by reducing the amount of illegal dumping that occurs within the City. During the current fiscal year (July 1, 2007 to present) more than 21,762.33 tons of debris have been collected at our disposal sites.

In an effort to bring our bulk drop-off sites into alignment with the Wayne County Department of Environmental Quality standards and be included in the WCSWMP, the Department of Public Works will be submitting an Inclusion Application to the Wayne County Department of Environment (DOE).

Having our sites included in the WCSWMP will further aid the County in its goals of improving the environmental living conditions for all residents of Wayne County.

We are requesting that your Honorable Body endorse our effort to become part of the Wayne County Solid Waste Management Plan, and thus resolve to support our application to the Wayne County Solid Waste Facility Inclusion Committee.

Respectfully submitted,

ALFRED JORDAN

#### NEW BUSINESS Law Department

October 6, 2008

Honorable City Council:

Re: Yakima Washington vs. City of Detroit. Wayne County Circuit Court Case No.: 08-106479 CK.

We have reviewed the above-captioned lawsuit, the facts and particulars of which are set forth in a confidential attorney-client privileged memorandum that is being separately hand-delivered to each member of your Honorable Body. From this review, it is our considered opinion that a settlement in the amount of Ninety Thousand Dollars and 00/100 (\$90,000.00) is in the best interest of the City of Detroit.

We, therefore, request authorization to settle this matter in the amount of Ninety Thousand Dollars and 00/100 (\$90,000.00), and that your Honorable Body authorize and direct the Finance Director to issue a draft in that amount payable to Yakima Washington and Warnicke & Wigenty, PLLC, her attorney, to be delivered upon receipt of properly executed Releases and a Stipulation and Order of Dismissal entered in Lawsuit No. 08-106479 CK, as approved by the Law Department.

#### STATEMENT BY COUNCIL MEMBER SHEILA M. COCKREL REGARDING "NO" VOTE ON RESOLUTION TO APPROVE \$90,000 SETTLEMENT IN THE WASHINGTON VS. CITY OF DETROIT LAWSUIT

Today I voted "no" on the resolution to approve a \$90,000 settlement in the *Washington vs. City of Detroit* lawsuit. The Law Department provided Council with a totally inadequate privileged and confidential memorandum regarding settlement of this case. Unlike other privileged lawsuit memoranda from the Law Department, the memorandum lacked specific detail about the underlying allegations in this case. During City Council's investigation of the Brown, Nelthrope and Harris matters, we denounced the Law Department's actions for not fully disclosing all the reasons for recommending settlement of the cases and the lack of transparency. I strongly believe Council should have been fully informed of the allegations and reasons for settlement of this matter prior to agreeing to expend public funds. We must hold the Law Department to the same standard of transparency in this matter that we concluded from our legislative hearings was appropriate public policy.

I feel that President Conyers' demeanor at the table when Council attempted to discuss the vote on this matter was heavy handed and undemocratic. The process followed did not allow Council Members to make an informed decision on the resolution, and did not allow Council Members to clear up the confusion on what was being voted upon. This incident uncovers fundamental problems with the two-step process that must be followed when placing New Business on the Calendar.

Further, we know there are problems with the forfeiture provision of the City Charter with regard to removal of elected officials for misconduct in office. I intend to ask the Law Department to explain the City's policy and the basis for providing representation to an elected official if it is alleged that the official has acted outside their official duties. This is an important

2008

public policy issue that must be addressed.

STATEMENT BY COUNCIL MEMBER  
KWAME KENYATTA AFFIRMING MY  
INTENTION TO VOTE NO. ON CASE  
NO.: 08-106479 YAKIMA WASHINGTON  
VS. CITY OF DETROIT

City Council approved a settlement of Case No. 08-106479, Yakima Washington vs. City of Detroit during today's formal session. This case involved City Council President Monica Conyers.

I am recorded as a yes vote on that lawsuit. However, I objected to the manner in which the vote was taken. It was my belief that my vote was for a procedural motion that would allow the line item to be placed on the subsequent new business agenda and not to approve it. I had no intention to vote on the approval or disapproval of the settlement itself when the vote was taken but only for its placement on the new business agenda.

Upon realizing that the vote was to approve the settlement I asked for a reconsideration of the vote, which was denied by the President and supported by City Council with the exception of Council Member Sheila Cockrel.

My reason for calling for reconsideration was to allow me to vote no on the motion due to the tardy presentation of the settlement memo to City Council for review. In fact I received the privileged and confidential settlement memo at 11:57 a.m. today, after the formal session had concluded for the day.

This City Council has gone on the record opposing any further settlement agreements without City Council's foreknowledge. This objection stems from the confidential agreement and other items hidden from City Council during the Whistleblower Lawsuit involving former Mayor Kilpatrick. Therefore, City Council should not have taken a vote approving the settlement involving one of its own members without foreknowledge regarding the settlement terms.

For these reasons, if I was afforded the opportunity to vote on this item my vote would have been no.

**RESOLUTION CONDEMNING THE CLOSING OF THE DETROIT AXLE PLANT BY CHRYSLER LLC**

By Council Member Tinsley-Talabi, Joined By Council Members Jones and Reeves:

Whereas, The Detroit Axle Plant at 6700 Lynch Road was opened in 1917 and was purchased by Chrysler in 1928. The factory builds front and rear axles in a 1.2 million square feet facility located on 48 acres in the City of Detroit; and

Whereas, The City of Detroit and the Chrysler Corporation have historically enjoyed a mutually beneficial relationship where Chrysler has received tax abatements and concessions for its facilities and the Detroit has enjoyed the stabilizing effects of jobs and tax revenues; and

Whereas, The City of Marysville had its first meeting with Chrysler representa-

tives in March of 2007 and the site was selected in April 2007 for construction of a new 700,000 square foot axle assembly plant on 211 acres. Marysville purchased and annexed the land for the facility and has offered Chrysler LLC other incentives. The plant is scheduled to open in 2010; and

Whereas, According to the City of Marysville, the new axle assembly plant, located in St. Clair County, will employ between 750 and 900 people and represents a \$366 million dollar investment in the community; and

Whereas, This negatively impacts the United Auto Workers 961 membership who work at Detroit Axle, many of whom reside in Detroit, and represents a significant loss of jobs and revenue for the City of Detroit; and

**RESOLUTION REGARDING THE  
CONCESSION CONTRACTS FOR THE  
COBO CONFERENCE/EXHIBITION  
CENTER**

By COUNCIL MEMBER WATSON:

WHEREAS, Aramark Confection

Corporation (Aramark) has exclusive right to operate and manage concessions and other services at Cobo Conference/Exhibition Center (Cobo Center) under an original agreement between the City of Detroit and Ogden J., L.L.C. (Ogden) subsequently amended and assigned to Aramark and extended so as to expire on April 30, 2009. Simon's Pizza & Subs (Previously known as Pizza Queen) is a concession vendor under subcontract initially with Ogden since 1985 and currently with Aramark for concessions for the Cobo Center; and

WHEREAS, The current sub-contractual agreement dated January 1, 2007. Between Simon's and Aramark expires on April 30, 2009. The agreement provides Simon's exclusive right to sell pizza type products at specific prices, quality, quantities, and in locations at the facility designated by Aramark. Simon's exclusive rights are subject to Aramark's right to provide temporary or permanent food service that includes pizza products. Simon's also indicates they are being unfairly treated by being required to pay a fixed monthly sum while other vendors pay a monthly sum based on a percentage of concession revenues, and were informed their subcontract may not be renewed in favor of a nationally franchised vendor; and

WHEREAS, The unfavorable and restrictive contractual terms has prevented Simon from providing concession services at a number of recent events at Cobo Center and has placed Simon at a business disadvantage in comparison with other subcontractors and could place it in direct competition with Aramark in providing pizza products; and

WHEREAS, The City Council is determined that along with completing negotiations for the expansion of Cobo Center the City continues to promote the growth and viability of local and Detroit-based businesses by providing fair and equal opportunities at Cobo Center; and

WHEREAS, The City Council is aware that in some circumstances the use of a single general contractor may be more economical and efficient than the management of a variety of different vendors, this Council also believes that engaging in independent contracts with each vendor is one way to help spur that growth and viability; and

WHEREAS, The City Council has received a number of complaints regarding the manner in which some long term Detroit-based businesses have been treated, the Council urges the Administration to explore the possibility of individual contracts between the concession vendors and the City;

BE IT THEREFORE RESOLVED, That the City Council strongly encourages the Administration upon the expiration of the current Cobo Center concession contract,

October 7

2708

2008

to contract separately with independent vendors for concession services to Cobo Center; and

BE IT FURTHER RESOLVED, That the City Council urges that at the expiration of the current Cobo Center concessions contract, if it is impractical for the City of Detroit to engage in independent contracts with concession vendors, that the terms of the master agreement between the City of Detroit and a general concession contractor provide that a list of the proposed subcontractors providing concession services be submitted to the City Council for consent and approval, as being in compliance with Executive Order Number 2007-1 regarding the utilization of 51% of Detroit residents and Executive Order Number 2003-4 regarding the utilization of 30% of Detroit based businesses; and

BE IT FINALLY RESOLVED, That the City Council implores the Administration to provide that the master agreement contain terms and conditions indicating the proposed listed subcontractors will not be terminated or fail to be renewed without prior notice being provided to the Administration and City Council.

#### MEMBER REPORTS:

**JOANN WATSON:** I'd like to ask my colleagues to let me know if you support us having a Community and Restoration meeting here in the auditorium on Saturday, November 22, 2008, centering around some of the issues that we stood by as a body regarding the bail out that was allocated through Wall Street and the greedy, not the needy. We're talking about the \$700 billion dollars. We also need to plug in the reality that only 20 percent of the young black men in Detroit are graduating from High School, the utility business, and the redlining of insurance rates.

There are wonderful gardens planted to help our people move from fast foods into organic foods and also providing access to free Universal Health Care. The only help that will come for Detroit citizens is from us. I'm working with folks not only in Detroit, but from Wayne County, the State and some Federal officials.

**BARBARA ROSE COLLINS:** I would like Research and Analysis and Fiscal Analysis to submit a report to outline what the \$700 billion dollars will do and what it won't do. I would like this report by next week.

**BRENDA JONES:** Yesterday evening I was at a meeting and a young lady from the University of Detroit was speaking to the group in regards to a project that they had to extend to the University of Detroit; they purchased three homes. The Martin Park Association stated that they never came to them; they never talked to the community. They did approve of the project, however, they would like to have some type of notice if something is going to happen in their area. I told them that I would refer this to the Planning and Economic Development Standing Committee.

**B. Collins:** That's City Planning Commission.

**M. Todd:** I have ample information and will respond in a timely manner.

**STATEMENT BY COUNCIL MEMBER  
KWAME KENYATTA AFFIRMING MY  
VOTE OF DISAPPROVAL FOR  
HARRISON TECHNOLOGY INVOLVING  
CONTRACT NO. 2768087**

Today, Tuesday, October 14, 2008, I recommended that City Council vote no on Contract No. 2768087 in the amount of \$1,000,000, which was awarded to Harrison Technology to provide computer programming, coding and analysis for the Information Technology Services Department. All Council Members who were present joined me in unanimously voting no.

I recommended a no vote based on findings from research conducted by my staff. It was brought to my attention on Monday evening, October 13, 2008 that the contract was problematic for a number of reasons including but not limited to:

- No traceable or verifiable address or website information was found for a Harrison Technology in Detroit, MI.

- A site visit conducted by myself at the Detroit address provided in the bid revealed that Harrison Technology did not occupy space at 333 W. Fort St., Ste. 1750 as affirmed.

- A check of state records indicates that Harrison Technology operates under the assumed name of Blaszmoo LLC with the registered agent being Jay Harrison.

In fact we discovered that the address was instead previously held by SCAN (Security Communications Alert Network), which was shut down by the FBI on July 14, 2008 as a result of an ongoing and widening investigation of city contracts. It is notable that the Harrison Technology contract was awarded on July 15, 2008.

We further learned that the principal address for Harrison Technology is a P.O. Box in Walled Lake, MI. The Human Rights Department lists no certification for Harrison Technology as either a Detroit Based or Detroit Headquartered Business. The EEOC clearance expired on August 26, 2008.

These along with other concerns led us to recommend that this contract be voted down and that a full-fledged investigation should be conducted within the Information Technology Services Department.

The investigation should particularly focus on contracts recommended by as well as subsequently approved by Council within the last year. My request for an investigation will be officially formalized at the Internal Operations Committee this Thursday, October 16, 2008.

**STATEMENT BY COUNCIL MEMBER  
ALBERTA TINSLEY-TALABI  
REGARDING THE HARRISON  
TECHNOLOGY CONTRACT NO.  
2768087**

Although I voted not to support the

Harrison Technology Contract, I do believe that Mr. Jay Harrison should have been given the opportunity to come before City Council and answer any questions or concerns. Although my vote may not change, I believe that the best decisions are made when all of the information is before city council, which was not the case with this vote.

September 23, 2008

Honorable City Council:

Re: Extension of Development Agreement. Jefferson-Chalmers Neighborhood Development Project Development: Parcel 154-B; located South of East Jefferson between Newport and Piper Avenues.

On September 19, 2002 (Detroit Legal News, October 2, 2002, Pg. 12), your Honorable Body authorized the sale of the above captioned property to Lombardo Heritage, LLC, a Michigan Limited Liability Company, for the purpose of constructing 126 condominium units.

Lombardo Heritage has completed the construction of seven (7) townhouse style buildings containing a total of 68 units and informed the Planning and Development Department that, due to unavoidable circumstances, they were unable to complete the project within the time allotted in the present Development Agreement. Lombardo Heritage has since amended their building designs to improve marketability and are now proceeding with plans to secure the financing necessary for completion of the project. Consequently, Lombardo Heritage is now requesting a twelve (12) month extension.

The Planning & Development Department has reviewed the request of Lombardo Heritage, LLC, and has determined it to be reasonable and consistent with the terms and conditions set forth in the Development Agreement.

We, therefore, request that your Honorable Body adopt the attached resolution authorizing an amendment to the

Development Agreement to extend the completion period of the development.

Respectfully submitted,  
DOUGLASS J. DIGGS  
Director

Planning & Development Department  
By Council Member Collins:

Resolved, That the agreement between Lombardo Heritage, LLC, a Michigan Limited Liability Company and the City of Detroit, to purchase and develop property described as Parcel 154-B, located south of East Jefferson between Newport and Piper Avenues, be amended to reflect that the completion of construction be extended to December 31, 2009.

And be it further

Resolved, That this amendment to the agreement to purchase and develop be considered confirmed when signed and executed by the Planning & Development Department's Director, or his authorized designee, and approved by the Corporation Counsel as to form.

Re: Surplus Property Sale By Development Agreement. Land Disposition: 4126, 4150, 4174, 4372, 4394, 4428, 4373 Maryland & 4217 Lakepointe.

On June 6, 2007, J.C.C. pages 1417 and 1418 your Honorable Body authorized the sale of Parcel 482, which is generally bounded by Warren, Maryland, Mack and Barham to Habitat for Humanity Detroit, a Michigan Non-Profit Housing Corporation for the purpose of constructing forty-five (45) new single family homes with attached garages.

It has been brought to our attention that the above-captioned properties which are within the boundary of the Morningside housing project are needed in order for the development to be more complete. These sites consist of several undersized vacant lots which Habitat for Humanity will combine with their existing parcels and improve each site in conjunction with their housing project.

We, therefore, request that your Honorable Body authorize the sale and authorize the Planning and Development Department's Director or his authorized designee, to issue a Quit Claim Deed to the property and such other documents as may be necessary to effect the sale, to Habitat for Humanity Detroit, a Michigan Non-Profit Housing Corporation, upon payment of the purchase price of \$8,000.00.

Re: Request permission to accept "Education and Enforcement in Focus State and Focus City Pedestrian Safety Efforts" Grant from the Wayne State University Transportation Research Group.

The Wayne State University Transportation Research Group (WSU-TRG) has awarded the Detroit Police Department (DPD) \$9,517.89, with no cash match. This funding will cover the Detroit Police Department's involvement in two pilot enforcement programs, entitled "Share the Road" and "Traveling Trashed is Trouble (3T)", which began on July 28, 2008.

Detroit Police Department personnel will assist WSU-TRG in contacting the management of bars and liquor stores and aid in the distribution and collection of posters, flyers, and surveys at the selected establishments. Additionally, DPD will conduct targeted enforcement of drunk driving zones and provide informational materials to pedestrians at and near the designated establishments.

If approval is granted to accept this funding, Lieutenant Terry Herbert, of Police Community Services, will serve as the project director. The appropriation number for this grant is 12751.

The Board of Police Commissioners has approved this request. I am requesting approval from your Honorable Body to accept the grant from the WSU-TRG.

If you have any questions or concerns regarding this matter, please feel free to contact me at 596-1800, Monday through Friday, 9:00 A.M. to 5:00 P.M.

WHEREAS, Lagorce Alonzo Hanna was born on October 16, 1928 in Miami Florida. Lagorce (Gossie) was the baby of the family for many years. He worked in the base office. He received many accolades because of his typing skill, and

WHEREAS, After the completion of his stint with the army; Lagorce came back to Detroit in search of employment. He worked various jobs until he got hired at the Detroit Water Board as a Meter Reader then he moved to the collection section, where he was employed for forty-three years. #### CITY COUNCIL FISCAL ANALYSIS DIVISION

19. Submitting report relative to Gaming Tax Revenue Activity through August 2008 and prior fiscal years. **(Department indicates that the City has collected \$14,031,000.00 in gaming tax revenue for the second month of the fiscal year, a 0.22% increase from July; August 2008 collection was a 0.064% decrease over July 2007 and 0.204% increase over August 2006; also the Adjusted Gross Casino Gaming receipts came in at \$117,096,000.00 for the month of August 2008, a 2.10% increase over the prior month and a 5.67% increase over August 2007. There is not a one-to-one relationship between the adjusted gross receipts and the tax revenue collection increases due to the fact that MGM and Motor City casinos began paying the city 1% less because of the permanent casinos opening on October 3, and November 29, respectively, part of state Public Act 306 of 2004, when the legislature amended Public Act 69 of 1997, etc.)**

**COMMUNICATIONS FROM MAYOR  
AND OTHER GOVERNMENTAL  
OFFICIALS AND AGENCIES  
PUBLIC COMMENT**

**DEBRA MARTIN** spoke regarding the sale of four (4) lots that she purchased on Shoemaker. Mr. Nyeche has not returned her calls. She is requesting that Council would rescind the sale. She states that two lots are useless for anyone because they are too close to a

school for development. She felt that she was misled in purchasing the lots. She believes that it is unfair for Mr. Nyeche to have the last word regarding rescinding this purchase.

**PRES. CONYERS:** The Law Department and the Planning and Development Department will contact Ms. Martin.

**PATRICIA JEFFERSON** spoke regarding a lawsuit against Wayne State University and referring an article in the Chronicles "WSU faces Discrimination Charges." Ms. Jefferson was denied promotions.

Wayne State would fire one African American and hire three Caucasian sisters. They would over work African Americans and expand the position when they remove one of us. We have had several letters of support but WSU would not meet with us.

**PRES. CONYERS:** Congressman John Conyers is at his headquarters on Livernois. He will be in town until the end of this year; you can speak with him at any time. Congressman John Conyers is for the people and he will help you.

**PATRICIA JEFFERSON** stated that they have been fighting this since 2003 and it is an ongoing situation.

**COLLINS:** WSU has not change. I worked there for 10 years and they have their own rules of which they are governed. For sexual harassment, the University would have to pay ten times the damages if they do not response in a timely manner.

**PATRICIA JEFFERSON** thought that a resolution from this Body would help them.

**COLLINS:** Could we have Research Analysis Division draft a resolution and have them confirm with Member Watson so that it will be a strong resolution?

**PRES. CONYERS:** Yes.

**DENISE SMITH**, a former employee of Wayne State University, said that she was unjustly terminated on what the University call a "three-day, no call, no show" rule. The University does not have a handbook for their employees. This is why she is calling it a dual system. She stated that Wayne State puts their employees in a compromising position, which they can terminate them.

We would like a resolution and help from this City Council and from the former President of the City Council. This would not be only for us, but because of the other employees who are yet working at Wayne State University. I have had several calls from current Wayne State employees and former employees; I have directed them to contact the newspapers and to contact our lawyer.

**MARGARET DAVIS**, a former Wayne

October 21

2791

2008

State University employee, is experiencing an unjustly termination while on FMLA medical leave. She was a Secretary III in the Department of Continuing Medical Education for six years. She stated that she trained one of the supervisors. They took her responsibilities from her as she trained Caucasians. They would terminate the Blacks and rehire Caucasians. When she made a complaint within the University and at the State of Michigan things became hard and they terminated her. They did not have an inside policy until after their termination.

Our attorney takes individual cases and if he continues to receive calls, I am sure it will be a class action lawsuit.

**TINSLEY-TALABI:** Council should go on record as supporting these women and others. I join my colleagues in doing whatever we can in supporting the Congressman; I also think this Body has to also send a strong statement that we do not support that kind of action.

**PRES. CONYERS:** We will get all of your phone numbers and I will speak to the Congressman.

I would like for Law to consult with Research Analysis and President Pro Tem. Watson to make sure that the letter does not appear that we are interfering; but we want them to know that we do not agree with discrimination or harassment. We would like for the university to work with the employees and I would like to forward this to Debbie Dingell.

**SALINA DANCER,** a former Wayne State University employee, experience unjustly termination and denied unemployment benefit from the Department in which she worked. She describes her case as gender discrimination. She was an employee for 19 years at Wayne State University and she has not received any unemployment.

**PRES. PRO TEM. WATSON:** It is illegal for any entity that pays salaries to deny unemployment to those who are lawful entitled to receive it. I request that we review this specific complaint by Research Analysis Division following this discussion.

**KENYATTA:** We give Wayne State tax credits and consideration when they come to the Table for various developments. We have a stake in how the citizens of Detroit are treated.

Re: Neighborhood Enterprise Zone Certificate Applications for 20 Condominium Units within the North Corktown Neighborhood Enterprise Zone (Recommend Approval).

The City Clerk's Office forwarded to our office applications from the Trumbull Lofts, LLC for Neighborhood Enterprise Zone (NEZ) certificates for 20 Condominium units within the North Corktown NEZ, which was approved by the Detroit City Council in April 2003.

The addresses for the certificates are as follows: 1520-1534 Ash (Unit #1 - #4), 1521-1533 Sycamore (Unit #1 - #4), and 3305-3401 Trumbull (Unit 1 - #12).

The Trumbull Lofts, LLC is proposing to develop the block bound by Trumbull Avenue on the east, Ash Street on the south, the north/south alley first west of Trumbull on the west, and Sycamore Street on the north. The Trumbull Lofts, LLC is proposing to construct one building on the west side of Trumbull containing 12 units, the second on the south side of Sycamore with four units, and the third building on the north side of Ash Street with four units. Each unit would have two floors, including a garage, two bedrooms, living room, etc. The estimated project cost for each unit is \$130,777.

The properties involved are confirmed

as being within the boundaries of the North Corktown NEZ and should be eligible for NEZ certificates under State legislation as currently written. Based on the above analysis, City Planning Commission staff recommends approval of the subject NEZ certificates.

WHEREAS, On June 15, 2008, Mr. Griglen was driving on the Southfield freeway and was pulled over in Dearborn, Michigan. A hypoglycemic episode manifests itself by perspiration, nervousness and shakiness, dizziness or light-headedness, confusion, difficulty speaking, sleepiness in addition to other symptoms; and

WHEREAS, Rather than offer assistance to a civilian experiencing a medical

emergency, Allen Park police officer Tracie Brown treated Mr. Griglen as a criminal, assuming he was a drunk driver and using excessive force to place him under arrest; and

WHEREAS, In addition to Allen Park police officers Brown, Jablonski, and Segrest, police officers from Dearborn also arrived on scene. Dearborn police officers Richard Michalski, Lee Willmuth, Edward Villemaire and Benjamin Harless were listed on the relevant police reports; and

WHEREAS, Rather than assist Mr. Griglen, the police officers used pepper spray, wrestled him forcibly to the ground, forced his arms behind him in order to double-cuff his wrists and treated him in such a rough manner as to dislodge the insulin pump in his stomach;

WHEREAS, Mr. Griglen consented to the administration of a Breathalyzer field test which was negative, exhibiting a blood alcohol level of 0.000; and

WHEREAS, Despite the physical manifestation of Mr. Griglen's diabetic condition, his repeated requests for assistance, absence of alcohol in his system, presence of an insulin pump visible in his stomach and diabetic equipment in his vehicle, officers proceeded with an arrest that caused physical harm to Mr. Griglen including a bloody nose and large bump on his forehead; and

WHEREAS, Only after inflicting physical harm on Mr. Griglen and placing him in custody, did the arresting officer agree to transport him to Oakwood Hospital in Dearborn; and

WHEREAS, Although Mr. Griglen's family is pursuing legal remedies available to them it is imperative that this incident be fully investigated and a detailed report issued to determine how such a heinous event could occur with so many police officers participating and not intervening on behalf of Mr. Griglen; NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council strongly condemns the treatment of Detroit resident Ernest Griglen, Jr. by Dearborn and Allen Park police officers during a traffic stop on June 15, 2008, where Mr. Griglen was brutally beaten and remains comatose and on a ventilator; and BE IT FURTHER

**Economic Development Corporation  
of the City of Detroit**

October 15, 2008

Honorable City Council:

Re: Tiger Stadium.

As you may be aware the Economic Development Corporation of the City of Detroit (EDC) and the Old Tiger Stadium Conservancy (OTSC) executed a Memorandum of Understanding (MoU) on Friday, October 10, 2008. At the same time the OTSC delivered a check for the sum of \$69,000 to the EDC to reimburse the costs associated with the maintenance of the Tiger Stadium until March, 2009. An Escrow Agreement was also executed. By the terms of that agreement, the escrow agent confirmed that \$150,000 had been placed in escrow pursuant to the terms of the MoU. Copies of both documents are enclosed for your information.

The MoU contemplates that the EDC may determine on or before March 15, 2009 that the OTSC has not been able to meet the fund raising goals necessary to preserve the Tiger Stadium. If that determination is made, the EDC requests that the City Council grant it permission to complete the demolition of the Tiger Stadium as contemplated by the Project Plan for the EDC's Tiger Stadium Redevelopment Project. A Resolution authorizing the demolition is presented for your consideration and approval with waiver of reconsideration.

Respectfully submitted,  
ART PAPAPANOS  
Authorized Agent

By Council Member Collins:

Whereas, The Project Plan for the Tiger Stadium Redevelopment Project (Project Plan) requires authorization of the City Council for the complete demolition of Tiger Stadium; and

Whereas, In the event that determination is made, this Honorable Body determines that complete demolition of Tiger Stadium is appropriate.

Therefore Be It Resolved, That, in the event the EDC determines pursuant to the terms of the MoU that the OTSC is unable to complete the renovation of Tiger Stadium as contemplated by the MoU, the EDC is authorized to complete the demolition of the Tiger Stadium as contemplated by the Project Plan.

**Planning & Development Department**

October 2, 2008

Honorable City Council:

Re: Modification and Extension of Development Agreement. Development: Parcel 89; generally bounded by Kercheval, Sheridan, Agnes & Townsend.

On May 17, 2000, (Detroit Legal News, May 24, 2000, Page 7), your Honorable Body authorized the sale of the above-captioned property to Residential Detroit, Inc., a Michigan S Corporation, for the purpose of constructing ninety-three (93) condominium units.

It has now come to our attention that Residential Detroit, Inc. has completed construction of eleven (11) townhouse style buildings containing a total of forty-two (42) units and has informed the Planning and Development Department that due to unavoidable circumstances, they were unable to complete the project in the time allotted in the present Development Agreement. As they were unable to acquire necessary privately owned property, Residential Detroit, Inc. now desires to modify their original proposed development, reducing the size of the project from ninety-three (93) to seventy-eight (78) units overall and is proceeding with plans to secure the financing necessary for completion of the project. Consequently, Residential Detroit, Inc. is also requesting a twelve (12) month extension.

The Planning and Development Department has reviewed the request of Residential Detroit, Inc., a Michigan S Corporation, and has determined it to be reasonable and consistent with the terms and conditions set forth in the Development Agreement.

We, therefore request that your Honorable Body adopt the attached reso-

lution authorizing an amendment to the Development Agreement and an extension of the completion period of the development.

Respectfully submitted,  
DOUGLASS J. DIGGS  
Director

By Council Member Collins:

Resolved, That the agreement between Residential Detroit, Inc., a Michigan S Corporation and the City of Detroit, to purchase and develop property described as Parcel 89, which is generally bounded by Kercheval, Sheridan, Agnes and Townsend, be amended to reflect that the size of the development be reduced from ninety-three (93) to seventy-eight (78) condominium units and the completion of construction be extended to December 31, 2009;

And be it further,

Resolved, That this modification and amendment to the agreement to purchase and develop be considered confirmed when signed and executed by the Planning & Development Department's Director, or his authorized designee, and approved by the Corporation Counsel as to form.

Honorable City Council:  
Re: Departmental Recommendation.  
Petition No. 1962 — Linda Brandon,  
et al for conversion of alley to ease-  
ment in area of Buena Vista,  
Glendale and Broadstreet.

The Planning and Development Department (P&DD) has reviewed this petition to be in accord with the ordinance and was presented to the Planning and Economic Development Standing Committee at the Public Hearing on September 10, 2008. However, the subject alley located within the Russell Woods-Sullivan Historical District needed to be presented to the Detroit Historic District Commission (DHDC) prior to approval of the Planning and Economic Development Committee.

Petition No. 1962 was presented to the Detroit Historic District Commission at the Public Hearing on October 8, 2008. A Certificate of Appropriateness was issued for the alley closing. Additionally, in this Public Hearing numerous questions were raised about property tax increase,

should the alley be approved for closing by the City Council. The matter was unacceptable to some of the abutting property owners with no compromised solution among the residential block residents.

Petition No. 1962 was brought back as a line item for a continued Public Hearing before the Planning and Economic Development Committee on October 15, 2008. Comments from Ms. Ellen Dennis of 4325 W. Buena Vista were heard. She does not support the alley vacation and would rather have the subject alley remain open as she sees that utility problems, repairs, including the maintenance of the alley can be served faster without the obstruction of fences in the alley.

The Planning and Economic Development Committee voted to support the objection and recommended the alley to remain open.

Therefore, the Planning and Development Department (P&DD) recommends that Petition No. 1962 be denied.

**MEMBER REPORTS:****Council President Pro Tem Watson:**

Thank you Madame President for providing leadership on the violence issue. I would like to let our colleagues know that there is a press conference at 2:00 p.m. today in the Committee of the Whole Room for anyone who would like to speak on how we can put some resources in place just as we thought collectively as a Body for summer jobs, we need year round employment for our citizens. It is not the responsibility of the school Board; it is our collective responsibility to help reclaim our families and our young people.

I encourage everyone to come to the Harvest Festival on Saturday, October 25, at the Eastern Market, Shed No. 5. We will have hayrides, free hot dogs, free pumpkins, free apples, music, face painting, games, arts, and craft.

We are asking the community to come out on election night on the Eastside to Bert's Place in the Eastern Market, 2727 Russell and on the Westside, after the poll close, to Northwest Activity Center. For admission, you must have the "I Voted today" sticker and there will be free refreshments, free television viewing.

**Council Member Tinsley-Talabi:** I would like to invite Dr. Curtis Ivery to come to speak next Tuesday regarding the renewal of the Millage. When we think of Wayne County Community College, what comes to mind is Promises made, Promises kept. That has been a beacon light for this City, County and State. I pray that the citizens will hear his request and the request of the school to renew this millage, which will be at lower percent than previously. Madame Chair **may we invite Dr. Ivery on next Tuesday?**

**Council President Conyers:** Yes.

**Council Member Tinsley-Talabi:** There will be an event for those who voted at the Belle Isle Casino and all are welcome to come to that event.

**Council President Conyers:** It is important for everyone to vote for the Millage, especially our seniors because I understand that senior citizens can attend Wayne County Community College free and they will only have to pay for their books. I encourage everyone to vote for the millage.

**Council Member Reeves:** Spoke regarding the passing Levi Stubbs, a member of the Four Tops.

**Council President Conyers:** Services will be on Monday at Greater Grace Temple at 10:00 a.m., and the visiting hours will be Saturday and Sunday at Swanson Funeral Home (My we have a moment of silence for Mr. Levi Stubbs as well and Mr. Christopher Walker.)

**Council Member Jones:** Requesting a report from the Law Department and Research Analysis Division in regards to what is the status of Systematic. There are several concerns regarding Marathon. (a) There are concerns that Marathon is not conforming to the agreement to hire 51% of Detroit residence. I am requesting that Marathon meet with the Council to explain why they are not conforming to the 51% of the agreement. **I would like to schedule a Committee of the Whole to bring Marathon to the table.**

**Council President Conyers:** The clerk has noted. We have already set a date to schedule meeting on issues of concern. **We will pick one day that we can schedule these meetings. If time does not permit, we will schedule another day to continue. We do not want to have scattered meetings scheduled throughout the months.**

**Council Member Collins:** Member Jones may want to request from Research Analysis Division a resolution to rescind their abatement if they have not reached the quota that they promised; we can reconsider the tax exemption. The same is with Synagro. I understood that we would have an opportunity to revote on Synagro.

**Council President Pro Tem Watson:** I vote to rescind it.

**Council Member Collins:** I read an article in the newspaper that the Law Department said that we could rescind it.

**Council President Conyers:** **Can we receive something in writing from the Law Department.**

**Smith, L. (Law Department):** Yes, we will provide a statement in writing.

**Council President Pro Tem Watson:** Did you second my motion?

**Council Member Collins:** Yes, I seconded.

There is a fundraiser for THAW (The Heat and Warmth) Program will be November 6 at the Ritz Carlton Hotel in Dearborn. They would like to raise \$150,000 dollars. The tickets are \$150 of which \$58 is tax deductible. They will feature live and silent auction items from general donors throughout metro Detroit, raffle, entertainment, hors d'oeuvres, open bar and dinner. I believe that we should help because THAW is the only resource that some of our unfortunate neighbors have in regards to this high utility cost.

I think we should review and prioritize in our budget the reopening of the recreation centers. We need our recreation centers reopened with qualified trained people to help the young people to help remove some of their aggression on the basketball court and through other means of recreation. We need to have evening programs for students after school, I am happy that

October 21

2008

President Pro Tem Watson has started the Task Force and I hope that it will go into a commission.

**Council President Pro Tem Watson:** We are having a meeting with the Recreation Department this Thursday at the Neighborhood and Community Services Standing Committee Meeting with Council Member Jones, President Conyers and I at 10:30 a.m. Johnson Recreation and others along with President Conyers and all of us have been trying to reopen the recreation centers. It seems that we may be able to reopen them for six (\$6,000,000) million dollars.

**Council Member Collins:** Jobs, tutoring and recreation is need for our youth. We have to do something to get those young boys who are not in school back in school for obtaining an education and to learn about their responsibilities to the community.

**Council Member Jones:** To the Law Department: Anytime a statement is issued to the news regarding something that the Council can rescind, I think that because the Law Department works for this body, statements should come to this Body. We should not have to read about it in the newspapers. We should receive the information first hand from the Department that represents us which is the City Law Department; this is on anything, not just Synagro. **Will the Law Department have respect for this body and issue information to the body when issued to the newspapers?**

In regards to the roof at the Northwest Activity Center, **I would like to have a report on the status of the roof at Northwest Activity Center.** I understand that it collapsed.

**Council President Conyers:** There will be a Goodfellows breakfast on Friday and Goodfellows applications that are available. You may call our office and we will provide you with an application.

At the Hob Nobble Gobble(sp) for Thanksgiving, Brandy, the performer, will be present. There are several Halloween parties. There will be a party on Saturday at the Eastern Market and on Halloween Day at Palmer Park on the corner of Seven Mile Road at Pontchartrain. We would like volunteers. Children will be able to win computers, a study desk, and everything that they think they would want for Halloween.

**I would like Research and Analysis to write a letter to Chief Mitchell requesting that he provide the Council with a copy of the plan that I have been requesting for a year. I would also like this to go to Sheriff Warren Evans, Chief Barren and the Michigan State Police.** If they

have a plan that they use with the Detroit Public School or any of our colleges to please **forward that plan to this body.**

**Council Member Collins:** I would like the Law Department to provide a report next Tuesday on Historic Brick.

**Council President Conyers:** And forward it to the Law Department and to the Detroit Public Schools. *(This directive may relate to the "Plan" that Council has requested from Chief Mitchell.)*

**Council Member Tinsley-Talabi:** Regarding marathon, I met with a security firm who stated that they worked very, very hard to get a security contract and Marathon denied them. They were to a point of obtaining the contract when Marathon said they would handle it. We will need to address the security issue.

**Council President Conyers:** I would like to suggest to the citizens to call Workforce Development because the jobs that DTE, AT&T announced, these jobs process through Workforce Development. These jobs are coming to the City of Detroit and citizens should call the Workforce Development office.

**Council Member Jones:** To Research Analysis Division, if you will prepare a resolution that states if Marathon is not conforming to the agreement . . . *interruption* . . .

**Council Member Collins:** I did this earlier.

**Council President Pro Tem Watson:** I would like to reschedule GDRRA Closed Session because we did not have a quorum when we met last week.

**I also would like for the Water Department director and the Human Services director to meet (immediately) with us to have discussion on the water affordability implementation.** The money that Member Collins mentioned generates through THAW, which is a drop in the bucket compared to the 2.5 million dollars that Council appropriated for distribution last year and 5 million dollars prior. Only a small portion of that money has disseminated to our citizens who are in a great need. We voted to keep the water on for all of our citizens. What is happen now is in great violation to Council's votes and we need a complete accountability and transparency from Human Services to be set soon.

**We also need a Special Session on privatization so that we can stop much of these lawsuits.**

**I would also request a Closed Session on the statement that was requested by Mr. Goodman and Mr. Whitaker.**

**Council President Conyers:** I did request this from Mr. Whitaker. We also spoke on the privatization ordinance and Ms. Leavey will be providing information.

A. 1. The parties shall submit to arbitration all matters in controversy raised in the above-named lawsuit.

2. The minimum amount of any award to the Plaintiff shall not be less than Five Thousand (\$5,000.00). The maximum amount of any award to the Plaintiff shall not exceed the amount of Twenty-Five Thousand Dollars (\$25,000.00).

3. Any award in excess of \$25,000.00 shall be interpreted to be in the amount of \$25,000.00. Any award less than \$5,000.00 shall be interpreted to be in the amount of \$5,000.00.

There shall be no costs, fees, attorney fees or interest taxable with respect to the award rendered by the arbitrators.

The award of the arbitrators shall represent a full and final settlement of any amounts due and owing to Plaintiff for any and all claims arising out of the incident which occurred on May 30, 2002 at the intersection of Grand River and Woodward, Detroit, MI; however, limited judicial review may be obtained in a Michigan Federal District Court or Michigan Circuit Court of competent jurisdiction (a) in accordance with the standards for review of arbitration awards as established by law; or (b) on the ground that the arbitrators committed an error of law.

B. Promptly after the arbitrators announce their decision, the Law Department shall inform City Council in writing of that decision.

C. Upon certification by the Law Department that the arbitrators have announced a decision requiring the City to pay part or all \$25,000.00 to the

Honorable City Council:

Re: Melanie Armstrong vs. City of Detroit, et al. Wayne County Circuit Court Case No. 07-709283 CZ.

This matter was mediated before a Wayne County Case Evaluation Panel for Eighty-Five Thousand Dollars (\$85,000.00) as to the claims of the Plaintiff against Defendant City of Detroit. If all parties accept the mediation panel's evaluation, judgment will be entered in that amount, which includes all fees, costs, and interest to the date of judgment. If a party rejects the evaluation, the case proceeds to trial; however, the party rejecting evaluation must pay additional sanctions if the trial results are not favorable.

We have reviewed the above-captioned civil lawsuit, the facts and particulars of which are set forth in the memorandum submitted under separate cover. From this review, it is our considered opinion that acceptance of the mediation evaluation in the amount of Eighty-Five Thousand (\$85,000.00) Dollars is in the best interest of the City of Detroit. The acceptance of the mediation evaluation does not guarantee settlement of the matter in this amount since the plaintiff has the right to reject the award and proceed to trial. However, an eventual settlement of this matter in this amount is prudent.

We, therefore, request your Honorable Body to authorize the acceptance of the mediation evaluation and direct the Finance Director to issue a draft in the amount of Eighty-Five Thousand (\$85,000.00) Dollars payable to Melanie Armstrong and Christopher Trainor & Associates, her attorneys, to be delivered upon receipt of the notice of mediation settlement and Order of Dismissal.

**RESOLUTION RE: CLEAN WATER RESTORATION ACT OF 2007**

By ALL COUNCIL MEMBERS:

WHEREAS, The Clean Water Act, passed by the United States Congress in 1972, has protected the nation's lakes, rivers, streams, and wetlands from unregulated pollution and destruction and has resulted in significant progress in cleaning up our nations waters; and

WHEREAS, United States Supreme Court decisions in 2001 and 2006 limit the law's protection to "navigable" water bodies (or to waters that are significantly linked to such water bodies) thus endangering wetlands, streams, rivers, lakes, prairie potholes and other waters that were historically covered by the Act thus allowing developers and corporate polluters to contaminate these waters and putting more than 20 million acres of wetlands, 60 percent of stream miles, millions of migrating birds, and other wildlife at risk; and

WHEREAS, On May 22, 2007, Representative James Oberstar introduced H.R. 2421: Clean Water Restoration Act of 2007 to reaffirm the original scope of protection intended by Congress in the Clean Water Act by restoring and maintaining the chemical, physical, and biological integrity of the *waters of the United States* not simple "navigable water bodies"; and

WHEREAS, Representative Oberstar has been joined by 176 cosponsors including Michigan Representatives John Conyers, John Dingell, Vernon Ehlers, Dale Kildee, Carolyn Cheeks Kilpatrick, Sander Levin, and Bart Stupak; and

WHEREAS, Without passage of the Clean Water Restoration Act of 2007 wetlands nationwide could be drained, filled, or otherwise damaged and states may be unable to protect headwater and intermittent streams from point-source pollution; and

WHEREAS, A number of major environmental and conservation organization are supporting the Act including: American Rivers; Clean Water Network; Earthjustice; Environment America; Izaak Walton League of America; League of Conservation Voters; National Wildlife Federation; Natural Resources Defense Council; Sierra Club; Southern Environmental Law Center; Theodore Roosevelt Conservation Partnership; and Trout Unlimited. **City Planning Commission**

October 16, 2008

Honorable City Council:

Re: Installation of canopies and new storefront treatment on the Gabriel Richard building, located at 305 Michigan Avenue (Recommend Approval).

On October 3, 2008, the staff of the City Planning Commission (CPC) received the permit application to install metal canopies and a new storefront system on the east and north portions of the Gabriel Richard building, located at 305 Michigan Avenue (the southwest corner of Michigan Avenue and Washington Boulevard. The PCA (Restricted Central Business District) zoning classification, in which the building is located, calls for City Council approval of all exterior modifica-

tions following the review and recommendation of CPC and the Planning & Development Department (P&DD) (Section 61-11-81 of the Zoning Ordinance). P&DD and CPC staff have reviewed the application and submit this report and recommendation.

**PROPOSED IMPROVEMENTS**

The proposed improvements are targeted at the eastern and northern façades of the building as shown on the attached elevations. Just above the existing ground level storefront windows is an existing metal panel with concrete block back-up, at some point in time this was added to the building reducing the size of the ground level window system. The metal panel has been painted to match the terra cotta material. The proposal is that these existing metal panels and its masonry back-up will be removed and replaced with new aluminum framing and glass storefront windows, to restore the ground level window system size back to that of the original building design. New steel canopies are proposed to be welded to these existing steel beams between the existing columns, along with steel support rods that tie the canopy to the building just above the window system. The new exposed steel will be painted a charcoal gray to match the new window system. The existing granite will remain, with any new granite to match.

**REVIEW**

In accordance with the Special District Review provisions of the Zoning Ordinance for the PCA District, "The proposed development should be compatible with surrounding development in terms of land use, general appearance and function and should not adversely affect the value of adjacent properties". Also "preservation/restoration of buildings having architectural or historic value should be considered a primary objective". The proposed improvements appear to meet these criteria.

**RECOMMENDATION**

CPC staff has completed its review of the proposed façade improvements, as has the P&DD staff. We find that the proposed storefront treatments would be in keeping with the spirit and intent of the PCA zoning district. Therefore, CPC staff recommends approval. Please find attached the appropriate resolution to effectuate your approval.

#### Law Department

October 17, 2008

Honorable City Council:

Re: Proposed Ordinances to Amend Chapter 19 of the 1984 Detroit City Code, *Fire Prevention and Protection*: 1) to Repeal Article III, *Fire Prevention Code*, Article IV, *Hazardous Gases*, Article V, *Liquefied Petroleum Gases*, and Article VI, *Anhydrous Ammonia*; and 2) to Add Article I, *Detroit Fire Prevention and Protection Code*.

On July 23, 2008, the above-referenced proposed ordinances were transmitted to your Honorable Body. On October 6, 2008, the Public Health and Safety Committee held a discussion concerning the proposed ordinances.

During the discussion, the Committee requested that the proposed amendment to Sections 1-4.1.1 of the *NFPA 1, Fire Prevention Code*, 2000 Edition, be changed to clarify that the Fire Commissioner may establish necessary fees with the approval of the City Council. In addition, the Fire Marshal Division has added a definition for the term "Fire Commissioner." Those changes have been made.

Pursuant to the applicable provisions of the 1997 Detroit City Charter, the above-referenced proposed ordinances are being submitted to your Honorable Body for consideration and passage. The first proposed ordinance will repeal the City's 29-year-old Fire Prevention Code, which was enacted in 1979. The second proposed ordinance will enact a state-of-the-art Fire Prevention and Protection Code for the People of the City of Detroit.

These proposed ordinances are the culmination of several years work. During this time, members of the Fire Marshal Division have provided invaluable knowledge and expertise to the Law

Department for the drafting of the new proposed Detroit Fire Prevention and Protection Code.

We are available to answer any questions that you may have concerning these proposed ordinances. Thank you for your consideration.

Respectfully submitted,  
KATHLEEN LEAVEY

(2) One interceptor test well is required at each end of the underground tank or group of tanks in the same excavation.

(3) Failure to maintain interceptor test wells pumps as requested shall result in ordering tank or tanks removed from the ground.

(f) *Outside storage and tank yards.* The area which embraces flammable and combustible liquid outside storage and tank yards, including dikes and all above ground piping shall be fenced with a noncombustible fence to discourage trespassing. REPEALED.

#### **Sec. 19-3-46. Compressed and liquefied gases.**

Compressed and liquefied gases shall be stored, handled, transported and used in accordance with applicable provisions of NFPA codes and standards. Storage and handling of compressed and liquefied gases not covered by NFPA codes and standards shall comply with applicable provisions of Standards of the American National Standards Institute (ANSI); Code of Federal Regulations, Title 49, Parts 173 through 190 (transportation); Pressure Vessels, Section VIII, of the American Society of Mechanical Engineers Boiler and Pressure Vessel Code (container fabrication); or the container fabrication specifications of the American Petroleum Institute. REPEALED.

#### **Sec. 19-3-47. Solid combustible materials.**

(a) *General.* This section shall establish the requirements for these operations and occupancies which present an undue hazard to life or property of others and which are presently not covered in other

NFPA standards and codes as listed in appendix A of this article.

(b) *Combustible fibers.* This subsection shall not apply to operations or occupancies otherwise regulated by other applicable NFPA codes and standards as listed in appendix A of this article.

(1) *Storage of combustible fibers:*

a. *Loose storage of combustible fibers:*

1. Loose combustible fibers (not suitable bales or packages), whether housed or in the open, shall not be stored within one hundred (100) feet of any building, except as hereinafter specified.

2. Quantities of loose combustible fibers up to one hundred (100) cubic feet shall not be kept in any building unless stored in a metal or metal-line bin equipped with a self-closing cover.

Exception: This subsection shall not apply to buildings completely protected by an approved automatic fire extinguishing system; however, this exception does not obviate the need for good housekeeping.

3. Quantities exceeding one hundred (100) cubic feet of loose combustible fibers, but not exceeding five hundred (500) cubic feet, may be stored in rooms or compartments in which the floors, walls and ceilings have a fire resistance rating of not less than one hour. Each opening into such rooms or compartments from other parts of the building shall be equipped with an approved self-closing fire door.

Exception: This subsection shall not apply to buildings completely protected by an approved automatic fire extinguishing system; however, this exception does not obviate the need for good housekeeping.

4. *Vault construction.* Quantities exceeding five hundred (500) cubic feet of loose combustible fibers may be stored in approved vaults, constructed as follows:

i. Storage vaults shall be located outside of buildings or, if located inside, shall be provided with approved safety vents to the outside.

ii. Walls, floors, and ceilings shall be constructed of approved noncombustible material having a fire resistance rating of not less than one hour. Roofs of outside vaults shall be of noncombustible material, but may be so constructed as to readily give way in case of an internal explosion.

iii. Openings, if any, between vault and main building shall be protected on each side of the wall by an approved fire door. Wall openings in outside vaults exposing other buildings (not sufficiently detached to be considered cutoff) shall be protected by approved fire doors.

iv. Vaults located within buildings and exceeding one thousand (1,000) cubic feet storage capacity shall be protected by an approved automatic fire extinguishing system.

Exception: This subsection shall not

apply to buildings completely protected by an approved automatic fire extinguishing system; however, this exception does not obviate the need for good housekeeping.

5. Not more than two thousand five hundred (2,500) cubic feet of loose fibers may be stored in a detached "loose house" suitably located, with openings properly protected against entrance of sparks; the "loose house" shall be used for no other purpose.

b. *Baled storage:*

1. No single block or pile shall contain more than twenty five thousand (25,000) cubic feet of combustible fibers exclusive of aisles or clearances. Blocks or piles of baled fiber shall be separated from adjacent storage by aisles not less than five (5) feet wide; or by flash fire barriers consisting of continuous sheets of noncombustible material extending from the floor to a height of at least two (2) feet beyond the top of the piles.

2. Sical and other fibers in bales bound with combustible tie ropes or jute and other fibers which are liable to swell when wet, shall be stored in a manner so as to allow for expansion in any direction without endangering the building, walls, ceilings or columns. Not less than three (3) feet clearance shall be left between walls and sides of piles, except that in storage compartments not more than thirty (30) feet in width, one foot clearance at side walls will be sufficient, provided a center aisle not less than five (5) feet wide as maintained.

3. Not less than eighteen (18) inches clearance shall be maintained between sprinkler system pipes and tops of piles.

e. *Mixed storage.* Combustible fibers shall not be stored in rooms or buildings with hazardous gases, flammable liquids, dangerous chemicals or other similar materials.

(2) *Sources of ignition:*

a. Trucks or automobiles, other than approved industrial tractors and mechanical handling equipment, shall not enter any fiber storage room or building, but may be used at loading platforms.

b. Electrical wiring and equipment in any combustible fibers storage room or building shall be installed in accordance with the requirements of the electrical code, for class III hazardous locations. The fire marshal shall be responsible for designating the areas requiring hazardous location electrical classifications and shall classify the area in accordance with the classification system set forth in the electrical code.

e. No smoking or open flame shall be permitted in any area where combustible fibers are handled or stored, nor within fifty (50) feet of any uncovered pile of such fibers. "No Smoking" signs shall be posted.

(3) *Portable extinguishers required.*

Portable fire extinguishers shall be installed as required for extra-hazard occupancy protection.

*(e) Dusts:*

(1) This subsection shall be applicable only to those operations or occupancies involving combustible dusts which are not otherwise regulated by an applicable NFPA code or standard as listed in appendix A of this article.

*(2) General requirements:*

a. The accumulation of dust in quantities sufficient to create a fire or explosion hazard on electric motors, walls, ledges, or other interior surfaces, or on the roof of any building on which dust may settle, is prohibited. Metallic dust shall be stored in tightly covered metal containers in a cool, dry place.

b. Every plant, factory, workshop or other premises in which dust is produced as a product or as a result of operations in the production of other products, in such quantities as to create a possible fire or explosion hazard, shall be equipped and maintained with an approved pneumatic or mechanical dust collection system designed, maintained, and operated in accordance with applicable NFPA codes and standards as listed in appendix A of this article.

Exception: This subsection shall not apply to storage bins equipped with explosion vents of sufficient area to relieve any explosion to the outside atmosphere.

c. All dust-producing or dust-agitating machinery, such as grinding mills and separators, and all elevators, elevator legs, spouts, hoppers and other conveyors shall be provided with casings or enclosures maintained as nearly dust-tight as possible.

d. Approved magnetic or pneumatic separators shall be installed ahead of all choppers, crushers, grinding machines, pulverizers and similar machines in which the entrance of foreign materials may cause sparks to be generated.

e. All machinery and metal parts of the crushing, drying, pulverizing and conveying systems shall be electrically grounded.

f. *Explosion prevention and suppression.* Dust explosion hazards shall be minimized by use of appropriate control measures as set forth in the applicable NFPA codes and standards as listed in appendix A of this article. Standard on Explosion Prevention Systems, NFPA No. 69 (See Appendix A), and Guide for Explosion Venting, NFPA No. 68 (See Appendix B), may be used to meet the requirements of this section with due regard to the precautionary measures contained in these publications.

*(2) Sources of ignition:*

a. *Smoking and open flames.* Smoking and the carrying of matches, the use of

heat, or other devices employing an open flame, or the use of any spark-producing equipment is prohibited in areas containing dust-producing or dust-agitating operations, unless necessary in the conduct of such operations or otherwise permitted by an applicable NFPA code or standard.

b. *Electrical power and lighting.* Artificial lighting in areas containing dust-producing or dust-agitating operations shall be by electricity. All electrical wiring and equipment in such areas shall be installed in accordance with the provisions of the electrical code, for class II hazardous locations. The fire marshal shall be responsible for designating the areas requiring hazardous location electrical classification and shall classify the area in accordance with the classification system set forth in the electrical code.

(4) *Portable extinguishers required.* Portable fire extinguishers shall be installed as required for extra-hazard occupancy protection. REPEALED.

**Sec. 10-3-48. Hazardous materials.**

(a) *General.* This section shall apply to hazardous materials not covered by applicable NFPA codes and standards as listed in appendix A of this article.

*(b) Matches; storage requirements:*

(1) *Vertical openings.* Matches in excess of fifty (50) pounds, including the containers, shall not be stored within ten (10) feet of any open elevator shaft, elevator shaft opening, open stairway or other vertical opening.

(2) *Sources of ignition.* Matches shall not be stored within ten (10) feet of any boiler, furnace, stove, open flame or similar source of ignition.

(3) *Storage of wholesale outlets.* For storage at wholesale establishments and other locations where containers of matches are stored in piles exceeding one hundred (100) cubic feet, such containers shall be arranged so as not to exceed ten (10) feet in height nor one thousand five hundred (1,500) cubic feet in volume with aisles at least eight (8) feet wide.

(4) *Match storage with other containers.* When case lots of matches are stored in the same room with other materials or commodities, they shall be separated therefrom by a clear space of not less than eight (8) feet.

(c) *Storage of hazardous materials.* Hazardous materials which, when mixed, react violently or evolve toxic vapors or gases or which, in combination, become hazardous by reason of toxicity, oxidizing power, flammability or other properties shall be separated from each other in storage by distance, partitions or other approved manners so as to preclude accidental contact between them.

(d) *Warning signs.* The fire marshal may require warning signs whenever hazardous materials are stored or processed

or handled. Such warning signs shall be conspicuously lettered on a sharply contrasting background in a size, form and color acceptable to the fire marshal.

Exception: This subsection shall not apply to hazardous materials when in transport which are placarded in accordance with the department of transportation regulations, or applicable provisions of other NFPA codes and standards listed in appendix A of this article. REPEALED.

**Sec. 19-3-49. Industrial equipment and processes.**

(a) *Vapor degreasing systems.* Where vapor degreasing systems are used, the following shall apply:
